Optimism Expected At FUN Show Auctions Feature Many Rarities

We begin the 1999 rare coin market on an optimistic note. The sight-unseen market is actively trading as dealers post Bids for coins that they need. Dealers expect this optimism to carry over to the first coin show of the new year. The Florida United Numismatists Show is set to begin. This show is looked at as an important barometer for the new year. The January 7-10 show and public auction will be held in Orlando. Massive amounts of certified coins will be found at this show. Dealers have spent a lot of time, in 1998, buying and selling certified rare coins on a sight-unseen basis. The need to acquire and disperse coins more quickly has helped to increase the activity level of this type of trading. The electronic dealer networks have provided the vehicle to assist dealers throughout the year. The new year is continuing with the same theme that has been established in 1998. Dealers need to buy rare coins for their customers and their inventories. They need to replace the coins that they have sold to their customers. Also, they need to find the key and semi-key dates of many series. This collector/investor demand is driving the market as we begin the new year.

Demand for Uncirculated and Proof Type coins is great. We know that astute dealers are always happy to add an attractive Type coin to their inventory. Type coins that possess a strong degree of eye appeal are always a favorite and an easy seller. The demand for Type coins ranges from the Cent through Gold. One and two-year Type coins are very popular. In most cases, collectors look to buy the best quality that they can afford. The 1998 financial markets have been very good to collectors/investors. The U.S. stock markets have performed exceptionally well. Many individuals have begun taking some of their profits to buy rare coins that they have always wanted. Consequently, we have seen many record prices being realized at public auction in 1998, and dealers expect this trend to continue in 1999. Type coins allow today's collector/investor to own a single example of a specific Type without having to buy every date and Mint. Since there are many ways to formulate a Type collection, it

Heritage will conduct the FUN 1999 auction January 6-8 in Orlando. The 3,510 lot sale will feature the North Georgia Collection of Charlotte & Dahlonga Gold; the Ray Farley and Ted Moran Collections of Silver Dollars; and, Ed Trompeter's with Motto Proof Eagles. Additional collections and consignments are included. We have included a few of the sale's many certified highlights.

On January 12-13 in New York, Stack's will conduct an auction featuring Americana Colonial and Federal Coins, Medals and Currency. The 2,099 lot sale will include coins from the H.B.M.S. Feversham and Le Chateau Shipwrecks as well as selections from the collection of Munroe Stiner. We have included a few of the many certified highlights.

1998 Sight-Unseen Market Ends Higher Washington Quarters Active

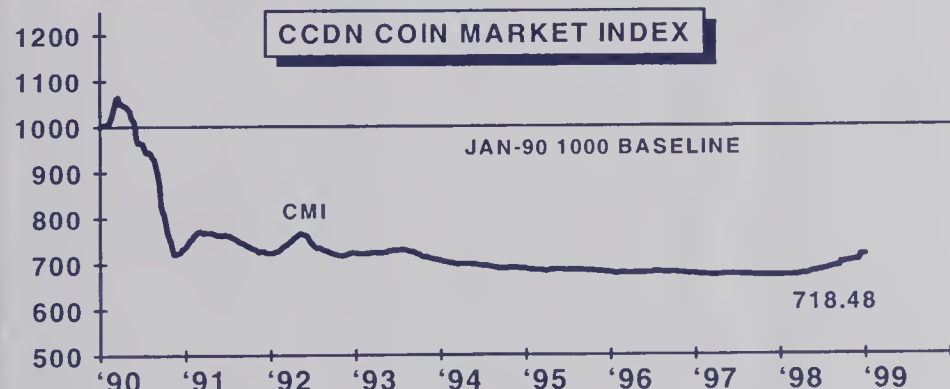

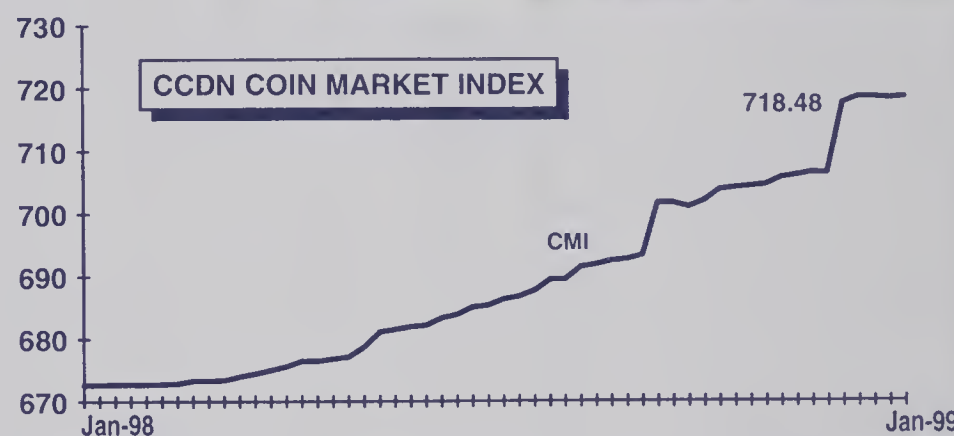

Almost everyone in the numismatic community agrees that last year was a solid year for the rare coin market. Optimism was rampant as dealers' activity and profits increased. Demand from collectors and investors was omnipresent throughout the year. Customer want lists grew, in part, because the U.S. economy was so very strong. These want lists meant the promise of future transactions. However, filling customer want lists is not as easy as it may seem. Scarce and rare dates were in short supply when measured by the demand. Dealers needed to be patient, but diligent in their efforts to fulfill these customer needs. Public auctions and shows were two important avenues that dealers utilized. However, these avenues were not occurring with the frequency necessary to keep pace with the demand. Consequently, dealers tried more vociferously using the sight-unseen electronic networks. Dealers gained a greater degree of confidence in this market. Their confidence was important in reversing an eight year trend in the sight-unseen market. Since 1990, the sight-unseen certified rare coin market had been sluggish. Although, since 1993, we have experienced only a gradual weakening. Still, it was very lackluster. Things changed. The market stabilized in 1997-1998 and turned positive. 1998 ended in excellent shape. The CCDN Coin Market Index finished at 718.32 — up 45.68!

The accompanying chart clearly depicts the sight-unseen market strength seen among the specific indices tracked by CCDN for the year. As expected, Morgan Dollars led the way in 1998. The CCDN Morgan Dollar Index closed at 829.86 — up 69.11. Demand for Dollars was strong throughout the year. Dealers trying to place coins with their customers were increasing their Bids for Dollars. Collectors of Morgan Dollars were avidly buying key and semi-key dates for their collections. Many collectors were trying to upgrade specific dates when the opportunity afforded itself. When the Jack Lee Collection became available, dealers were able to place some of those tough dates. Unfortunately for some dealers, there were not enough Jack Lee coins to go around.

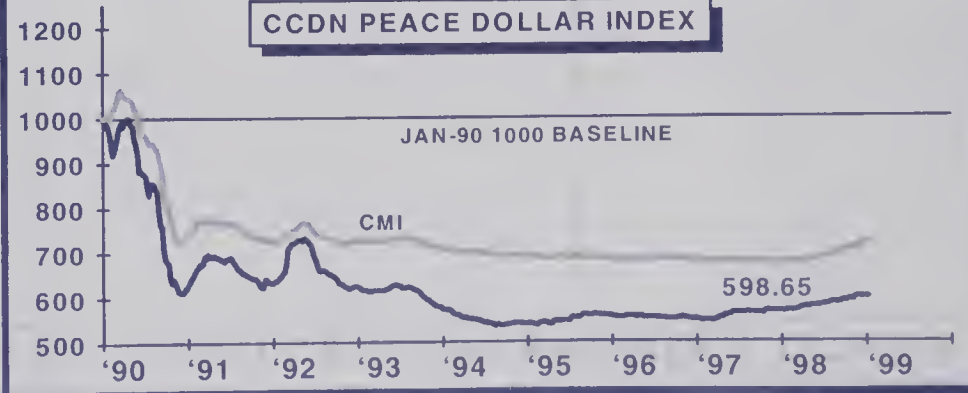

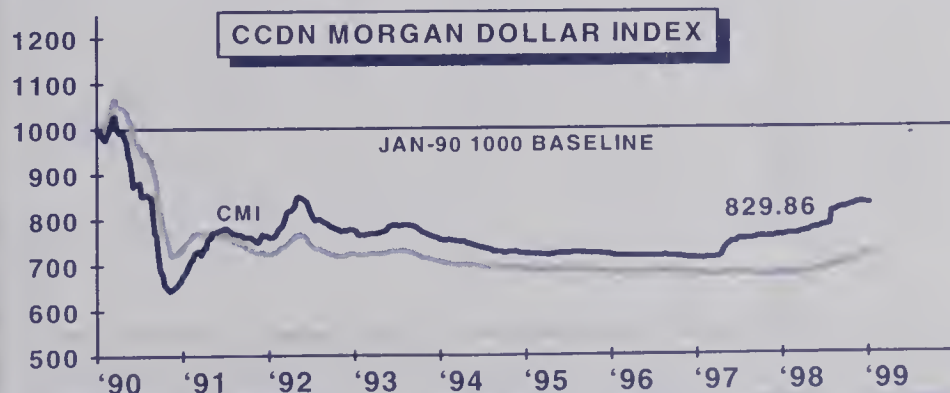

Mercury Dimes had a banner year as well in 1998. The lack of supply of scarce dates in MS64FB and better condition forced dealers to increase their Bids. They did this hoping to flush out some of these better dates for their customers. The second tier of indices also did very well. Walking Liberty Half Dollar; Mint State Gold; Peace Dollars; Proof Gold Type; Buffalo Nickels; and, Proof Type finished with strong overall increases. The sight-unseen market is certainly alive. Dealers found it important and advantageous to utilize this forum to satisfy their rare coin needs. The weakest performance was found among the Silver and Gold Commemoratives. However, increases in Silver Commems late in the year caused them to end in the positive. In contrast, Gold Commems dropped nearly 10 points for the year and are still the laggards of the coin market.

This week, the sight-unseen market is very quiet. Activity is down considerably when compared to previous weeks. However, this is to be expected — many dealers are already in Orlando. They are attending the January 7-10 Florida United Numismatist Show and auction. This bellwether show is very important as it often points the direction of the market for the new year. We do notice increasing demand for select Washington Quarters. Certified Washington Quarters are moving higher. The majority of the activity appears to be for the better, early dates from 1932-1940-D. These Quarters are increasing in MS63 and better condition.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Half cents by Breen half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by Sheldon & Newcomb numbers ❖ Half dimes (1794-1837) by Valentine numbers ❖ Dimes (1796-1837) by John Reich numbers ❖ Quarter dollars (1796-1838) by Browning numbers ❖ Half dollars (1794-1836) by Overton numbers ❖ Silver dollars (1794-1804) by Bowers/Borckardt numbers ❖ Silver dollars (1878-1921) by VAM numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare Browning-5 quarter, is highlighted for its rarity and desirability, thanks to VarietyPlus attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

RARE GOLD

If you are a marketer of rare United States Gold coins and you do not receive my wholesale price list, you may be costing yourself money.

I'm one of the largest wholesalers of rare United States Gold coins in the world. I have over twenty years experience in wholesale gold coin sales.

Each week, I put out a "user-friendly" inventory list which contains over \$1 million of choice, fairly priced rare U.S. Gold coins.

I specialize in PCGS and NGC graded U.S. Gold coins struck from 1795 to 1900 in Very Fine to Mint State grades.

Comprehensive support material is available. I can increase your sales and make it easier for you to sell rare U.S. Gold coins.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Sight-Unseen Market Begins Mixed Auctions Dominate Coin Landscape

A thriving market at the Florida United Numismatists Show and auctions yields an upbeat sight-unseen market in mid-January. Demand for sight-unseen coins is picking up where it left off in early December. Things seemed to slow down during the holiday season, but that was to be expected. Morgan and Peace Dollars are still attracting the attention of Bidders. Dealers tell us that their customers are still actively looking to buy Dollars. However, these sophisticated buyers are being very careful to buy only the highest quality for their collections. This is being done at each grade level. This quality search is one reason why we see some discounting for several sight-unseen, better date Morgan and Peace Dollars. We do know that the collector demand for key and semi-key date Dollars is still strong. Sight-unseen interest is increasing for common date Morgan Dollars grading MS63 and MS64. There appears to be a strong premium being paid for these certified Dollars. Demand by collectors/investors is powerful enough to sustain this premium.

Gold Type is another area being targeted by these buyers. Even though the sight-unseen prices have declined slightly, we see strong interest for \$20 Liberty and Saint-Gaudens Gold. Again, the premiums being paid are still very strong in relation to the price of Gold bullion. New buyers that are looking to buy just common date, circulated numismatic Gold are experiencing "sticker shock." Those buyers are looking to buy any common numismatic Gold coins and do not care about its date.

Auctions seem to be taking center stage in January. Strong price for rarities set the tone for The Rarities Sale by Bowers and Merena. Held in Orlando, the January 5-6, 1999 auction realized more than \$6.4 million. The sale featured consignments from the Douglas L. Noblet and Dr. Wallace Lee collections. There were many highlights, and we list some of the certified examples.

Heritage conducted the FUN 1999 auction January 6-8 in Orlando. The sale realized more than \$16.8 million. Strong Bidding characterized this auction as rarities changed hands. The sale featured the North Georgia Collection of Charlotte & Dahlonaga Gold, the Ray Farley and Ted Moran Collections of Silver Dollars along with some additional consignments. The sale has many highlights. We have listed a few of the certified examples.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

WHY THE KING OF CASH (OFTEN IMITATED, BUT NEVER OUTBID!) DESPERATELY NEEDS TO PAY YOU OUTRAGEOUS PRICES FOR YOUR COINS...

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$6,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

- 1. Absolute top dollar for your coins.** This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.
- 2. Ultra fast payment.** Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.
- 3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins.** If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

Sight-Unseen Market Spirited After Holidays Orlando '99 Sale Offers Walker Collection

The holidays are behind us, and the sight-unseen rare coin market has come alive. We see strong Bidding taking place in many sectors of the market. We are seeing nice jumps for specific coins. Dealers are in serious need of rare coins of all dates and denominations. They have to beef up their inventories in order to attract more public to their tables during coin shows. They also need a sufficient inventory to supply their existing customers with their increasing needs. Their customers want lists still contain many coins that they need to buy. These lists represent challenges. The difficulty stems from a combination of the coin's availability and cost. Many key and semi-key dates are being offered at large premiums above the last sale. Dealers know that their customers may not be willing to pay more than their budget allows. Dealers try to inform their customers of price changes for these coins periodically. Many customers rely on the dealer's experience and knowledge to decide if the coin represents good value at the available price. If they believe that it is no longer an attractive buy, then they direct their customer accordingly. Dealers are constantly weighing their options in a fast moving coin market. They need to be aware of auctions and new finds that are hitting the market. Successful dealers do their homework to obtain credible and complete information about specific coins and their clients. This allows them to make prudent decisions for their customers and their businesses. They need to be versatile. As demand changes from series to series, they need to be flexible enough to offer their customers a wide selection.

Currently, we see many plus signs appearing for Silver Commemoratives. These increases are concentrated throughout the long Commemorative series. Demand for MS63 thru MS65 Commemoratives is most dominant. Bids are chasing coins that are average for the grade. The publicity and popularity of the recently released Circulating Delaware Commemorative Quarters may have stimulated this demand. In any event, Commems are in favor in the sight-unseen market. Some of the issues doing well include the 1922 Grant Memorial Half Dollar in MS63 and MS64; 1925 Lexington-Concord Sesquicentennial Half Dollar in MS63 and MS64; the 1926 Sesquicentennial of American Independence Half

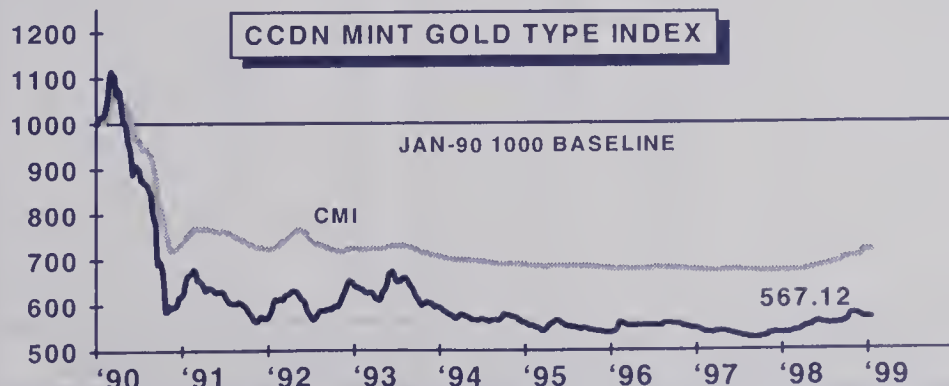

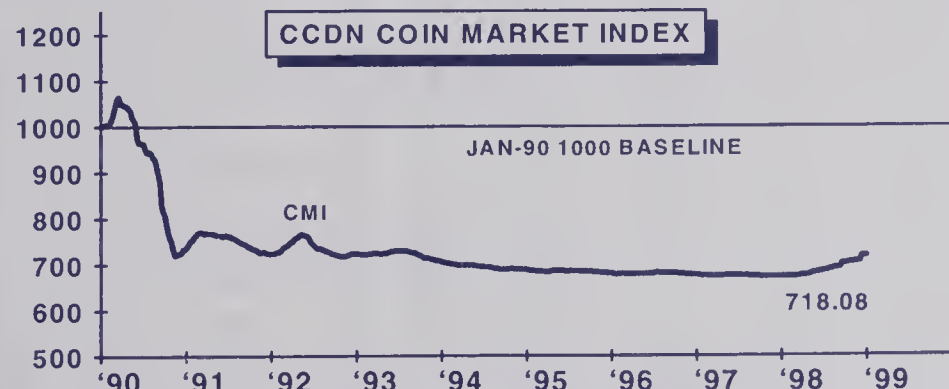

Dollar in MS63 and MS64; and, the 1936 Texas Centennial P,D,S Half Dollar set grading MS64 thru MS66.

Morgan and Peace Dollars are other areas that have grabbed the attention of dealers. Actually, this has been an area of strong interest throughout 1998. Now, we are seeing a continuation of this demand in early 1999. There are many collectors actively pursuing Dollars. These collectors have goals that vary from Very Fine 30 Circulated Sets to the highest quality Mint State and Deep Mirror Prooflike Sets. Besides locating choice examples for their customers, dealers look to stock Morgan and Peace Dollars for their inventories. Dollars usually make an attractive display. They are inviting to the visiting public during coin shows. Consequently, dealers have increased their Bids for sight-unseen Morgan and Peace Dollars in various grades. Among the many common dates of the series, roll to bag quantities are needed to satisfy the current demand.

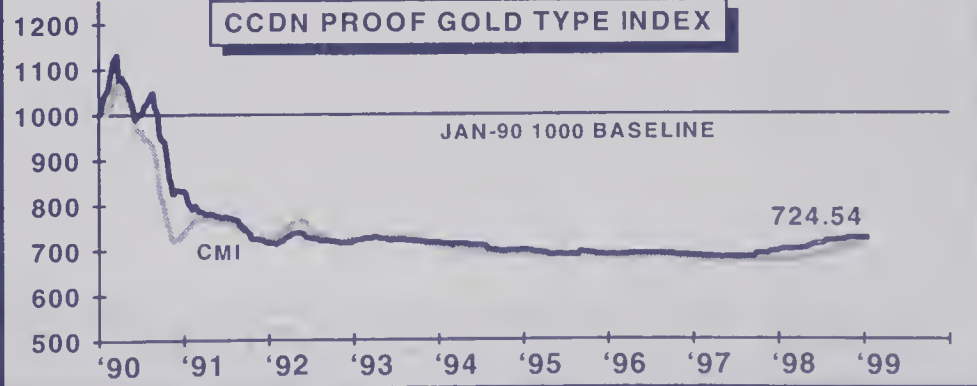

A new auction firm, Ira & Larry Goldberg Coins & Collectibles, conducted The Orlando '99 Sale in Florida on January 5. The 600 lot auction featured a complete set of certified Walking Liberty Half Dollars along with additional rarities.

The total prices realized exceeded expectations, bringing more than \$2.3 million. We have listed some of the sale's certified high-lights.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists coin shows and other sources of *wholesale* transactions. Auction prices realized or retail trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. Listing Policy: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

Excitement Builds Towards Expo

Rare Date Gold Hot

The February 10-14 Long Beach Expo is the next **major** Show that many dealers will be attending. The expectations for the first of three Long Beach, California Shows are running high. The rare coin market has begun 1999 on a favorable note. The new year has already seen several high-powered collections dispersed in the marketplace. We have seen collections and offerings of Rare Date Gold become available to dealers and collectors/investors via public auction. When you want to take the pulse of the market, an important indication can be established from the sales of Rare Date Gold. We have seen several auction companies offer select Charlotte, Dahlonega, New Orleans, San Francisco and Carson City Mint Gold during January. We also know that a similar scenario is apparently taking place in February. What do these sales mean for the coin market? Initially, one would reasonably expect the availability of this quantity and quality of coins to have a somewhat dampening effect on prices. However, if the underlying demand for Rare Date Gold is strong enough, price may be sustained at current levels or even increase.

The demand for quality and rarity was strongly evident at public auction. Many of the Rare Date Gold coins offered were certified by the two leading grading services, NGC and PCGS. The sale of the North Georgia Collection of Charlotte and Dahlonega Gold was a highlight. It included many coins that ranked in the "Condition Census" as well as candidates for the finest known. Demand was powerful because these were fresh, original coins. As expected, the prices realized were very strong. Dealers tell us that they have many customers looking to pay under \$5,000 for general material. However, dealers also say that the "sky's the limit" for top or finest known material. The potential for demand to grow increases as these coins are dispersed into more collector/investors' hands. Availability is important for growth. Being able to buy the rare dates allows collector interest to be maintained and satisfied.

The demand is very strong for early Gold. Collector/investors are snapping up these coins as quickly as they become available. Gold dated 1829 and earlier is hot. Dealers say that all three denominations are in demand. Another area that is

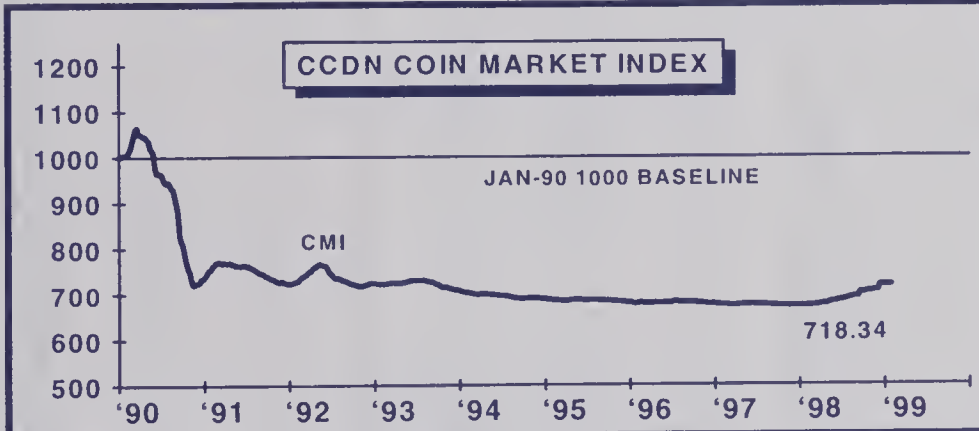

attracting the attention of collector/investors is \$20 Liberty's. Dealers tell us that that the better date Type 1 and Type 2 \$20 Liberty's are especially hot. These coins are being bought when they become available. Dealers have trouble keeping them in stock. These \$20 Liberty's are needed in Circulated or Mint State condition. Sophisticated collector/investors prefer that their Rare Date Gold be slabbed.

The sight-unseen market is very solid. We see many plus signs occurring for Morgan and Peace Dollars as well as Silver Commemoratives. Demand for Commemoratives is spread fairly evenly from MS63 thru MS66. Bidders are buying these coins sight-unseen. They are trying to fill orders that they have from their customers. Coins like the 1936 Bridgeport, Connecticut Centennial Half Dollar; 1925-S California Diamond Jubilee Half Dollar; and, the Oregon Trail Memorial Half Dollars are easy sellers for dealers.

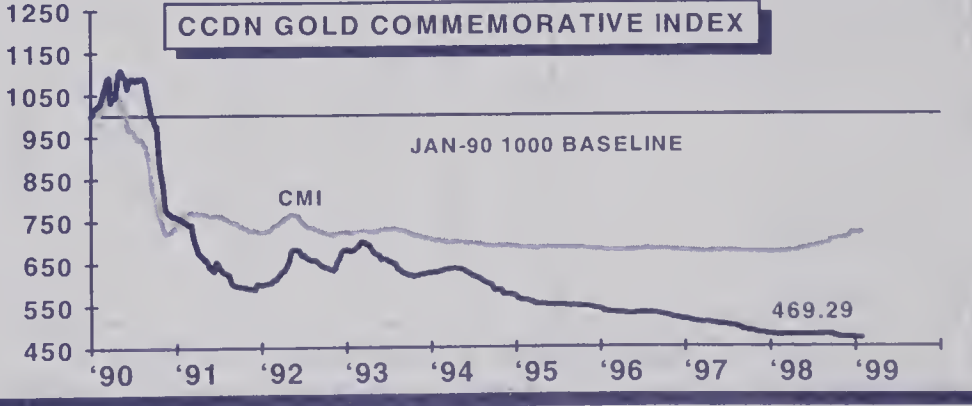

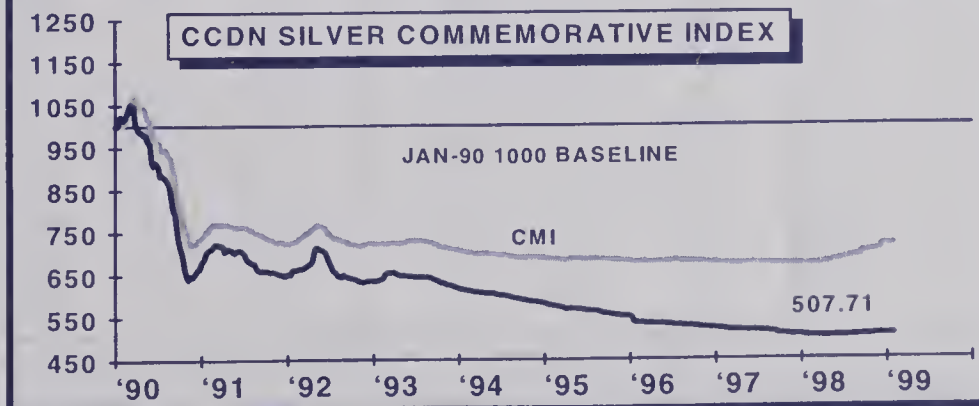

Heritage will host the Long Beach Expo auctions. Along with a February 10 Bullet Sale, Heritage will conduct the February 1999 Signature Sale. This 2,087 lot auction will be held on February 11-13. It will feature the William Miller collection of Charlotte and Dahlonega Gold; the Alexander David Deemer II collection; the

Jerry S. Benson, Jr., collection of finest known gems; Part 2 of the Henry Brookings collection; and, Part 2 of the Warren Cook collection. We have included some of the sale's many certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Market Eyes Look At Long Beach Strong Sight-Unseen Trading Continues

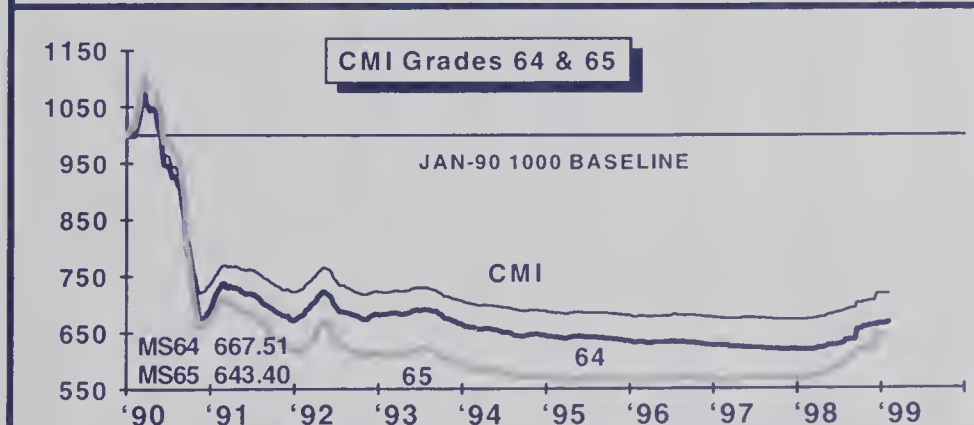

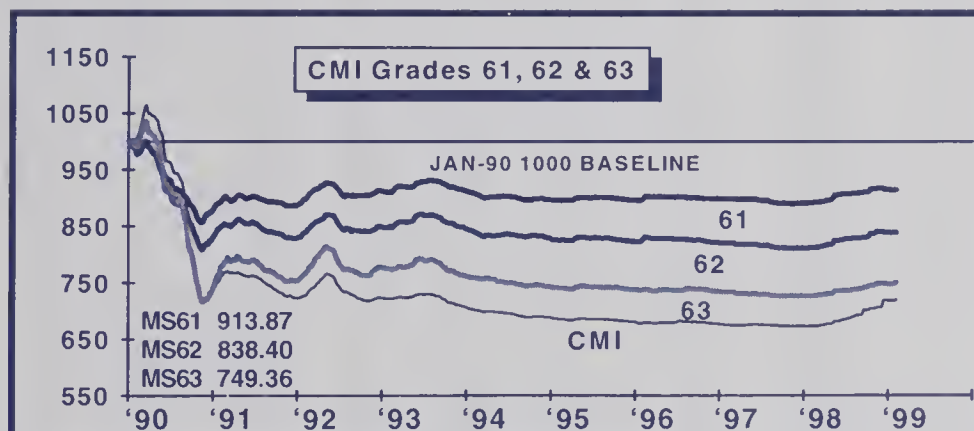

The rare coin market is doing very well as we begin February. Winter has embraced most of the country signaling an active period for the hobby. Much activity will be taking place in California at the Long Beach Expo. This Long Beach show is one of the nation's premium coin shows, and the February Show is especially lively. This is usually a busy time for rare coins because collectors are actively pursuing their interests. The premiums being paid for common date Gold and Silver coins remain at very high levels. Dealers are still looking to buy these coins in quantity. Equally important is the need to supplement their inventories with the coins that are in demand today. Therefore, they have been actively utilizing the electronic dealer networks to buy and sell coins. As a result, we see a number of increasing sight-unseen Bids for coins.

The sight-unseen market is doing very well these days. It was nearly one year ago that we noticed increased Bids and activity in the sight-unseen market. Since we are coming up to this anniversary, it is noteworthy that the market is still vigorous and alive in 1999 as we monitored in 1998. The number of trades taking place on the electronic dealer networks has definitely increased. We see activity increasing for coins because more buyers are looking to diversify their portfolios by adding some rare coins. To some degree, it is a direct byproduct of the general prosperity we are enjoying in the economy. Dealers define this demand by their increased activity on the dealer networks, the internet, and at auctions. Dealers are trying to locate difficult dates and varieties for their customers. When a customer want list coin appears, dealers try to buy it quickly, even if they have to pay more than they originally intended.

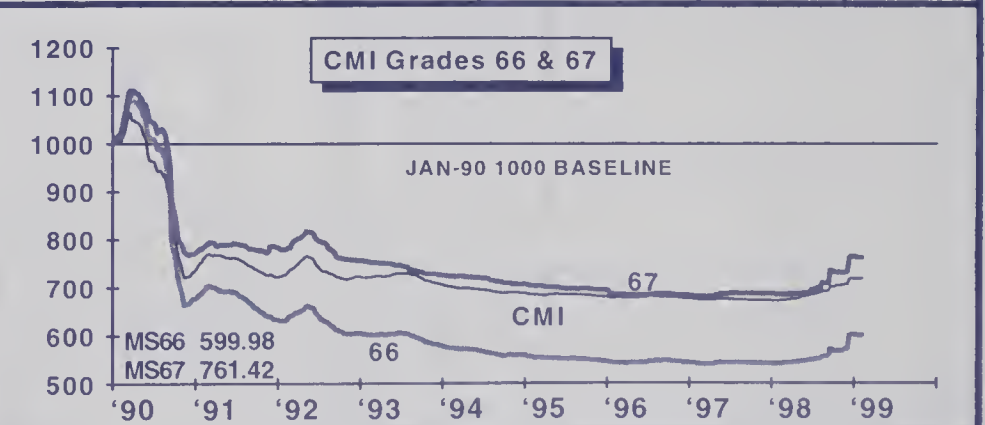

According to several dealers, demand for U.S. Gold in all denominations has been increasing. Excellent value at current levels is stimulating this demand. Collectors believe that the current price levels are very attractive for \$5 Half

Eagles, \$10 Eagles and \$20 Double Eagles. The \$20 Liberty and \$20 Saint-Gaudens contain nearly an ounce of Gold. This also attracts buyers. Many new faces are out there looking to buy some rare coins. We also notice that the number of coins being requested at each grade level is increasing. When the supplies at these levels become exhausted, demand will probably cause the Bid to increase. We see collector/investors buying Gold in different combinations. It runs the gamut from a single Gold piece to 100 or more \$20 Liberties. The demand is spread across many grades as well. We see Circulated and Uncirculated coins changing hands. Many common dates of Circulated \$10 and \$20 Liberties are desired. This is true even though the premium over bullion remains high. For example, a common date VF \$20 Liberty is Bid at \$440 even though the price of an ounce of Gold is below \$300. Dealers suggest that those buyers, looking for the higher priced MS63 and better condition Gold, need to be more patient. Quantities of MS64 \$5 and \$10 Indian Head Gold are not easily available. Consequently, the price fluctuations in these issues are usually more volatile. To a large degree, it is a very thin market. Availability of quantities of coins in specific grades is key. If there is an immediate, strong buyer for five MS64 \$5 Indian Heads but only two coins are available, then we may see Bid jump to satisfy this demand. However, after the order is filled, the price can fall back to its previous level. This is true unless additional active Bidders appear at the last higher transaction price.

Besides Gold Type, Silver Commemoratives continue to attract strong Bidders in the sight-unseen market. Plus signs are widely occurring in MS63, MS64 and MS65 grades. Dealers are looking for a vast array of Commemorative issues from the 1936 Albany, New York Half Dollar to the 1936 York County Maine Tercentenary. Commemoratives have attracted many Bidders because as a group they had been one of the laggards of the rare coin market.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - **PCI** provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Long Beach Expo Has Active Start Steady Sight-Unseen Increases Continue

The Long Beach Expo, already in progress, has brought together coin dealers from all over the United States. This long awaited February Show gives dealers an opportunity to fill the needs of their customers. We know that many use this show as an opportunity to meet new customers. However, dealers buy and sell from each other even before the public has stepped into the convention center.

The overriding theme of the market is good. Dealers have taken this optimism and translated it into high expectations for this Winter 1999 Expo. Since the economy remains strong, dealers expect this optimism to continue. The demand for rare coins is strong, but also very selective. Dealers have said that one of the biggest obstacles towards completing transactions is finding the right coin. Hopefully, the public auctions and inventory selections that are part of the Long Beach Expo will satisfy some of this demand.

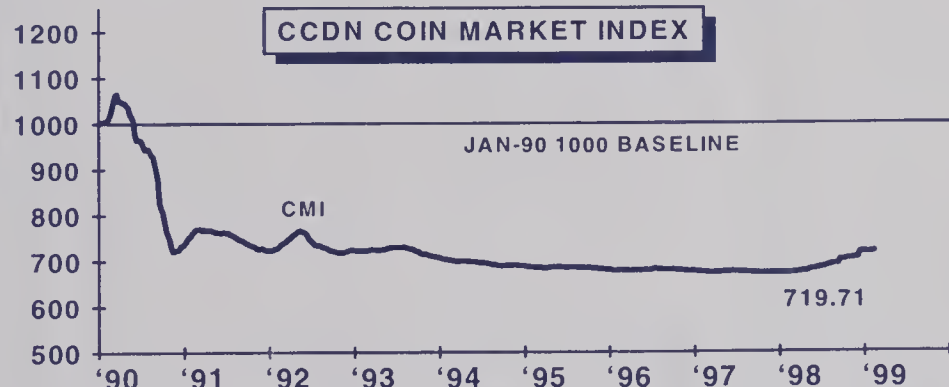

We have heard that the **bull** market and solid prices realized during recent auctions have improved the supply side of the market. Strong prices are the ticket to bringing rare coins out of hiding. That is why there have been numerous auctions taking place with a huge number of lots per auction. We have seen many collections of rare date coins become available. This is a plus to collectors and welcome by dealers. One may wonder if there is enough money to absorb this quantity of rare coins. Will the glut go unsold and take the wind out of the sails of the bull market? Dealers do not believe it will. When you consider the amount of money that trades in the stock market, on any given day, those concerns quickly vanish. Just think about the amount of money that is spent on shares of Intel or Microsoft any business day. It only takes a **fraction** of that capital to buy a collection of rare coins. This is because rare coins are a thinly traded market compared to securities that could split their shares

to satisfy strong demand. We have heard that there are successful investors in the stock market who are willing to diversify some of their profits in Gold, Silver and rare coins. These buyers are helping to fuel the 1999 rally in the coin market.

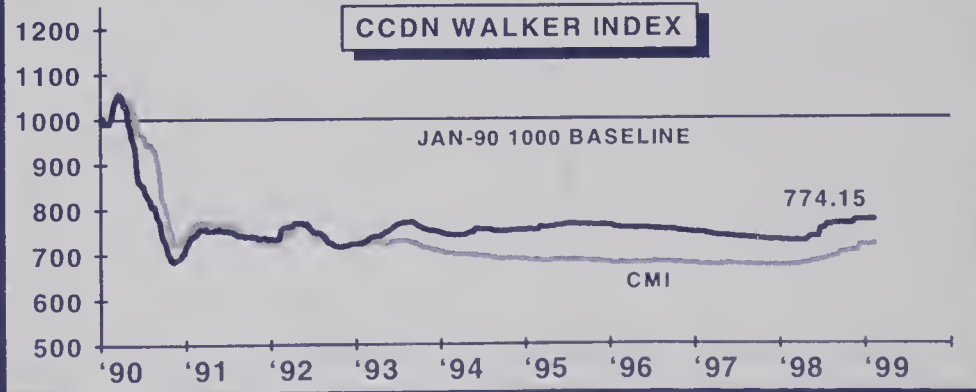

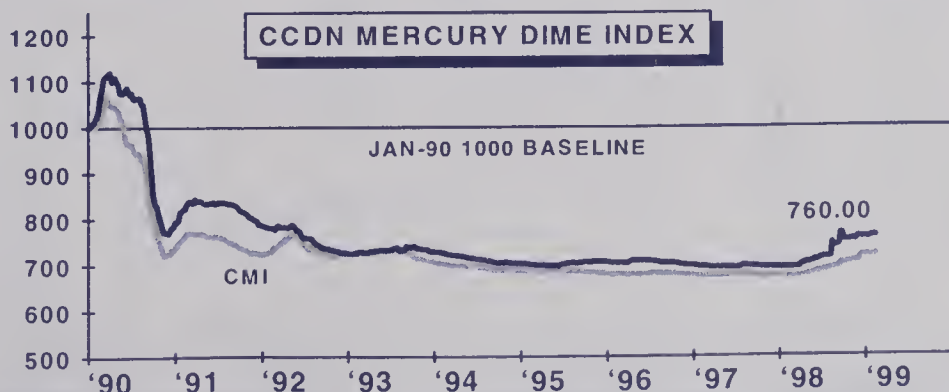

Early Gold is a specialized area for the serious collector. Strength in this sector has spilled over into the sight-unseen market. Consequently, plus signs are more prevalent for early Gold Type in grades from AU58 thru MS63. However, above MS63, dealers are not as willing to offer strong, sight-unseen Bids for five-figure and up rare Gold. So, as we quickly approach the 21st century, increases are found among \$2.50, \$5 and \$10 Gold from the late 18th, and early 19th century. The strongest need appears to be for the AU58 grade. Because early Gold is so high priced, collector/investors are comfortable buying the coins that are among the highest quality in the circulated grade category. These are also the coins that become easy sellers.

Activity has also increased among prooflike Morgan Dollars. We notice that dealers are willing to pay more for common date PL Morgans in MS64 and MS65 condition. It is likely that these PL Dollars received a push from the increases experienced in regular MS64 and MS65 Morgans. Dealers know that collectors are actively looking to add these Dollars to their collections. Prooflike Dollars are gaining popularity, since they are more reasonably priced and easier to find than DMPL's. Also, prooflike reflectivity is an attractive quality in Morgans.

Just prior to the Expo, Superior hosted the February 8th Dr. Juan XII Suros Overdate Collection containing 300 lots which realized more than \$2.358 million. The February 8-10 auction, also hosted by Superior, realized an additional \$7.127 million bringing the sale total to \$9.485 million.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

LAWYER

... Having been an attorney for over 20 years and having negotiated numerous deals on behalf of clients, it was refreshing to have the opportunity to deal with a totally honest and ethical firm for my own account. Mr. Nachbar offered the absolute top dollar for my collection and because of his work ethic, we were able to complete the inventory of what was frankly a very large collection in just over one day of work. COLLECTOR

Your advertisement in Coin World... stated that you would try to make the top offer for coins at the show. I received, in the abbreviated period of time that I attended, substantial offers for my set of Uncirculated Mercury Dimes from six different dealers including premier coin auction firms and large advertising buyers. However, your offer which came after careful scrutiny of my material, approximated 10% higher than any other offer received. LEH

HEIR

Mr. Nachbar called to set a date to come out to our bank and view the collection. Due to our lack of experience/knowledge of the coin market, we approached this project with caution and some apprehension. Mr. Nachbar is a delightful and refreshing experience. He is personable, honest and ethical,

extremely knowledgeable and professional. Mr. Nachbar's bid was almost \$5,000 higher than

the second highest bid offered by a top national firm. PFH

DOCTOR

It is my pleasure to most highly recommend Mr. Richard Nachbar as a person of the greatest integrity, honesty and courtesy of anyone with whom I have ever dealt. Richard worked with me in regard to a large coin collection. He did it with alacrity and honesty - more than anyone in my previous experience. He was quick, decisive and extremely knowledgeable. I cannot recommend him strongly enough. MB

WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Most rare coin dealerships are small firms with a few employees and a limited amount of capital. In one regard, Spectrum Numismatics is like all other coin companies. Spectrum Numismatics has only 7 employees, but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is the **king of the cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum has become one of the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 37 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased \$354,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 50 years of experience and over \$250,000,000 in purchases of coins.

In just eight short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyer of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins on which Spectrum outbid every major United States coin dealer:

Coin	Grade	Date Purchased	Purchase Price
1894-S Barber 10¢	Prf-64	Aug. 1992	\$165,000
King of Siam Proof Set		Feb. 2, 1993	\$1,815,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	\$962,500
1848-O \$10 Liberty	MS-66	Nov. 1994	\$154,000
1796 No Stars \$2½	MS-65	Dec. 5, 1995	\$605,000
1796 No Pole ½ Cent	MS-66 RB	May 21, 1996	\$506,000
1804 \$1	Prf.-65	April 8, 1997	\$1,815,000
1838 \$10	Prf.-65	May 21, 1998	\$550,000

**It's very rare in the rare coin industry for coin dealers to say something nice about other coin dealers.
Here are few things that Spectrum's fellow coin dealers have said about the King of Cash.**

"I've known Greg Roberts for 15 years. Greg and Thad Olson sold me Gem dollars and Walkers when they were kids in high school. I've been doing business with them ever since. Greg is my friend and I trust him. I buy a lot of coins from Spectrum and I sell a lot of coins to Spectrum. They're easy to deal with and their checks are always good."

David Hall
David Hall's North American Trading
Santa Ana, California

"I sell a lot of coins to Spectrum Numismatics. I've even had them help me with the financing on a couple of larger numismatic transactions. Spectrum is easy to do business with and they have a ton of cash."

John Dannreuther
JDRC Inc.
Memphis, Tennessee

"I have always enjoyed very much the many transactions I have had with Spectrum! I heavily recommend Greg Roberts and his crew at Spectrum. Spectrum is just excellent to do business with."

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves, and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 81% of all the coins Spectrum purchases, are coins priced under \$5,000, and 12% of all the coins that Spectrum purchases are coins priced under \$100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line collect (949) 955-1250. Ask for Greg or Thad and tell them you have coins for sale. Tell them you want to talk to the **King of Cash**.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at the Long Beach Coin & Collectible Expo, February 11 to 14. Spectrum will be there for one reason only-to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should go to tables 510 & 613 in Long Beach. Tell them you want to speak to the King of Cash.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

no gimmicks.

Why would we need to resort to gimmicks when NGC is:

- The leader in submissions (47,000+ per month in 1998)
- The leader in expert grading teams (2) and top finalizers (Mark-Salzberg, John Maben)
 - The leader in hobby services (PHOTO-PROOF, VarietyPlus)
- The service known for its long-standing commitment to integrity, consistency, and accuracy
 - The Official Grading Service of the ANA.

While others would be tempted to rest on these accomplishments, NGC is committed to proving we deserve your trust and business every day, and with every coin.

Consistently grading more of the world's finest coins like yours. That's NGC.

NGC is the Official Grading Service of the

Proof Gold Type, Proof Type in Demand Auctions Realize Five and Six Figure Prices

It is mid-February and the sight-unseen rare coin market is doing fine. We see regular activity on the electronic dealer networks in many areas of the market. Dealers are still using this vehicle to help them buy coins to satisfy the demands of their customers. Inventory purchases are also made for coins that they can turn over in a reasonable amount of time. In part, the demand for coins is very strong because want lists are growing. Many dealers believe that this growth is directly related to the present strong economy. Prosperity and the belief that good times will continue throughout 1999 allow collector/investors the financial means to buy some coins for fun and for investment diversification.

Strong gains have been taking place in the Standing Liberty Quarter series. Specifically, dealers are Bidding at higher levels for sight-unseen coins in MS63, MS64, MS64FH, MS65, MS66 and MS66FH. The increases are taking place among the common dates of the series. However, dealers tell us that many collectors are also targeting the better dates for their sets.

Gold has been a strong area in the sight-unseen market. Dealers tell us that collectors are buying all denominations of Gold. Type is strong because buyers want quantities of \$10 and \$20 Gold. They are buying Circulated and Uncirculated Gold. Even though numismatic Gold sells for a premium above bullion, collector/investors want these coins. Proof Gold Type may be even hotter than Mint State Gold Type. Well-heeled collector/investors are adding Proof Gold Type to their portfolios. The desired grades are PR63 and better. We notice that the 1879 \$4 Flowing Hair Stellas are realizing solid prices in all grades at public auction.

Mint State Type receives a lot of action. Bids are increasing for many denominations from Half Cents through Trade Dollars. Buyers are looking for a wide range of grades from MS61 thru MS66. Bidders are even willing to offer strong money for some MS67 coins. The largest portion of the demand is targeting the MS63 thru MS65 grades. Proof Type is strong, just like the strength we see in the sight-seen market. Dealers are looking for Proof Type for their customers. Many collector/investors welcome an opportunity to buy a Proof Type coin.

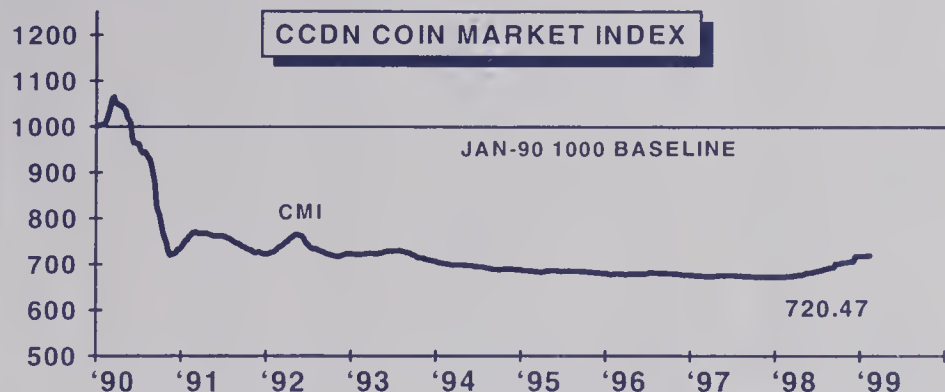

Superior conducted an auction February 8-10 in Beverly Hills, California. This auction featured the Dr. Juan XII Suros collection of Overdates. The 4,000 plus lot sale realized more than \$9.485 million. The auction had many highlights and we have listed a few of the certified examples.

Heritage hosted the February Long Beach Expo auctions. The 699 lot Bullet Auction realized \$266,704. This sale featured only certified rare coins.

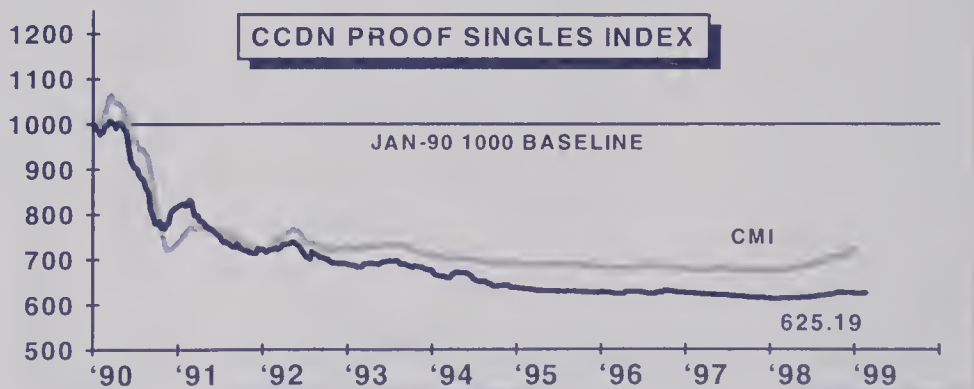

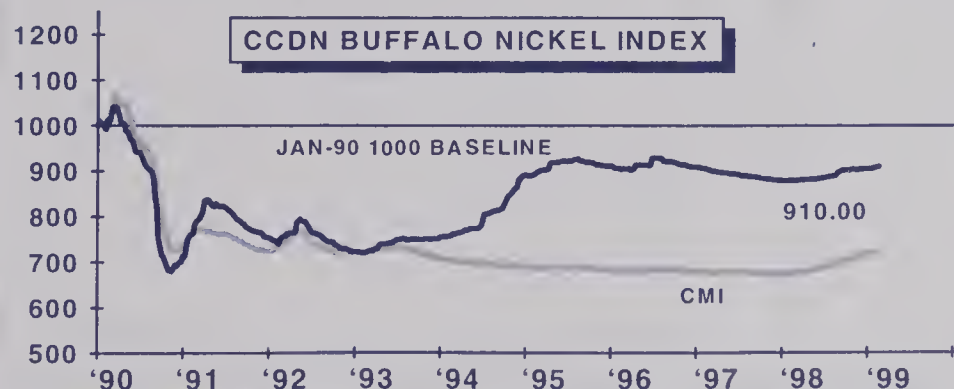

Heritage also conducted the February Long Beach Signature Sale. The auction featured the William Miller collection of Charlotte and Dahlonaga Gold along with several additional consignments. In all, the February 11-13 Signature Sale realized more than \$6.377 million. We have listed a few of the many certified highlights from that sale.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Introducing the New: Official Barter Unit™

The Y2K Silver Company has come up with the perfect hedge for the Y2K investor.

Similar to the U.S. American Eagle Silver Dollar program, the Y2K Silver Company does not sell direct to the public or dealers. The Primary Distributors will sell the OBU's to the dealers.

The OBU's will be marketed aggressively first through a 5200 plus direct mailing to coin dealers then through many full page ads in the Coin Dealer Newsletter for signing up "Authorized Dealers".

Then the Coin Collector trade publications will have full-page ads with a list of all of the "Authorized Dealers". **Contact a Primary Distributor to include your company name in the Nation wide marketing.** These ads will begin the 1st of March.

Y2K Silver Company is also targeting the myriads of Y2K newsletters, marketers and web sites etc...

Finally a deluge of advertising to the general public via print media, radio, billboards etc... All advertising will highlight the web site with an entire roster of "Authorized Dealers"

In our marketing efforts we will point out how OBU's are a vital part of anyone's portfolio for the new millennium.

The OBU's are favorably priced versus other typical Y2K hedges.

To become an Authorized Dealer contact the Y2K Silver Company or a Primary Distributor. (minimum purchase to become an Authorized Dealer and receive all the advertising perks is just a 1,000 piece initial order - no minimum reorder).

Currently the Primary Distributors are wholesaling the OBU's for:

20-999 pieces at spot + \$1.25 each
1000 plus pieces at spot + \$1.15 each (receives Authorized Dealership)
Delivered on 500 pcs.

Currently most Authorized Dealers are retailing the OBU's for:

1-199 pieces at \$8.50 each
200 + pieces at \$2.00 over spot silver
(original mint case lots of 500 pieces shipped postage paid)
Basis \$5.10 Prices subject to fluctuation

How to order the Official Barter Units: Contact us at www.y2ksilvercompany.com or phone us at 1-877-MINT-Y2K or contact a Primary Distributor.

1795		NGC	MS-65	\$425,000	The 2nd Finest Known. Not quite as brilliant with a softer strike.
1839-C		NGC	AU-55	\$12,500	One of the rare unmolested dated gold coins.
1842-D	Large Date	NGC	AU-50	\$17,500	If you are tired of cleaned dated gold, call on this coin. It's nice.
1855-D		NGC	AU-58	\$4,500	Again, original with all the "skin" remaining.
1915-S		PCGS	MS-64++	\$45,000	Very clean and very, very, high end. A sparkler.

EAGLES

1803		PCGS	MS-65	\$250,000	Finest Known. Without question, the finest early Ten.
1907	Rolled Edge	PCGS	MS-67	\$275,000	The Finest Known of the rarest Indian Eagle. Simply amazing!
1920-S		PCGS	MS-64	\$89,500	Blazing luster with fully struck Liberty. As close to "65" as it gets.
1933		PCGS	MS-65	\$395,000	Ex: Price collection. A "Real" gem that sports total original color.

DOUBLE EAGLES

1907	High Relief	PCGS	MS-68	\$375,000	The Ultimate example of the most beautiful St. Gaudens design.
1920-S		NGC	MS-64	\$69,500	Bright, fresh and totally original. A great example of this "Key."
1921		PCGS	MS-64+	\$145,000	A spot-free specimen. The second most sought after date. Nice.
1927-D		PCGS	MS-67	\$1,250,000	The Finest and Most Valuable 20th century Gold Coin. Superb!
1927-D		NGC	MS-66	\$850,000	The Second Finest example. Fresh, fully struck, and spot-free.
1931-D		PCGS	MS-66	\$82,500	The Finest Known. Ex: Price Collection. This baby is "all there."

TERRITORIAL GOLD

1851	Humbert \$50	PCGS	AU-55	\$26,500	880 reverse. Virtually perfect. Devices and edges are as struck.

February Sight-Unseen Market Is Vibrant MS And Proof Type In Demand

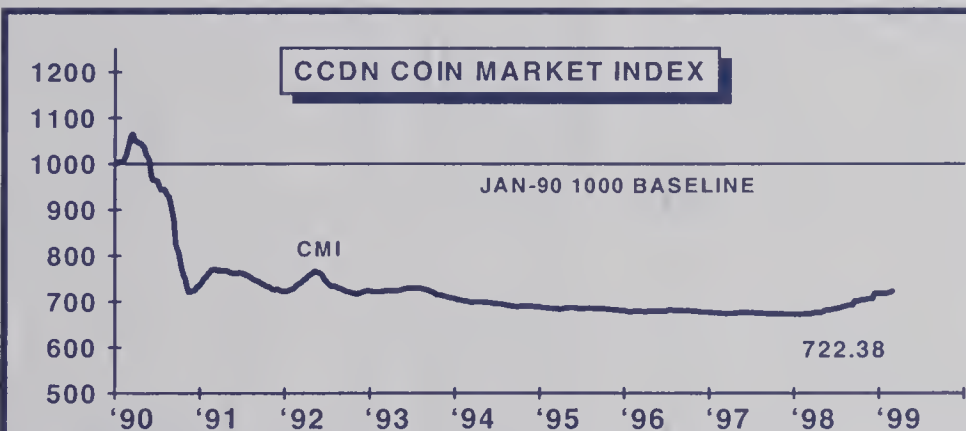

The first two months of 1999 are practically in the books. We are happy to report that the sight-unseen market is doing very well. We see that many of the segments that we track on a regular basis are displaying more plus than minus signs. The strong demand for rare coins means that dealers must buy coins to satisfy the customer need. They do this by exploring all avenues at their disposal. The electronic dealer networks have been active in February. We notice that dealers are willing to post strong Bids for coins. In some cases, these Bids represent a considerable increase over the previous high sight-unseen Bid. Dealers do this hoping to successfully buy the dates they need. Unfortunately, not all Bids are hit. Usually, many go unfulfilled for weeks before an example is even offered. It does not appear that demand will subside soon. Dealers believe that their customers' want lists will continue to grow in 1999. They also know that it takes coins to make sales. Consequently, they are willing to increase the Bid to complete a transaction.

We have already written about the Morgan and Peace Dollar markets. They remain solid. Type continues to impress dealers. We see that Proof and Mint State Type are very much a part of their needs. Dealers are looking for average quality coins in all Mint State and Proof grades. Naturally they would pay more for premium quality coins. However, they are very satisfied to buy average quality coins for the grade at current, sight-unseen price levels. The demand for large denomination coins has been targeted throughout 1999. We also see strong interest for smaller denomination Type coins.

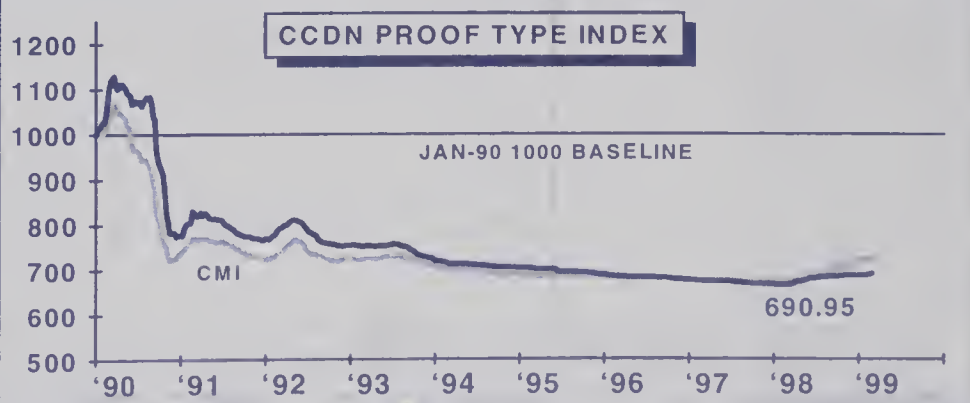

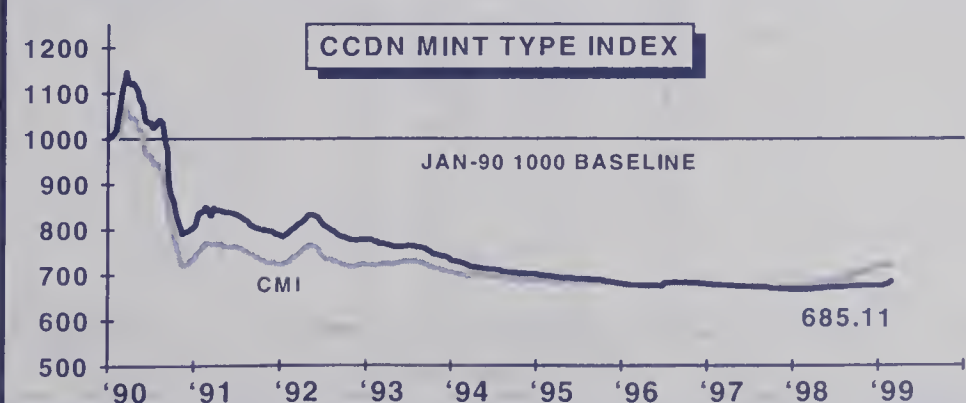

Half Cents, Large Cents, 2-Cent pieces, 3-Cent Silver and Copper-Nickel are being bought by collectors. These collectors are happy to find a satisfactory example of these obsolete minor coins. We know that they are buying all grades from Good through the Mint State and Proof categories.

Collectors feel comfortable buying third-party graded, certified, and encapsulated coins for their collections. Increases are actively occurring in the MS63 and MS64 grades. Many collectors are looking to buy Type coins that they feel are affordable. Coins that grade above MS64 usually take a considerable jump in value. The reason this occurs is due to the condition rarity of these coins. Often, coins that are plentiful in MS63 and MS64 are few in number at the MS65 grade level. For example, the 1858 Silver 3-Cent piece, Type 2 is very desirable as a Type coin. It is certainly one of the most common Type 2 3-Cent Silver coins. The combined NGC and PCGS population report statistics indicate that there are 157 certified in MS63 and 211 slabbed MS64. The total of NGC and PCGS MS63 and MS64 1858's is 368. Of course, we understand that there may be less when you consider crack-outs and cross-overs. However, the combined total of MS65 1858's from both grading services is only 44. Consequently, it is easy to understand why an 1858 MS65 3-Cent Silver sight-unseen Bid is more than double the MS64 Bid. This is true for the NGC and PCGS sight-unseen Bid.

Plus signs have also been occurring in the popular 20th century series. We see increases taking place among Buffalo Nickels, Mercury Dimes and Walking Liberty Half Dollars. Collectors are avidly working on sets of these coins. They are in need of many scarce semi-key and key dates of each series. They will need to exercise patience. Dealers need time to locate these coins to meet the demands of their customers. Sometimes, the wait may be more than 1 year. Often, a dealer will submit mail Bids or phone Bids for coins offered in public auctions. This is also done sight-unseen with the only guarantee of grade offered by the professional grading services opinion. When the market is hot, coins are needed quickly. That is what is taking place in 1999. The demand for rare coins remains strong.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

ANA Sacramento Show Ahead Strong Demand For Gold, Commems

The sight-unseen market is doing very well. The American Numismatic Association's National Money Show begins March 11. Dealers are optimistic about the rare coin market and look for the ANA Show to be successful. This year's show will be held in Sacramento, California. Dealers are optimistic because the economy is still very strong. We do see some consolidation taking place on Wall Street. Maybe investors that are arranging their portfolios to be more liquid will decide to put some of those funds in coins. According to dealers, many people have already diversified into rare coins. We also know that the demand for Gold and Silver numismatic and bullion coins is very strong. This accounts for the huge premiums being paid for many common date Silver and Gold coins.

Almost all segments of the market are doing fine. Dealers are trying to buy coins for their customers. The ANA Show will provide them the opportunity to view inventories of other dealers that are not near their geographical part of the country. This allows them a chance at finding some of the coins that their customers are looking to buy. Bids have been increasing for select coins. Among Mercury Dimes, we see increases for 1920-D in MS66FB and 1942/1-D in MS65FB. For Buffalo Nickels, increases are seen in various grades for 1913 Type 1, 1913-D Type 1,

1917-S, 1920-D, 1927-D, 1929-D, 1929-S, 1934, and 1934-D. Gold is still a very strong segment of the sight-unseen market. There are several plus signs this week. The main concentration appears to be for \$20 Liberty and Saint-Gaudens. Increases are noted in grades from MS61 thru MS65. Dealers tell us that they have many customers looking to buy Gold. The demand is often for Gold in quantity. We see strong Bids for Silver Commemoratives. The greatest need appears to be in the MS64 thru MS66 grades.

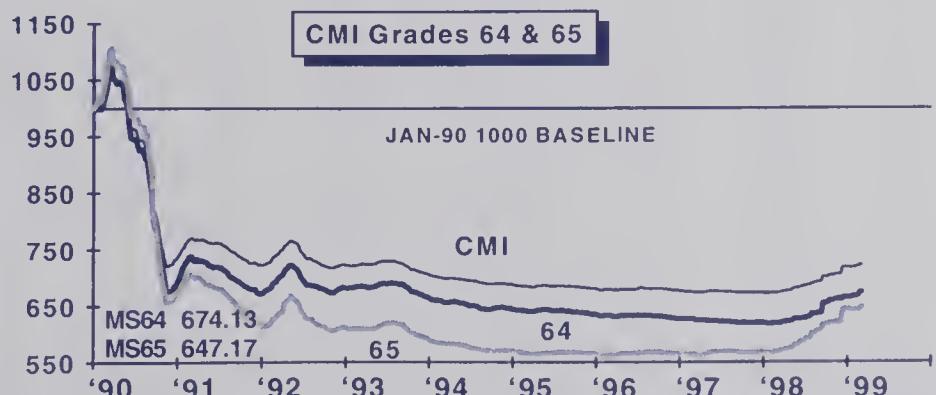

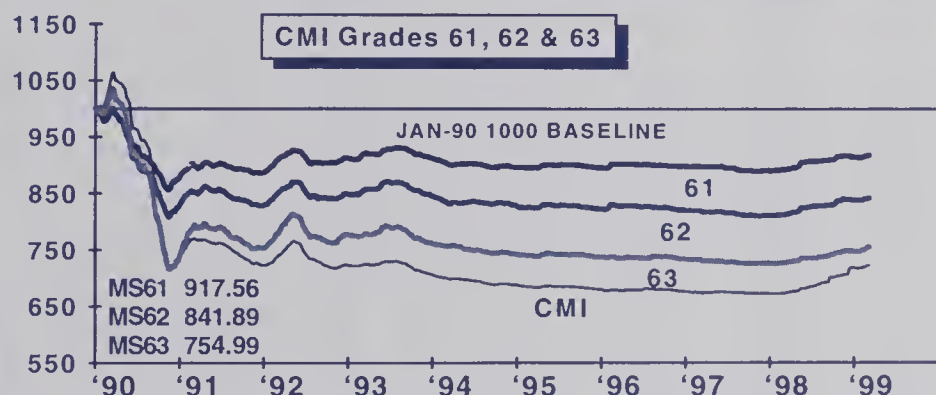

Auctions provide dealers and collectors with an opportunity to buy many scarce and rare dates and denominations. Heritage, the host auction company of the ANA Show, will conduct two sales. The Sacramento ANA National Money Show Sale will feature the Walter R. Berger collection and the Henry Brookings collection, Part III. This Signature Sale will be held March 11-12. Heritage will conclude its sales on March 13 with The 1999 Sacramento California Bullet

Auction. The Signature Sale has many highlights, and we have listed just a few of the certified coins.

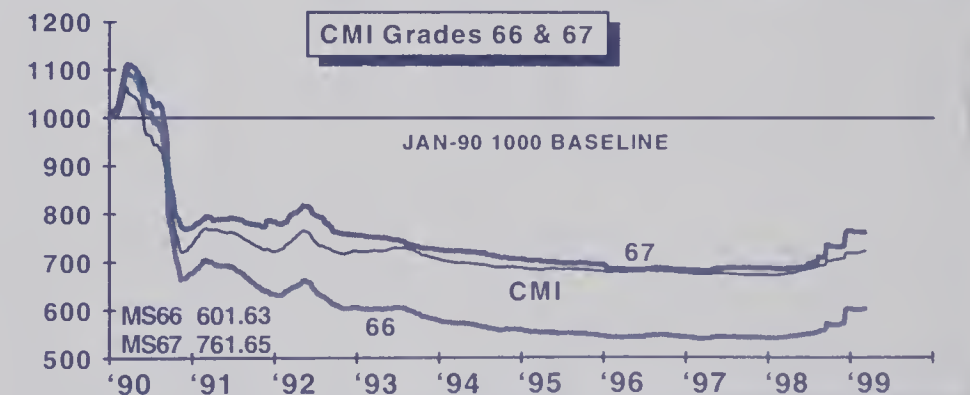

Kingswood featured an auction held February 17-18. The sale totaled \$1.421 million. We have listed some of the many highlights from that sale.

Introducing the New: Official Barter Unit™

The Y2K Silver Company has come up with the perfect hedge for the Y2K investor.

Similar to the U.S. American Eagle Silver Dollar program, the Y2K Silver Company does not sell direct to the public or dealers. The Primary Distributors will sell the OBU's to the dealers.

The OBU's will be marketed aggressively first through a 5200 plus direct mailing to coin dealers then through many full page ads in the Coin Dealer Newsletter for signing up "Authorized Dealers".

Then the Coin Collector trade publications will have full-page ads with a list of all of the "Authorized Dealers". **Contact a Primary Distributor to include your company name in the Nation wide marketing.** These ads will begin the 1st of March.

Y2K Silver Company is also targeting the myriads of Y2K newsletters, marketers and web sites etc...

Finally a deluge of advertising to the general public via print media, radio, billboards etc... All advertising will highlight the web site with an entire roster of "Authorized Dealers"

In our marketing efforts we will point out how OBU's are a vital part of anyone's portfolio for the new millennium.

The OBU's are favorably priced versus other typical Y2K hedges.

To become an Authorized Dealer contact the Y2K Silver Company or a Primary Distributor. (minimum purchase to become an Authorized Dealer and receive all the advertising perks is just a 1,000 piece initial order - no minimum reorder).

Currently the Primary Distributors are wholesaling the OBU's for:

20-999 pieces at spot + \$1.25 each
1000 plus pieces at spot + \$1.15 each (receives Authorized Dealership)
Delivered on 500 pcs.

Currently most Authorized Dealers are retailing the OBU's for:

1-199 pieces at \$8.50 each
200 + pieces at \$2.00 over spot silver
(original mint case lots of 500 pieces shipped postage paid)
Basis \$5.10 Prices subject to fluctuation

How to order the Official Barter Units: Contact us at www.y2ksilvercompany.com or phone us at 1-877-MINT-Y2K or contact a Primary Distributor.

IF YOU HAVE COINS TO SELL... WHETHER IT'S A \$2,000,000 1804 DOLLAR OR A \$30 COMMON DATE MORGAN DOLLAR

The only strategy that makes sense...is to call the *King of Cash* **before** you actually sell your coins.

Nobody spends more money buying U.S. coins from collectors and investors like yourself than Spectrum Numismatics! And the nice thing about Spectrum is we desperately need to buy **all** of your coins. That's why our name is Spectrum...we buy it all.

IT'S EASY TO DO BUSINESS WITH SPECTRUM

Spectrum Numismatics desperately needs your coins. Its coin-hungry clients have a huge appetite for Uncirculated pre-1950 U.S. coins. Spectrum has no choice. They must buy your coins or lose their clients. That's why 67% of all Spectrum purchases are from coin dealers. The professionals, the people in the know, the people who make their money buying and selling coins, sell them to Spectrum. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan/Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially COMPLETE COLLECTIONS!

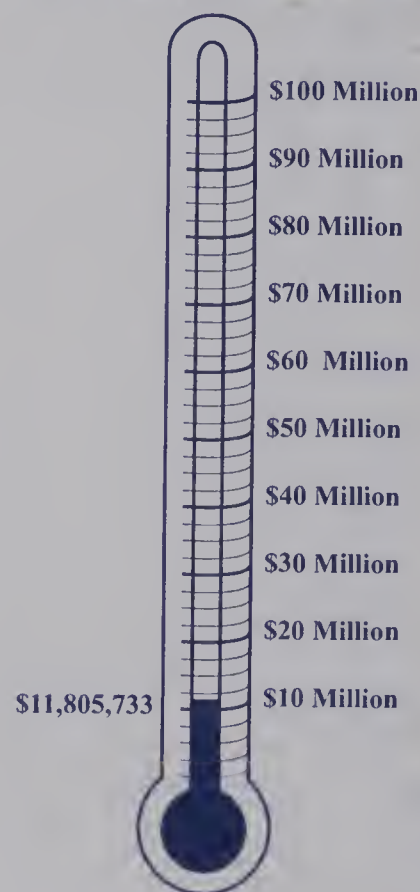

SPECTRUM IS DESPERATE FOR YOUR COINS

The best time to sell is when you have a willing buyer, and nobody is more willing than Spectrum to trade some cold hard cash for your coins. Our customers are screaming for coins. We estimate that we need to spend \$100,000,000 this year to satisfy the needs of our clients. Check out Spectrum's "*King of Cash meter*." So far this year, we've spent \$11,805,733. We need your help in order for us to be able to satisfy our clients and purchase the necessary \$100,000,000 worth of coins this year. If you have any Uncirculated pre-1950 U.S. coins for sale, there's only one strategy that makes sense. Before you sell any coins, call Spectrum. You can contact the Spectrum buyers any weekday between 8:00 a.m. and 5:00 p.m. California time. Just tell them you want to talk to the *King of Cash*.

THE KING OF CASH GOES TO SACRAMENTO ANA

Spectrum Numismatics will be at the Sacramento ANA Show, March 11-14. Spectrum will be there for one reason and one reason only....to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have Uncirculated coins to sell and want to realize the highest possible price for your coins, then you should go to Tables 420 & 422 at Sacramento. Tell them you want to speak to the *King of Cash*.

Matte Proof Lincoln Cents Fuel Market Auctions Entice Bidders

The sight-unseen market is charging forward. We see strong Bidding taking place in select segments of this specialized market. Could this be an auspicious sign? All this strength is happening as the American Numismatic Association's National Money Show begins in Sacramento, California. This is one of the largest rare coin shows held each year. This years show will culminate by March 14. Strong sight-unseen Bidding is encouraging for the overall market health. We know that this demand is coming in response to a rapidly expanding collector base. Many of the new faces may have entered the rare coin arena because of their increased wealth and/or out of fear of the Y2K problem. The continued strong economy influences people's spending habits. The more secure they feel today, and even more importantly in the near future, the easier it is for them to spend some dollars in the rare coin market. This is primarily what some astute dealers tell us is happening. If this trend continues, and we believe it will, the market should enjoy prosperity for some time to come.

Strong buying has hit some interesting 20th century coins. The **Washington Quarter** series continues to receive attention from dealers. Plus signs are appearing for select early dates in MS63 thru MS66 condition. Dealers want to be prepared for anticipated demand. Many believe that the State Commemorative Quarters will attract new collectors to the coin market. Naturally, some of these collectors will take a greater interest in coins and move to the next level. With their appetite whetted, they will look to collect more than just the Circulating Commemorative Quarters. Some will try to complete the entire Washington Quarter series. Others may graduate to the original Silver and Gold Commemoratives. Some may want to collect the Modern Commems. The combinations are endless. However, almost everyone agrees that it certainly will provide a shot in the arm to the rare coin market.

Dealers have scrambled to buy **Matte Proof Lincoln Cents**. These Cents are true rarities and dealers are willing to pay very strong money for them. Proof Red examples are not easily found. Often, it is common for the price to jump when one appears at public auction. Dealers are offering strong sight-unseen Bids for

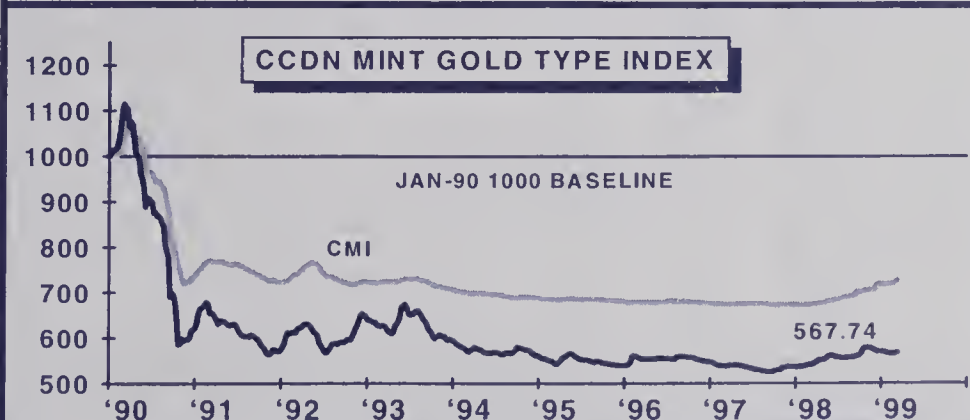

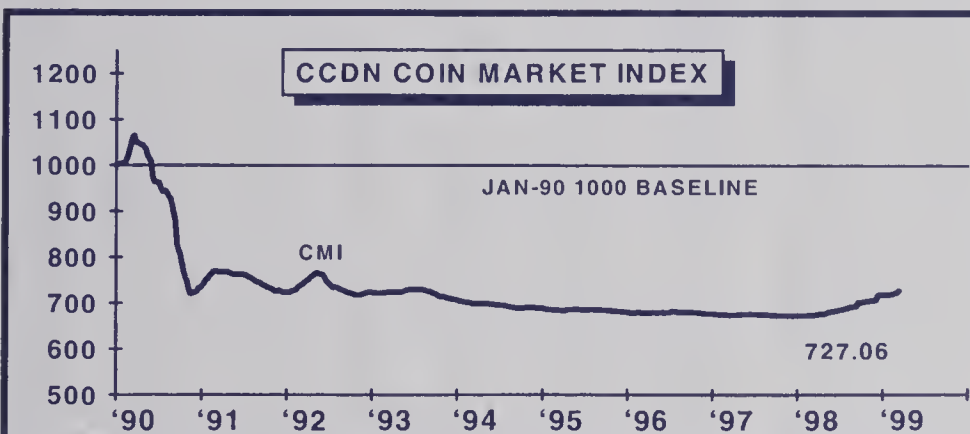

these coins. They are very desirable in Red and Brown condition. Full Red examples that are spot free can garner record money. Because of their rarity, even pleasing chocolate brown examples are sought-after by collectors.

Another area that is experiencing strong demand is for **pre-1840 Type Gold**. Dealers are increasing their Bid for Flowing Hair, Bust and Classic Head \$2.50, \$5 and \$10 Gold. The AU58 grade is popular. Also, we see interest in the low Mint State categories as well. Demand is strong as well-heeled collectors enter the market. The prosperity that exists can only feed this demand in 1999.

Auctions are helping to satisfy the great demand for rare coins. Bowers and Merena are conducting the sale of the collections of Emil Voigt, Sr. & Dr. Wallace Lee. This auction will be held in Baltimore, March 18-20. We have listed some of the many certified highlights.

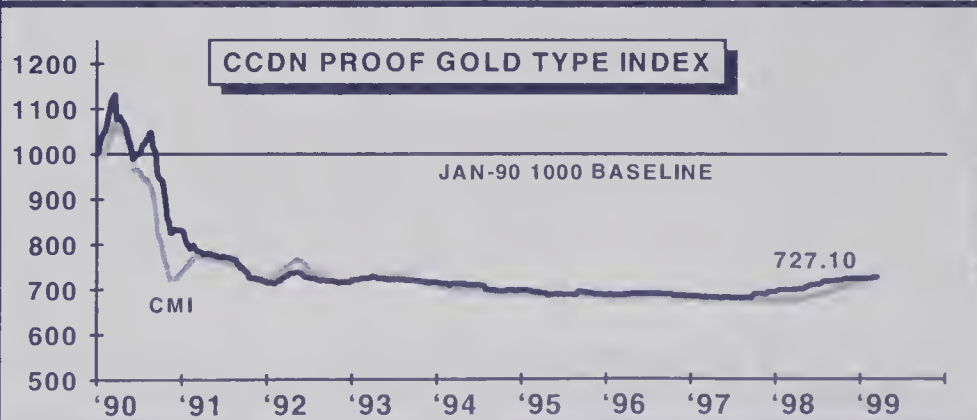

Strong Bidding from the floor helped the Dr. Alfred R. Globus collection and the Estate of Ben Corson auction realize more than \$2.673 million. The sale was held March 9, in New York, by Stack's. It was highlighted by a complete set of four 1879-1880 \$4 Stellas struck in Gold.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

the 1999 N.D.D. will cost you:

☐ \$0

☐ \$15

☐ \$25

The 1999 *Numismatic Dealer Directory* will be printed this month (March delivery). If you are ***not*** a current subscriber to any one of our publications, the *NDD* will cost you \$25. If you are already a serious numismatist and subscriber, you will be receiving your complimentary copy soon — that's right, every subscriber to the *CDN* family of publications receives this indispensable reference — a \$25 value — **FREE**.

Of course, some subscribers aren't satisfied with just one copy, and for those dealers, we make additional copies available for just \$15.

If you have either of these special needs, order now — before the print run — so you can be assured of receiving your copy.

Guess what the smart money pays!

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

ATTENTION ALL COIN DEALERS, WHEELER DEALERS... AND COLLECTORS, TOO! THERE'S SOME MONEY WAITING FOR YOU IN BALTIMORE

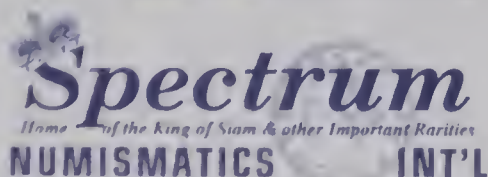

Spectrum Numismatics, the premier buyer of rare coins in this country, desperately needs your Uncirculated pre-1950 coins. Spectrum will do anything within reason to acquire these coins including:

- **Cash On The Spot!** In 1998, we spent millions and millions of dollars purchasing rare coins from dealers and collectors. A lot of people claim to pay top prices but **Spectrum** puts its money where its mouth is and we offer immediate payment.
- **Finder's Fees.** If you bump into a deal and don't want to get involved, you can still make money by helping **Spectrum** purchase the deal. We pay extremely generous finder's fees to anyone who helps us buy coins. In 1998, **Spectrum** paid **\$3,138,339** in finder's fees and commissions.
- **Trades.** We're willing to consider any reasonable trade that allows us to acquire the coins we need to satisfy our coin-hungry clients. If you'd like to trade your rare coins for bullion, other rare coins, or just about anything, there's a high probability that we can arrange a transaction that meets your needs.
- **Funding.** **Spectrum** has money and needs coins. If you have coins and need money, **Spectrum** has numerous financing packages for you.

DO IT FOR THE MONEY!

It's easy to do business with Spectrum

Bull Sight-Unseen Market Continues Mid-Winter ANA — Huge Success!

Interest for sight-unseen rare coins has been, and continues to be very good. We see many dealers actively placing Bids for coins that they need for their customers and inventory. The overall coin market is upbeat. That was the sentiment that most dealers expressed at the American Numismatic Association's National Money Show in Sacramento, CA. Dealers were very enthusiastic as a record near 10,000 people attended the 3-day Show. Dealers said that their customer base is expanding. They see more interest in rare coins for a variety of reasons, one of which includes the added publicity from the release of the Delaware and Pennsylvania Washington Quarters. These circulating Commemoratives have made the public more aware of our nation's coinage. It has stimulated and rekindled interest in collecting for some individuals who once had a "penny" album. Another reason interest in rare coins has increased lately is that many people are concerned about future problems and uncertainty. People that fear the problems that may come about from Y2K warnings are adding some Gold and Silver to their portfolios. Many of them are buying American Eagle Silver Dollars. Consequently, supply has fallen short of this demand, causing the premiums to increase for many Uncirculated Dollars.

There has also been strong demand for Morgan and Peace Dollars. In the sight-unseen market, steady increases have been forthcoming for many MS63 thru MS65 Morgan Dollars. Most often, this demand is targeting the common dates of the series. Collector demand is also alive. Dealers tell us that many individuals are working on Carson City Dollar sets. Dealers need to buy these Dollars and are finding the supply is not able to keep up with the demand, so we have seen many Carson City issues increasing in value. There is similar activity taking place in the Commemorative market. Dealers are trying to buy MS64 and better quality Silver Commemoratives for their customers. Demand for Commems has been very strong for several months. Interest for Type coins is very good. Many collectors are pursuing Type collections. In the process, they try to upgrade or try to expand their goals and increase the number of Type coins in their sets. They would like their sets to be as complete as possible, however, the cost factor is an important consideration. Standing Liberty Quarters are doing well. Dealers have increased Bid levels for sight-unseen Quarters in MS63, MS64FH, MS65, MS65FH, MS66,

MS66FH and MS67. These Quarters have always been popular among collectors. They also are prominent in Type collections.

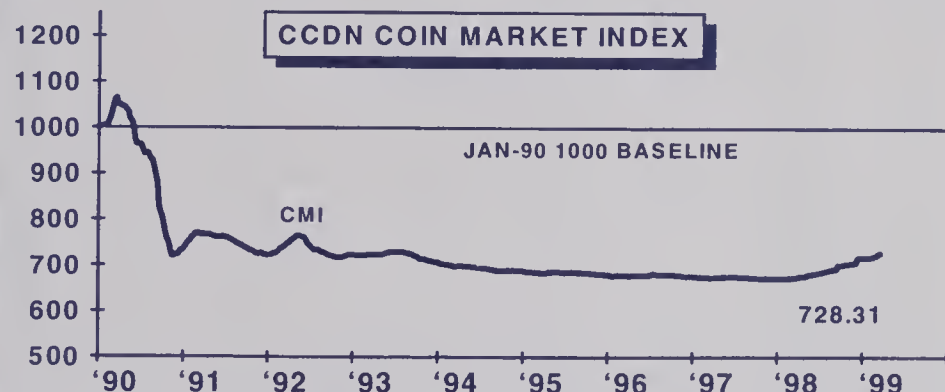

The ANA auction was conducted by Heritage March 11-12. The Sacramento ANA National Money Sale featured the Walter R. Berger Collection and the Henry Brookings collection, Part III. The total realized more than \$3.98 million. There were many highlights, and we have listed a few of the many certified examples.

Heritage also hosted the ANA 1999 Sacramento Bullet Auction of certified rare coins on March 13. The sale realized \$442,822. Highlights include a PCGS 64 1836 Capped Bust Half Dollar, Lettered Edge at \$2,008; an NGC MS64 1894 \$10 Liberty claimed \$1,870; an NGC MS67 1901-O Morgan Dollar brought \$6,160; and, an NGC MS62 1889-CC Morgan Dollar realized \$8,360.

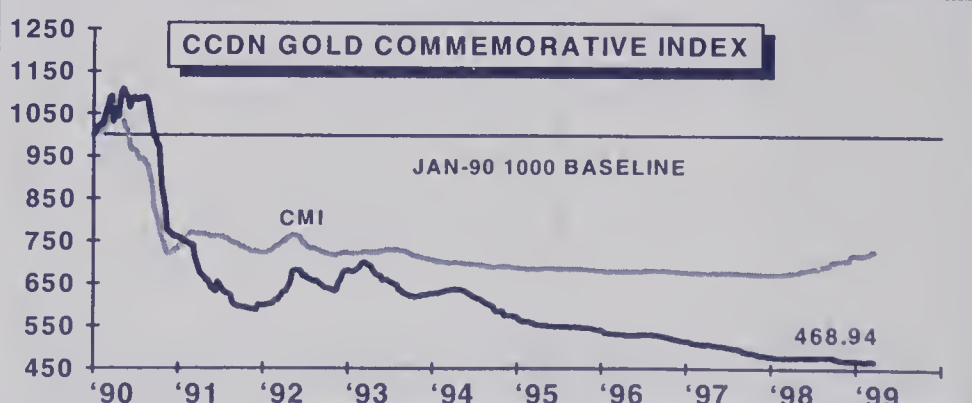

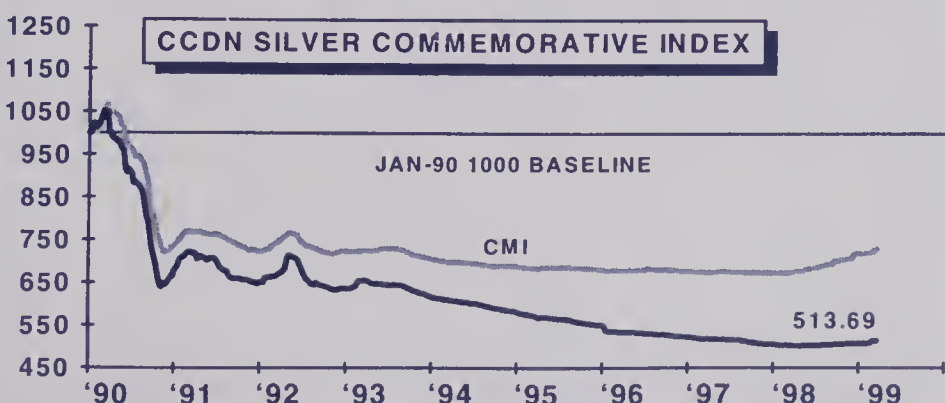

On March 13 in Sacramento, CA Scott Travers conducted a small **Lightning Sale**. A few of the Certified coins that sold are included to the right.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Introducing the New: Official Barter Unit™

The Y2K Silver Company has come up with the perfect hedge for the Y2K investor.

Similar to the U.S. American Eagle Silver Dollar program, the Y2K Silver Company does not sell direct to the public or dealers. The Primary Distributors will sell the OBU's to the dealers.

The OBU's will be marketed aggressively first through a 5200 plus direct mailing to coin dealers then through many full page ads in the Coin Dealer Newsletter for signing up "Authorized Dealers".

Then the Coin Collector trade publications will have full-page ads with a list of all of the "Authorized Dealers". **Contact a Primary Distributor to include your company name in the Nation wide marketing.** These ads will begin the 1st of March.

Y2K Silver Company is also targeting the myriads of Y2K newsletters, marketers and web sites etc...

Finally a deluge of advertising to the general public via print media, radio, billboards etc... All advertising will highlight the web site with an entire roster of "Authorized Dealers"

In our marketing efforts we will point out how OBU's are a vital part of anyone's portfolio for the new millennium.

The OBU's are favorably priced versus other typical Y2K hedges.

To become an Authorized Dealer contact the Y2K Silver Company or a Primary Distributor. (minimum purchase to become an Authorized Dealer and receive all the advertising perks is just a 1,000 piece initial order - no minimum reorder).

Currently the Primary Distributors are wholesaling the OBU's for:

20-999 pieces at spot + \$1.50 each
1000 plus pieces at spot + \$1.30 each (receives Authorized Dealership)
Delivered on 500 pcs.

Currently most Authorized Dealers are retailing the OBU's for:

1-199 pieces at \$9.00 each
200 + pieces at \$2.50 over spot silver
(original mint case lots of 500 pieces shipped postage paid)
Basis \$5.10 Prices subject to fluctuation

How to order the Official Barter Units: Contact us at www.y2ksilvercompany.com or phone us at 1-877-MINT-Y2K or contact a Primary Distributor.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by **Breen** half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by **Sheldon & Newcomb** numbers ❖ Half dimes (1794-1837) by **Valentine** numbers ❖ Dimes (1796-1837) by **John Reich** numbers ❖ Quarter dollars (1796-1838) by **Browning** numbers ❖ Half dollars (1794-1836) by **Overton** numbers ❖ Silver dollars (1794-1804) by **Bowers/Borckardt** numbers ❖ Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare Browning-5 quarter, is highlighted for its rarity and desirability, thanks to VarietyPlus attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

Vol. XIV No. 13

First Quarter Results Strong Dollars, Type Lead The Way

The first quarter of 1999 is in the books. The sight-unseen market has performed admirably. As the quarter ends, we see that dealers are still increasing their sight-unseen Bids. Increases have been observed in many areas of the rare coin market, especially in Type and Dollars. These two segments of the market have been performing well week after week. Morgan and Peace Dollars have been increasing. Dealers have pushed higher Bids for Circulated, common date Dollars. The premiums added to these coins are very high. It seems as if there is an **insatiable** amount of demand for this segment of the Dollar market. We also know that dealers are buying rare dates. Morgan key and semi-key dates are still experiencing strong collector driven demand. Commemoratives and many popular key and semi-key dated 19th and 20th century coins are also doing well. **Dealers need material!** This continues to be the underlying factor for market strength. This need seems to be growing daily. When more and more people enter the rare coin market, it forces dealers to meet the demand by supplying rare coins to their customers. A positive sight-seen market translates into a positive sight-unseen market. Obviously, dealers cannot be at every coin show or convention. Many dealers that operate stores are too busy to attend every show. The daily operation of many of these businesses is accomplished by a small group of professionals. However, even larger rare coin companies suffer if one or two employees are sick. These situations can prevent show travel. This is where the sight-unseen market kicks into high gear. Dealers are trying to buy coins and are willing to offer Bids for many dates and denominations. Sometimes dealers only Bid sight-unseen even for very rare coins or coins that sell for 4 and 5 figures. Often, these Bids are significantly above the previous high sight-unseen Bid. We have seen some of these strong Bids for Morgan Dollar keys and Gold. Dealers need coins, and that is why they are willing to do whatever it takes to satisfy this demand.

Many dealers attended the March 19-21 Suburban Washington-Baltimore Coin & Currency Show. Most of the dealers said that the show was **very strong**. They are encouraged by the market and happy with the strong public atten-

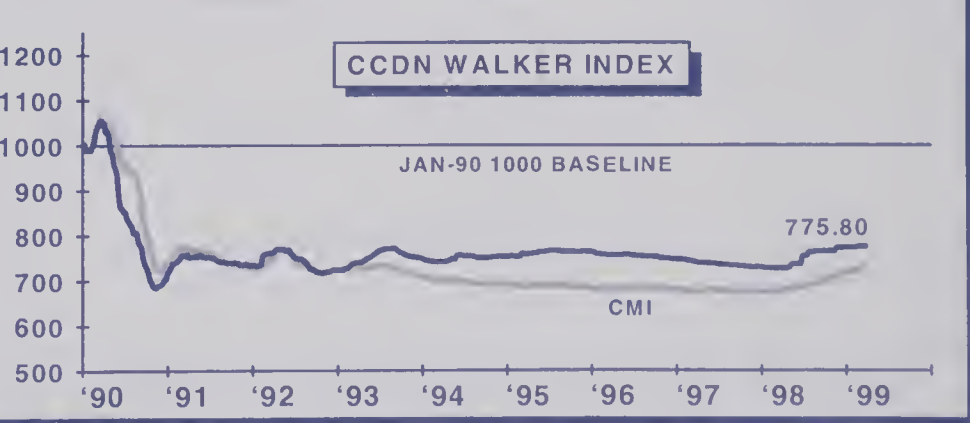

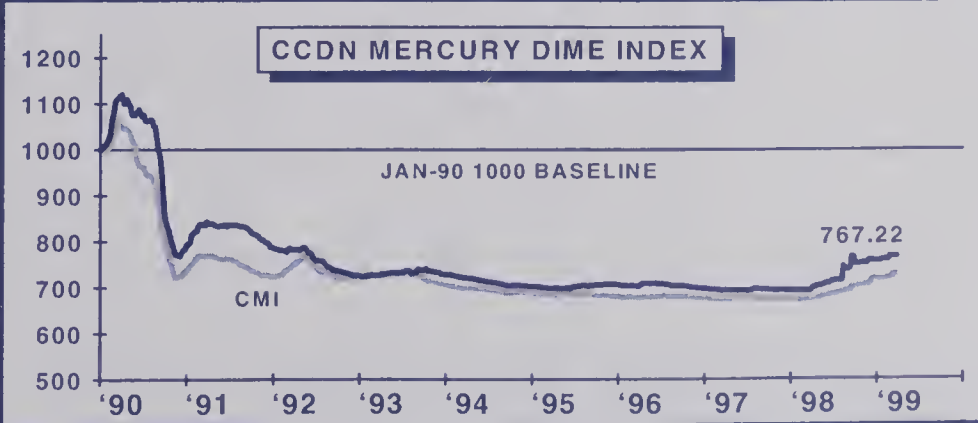

dance at the show. The public was busy looking to buy rare coins for a variety of reasons. Many dealers saw new faces in attendance. Dealers are very optimistic about the coin market and its immediate future. The Washington-Baltimore show is growing; the number of dealers at this show has increased. One dealer believes that the reason for Baltimore being a strong show is its geographical location. Public traffic comes from many eastern states: from Connecticut and New York in the North, to Virginia and North Carolina in the South.

Bowers and Merena conducted an auction in conjunction with the Baltimore Show. This sale realized approximately \$3.735 million. It featured the Emil Voigt, Sr. & Dr. Wallace Lee collections. We have listed a few of the many certified highlights below.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN albeit on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sellist.com, Low, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (*month* old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

CCDN does not represent that it is possible to purchase selected coins at the Bid price. Certain sight-seen trades can be expected to occur at substantially higher levels in many cases.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

GSA Carson City Dollars In Demand ICG and SEGS Gaining Respect

Dealer-to-dealer trading in the sight-unseen market has been active. It seems as though the rare coin market has been cruising on automatic pilot for the last few weeks. Dealers are trying to buy material to satisfy their customers. One area that has been realizing increased activity and prices is Carson City Morgan Dollars. We know that many collector/investors are working on complete sets. Dealers tell us that many of these buyers are financially secure enough to pay strong money. Dealers are buying those Dollars that are in their original government holders offered by the General Services Administration. Dealers are increasing Bids for these Dollars almost every month — for example, common date 1882-CC thru 1884-CC GSA Dollars are now needed at \$75 by at least one dealer. Other dealers are found readily Bidding from \$67 thru \$73. Scarce date GSA "CC" Dollars are also in demand. The key 1879-CC has crossed the \$2,000 level, while the difficult to find 1890-CC and 1891-CC have each crossed the \$600 level. Many of these dealers are looking to buy each date in quantity, even at these higher price levels. Dealers are trying to satisfy the strong collector demand for these government released Morgans.

Type has been, arguably, the strongest segment of the rare coin, sight-unseen market. Many collector/investors believe that buying rare coins by Type is an easier and more affordable way of adding some rare coins to their portfolios. Collectors also enjoy putting together Type collections because it allows them to own many different designs and denominations, which makes for an excellent display for family and friends.

Looking at the landscape of professional numismatic third-party grading services, we see that two upstarts are already beginning to make their mark in 1999. The Independent Coin Grading Company, ICG, and Sovereign Entities Grading Service, Incorporated, SEGS, have begun certifying, grading and authenticating rare coins. Each believes that it has fulfilled a market void by its service. Each has shown some early success with their services.

The Georgia based company, SEGS, believes that a coin's variety and error designations are very important to collectors. Consequently, SEGS offers expert grading, authentication, designations and attributions of variety and error for each coin that they encapsulate. They do this with the assistance of some of the coin industry's error and variety specialists. "Sovereign" specialists have been consultants, authors, researchers, speakers and educators in the hobby. Some of their offers include a new innovative capsule (with top label viewing), built-in security and consensus forum grading.

Based in Colorado, ICG emphasizes that they are unbiased: first, with anonymous submissions by accepting coins through a third-party receiving service and second, by not allowing any employees/owners to buy or sell rare coins. ICG also returns coins that do not warrant a grade without a fee (except a \$5 processing charge). Recently, the *Certified Coin Exchange* (CCE) started allowing dealers to Bid sight-unseen on ICG coins. Also, we note that *Teletrade* is now accepting ICG slabbed coins in its auctions.

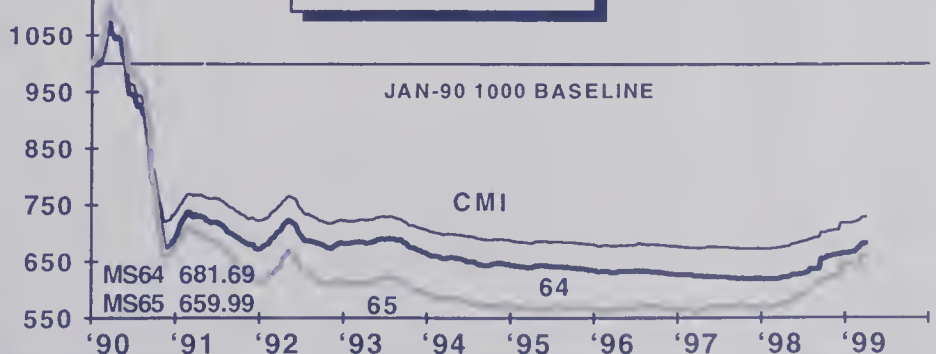

The *Certified Coin Dealer Newsletter*, "Bluesheet," is monitoring the daily trading activity of these two new grading services. We are interested in their development and growth. Dealer and collector/investor demand for these slabs are important to us. We look for regular trading activity of these slabs on the bourse at coin shows. We are watching to see these coins on the electronic dealer networks, in advertisements, at public rare coin auctions and in dealer-to-dealer (wholesale) as well as dealer-to-collector/investor (retail) transactions. We will report on these two new services as dealer and collector/investor demand and activity increases.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Introducing the New: Official Barter Unit™

The Y2K Silver Company has come up with the perfect hedge for the Y2K investor.

Similar to the U.S. American Eagle Silver Dollar program, the Y2K Silver Company does not sell direct to the public or dealers. The Primary Distributors will sell the OBU's to the dealers.

The OBU's will be marketed aggressively first through a 5200 plus direct mailing to coin dealers then through many full page ads in the Coin Dealer Newsletter for signing up "Authorized Dealers".

Then the Coin Collector trade publications will have full-page ads with a list of all of the "Authorized Dealers". **Contact a Primary Distributor to include your company name in the Nation wide marketing.** These ads will begin the 1st of March.

Y2K Silver Company is also targeting the myriads of Y2K newsletters, marketers and web sites etc...

Finally a deluge of advertising to the general public via print media, radio, billboards etc... All advertising will highlight the web site with an entire roster of "Authorized Dealers"

In our marketing efforts we will point out how OBU's are a vital part of anyone's portfolio for the new millennium.

The OBU's are favorably priced versus other typical Y2K hedges.

To become an Authorized Dealer contact the Y2K Silver Company or a Primary Distributor. (minimum purchase to become an Authorized Dealer and receive all the advertising perks is just a 1,000 piece initial order - no minimum reorder).

Currently the Primary Distributors are wholesaling the OBU's for:

20-999 pieces at spot + \$1.50 each
1000 plus pieces at spot + \$1.30 each (receives Authorized Dealership)
Delivered on 500 pcs.

Currently most Authorized Dealers are retailing the OBU's for:

1-199 pieces at \$9.00 each
200 + pieces at \$2.50 over spot silver
(original mint case lots of 500 pieces shipped postage paid)
Basis \$5.10 Prices subject to fluctuation

How to order the Official Barter Units: Contact us at www.y2ksilvercompany.com or phone us at 1-877-MINT-Y2K or contact a Primary Distributor.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Early Gold Shows Impressive Gains Capped Bust, Draped Bust Gold In Demand

Positive outlooks are translating into a positive market direction. Dealers continue to be **optimistic** about the rare coin market, despite the weakness in the precious metals market. Dealers are encouraged by the strong public turnout at coin shows and the strength expressed at public auctions. The sight-unseen market is performing admirably. We see strong dealer support for professionally graded, certified and slabbed coins that trade sight-unseen via the electronic dealer networks. Demand has been strong in 1999 and continues to maintain its levels in April. Many segments of the market are enjoying robust demand as dealers try to accumulate quality coins for their customers and inventories.

Early Gold is experiencing strong demand. Plus signs are numerous for sight-unseen coins grading AU58 thru MS63. Dealers know how rare these coins are and understand the collector/investor desirability of them. Specifically, Quarter Eagle and Half Eagle Capped Bust, Capped Draped Bust, Capped Head and Classic Head Gold are hot. Additionally, \$10 Capped Bust, Small Eagle and Heraldic Eagle Gold is sought-after by collector/investors. Mainly, dealers are looking for coins that are nearly problem-free with a degree of eye appeal. Coins that are in better than average condition for the grade receive a premium, while those that are average command strong, solid Bids. While all early Gold is scarce, common date early Gold is easily placed with collector/investors. Well-heeled investors are willing to put together Type sets of early Gold. Dealers are interested in satisfying this demand as quickly as possible and find it necessary to increase their Bids for Gold in the sight-unseen market. Naturally, scarce dates and varieties are bought as well. Dealers hope that supply is able to keep up with the increasing collector/investor base chasing these coins.

Bids are jumping for Gold. We see that \$100 and more increases are becoming more commonplace when it comes to early Gold. For example, 1821-1827 \$2.50 Capped Head, Large Diameter jumped \$140 in About Uncirculated 58. The \$2.50 Capped Head, Small Diameter coins were higher in AU58, MS61 and MS62. Strength was also apparent among \$5 Half Eagles. Demand seemed to be the strongest for this popular Gold denomination. \$5 Draped Bust, Large Eagle increased in AU58 thru MS62. \$5 Capped Bust was higher in MS63 as well as some of the lower grades. Increases were also evident for \$5 Capped Head, both Large and Small

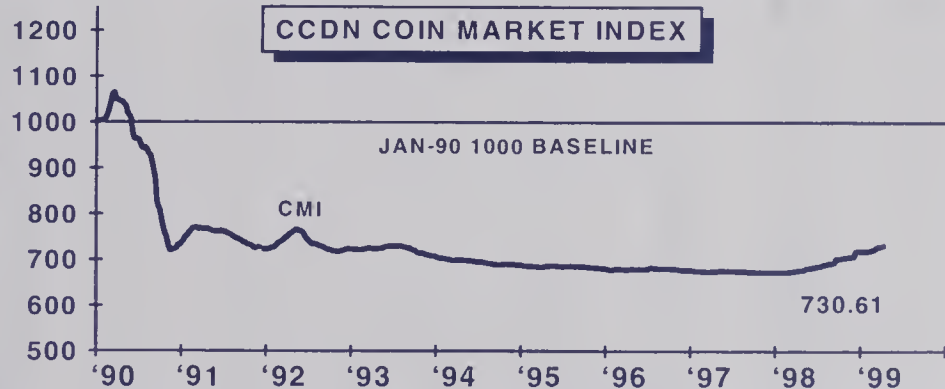

Planchet. Finally, \$5 Classic Head saw demand push Bids higher in grades from AU58 thru MS63. \$10 Early Draped Bust from 1795-1804 vaulted higher as well. Demand was seen for \$10 Small Eagle and

\$10 Large Eagle. Among the \$10 Large Eagle Gold, sharp jumps in the Bid were established for MS61 and MS62.

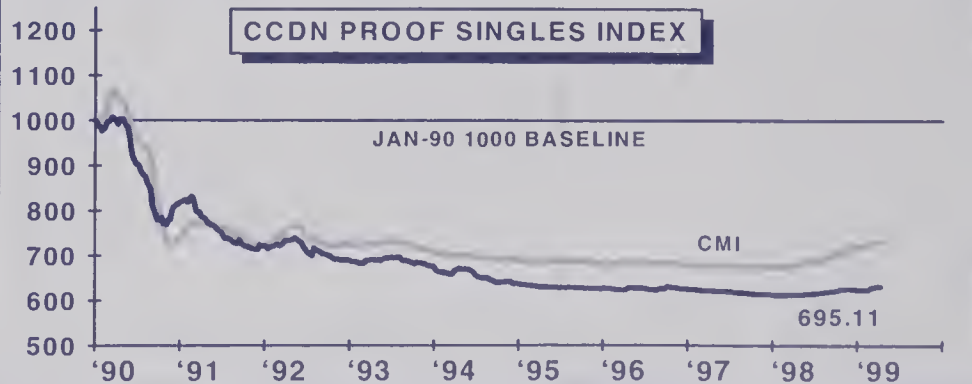

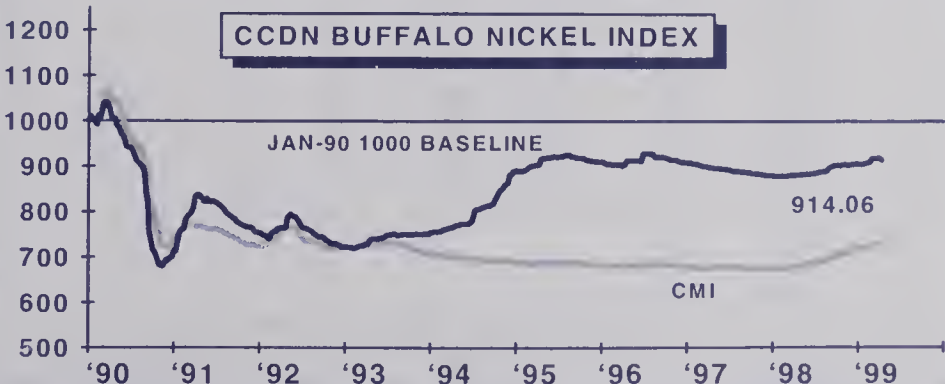

The accompanying chart offers insight into this specialized market. Looking at the movement of early Gold since April 10, 1998, we see some **dramatic** advances. One quick glance at the percentage gains during this period provides a convincing argument for solid early Gold demand. Some significant increases in the sight-unseen Bid for early Gold have occurred because of the strong economy during the past year. Investors in the financial markets have chalked up sizable profits. In turn, these investors have decided to enjoy their prosperity by buying quality Gold Type coins. The chart suggests the dealers' need to supply these customers. It is also apparent that early Gold is heavily sought-after in AU58 as well as the low Mint State grades.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

DO IT FOR THE MONEY!

WHY THE KING OF CASH

(OFTEN IMITATED, BUT NEVER OUTBID!)

**DESPERATELY NEEDS TO PAY YOU
OUTRAGEOUS PRICES FOR YOUR COINS...**

When it's time to sell your coins, there's only one question that needs to be answered.

- It doesn't matter who's the largest company.
- It doesn't matter who has the biggest inventory of coins.
- It doesn't matter whether your coins are sold at auction, directly to a dealer, or a combination of the two.

THE BOTTOM LINE IS HOW MUCH MONEY YOU PUT IN YOUR BACK POCKET!

The only question that needs to be answered is, "How can you sell your coins for the maximum amount possible while maintaining the highest possible comfort level in the speed of sale and payment procedure?"

In the United States rare coin market the answer to that question is very simple. Time and time again, at both public auction and in direct dealings, Spectrum Numismatics pays absolute top dollar for coins while buying the broadest possible types of material... everything from million dollar rarities to ten dollar generic coins. And nobody pays faster than Spectrum.

SPECTRUM MUST PAY YOU MORE THAN ANYONE ELSE.

Here's the secret, when it comes to buying your coins. Spectrum has no choice. Spectrum needs to spend a minimum of \$8,000,000 per month to satisfy its coin-hungry clients. Spectrum must either buy your coins or lose their clients. That's why Spectrum can pay you more than any other rare coin dealer. There's no catch. The reason is as simple as that. If Spectrum wants to stay in business, it must be one of the top buyers of United States rare coins, in all price ranges.

TOP BUYING POWER - THE ABILITY OF A FIRM TO BUY ALL OF YOUR COINS

It can be easy to sell one or two coins. It can be easy to sell your highest grade coins or your rare coins. It's a bit more complicated to sell all of your coins. The major mistake that most collectors make when disposing of their collection is they don't ask enough money for their great coins and they ask too much money for their mediocre coins. They usually sell their great coins immediately and are stuck with the bottom of the barrel. What makes sense is to sell to a firm who needs a broad base of coins. A firm that's comfortable buying a coin for \$100,000 or \$10. Spectrum is willing to buy virtually any pre-1950 Uncirculated U.S. Coin.

When you deal with Spectrum Numismatics, you can take comfort in the fact that you are selling to the absolute top buyer for rarities and someone who will buy all of your coins in all price ranges. But there's a lot more.

WHAT'S IN IT FOR YOU

When you sell coins to Spectrum Numismatics you get the following benefits every time:

1. Absolute top dollar for your coins. This is not a shallow claim. The facts clearly show that Spectrum Numismatics is the number one buyer for rare coins.

2. Ultra fast payment. Spectrum Numismatics can pay you any way you choose...you can have a check, you can have a bank wire, you can deliver the coins, or you can mail them. Any way you want to handle the transaction is O.K. with Spectrum and will be handled as quickly as you desire.

3. Ultra efficient service aimed to make it as easy as possible for you to sell your coins. If you would like a Spectrum buyer to visit you at your convenience, all you have to do is call Spectrum collect any weekday and talk to one of our buyers. In fact, Spectrum is so desperate to buy your coins, we'll even pay the price of your shipping the coins - whether or not you decide to sell them to Spectrum.

You have to have this hot list of 44 coins destined for gains! And you need to know the 44 secret losers that could send you to the poorhouse!

Two winners on the cover: An 1804 Draped Bust silver dollar (left) which sold at public auction for \$1,815,000 and a 1913 Liberty Head nickel which sold at public auction for \$1,485,000

Scott Travers' Top 88 Coins Over \$100 44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ R.W. Julian, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by Ed Reiter, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In *The Top 88*, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- Independent third-party grading
- The age of type coins
- Opinions relating to what coins are "losers"
- A list of coins that are "winners"
- Why every coin listed has something to like and something to dislike
- One-year type coins
- Generic Morgan dollars
- Commemorative coins
- Mint-error coins
- Uncirculated late-date coins
- Late-date proof sets from 1968 to date
- Marketplace data and expert opinions on every listed coin
- Meticulously researched historical information

Dear Keith,

The Certified Coin Exchange is pleased to announce that it has accepted ICG graded coins for sight-unseen trading.

We believe that the reputation of the management and grading staff at ICG, as well as the enthusiastic support that has been expressed to us by the CCE Member Firms, are strong indicators that the ICG will be a successful grading service on the Certified Coin Exchange.

ICG Guarantee

ICG guarantees that all coins submitted to its grading service will be handled and graded with the highest standards of professionalism and integrity. Any Customer may resubmit any coin for review of the grade assigned by ICG if such Customer believes that such coin has been overgraded by ICG. If the coin submitted for review by a Customer receives a lower grade under ICG's internal review practices than the grade originally assigned, ICG shall, at ICG's option, either (a) replace the coin or (b) pay any difference between the current fair market value of such coin at the newly established grade and the current fair market value of the grade originally assigned to such coin. The fair market value shall be determined solely by ICG. From time to time, ICG will receive certain Pedigree Coins, Important Rarities or coins where the identity of the owner has been well publicized or well known throughout the numismatic community. Although ICG may be able to assume the identity of such owners, ICG reserves the right to grade such coins under ICG's standard practices. This ICG Guarantee shall not apply to: (a) any clerical error with respect to the description or grade of the coin which would be reasonably noticed upon inspection; (b) any copper coins submitted due to their particular susceptibility to oxidation; (c) any coins subjected to improper storage conditions (extreme temperatures or extreme conditions) and (d) any coins not encapsulated by ICG.

Please do not send coins until you receive your Submission Kit!

Central States Show Nears

Strong Sight-Unseen Bids Paying Off

With the Central States Show on the horizon, we see select demand for sight-unseen rare coins. Dealers are willing to Bid above current levels to buy the coins that they need to fill customer orders. We believe that the strong Bids we have seen week after week are starting to receive increased action. Sellers are more interested in completing transactions at current levels. Consequently, minus signs are entering the charts, and dealers are able to buy some coins. This is probably a very healthy sign for the bull market. However, if more selling pressure enters the market, prices may continue to fluctuate. The Central States Convention will be held April 22-25 in Milwaukee. This Show attracts many dealers and collector/investors from all over the country.

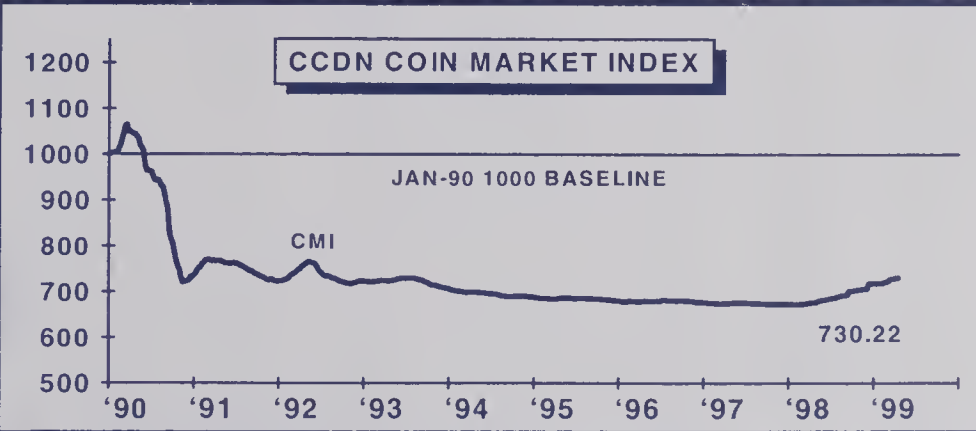

We notice that the Standing Liberty Quarter market is doing very well. Interest for these coins, in the sight-unseen market, was evident in last month's activity, and we see a continuation of this uptrend in the current month. Demand is strong for the NGC and PCGS certified and slabbed coins. Increases are occurring in Type 1 and Type 2 Standing Liberty Quarters. Dealers are looking for MS63 thru MS66 coins. They also want the well-struck Full Head examples. Bids are increasing for MS64FH thru MS66FH issues. Many dealers are looking for common dates of the series. However, we know that the scarce dates of this series are also receiving strong demand. There has not been much discounting occurring for these dates as we know dealers are willing to support the current levels for many of them. Also, we notice that the strength in Bidding for NGC common date Quarters this month has matched the Bids we have seen for similarly graded PCGS examples. A similar scenario is taking place in several areas of the market that we track. Most Bidders are looking to acquire coins that represent excellent value. Moreover, some dealers are trying to buy NGC coins at what they believe to be an attractive price.

The chart depicting the \$20 Saint-Gaudens series tells a different story. There appears to be weakness occurring in several dates. These minus signs are appearing for high-grade, MS65 thru MS67 examples. Demand for these scarce Double Eagles has not abandoned the series. Rather, dealers are cautiously Bidding, sight-unseen, for coins for which mistakes can prove rather costly. We know that demand is strong for correctly graded rare date Gold. We also realize that the

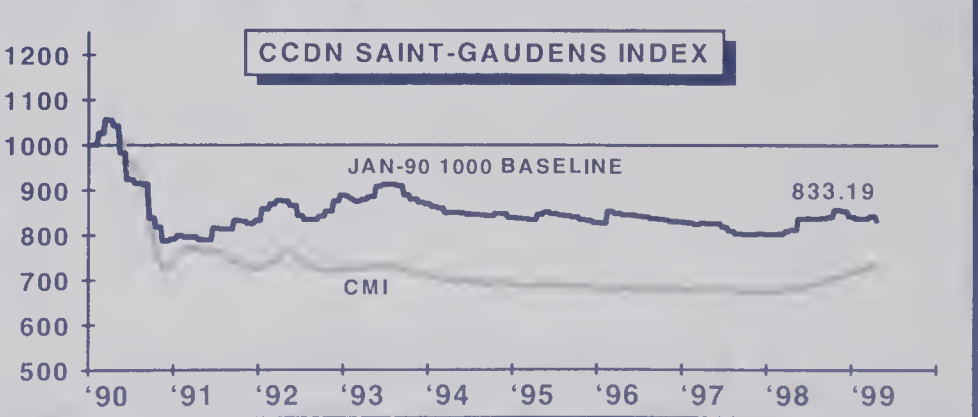

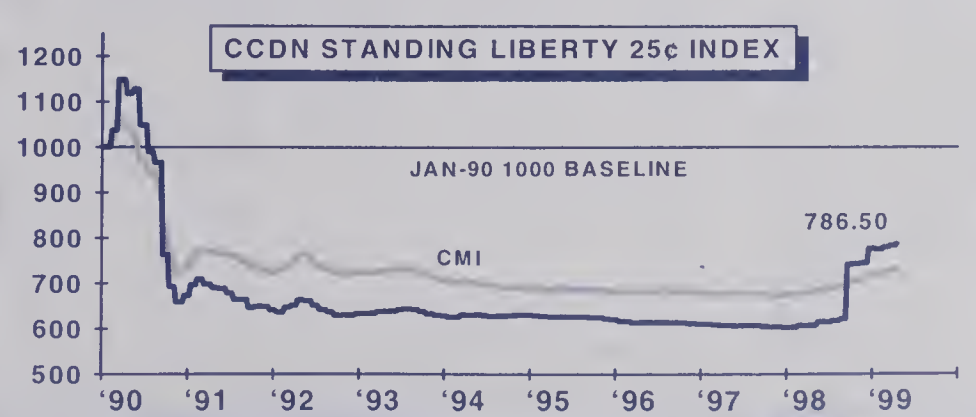

number of well-heeled collector/investors is increasing. Dealers are constantly looking for Mint State rare date Saints, and as this need increases, so will prices.

Heritage will host this year's Central State Show auction. Their signature sale will feature selections from the collections of Waldo E. Bolen, Jr. & Ernest J. Palmerston. We have listed a few of the many certified highlights from that sale.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

IF GREEN (AS IN CASH) IS YOUR FAVORITE COLOR IN THE SPECTRUM . . .

Then **Spectrum Numismatics** is the rare coin company to see if you have coins to sell, a trade to make, a deal to finance, or a collection to buy that's momentarily beyond your means. **Spectrum** offers you:

*IMMEDIATE PAYMENT.

You get the money **now!** You can absolutely count on a bank wire or a same-day check if the transaction is done by mail. If we do a deal at a show, or at your office or ours, or at a financial institution, you'll receive your money on the spot. No transaction is too large for **Spectrum!**

*TOP PRICES.

Everyone can say it, but we're the ones who pay it. The largest price ever paid for a single coin was paid by **Spectrum**. The largest price ever paid for a private rare coin holding was paid by **Spectrum**. That includes **all** transactions in the history of numismatics through August, 1998. **All** of them.

*GENEROUS FINDER'S FEES.

In 1997 alone **Spectrum** paid \$3,065,845 in finder's fees and commissions. If you find a rare coin deal that's too large, too complicated, or one you don't want to get involved in for any legitimate reason, you don't have to leave the money on the table. Call **Spectrum!**

*FAIR TRADES.

Want to trade bullion for rare coins? How about rare coins for bullion? What about rare coins for other rare coins? Whatever your situation and needs, **Spectrum** is willing to work out a deal, and there's a high probability that we can get the deal done.

*MARKET KNOWLEDGE.

When you deal with **Spectrum**, you deal with numismatic professionals. We have the knowledge that covers the spectrum, whether it's a collection of early United States rarities, a hoard of pre-1950 20th century coins, or a large and diverse holding in all areas of the market. We are interested in buying. Period.

*FINANCING PACKAGES.

What does it take to get the deal done? Every situation seems to be unique in some way, and **Spectrum** has financing packages tailored to your needs.

If you have rare U.S. coins...any uncirculated pre-1950 U.S. coins...pick up the phone and call (949) 955-1250, to get your piece of the action and your share of the cash!
Call collect and tell them you want to talk to the *King of Cash*.

Before VarietyPlus...

A very nice
type coin.

NGC's VarietyPlus grading tier certifies & grades all of these-varieties...

Half cents by **Breen** half cent numbers (from his *Half Cent Encyclopedia*) ❖ Large cents by **Sheldon & Newcomb** numbers ❖ Half dimes (1794-1837) by **Valentine** numbers ❖ Dimes (1796-1837) by **John Reich** numbers ❖ Quarter dollars (1796-1838) by **Browning** numbers ❖ Half dollars (1794-1836) by **Overton** numbers ❖ Silver dollars (1794-1804) by **Bowers/Borckardt** numbers ❖ Silver dollars (1878-1921) by **VAM** numbers (Top 100 varieties only) ❖ All varieties in *The Cherrypickers' Guide* and *The Cherrypickers' Top 150* (except ones designated by the authors as "low interest") ❖ All varieties in the "Red Book" (*A Guide Book of United States Coins*).

After VarietyPlus...

The same coin, a rare Browning-5 quarter, is highlighted for its rarity and desirability, thanks to VarietyPlus attribution. Bottom Line: An added value for collectors!

Are you missing a desirable variety attribution for your certified coins? Why not highlight this popular variety with-NGC's VarietyPlus tier, instead of leaving it off for the next dealer to discover? For only an extra \$5 per coin, you can have variety coins like this rare quarter attributed, graded, and encapsulated by NGC, the ANA's Official Grading Service and the consistent leader in third-party grading.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Central States Show Underway "Mr. 1796" Auction Upcoming

With the Central States Convention in Milwaukee already in progress, the sight-unseen market has slowed down a bit. However, it has not shut down completely. Still, we do see many Bidders actively participating on the electronic dealer networks. The sight-unseen market seems to be **consolidating**. Do not be misled because there are plus signs appearing throughout many sectors of the market. What stands out is that they are just not as numerous. For example, in the Morgan Dollar series, we see several select dates being discounted at auction. These coins are still changing hands and in demand but at somewhat reduced levels. There are still many collectors working on date sets of Morgan and Peace Dollars. This group is actively buying Dollars and willing to upgrade their collections when the opportunity becomes available. Consequently, lesser graded coins are offered back to the dealer in trade. These coins can then be placed with other collectors, become part of the dealer's inventory, or sold, often via auction.

We know that the interest in sight-unseen rare coins is solid. Dealers tell us they still need coins, and this need appears to be increasing. They are especially looking for fresh material. One area of the market that has been a **fairly steady** performer throughout the year has been Buffalo Nickels. This series has been a collector favorite for many years. The undeniably rich American theme abounds on the obverse and the reverse. The Native American and Bison are symbolic of our early beginnings when our nation was young. Collectors enjoy the challenge of completing this relatively short series. This design and denomination was struck from 1913-1938. Although it is a short series, it is not short-changed when it comes to key and semi-key dates. Buffalo Nickels have

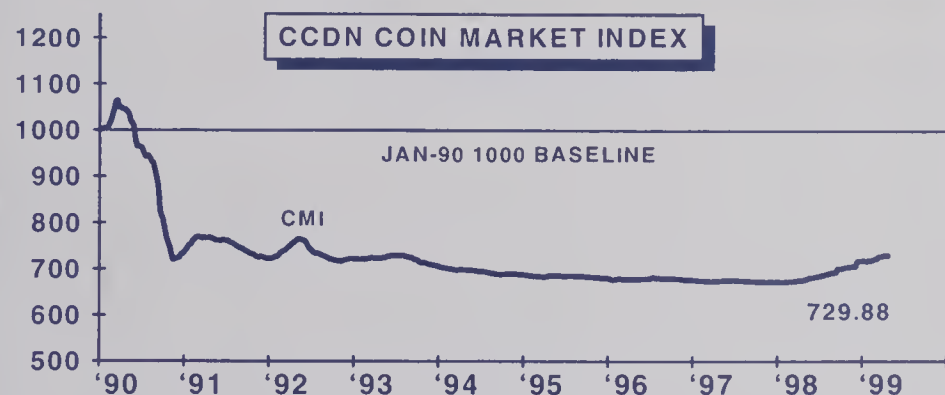

more than their fair share of rarities. Besides the usual tough Denver and San Francisco Mint dates, the overdates provide ample challenge for the collector. Consequently, dealers need to keep their inventories at a level that can supply their customers. The interest for Buffalo Nickels is further seen by looking at the CCDN Buffalo Nickel Index. On January 1, 1999, the Index for Buffalo Nickels stood at 905.57. Our April 23, 1999 index is 915.43. This represents a considerable gain in only the first four months of the year. Similarly, the overall CCDN Coin Market Index has advanced to 729.88 in the April 23 issue. The increase is sizable when compared to the 718.32 that appeared January 1. This index depicts the sight-unseen market for certified coins to be extremely healthy.

After the Central State Convention, many dealers will be heading southwest to Phoenix. Shows occur frequently at this time of year. Dealers need to make the show circuit to keep up with a fast changing market. The Arizona Coin Expo will be held April 29 thru May 1. The Show will feature 200 tables and an auction by New World Rarities.

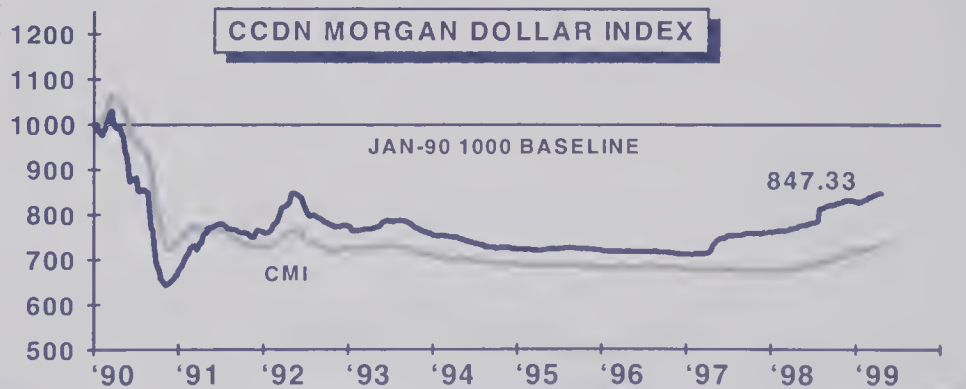

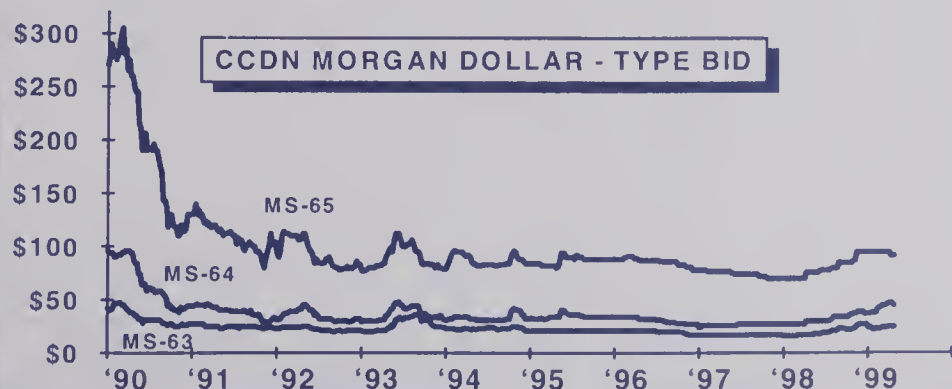

Stack's is hosting the auction of "Mr. 1796"—The John Whitney Walter collection and the Herman Halpern collection of 18th, 19th and 20th century U.S. coins. The sale will be held in New York May 4-5. As none of the 1796 Walter coins and varieties are certified and encapsulated, we have listed a few certified highlights from the Halpern collection.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing *last month*; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Now you can learn a lesson about the new coin market. Without losing a mint.

The Coin Collector's Survival Manual – Revised Third Edition by Scott A. Travers

**BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN
BUYING AND SELLING FOR AS LITTLE AS \$14.95.**

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business editor, **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably. This thoroughly revised edition examines the coin field from an insider's perspective and continues to

break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped of if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

Order your copy of *The Coin Collector's Survival Manual - Third Edition*. 220 pages, dozens of sharp illustrations. For the price of \$14.95, you can make a mint.

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

The right choice for the unique Amazonian gold pattern set was NGC.

The Amazonian Gold Patterns... the rarest, most desirable pattern set in the world.

For consistent, accurate and impartial grading of the unique Amazonian gold pattern set, the right choice was NGC. For years, NGC has been the choice of more collectors and dealers than any other grading service.

The more choices you have in grading services, the more important it becomes that you can trust your choice. That's NGC.

Sight-Unseen Demand Evident

Dime Sets Record At Heritage Auction

Now that the Central States Show in Milwaukee is history, the sight-unseen market becomes the vehicle of choice for many dealers buying and selling rare coins. Most dealers have concluded a successful Central States Show. Although some thought it was a bit slow, they are still satisfied with the state of the market and the levels at which rare coins are trading. The need for coins is unending. Dealers are still looking to buy coins that remain on, or have been added to their customers' want lists. The difficulty they have encountered at the Central States Show and in the current market is finding the specific needs of their customers. There appears to be a shortage of original, fresh material, a sentiment that is echoed by many dealers. It is this perceived shortage that has some dealers feeling that their show, at Milwaukee, was just so-so. Meanwhile, other dealers found bargains and interesting coins not on their buying lists that they added to their inventories.

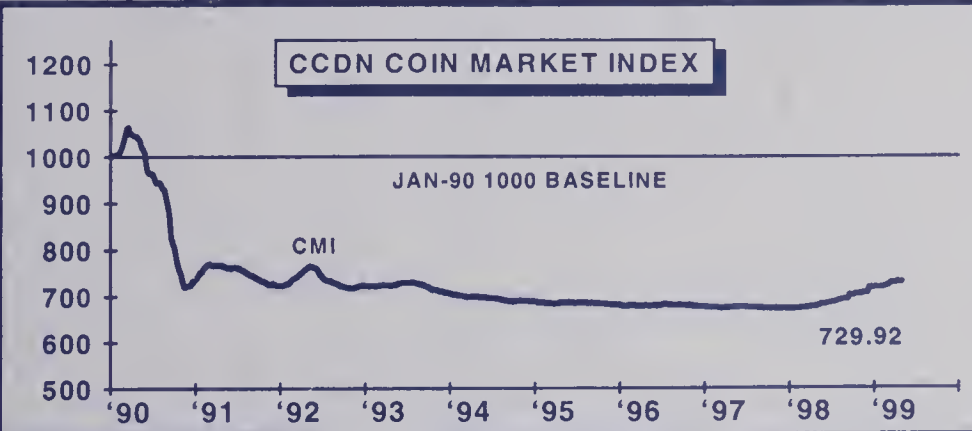

Where is the origin of all this demand? Dealers have clients who are building various collections. Many collectors choose to specialize in certain areas of the market. These are sophisticated and knowledgeable collectors. Some of them are buying Gold. We see that rare date \$20 Liberty's are bringing strong money at public auction. Collectors want to buy Carson City and San Francisco Mint \$20 Liberty's. We see interest in all three Types of \$20 Liberty's. They prefer to buy Gold that is certified by one of the professional grading services. Dealers are looking to buy these slabbed rarities, and the public auction route seems to be the best way to accomplish this task. They also take a stab, now and then, by placing strong Bids on the electronic dealer networks. However, more often than not, these strong Bids go unfulfilled. The rarity of these coins is known by many dealers and it is difficult to find available examples. Many of these scarce dates have already been taken off the market. Well-heeled, savvy collectors have bought these dates over the last few years and are financially able to hold these coins indefinitely. However, we do see the possibility of lesser grade examples hitting the market after a collector has upgraded a specimen because some of

the these collectors are trying to buy the finest quality of each date that they can find. Condition Census and finest know examples seem to always have a special appeal to collectors.

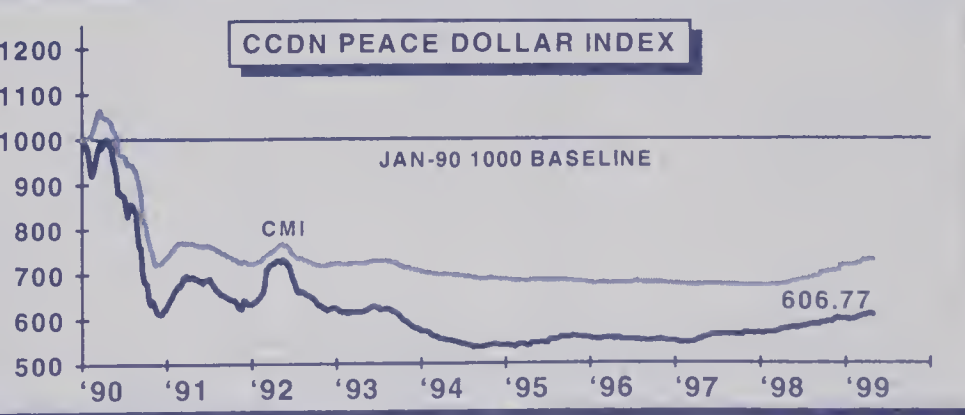

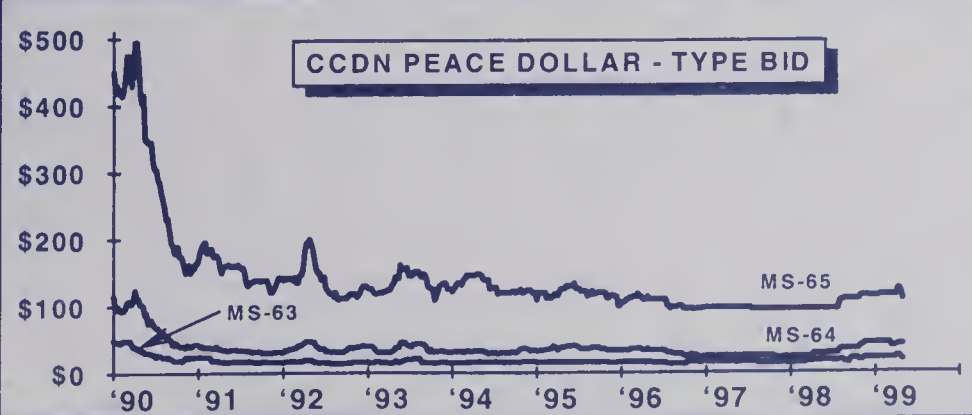

We see that Buffalo Nickels are receiving increased demand in the sight-unseen market. The Buffalo Nickel series has always been extremely popular among collectors. Dealers try to stock a reasonable group of these 20th century Nickels. Collectors are rather fussy when it comes to Buffalo Nickels. They try to buy examples that are problem-free, well struck and have a clear date. There are many key and semi-key dates in this series to make completing a set very challenging. This week, the series has plus signs appearing in the MS63 column. Mint State 63 Buffalo Nickels are popular because of their affordability and availability. Above MS63, the price really starts to jump. Well-struck MS65 and better Buffalo Nickels are highly sought after and appear less frequently.

Heritage conducted the Central States Numismatic Society auction featuring selections from the collections of Waldo E. Bolen, Jr., and Ernest J. Palmerston. The sale realized more than \$3.369 million. This total included a world record price for the unique 1873-CC Liberty Seated, No Arrows Dime. This occurred during the sale of the Bolen 1873-CC coinage. We have listed a few of the many certified highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers and are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Solid Market Maintains Momentum

Record 4.2 Million For "Mr. 1796" 96-Coin Collection

The sight-unseen market continues to strengthen. Steady increases have been occurring throughout the series. As you can see by the Certified Coin Market Index (CCMI) bar graph below, as compared to the CCMI of one year ago, nearly every series is up. In the past, we would see just a single series heat up with increased attention, then attention would shift to another series. That's not the case today. Yes, some series are definitely doing better than others, but only Gold Commemoratives are losing. With virtually every series doing well, buyers are comfortable in purchasing other types of coins outside of the current set they are assembling. This new attitude from collectors has placed pressure on dealers to routinely update their inventories. Dealers continue to out-bid one another on the electronic networks in hopes of just that, increasing their inventory. Several dealers have even posted new, higher Sight-Unseen Bids in place of their Sight Bids. The demand from customers attempting to complete sets is almost overwhelming for some dealers. Because of this widespread demand, obtaining new material is one of the major problems facing most dealers today.

With so many new collectors entering the market, it's tough to keep them satisfied with new coins. Some collectors will begin their collection by attempting to complete a small set, such as Gold Type. Even though there are only 16 coins, excluding the High Relief, it's a real challenge. Most collectors will start by purchasing lower grade, Uncirculated certified coins, such as MS61, and then upgrade as their pocketbook warrants. Dealers must be prudent in locating these coins once they learn of the collection being attempted. With some coins having very low population numbers, the difficulty in acquiring them increases. For example, the \$3 Indian Princess has a combined PCGS and NGC population of only 1,386 in MS61; 2,199 in MS62; 1,691 in MS63; 1,490 in MS64; 466 in MS65; 148 in MS66 and 23 in MS67. Once you consider that the total population is somewhat inflated due to re-submitting and crossovers, the total number available becomes even lower. As the quality of the coin increases, the population decreases. Therefore, even

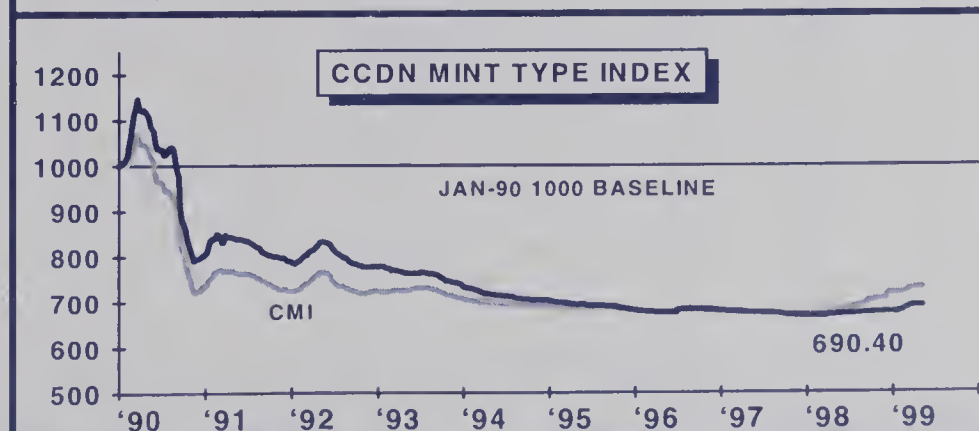

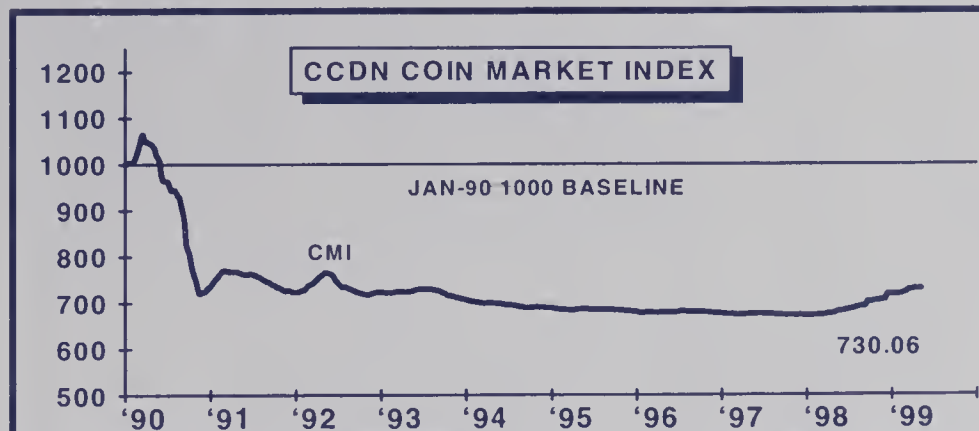

fewer collectors would be able to have this coin in his or her collection. Upon comparing the Mint Gold Type Bids on page 4 to the populations above, you see can that Bid substantially increases as the population decreases. This limited supply, coupled with current increased demand, constitutes a very healthy market.

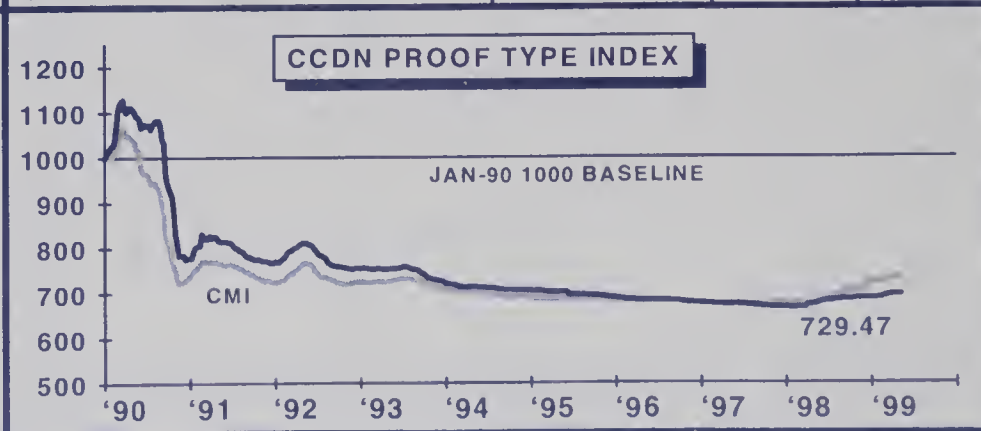

Stack's completed the auction of the John Whitney Walter "Mr. 1796" collection on May 4th. The auction room was packed with anxious dealers, several with standing room only. Each of the 96 coins in the collection was projected for all to see as the Bidding took place. This increased the excitement in the room. The sale concluded with roaring applause and a total hammer of over \$4.2 million!

Kingswood Coin auctions concluded their ninth auction April 29, with a total of 575 lots bringing \$860,724. A few of the prices realized are listed herein:

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Now you can learn a lesson about the new coin market.

Without losing a mint.

The Coin Collector's Survival Manual – Revised Third Edition by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$14.95.

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business editor, **NEWSWEEK**

"One of the most important coin books ever written." - **The New York Times**

"Should be read before a single coin is bought - and read again and again!" - **Coin World**

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably. This thoroughly revised edition examines the coin field from an insider's perspective and continues to

break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy

- Selecting and testing a coin dealer
- How not to get ripped off if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

Order your copy of *The Coin Collector's Survival Manual - Third Edition*. 220 pages, dozens of sharp illustrations. For the price of \$14.95, you can make a mint.

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

There is a reason why NGC is the world's leading certification company.

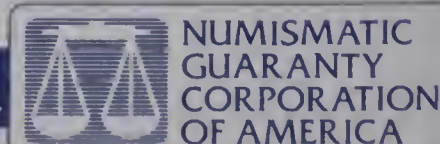

- NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the MCMVII Ultra High Relief PF-69 Saint Gaudens Double Eagle and the finest known 1799/8 Draped Bust Large Cent.
- NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance. That's NGC.

Matte Proof Lincoln Cents Soar

Bass Collection Part I Realizes \$6.68 Million

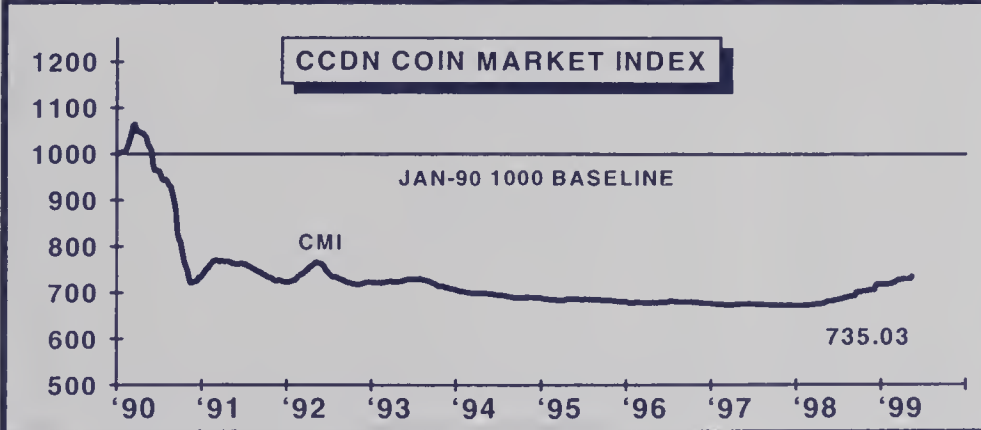

The market for sight-unseen coins is healthy as we approach mid-May. Dealers are actively pursuing coins for their customers on the electronic dealer networks, via fax and auction. These needs are the same needs that have been around the last couple of years. We know that as more collectors enter the market, dealers will be in serious need of coins to supply them. The collector base is expanding because this country is still enjoying the prosperity of favorable economic conditions. We also know that many financially secure individuals are diversifying some of their assets into the rare coin market. As the demand grows, so do prices and the need for fresh, original material. When available, this material is realizing exceptionally strong Bids from dealers.

The strength of the sight-unseen market is easily seen when you look at the increases for Matte Proof Lincoln Cents. These early Lincoln Proofs are currently realizing very strong demand. Many buyers believe that these coins are still undervalued. The general demand for early Proof date sets has also contributed to this demand. Consequently, the price is left with no alternative but to sharply increase. Buyers are looking for nice quality Cents that have few spotting problems. The 1909 VDB Lincoln Cent is especially difficult to locate in Matte Proof. Offers have reached the \$7,000 level, sight-unseen, for Proof 65 Red examples. 1909 Lincoln Cents, the first year of issue, are being aggressively sought-after by dealers. Precipitous increases have occurred in grades Proof 63 RB and better. Scarce Proof Lincoln Cents, such as the 1911, 1912, 1915 and 1916, have also displayed strong gains. Strong sight-unseen Bids have been occurring in Proof 65R and better condition Cents. In PR65R, Bids have jumped to \$5,500 for a 1912 and \$7,000 for 1916. Strong advances in this grade were even seen for the 1911 and 1915. We know that dealers are ready to spend strong money for these dates in PR66R and better condition. There are

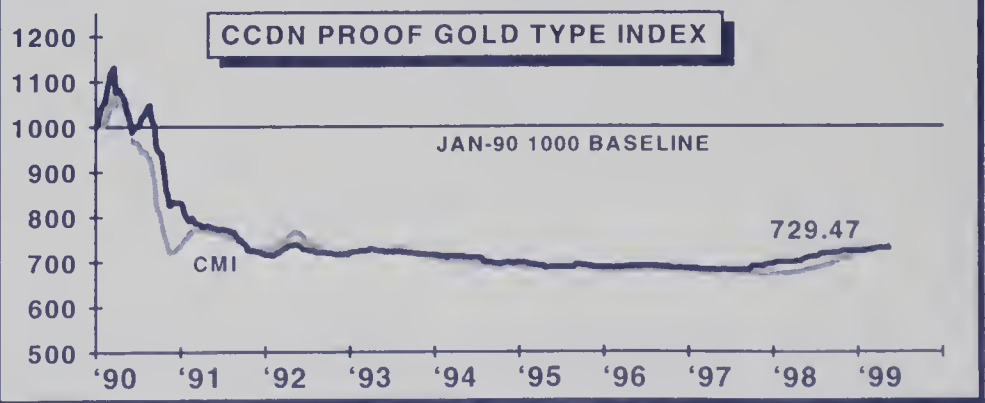

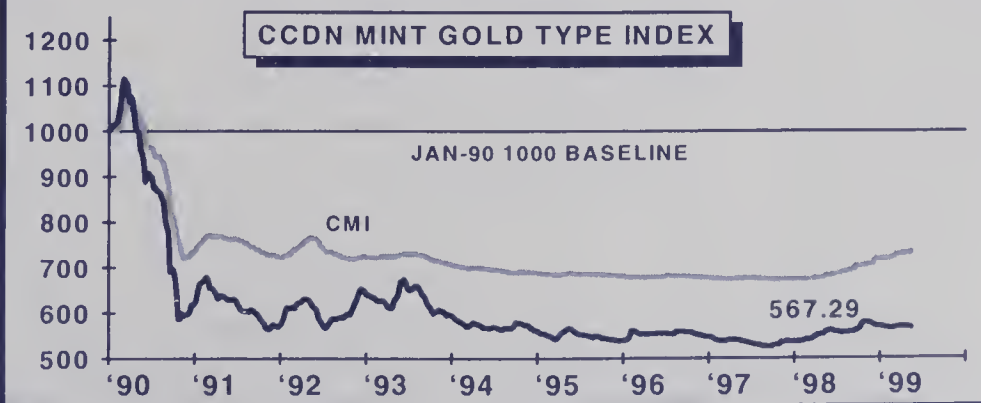

many serious collectors actively putting together Proof date sets, and some of them want all the denominations, including Gold. A sight-unseen Bid of \$27,000 has been offered for the rare 1916 Lincoln Cent in PR67R. In this lofty condition, it has a combined NGC and PCGS population report of just one. If we look at examples grading PR65RB and better, we still only count 55.

Portions of the Harry W. Bass, Jr. collection became available on May 7-9 in New York. Bowers and Merena offered Part I at public auction to a hungry crowd. This is the first of three parts. In all, the Bass collection set many records as paper money, patterns, medals and coins crossed the block. The initial sale realized over \$6.68 million. Bass had a discerning eye for coins. Armed with a generous budget, he acquired many important coins, notes, tokens and other numismatic related items over several decades. He was an administrator of two non-profit foundations. One in particular targeted the rare coin hobby. The Harry W. Bass, Jr. Research Foundation was designed to allow collectors and dealers an opportunity to advance scholarship and research in United States coinage. Work was accomplished among coin literature, patterns and Gold.

Sight-unseen Bids are continuously forthcoming during public sales. We know that Bidders use their catalogs and rely on the descriptions to formulate their Bids. Often, one of the third-party grading service grades is the only source of reliable information for the prospective Bidder. The need to acquire rare coins, and the interest in saving time, allows for increased sight-unseen Bidding. Another chance for buyers will take place on June 8-10. Stack's will conduct an auction featuring selections from the Dr. Alfred R. Globus collection. The sale will be held in New York City. It will offer rare date Gold and other U.S. coins and paper money, with the U.S. selections beginning June 9.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

PL Dollars may be semi-reflective with less reflectivity than the deep mirror Prooflike.
Bids for PL's are usually much lower than for DMPL's but command some premium over non-PL strikes.

IF YOU HAVE COINS TO SELL... WHETHER IT'S A \$2,000,000 1804 DOLLAR OR A \$30 COMMON DATE MORGAN DOLLAR

The only strategy that makes sense...is to call the *King of Cash* **before** you actually sell your coins.

Nobody spends more money buying U.S. coins from collectors and investors like yourself than Spectrum Numismatics! And the nice thing about Spectrum is we desperately need to buy all of your coins. That's why our name is Spectrum...we buy it all.

IT'S EASY TO DO BUSINESS WITH SPECTRUM

Spectrum Numismatics desperately needs your coins. Its coin-hungry clients have a huge appetite for Uncirculated pre-1950 U.S. coins. Spectrum has no choice. They must buy your coins or lose their clients. That's why 67% of all Spectrum purchases are from coin dealers. The professionals, the people in the know, the people who make their money buying and selling coins, sell them to Spectrum. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan/Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially COMPLETE COLLECTIONS!

SPECTRUM IS DESPERATE FOR YOUR COINS

The best time to sell is when you have a willing buyer, and nobody is more willing than Spectrum to trade some cold hard cash for your coins. Our customers are screaming for coins. We estimate that we need to spend \$100,000,000 this year to satisfy the needs of our clients. Check out Spectrum's "*King of Cash meter*." So far this year, we've spent \$23,984,002. We need your help in order for us to be able to satisfy our clients and purchase the necessary \$100,000,000 worth of coins this year. If you have any Uncirculated pre-1950 U.S. coins for sale, there's only one strategy that makes sense. Before you sell any coins, call Spectrum. You can contact the Spectrum buyers any weekday between 8:00 a.m. and 5:00 p.m. California time. Just tell them you want to talk to the *King of Cash*.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at Long Beach, June 3rd thru 6th. Spectrum will be there for one reason and one reason only....to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have Uncirculated coins to sell and want to realize the highest possible price for your coins, then you should go to Tables 510 & 613 at Sacramento. Tell them you want to speak to the *King of Cash*.

Introducing the New: Official Barter Unit™

The Y2K Silver Company has come up with the perfect hedge for the Y2K investor.

Similar to the U.S. American Eagle Silver Dollar program, the Y2K Silver Company does not sell direct to the public or dealers. The Primary Distributors will sell the OBU's to the dealers.

The OBU's will be marketed aggressively first through a 5200 plus direct mailing to coin dealers then through many full page ads in the Coin Dealer Newsletter for signing up "Authorized Dealers".

Then the Coin Collector trade publications will have full-page ads with a list of all of the "Authorized Dealers". **Contact a Primary Distributor to include your company name in the Nation wide marketing.** These ads will begin the 1st of March.

Y2K Silver Company is also targeting the myriads of Y2K newsletters, marketers and web sites etc...

Finally a deluge of advertising to the general public via print media, radio, billboards etc... All advertising will highlight the web site with an entire roster of "Authorized Dealers"

In our marketing efforts we will point out how OBU's are a vital part of anyone's portfolio for the new millennium.

The OBU's are favorably priced versus other typical Y2K hedges.

To become an Authorized Dealer contact the Y2K Silver Company or a Primary Distributor. (minimum purchase to become an Authorized Dealer and receive all the advertising perks is just a 1,000 piece initial order - no minimum reorder).

Currently the Primary Distributors are wholesaling the OBU's for:

20-999 pieces at spot + \$1.50 each
1000 plus pieces at spot + \$1.30 each (receives Authorized Dealership)
Delivered on 500 pcs.

Currently most Authorized Dealers are retailing the OBU's for:

1-199 pieces at \$9.00 each
200 + pieces at \$2.50 over spot silver
(original mint case lots of 500 pieces shipped postage paid)
Basis \$5.10 Prices subject to fluctuation

How to order the Official Barter Units: Contact us at www.y2ksilvercompany.com or phone us at 1-877-MINT-Y2K or contact a Primary Distributor.

There is a reason why NGC is the world's leading certification company.

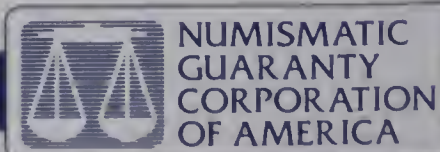

- NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the MCMVII Ultra High Relief PF-69 Saint Gaudens Double Eagle and the finest known 1799/8 Draped Bust Large Cent.
- NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance. That's NGC.

Auctions Dot The Numismatic Landscape High Grade Saint-Gaudens Desired

Demand for sight-unseen coins is strong. The need for so many coins makes it necessary to Bid more frequently on the electronic dealer networks. Dealers tell us that the collector base is expanding. We also see record attendance figures being set at major shows and conventions around the nation. We hear that many auctions taking place across the country have standing room only in the auction room. With all this said, it is easy to see why the rare coin market is **robust** and why the sight-unseen market continues to generate many plus signs.

The \$20 Saint-Gaudens series has always been a favorite among collectors and investors alike. We see dealers willing to increase their Bids for select \$20 Saints. The 1907 High Relief has traded at a high premium for many years, and it continues to impress dealers. Even though many of the MS61's and MS62's are lower, demand for this attractive, well-struck coin continues to maintain its strength in higher grades. Plus signs are appearing for High Reliefs in Mint State grades from 63 thru 65. Supporting Bids are also being posted for MS66 examples. The plus signs in the \$20 Saint-Gaudens series are **heaviest** among MS63 thru MS65 issues. Dealers are in strong need of specific dates for their customers and are willing to pay more to buy these dates. Some of the dates needed include the 1908 With Motto; 1908-D With Motto; 1909-D; 1909-S; 1910; 1910-D; 1910-S; 1911; 1911-D; 1911-S; 1912; 1913; 1913-D; 1913-S; 1914-D; 1914-S; 1915-S; 1916-S; and, 1926-S. You will notice that many of these dates, found near the middle of the series, are somewhat scarce and much more difficult to locate, compared to the most common dates of the series. In some cases, dealers are willing to pay a strong percentage above the previous high sight-unseen Bid because they need the coin and cannot satisfy their customers or make a sale until they find one. A few examples of these strong Bid jumps include the

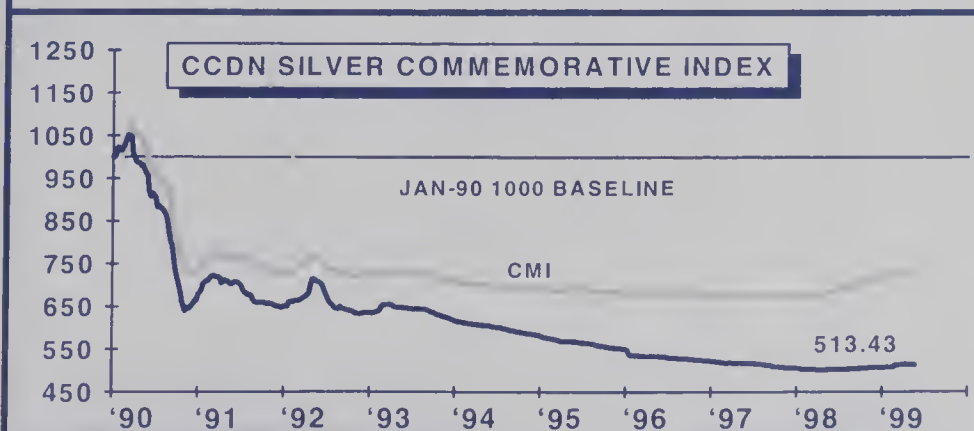

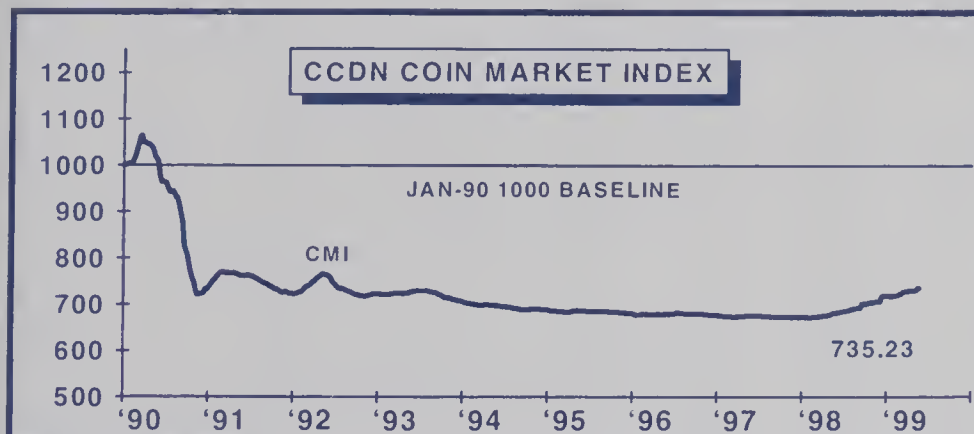

MS65 1909-S, now Bid at \$4,100 sight-unseen, up from a previous high Bid of \$3,760; and, a 1908 With Motto in MS64 now sought after at \$2,600, up from a previous high Bid of \$2,300. We know that there are many sophisticated and knowledgeable collector/investors working on sets of \$20 Saint-Gaudens. Type collectors also enjoy adding a couple of these Double Eagles to their portfolios.

Auctions are in full force these days. Bowers and Merena will conduct the S.S. Brother Jonathan Treasure and the Chesapeake collections in Los Angeles, May 29-30. A surprising quantity of high-grade, certified Gold should shake up the population reports. Highlights include the **San Francisco Mint** \$20 Double Eagles from 1855-1865.

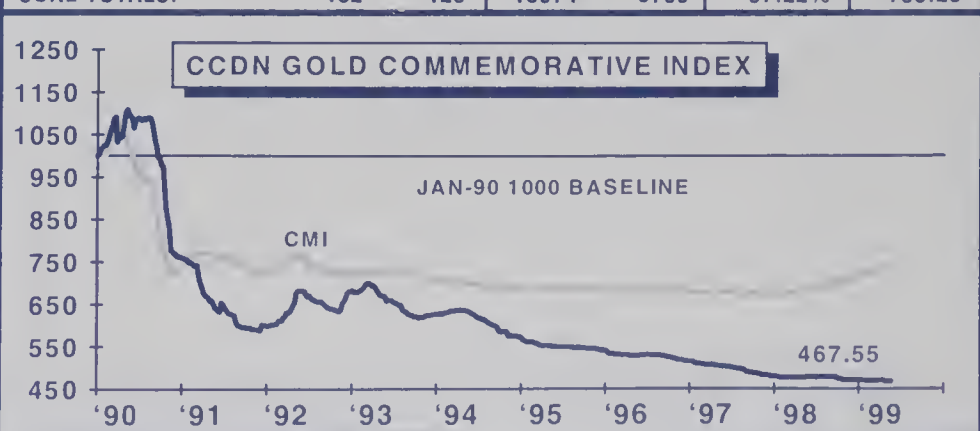

Superior Stamp & Coin offers the June Pre-Long Beach sale, a 4-session auction featuring the Hudson River Valley collection of Choice Type thru Rare Gold. The Berkshire collection is also available. The auction will be held May 31 thru June 1 in Beverly Hills. A few certified highlights include an NGC XF40 1794 Liberty Cap Cent, **Starred Reverse**; an NGC MS61 1797 Draped Bust Half Dollar; and, a PCGS PR66 1879 Flowing Hair Stella, \$4 Gold.

Ira & Larry Goldberg will auction the Dr. Richard Ariagno collection on May 31 thru June 2 in Los Angeles. Among the many certified highlights include a PCGS MS63B 1793 Liberty Cap Half Cent, C-3; a PCGS XF40 1798 \$5 Capped Bust, Small Eagle; and, a PCGS PR67 1907 \$20 Saint-Gaudens **Ultra High Relief**.

Rocky Mountain Coin conducted an auction May 15 in Denver realizing more than \$600,000. **Rare Gold** brought strong prices. A few certified highlights include a PCGS MS64 \$10 Indian, Wire Edge at \$37,400; a PCGS MS66 High Relief Saint-Gaudens at \$66,000; and, an NGC MS64 1915-S \$50 Pan-Pac Expo Commem, Round realized \$63,800.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

OFFER YOUR CLIENTS THE OPPORTUNITY TO PROFIT FROM PLATINUM

PLATINUM GUILD INTERNATIONAL CAN HELP YOU.

Why Platinum?

You want to offer investments that can make money for both you and your clients. Worldwide platinum demand has risen 73% over the last decade. Meanwhile, supplies are limited: The only major platinum producers are South Africa and Russia. Platinum offers the traditional benefits of a precious metals investment, plus unique profit potential due to its irreplaceable industrial applications and scarce supply. And, as of January 1, 1999 platinum bullion coins and bars are eligible for inclusion in Individual Retirement Accounts.

What is Platinum Guild International (PGI)?

PGI is an international trade association dedicated to creating awareness of platinum as a dynamic investment opportunity. This is accomplished through coordinated public relations, marketing and advertising campaigns as well as investment seminars.

How can PGI help you?

If you are already actively marketing platinum coins and bars, we can help you increase sales. If you wish to begin selling platinum PGI can help you implement a targeted platinum marketing program. Because PGI is available to assist your marketing efforts, your cost of doing business may decline.

PGI offers the following:

- Full color marketing materials
- Timely market information
- Special market updates and comprehensive research reports
- Weekly platinum investment newsletter you can send to clients
- Daily market commentary
- Platinum Video Information

PGI IS YOUR MARKETING RESOURCE.

Dealers Optimistic About June Expo Mercury Dimes In Demand

Many dealers will be heading to Southern California to participate at the Long Beach Expo. This is one of our country's major coin and collectible shows, held three times a year. Most dealers are optimistic about the market as they prepare for the Long Beach Expo, June 2-6. They will be taking with them some inventory as well as customers' want lists. Dealers have told us that the collector base is expanding. This is good news for the hobby, but it can also present some problems. Dealers need to be prudent when trying to buy and sell coins in today's fast-changing market. One important reason is the replacement cost of placing a coin. The time it takes to locate another may be considerable. Once a dealer places a special rare coin with a customer, it may remain off the market for many years because of the bull market atmosphere. Quality is in demand. For dealers, the no-problem, better dates are usually at the top of the list of coins to buy. Dealers know they may have to pay more for a coin of this caliber. However, they also know that today's knowledgeable collectors are willing to increase their dollar allocation for premium quality rare coins. Long Beach usually delivers by realizing the high expectations that dealers place on this show.

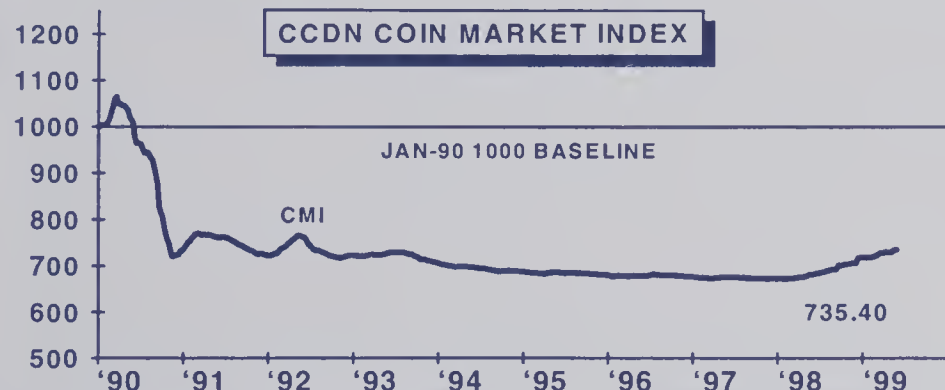

The sight-unseen rare coin market is benefiting from a strong sight-seen market. Increasing demand for coins, combined with an expanding collector base, provides fuel to the sight-unseen market. Dealers are in need of rare coins. This trend has become clearly evident. They have want lists and general inventory needs they would like to fill. As their number of clients increases, so does their need to find more appropriate coins. Consequently, the sight-unseen market, via the electronic dealer networks, becomes an excellent vehicle necessary to satisfy this need. Activity and Bids are increasing as dealers turn to this avenue for coins.

One series that has seen activity in the sight-unseen market is the

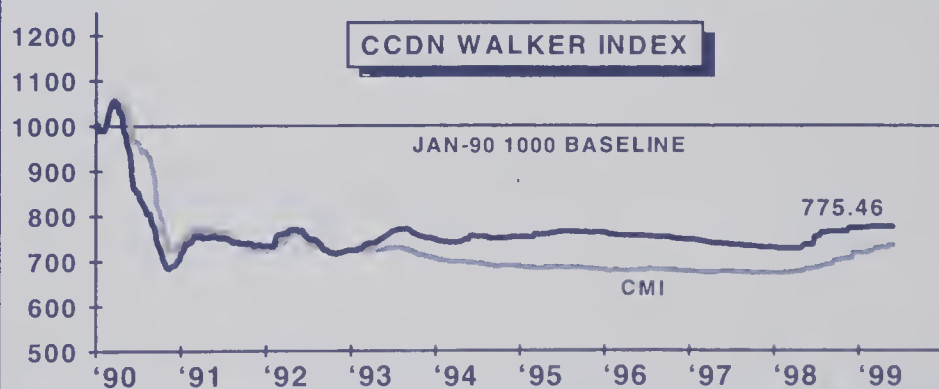

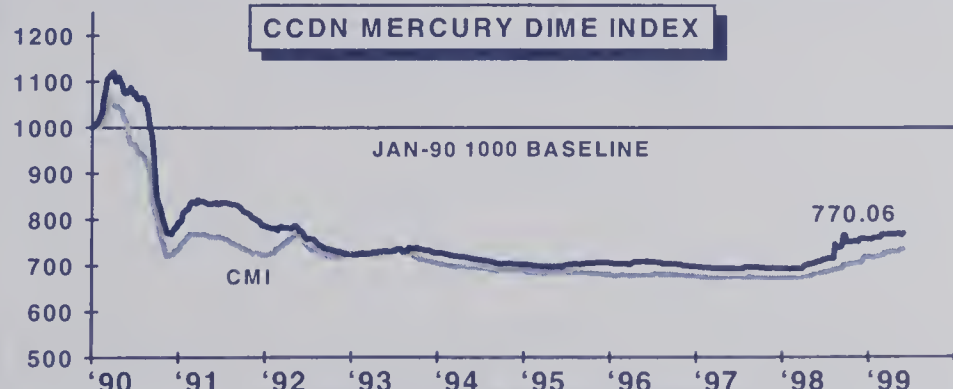

Mercury Dimes. This series is popular with many collectors. It begins in 1916, a transitional year as Barber Dimes were also struck during 1916. From beginning to end, this series provides excitement and challenges. Even the last year offers a fun variety with the Microscopic "S" Mint-mark. Initially, the 1916 Denver became a key date, sought after by all Mercury Dime collectors. Other key dates of the series include the 1921 and 1921-D. The scarcity of these two dates has been known for years. Collectors also enjoy the attractive designs and challenge of finding other scarce and rare dates that abound throughout the series. The overdates of 1942/1 and 1942/1 Denver always seem to receive attention from collectors. These two dates sell for a premium in all Circulated grades as well as the Uncirculated category. High-grade Mercury Dimes are especially needed as collectors build quality Uncirculated sets. The rarity of this series becomes more magnified when you try to find better dates in grades MS66 and better that have **Full Bands**. Many dates are considered scarce when the Full Band requirement is added to the criteria. Dealers know it is difficult to find several dates of the series that possess brilliant, white luster along with Full Bands. Several dealers are willing to increase Bids, hoping to buy some of these rarities for their customers. Specific dates and grades are on dealers' want lists. We have included just a small sample of that demand. Obviously, dealers are willing to pay strong, sight-unseen money for the following dates in high-grade:

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing *last month*; "lt" Trade appearing *last month*; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

IF YOU HAVE COINS TO SELL... WHETHER IT'S A \$2,000,000 1804 DOLLAR OR A \$30 COMMON DATE MORGAN DOLLAR

The only strategy that makes sense...is to call the *King of Cash* **before** you actually sell your coins.

Nobody spends more money buying U.S. coins from collectors and investors like yourself than Spectrum Numismatics! And the nice thing about Spectrum is we desperately need to buy **all** of your coins. That's why our name is Spectrum...we buy it all.

IT'S EASY TO DO BUSINESS WITH SPECTRUM

Spectrum Numismatics desperately needs your coins. Its coin-hungry clients have a huge appetite for Uncirculated pre-1950 U.S. coins. Spectrum has no choice. They must buy your coins or lose their clients. That's why 67% of all Spectrum purchases are from coin dealers. The professionals, the people in the know, the people who make their money buying and selling coins, sell them to Spectrum. Nobody pays more...nobody pays faster...nobody makes it easier for you to sell your coins.

While Spectrum is the nation's top dollar buyer of ultra-rare United States coins, Spectrum is also the major buyer for all United States numismatic coins. Here's a short list of some of the items that the King of Cash is currently interested in buying: ALL gold coins, original BU bags of Morgan/Peace Dollars, BU rolls of Walking Liberty Halves and Mercury Dimes, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially COMPLETE COLLECTIONS!

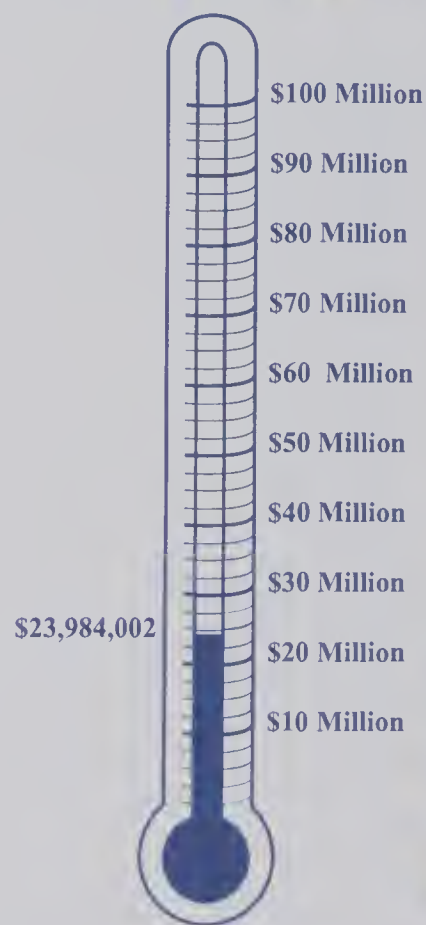

SPECTRUM IS DESPERATE FOR YOUR COINS

The best time to sell is when you have a willing buyer, and nobody is more willing than Spectrum to trade some cold hard cash for your coins. Our customers are screaming for coins. We estimate that we need to spend \$100,000,000 this year to satisfy the needs of our clients. Check out Spectrum's "*King of Cash meter*." So far this year, we've spent \$23,984,002. We need your help in order for us to be able to satisfy our clients and purchase the necessary \$100,000,000 worth of coins this year. If you have any Uncirculated pre-1950 U.S. coins for sale, there's only one strategy that makes sense. Before you sell any coins, call Spectrum. You can contact the Spectrum buyers any weekday between 8:00 a.m. and 5:00 p.m. California time. Just tell them you want to talk to the *King of Cash*.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at Long Beach, June 3rd thru 6th. Spectrum will be there for one reason and one reason only....to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have Uncirculated coins to sell and want to realize the highest possible price for your coins, then you should go to Tables 510 & 613 at Long Beach. Tell them you want to speak to the *King of Cash*.

The right choice for the unique Amazonian gold pattern set was NGC.

The Amazonian Gold Patterns... the rarest, most desirable pattern set in the world.

For consistent, accurate and impartial grading of the unique Amazonian gold pattern set, the right choice was NGC. For years, NGC has been the choice of more collectors and dealers than any other grading service.

The more choices you have in grading services, the more important it becomes that you can trust your choice. That's NGC.

Ultra High Relief Brings 1.21 Million At Auction Sight-Unseen Market Steady

An active bourse floor was evident for the opening of the June 2-6 Long Beach Expo in Southern California. Wholesale trading was the number one priority for many dealers in the beginning stages of the show. This attempt to acquire fresh material will be beneficial as the show proceeds, with larger numbers of the public attending. Dealers tell us that the collector base for rare coins has been, and is still expanding. The increase in demand has been due to a variety of reasons. The media, outside of the familiar numismatic journals, has featured stories about rare coins in local and regional newspapers, as well as on television news programs and the internet. We know that the TV shopping networks have been introducing the public to our nation's coinage. A brief history and information about each coin design and denomination go a long way toward spurring interest enough for the birth of a new coin collector. A similar scenario is taking place on the internet. The internet allows individuals a vehicle to have their many questions about rare coins answered by professionals. We know that many rare coin companies offer information and inventory selections at their websites. The audience for rare coins is expanding all the time. People are finding collecting interesting, challenging and fun. In the fast-moving electronic world that we live in, it can be a relaxing, rewarding and welcome change of pace.

At the Long Beach Expo, we see many dealers looking to buy quantities of rare coins. Many attend this show to buy as many rare coins as they can. The demand for coins is currently very strong. Dealers are carefully looking to buy coins that are in demand by collectors. Serious collectors have become more knowledgeable throughout the 1990s. This same group of collectors is also more financially secure and able to upgrade their collections. Not only are they willing to upgrade the common and scarce dates of each series, but they are also looking to add several varieties to their sets to make them even more complete.

As this article is being written, the precious metals have continued to find little support for any rally. Actually, the spot price per ounce of Silver and Gold has dipped below support or trendlines. Gold bullion has led the metals down as it has crashed through the \$270 per troy ounce support level. Silver bullion, which had tried to rally several times despite Gold's weakness, fell below the \$5 per troy ounce support level. This weakness in Gold and Silver decreases the intrinsic value of the most

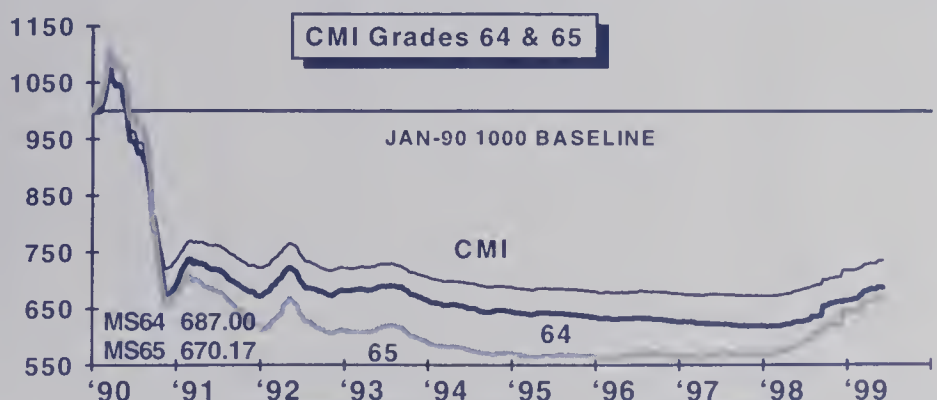

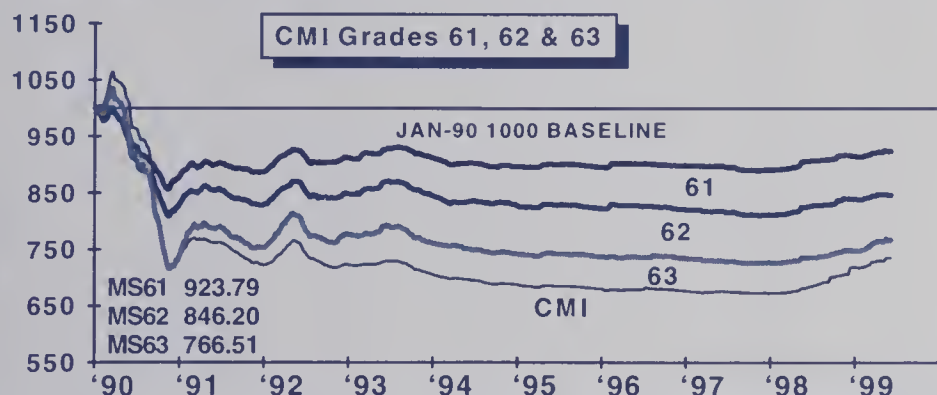

common date Gold and Silver coins. In essence, this weakness has an effect on common date, Circulated Silver and Gold coins. These coins were struck with 90 percent Silver and 90 percent Gold. Consequently, the more common they are and the more they experience less demand from collectors, the greater their value is affected by precipitous drops in bullion.

A PCGS PR67 1907 Ultra High Relief \$20 sold for more than \$1 million, the first Gold coin to achieve this record price. The sale of the Dr. Richard Ariagno collection and additional consignments were conducted by Ira & Larry Goldberg. The sale, totaling more than \$6.33 million, was held on May 31 through June 2 in Beverly Hills. The following are just a few of the many certified highlights.

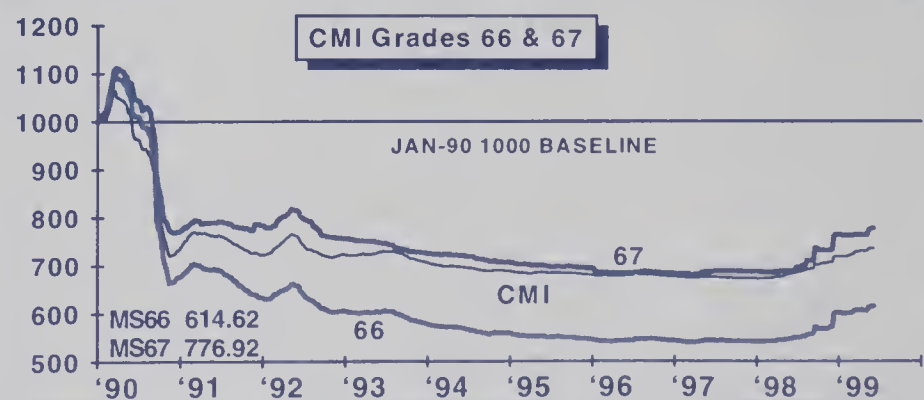

Rare San Francisco Mint Gold, recovered after more than 130 years at the bottom of the Pacific Ocean, realized strong prices during a May 29-30 auction in Los Angeles. The Bowers and Merena sale, featuring the S.S. Brother Jonathan Treasure Coins and the Chesapeake collection, totaled more than \$7.245 million. The excitement and interest in these new-found coins also shattered previous published population reports because many of the rare date Gold is now slabbed and certified. We have listed just a few of the many certified highlights from these auctions.

There is a reason why NGC is the world's leading certification company.

- NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the MCMVII Ultra High Relief PF-69 Saint Gaudens Double Eagle and the finest known 1799/8 Draped Bust Large Cent.
- NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance. That's NGC.

Auctions And Expo Dominate Market Matte Proof Lincoln Cents Active

Dealers were eager to buy rare coins during the Long Beach Expo held June 2-6 in Southern California. They needed coins to present to their customers. Dealers have long want lists for specific coins in specific grades. Sometimes, a year or more may pass before an order is filled. That is because some rare coins do not appear on the market for long periods of time. However, dealers and knowledgeable collectors understand this aspect of the rare coin market. Collectors are usually patiently waiting for their chance to buy a particular rare coin, hoping for the good news from their dealer. For the dealer's part, they know that if they mount a consistent search, their diligence will eventually pay off. Often, the auction scene is where the coin will likely turn up. Dealers are sometimes pleasantly surprised when the dispersal of a collection offers several examples. Still, the dealer must be the winning Bidder at the auction. Also, the winning Bid must be agreeable to the customer before a transaction is completed. If successful, this long process usually ends with much gratification for all concerned.

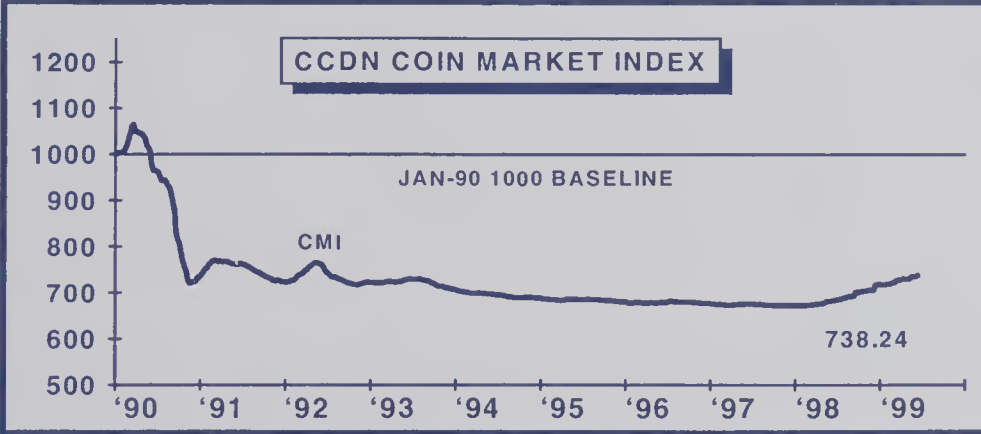

Many dealers that we spoke with at the Long Beach Expo were somewhat disappointed with the activity level of the show. However, other dealers told us that they completed a successful Long Beach show. Specifically, they were able to buy some coins for their inventories and customers. The success or failure at a particular show depends a great deal on a dealer's inventory and the demand at that point in time. Also, the dealer's agenda has a lot to do with a show's success or failure. Many dealers attend major shows with the sole purpose of buying material. If they gain a new client or are surprised by a nice sale, this is the icing on the cake.

The June 1999 Signature Sale, hosted by Heritage, was held June 3-4. It featured the Myron Zucker collection and the James Rush collection. Together, the sale realized more than \$2.535 million. The Heritage June 5

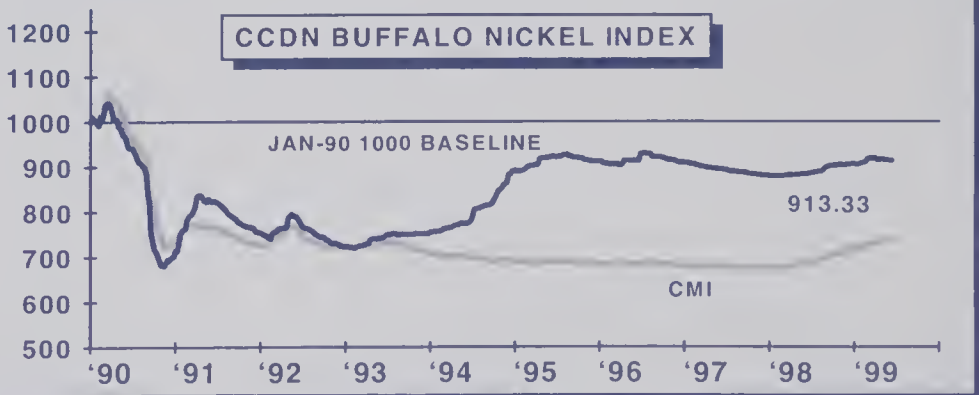

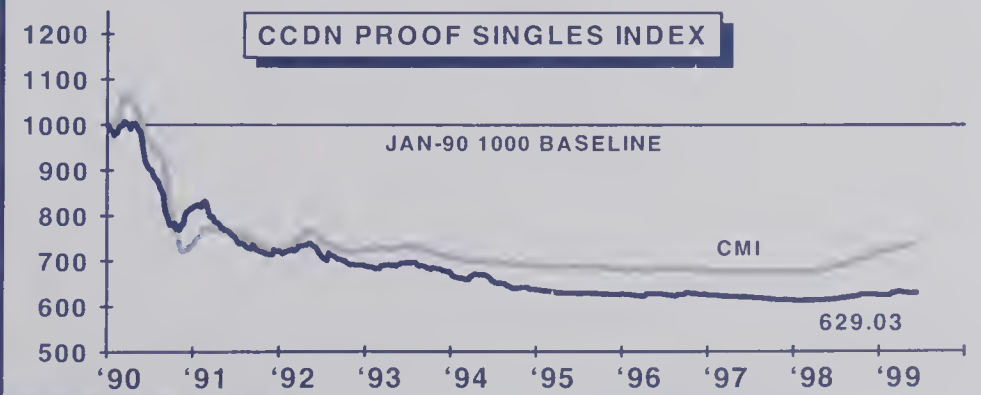

Bullet Sale realized \$436,722. Their sale featured professionally graded and certified coins only.

The sight-unseen market is similar to the sight-seen market in its selectivity. Dealers have specific needs and are willing to aggressively pursue these needs via the electronic dealer networks. We have seen strong interest in Matte Proof Lincoln Cents throughout much of 1999. This demand continues as dealers try to buy quality Cents to supply their customers. Increases for specific dates and grades are evident this week. Demand for the 1909-VDB Lincoln Cent in PR64R and better grades is impressive. One dealer is now willing to pay \$8,000, sight-unseen, for an example grading PCGS PR65R. Other Matte Proof Lincoln Cents sporting plus signs include 1910 in PR66R and PR67R; 1911 in PR66R; 1912 in PR64R thru PR66R; and, 1916 in PR64R thru PR66R condition. Other dates and grades are realizing strong supporting Bids at current levels. The only exception was the 1909 in PR65R which suffered a slight decline. Dealers are looking for attractive Cents without the unsightly spots that are commonly found on full Red Lincoln Cents.

Another area of strength in the sight-unseen market can be found among Early Gold Type coins. The sight-seen market for Early Gold Type has been very strong. It is not unusual for us to see this demand carry over to the sight-unseen portion of the market. A quick look at the many plus signs on this week's sheet should bring home the point. Interest is occurring for \$2.50, \$5 and \$10 Gold. The majority of the demand is targeting grades AU58, MS60, MS61 and MS62. Looking at the \$2.50 Early Gold, we find dealers looking to buy Capped Bust; Capped Head, Large Planchet; Capped Head, Small Planchet; and, Classic Head examples. The \$5 Early Gold denomination is heavily sought after. Dealers need Draped Bust, Large Eagle; Capped Bust; Capped Head, Large Planchet; and, Capped Head, Small Planchet. Dealers are concentrating their efforts for coins grading AU58 thru MS61.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...*guaranteed!!*

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Most rare coin dealerships are small firms with a few employees and a limited amount of capital. In one regard, Spectrum Numismatics is like all other coin companies. Spectrum Numismatics has only 7 employees, but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is the **king of the cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum has become one of the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 37 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased \$354,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 50 years of experience and over \$250,000,000 in purchases of coins.

In just eight short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyer of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins on which Spectrum outbid every major United States coin dealer:

Coin	Grade	Date Purchased	Purchase Price
1894-S Barber 10¢	Prf-64	Aug. 1992	\$165,000
King of Siam Proof Set		Feb. 2, 1993	\$1,815,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	\$962,500
1848-O \$10 Liberty	MS-66	Nov. 1994	\$154,000
1796 No Stars \$2½	MS-65	Dec. 5, 1995	\$605,000
1796 No Pole ½ Cent	MS-66 RB	May 21, 1996	\$506,000
1804 \$1	Prf.-65	April 8, 1997	\$1,815,000
1838 \$10	Prf.-65	May 21, 1998	\$550,000

**It's very rare in the rare coin industry for coin dealers to say something nice about other coin dealers.
Here are few things that Spectrum's fellow coin dealers have said about the King of Cash.**

"I've known Greg Roberts for 15 years. Greg and Thad Olson sold me Gem dollars and Walkers when they were kids in high school. I've been doing business with them ever since. Greg is my friend and I trust him. I buy a lot of coins from Spectrum and I sell a lot of coins to Spectrum. They're easy to deal with and their checks are always good."

David Hall
David Hall's North American Trading
Santa Ana, California

"I sell a lot of coins to Spectrum Numismatics. I've even had them help me with the financing on a couple of larger numismatic transactions. Spectrum is easy to do business with and they have a ton of cash."

John Dannreuther
JDRC Inc.
Memphis, Tennessee

"I have always enjoyed very much the many transactions I have had with Spectrum! I heavily recommend Greg Roberts and his crew at Spectrum. Spectrum is just excellent to do business with."

Q. David Bowers

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves, and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 81% of all the coins Spectrum purchases, are coins priced under \$5,000, and 12% of all the coins that Spectrum purchases are coins priced under \$100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line collect (949) 955-1250. Ask for Greg or Thad and tell them you have coins for sale. Tell them you want to talk to the **King of Cash**.

THE KING OF CASH GOES TO ALL MAJOR COIN SHOWS

Spectrum Numismatics will be at all major coin shows. Spectrum will be there for one reason only—to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should see Spectrum Numismatics at the next major coin show. Tell them you want to speak to the King of Cash.

Bids for Lincoln Cents are for full-red specimens in PR64 and higher.

There is a reason why NGC is the world's leading certification company.

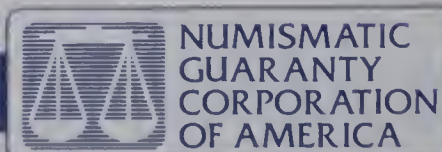

- NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the MCMVII Ultra High Relief PF-69 Saint Gaudens Double Eagle and the finest known 1799/8 Draped Bust Large Cent.
- NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance. That's NGC.

Volatility Common For Very Rare Coins Gold Commems Impressive

We are beginning to see increased **volatility** in the sight-unseen market. Many dealers looking to buy one-of-a-kind rarities are often willing to post strong money for them. When they locate and buy an example, their need for another disappears or they may be willing to buy another, but at a discounted level. Usually, if dealers have a customer needing one immediately, they are more willing to increase their Bid. However, if they are buying the coin because it is rare and desirable, and they want to stock it in inventory, they may Bid less. This scenario is common to the nature of rare coins. That is why we often see runaway Bids take place at public auction when the same coin sold from a dealer's case at a show will trade for much less. Therefore, this volatility has been expected and accepted by those participating in this market. This type of volatility is present among all series of rare coins.

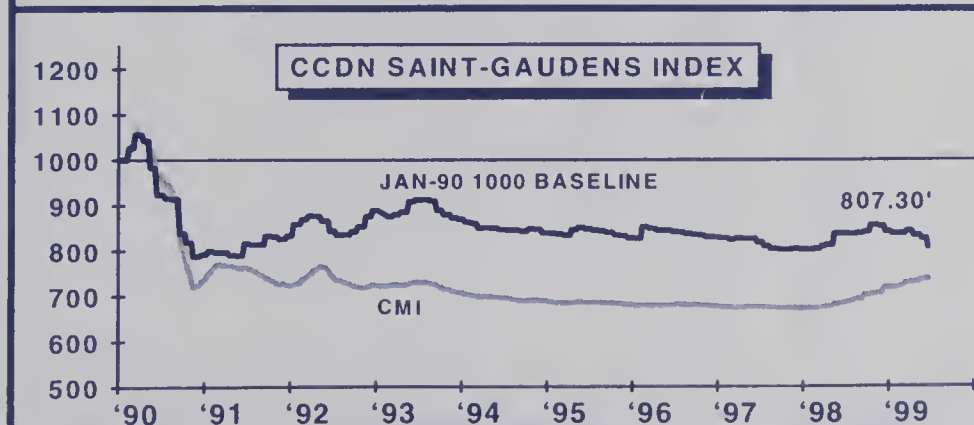

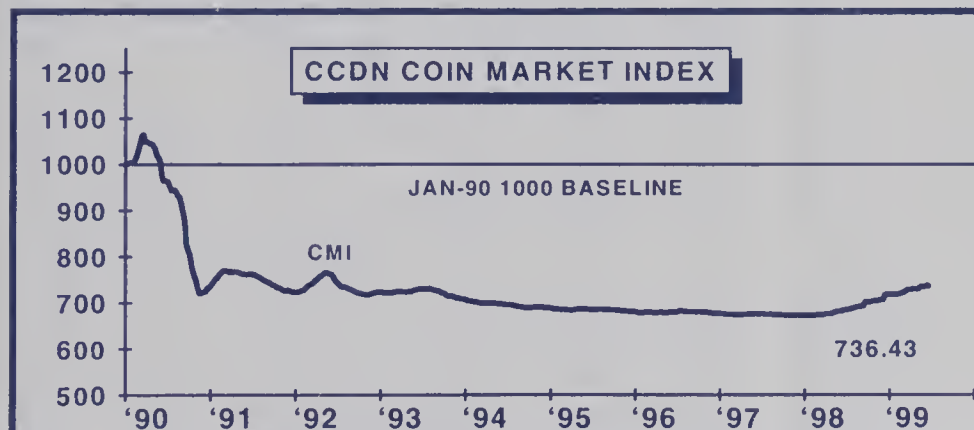

This week, some of this volatility is taking place among the Standing Liberty Quarters. The demand for high quality Standing Liberty Quarters is still evident. Some dates in specific grades are still in short supply. Dealers trying to find an example for their customers are increasing the amount they are willing to spend to satisfy this demand. Several dates of the series are **extremely** difficult to locate with Full Head status, and astute dealers are willing to substantially increase their Bids, hoping to shake loose one or two. The 1918/7-S and the 1927-S are notoriously tough to locate in Mint State with a Full Head. In MS64FH and better, the combined PCGS and NGC Census Reports indicate only four Overdates and fifteen 1927-S examples. Remember to keep in mind that double counting may have taken place due to resubmissions and crossovers.

The Gold Commemoratives have come alive this week. We see that strong Bidding for sight-unseen Gold Commems is present for most

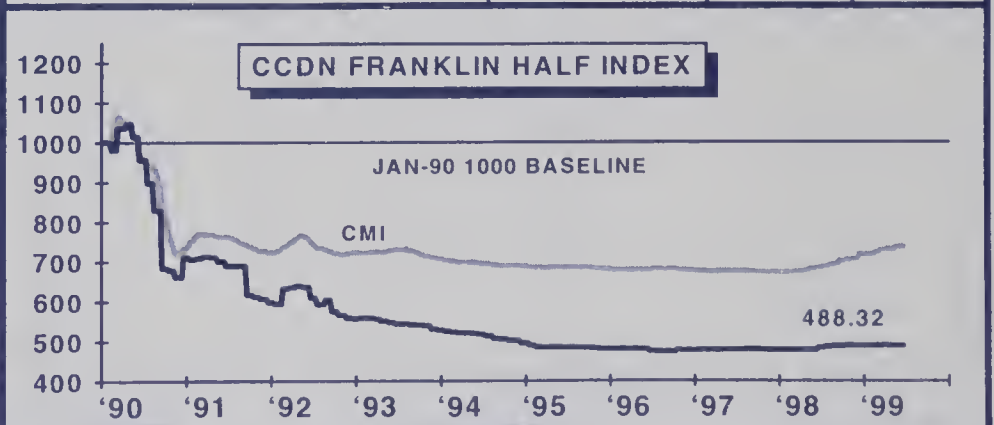

examples in MS65, MS66 and MS67 condition. Dealers are trying to buy coins that they believe represent excellent value. The Gold Commems may be one area that fits the bill perfectly. Consequently, we see dealers willing to step up to the plate and **aggressively** increase the amount they are willing to pay for professionally graded and certified Gold Commemoratives. A few issues displaying big increases include the 1903 Louisiana Purchase Exposition Jefferson and McKinley Gold Dollars. Each is now Bid \$6,000 or above in MS67. We also see a strong need for these coins in MS65 and MS66. The Bid is at or above \$1,500 in MS65 and at \$2,500 in MS66. We notice that the demand for Gold Commems is equal between NGC and PCGS certified coins.

Sharp increases are noted for the 1915-S Panama-Pacific Exposition Gold Dollar. The need is for examples in MS65 and MS66. Several denominations were issued for the Panama-Pacific Exposition including two popular and rare \$50 Gold issues. This large denomination is available in both Round and Octagonal and often becomes an auction highlight when it appears in high grade. The 1922 Grant Memorial \$1, plain and With Star, is realizing strong sight-unseen **increases**. Dealers are hoping to buy several of these Commems for their customers.

Mint State Type Gold is weaker this week, as is Gold Spot. The premium for Gold has been declining, and the Bids have decreased. We see a number of minus signs for the \$20 Liberty Type III and \$20 Saint-Gaudens Gold in MS61 thru MS64 condition. Weakness is also evident in MS65 Saints. Other Type Gold declining includes \$10 Liberty, Motto; \$10 Indian; and, some \$5 Liberty, Motto specimens. Rare date Gold is maintaining current levels with increases occurring here and there. The weakness among common date, Mint State Saints is clear when you look at the Saint-Gaudens chart on Supplemental Page F.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The right choice for the unique Amazonian gold pattern set was NGC.

The Amazonian Gold Patterns... the rarest, most desirable pattern set in the world.

For consistent, accurate and impartial grading of the unique Amazonian gold pattern set, the right choice was NGC. For years, NGC has been the choice of more collectors and dealers than any other grading service.

The more choices you have in grading services, the more important it becomes that you can trust your choice. That's NGC.

BULL MARKET CONTINUES IRISH AUCTION PRODUCES STRONG PRICES

ACTIVITY

across the market

by Kevin Foley

The Market for collectible paper money continued its pattern of record strength last night, recent offering of the 1817 Irish Bank Note at auction in conjunction with an associated paper money issue can be regarded as a success. The Irish event was one of no less than five paper money shows which have or will be held this year.

The ability of the marketplace to support a growing number of dedicated specialty events demonstrates the growing breadth of the collector dealer base. A prediction made a decade ago that "one would see five successful paper money shows might have been greeted with laughter. Yet that is precisely what we will have this year.

The upper end of the quality spectrum, Choice and Gem Notes are experiencing more demand than existing supplies are able to support. The result is a continuing pattern of price increases. Collectors seeking Gem Notes soon learn that once they get beyond the half dozen or so most common notes their quest can be quite a challenge.

This recognition results in some unexpectedly high prices at auction. When multiple bidders focus on the same note and realize it may be months or even much longer before another example is offered, the price guides tend to be abandoned as a bidding aid.

SMALL SIZE TYPE NOTES

Small type continues to grow in popularity. Early Federal Reserve Notes are especially prominent on collector want lists. These once shunned notes amply demonstrate the growing breadth of the market.

A decade ago they could typically be acquired for the most modest premiums over face. Whatever difficulty collectors faced

in the Irish event was not a result of the auction. The Irish event was one of no less than five paper money shows which have or will be held this year.

Rare Coins Outperform Precious Metals

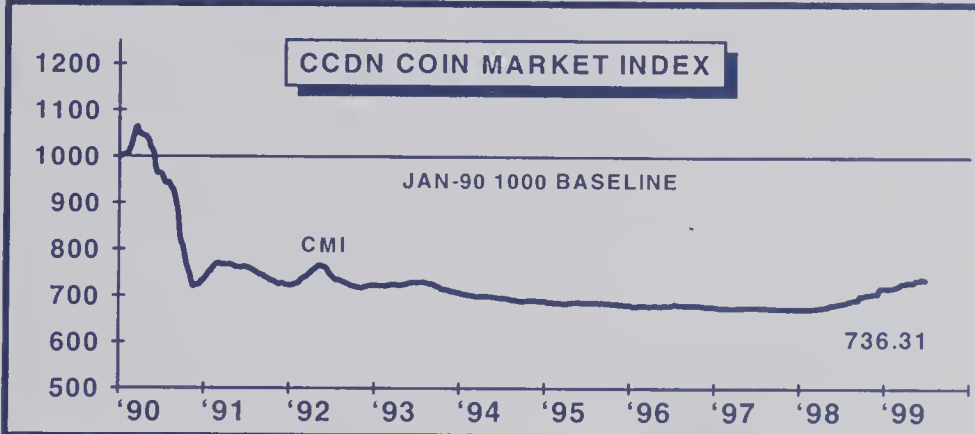

Second Half Of 1999 Looks Promising

As the second half of 1999 nears, it is easy to see that the rare coin market, through the first half of the year, has been much stronger than the bullion market for Silver and Gold. In the precious metal market, Gold bullion was hitting new lows in June while Silver bullion could only hover around the \$5 per ounce level. In contrast, the rare coin market has enjoyed strong demand with solid attendance at shows and auctions. Dealers approached many coin shows with optimism. This positive atmosphere allowed for some **record-breaking** prices buoyed by an expanding collector base. Dealers were watching the number of coins on their customer want lists increase. For many dealers, these want lists represent potential transactions and business. Although some rare coins have a high intrinsic value, the largest portion of a rare coin's value stems from its **numismatic** value. That numismatic value is generally determined by factors such as supply, demand, quality and rarity. Most of these important ingredients would be a part of any equation used to derive a coin's value. Of course, there are many other factors that may affect a rare coin's price, either directly or indirectly.

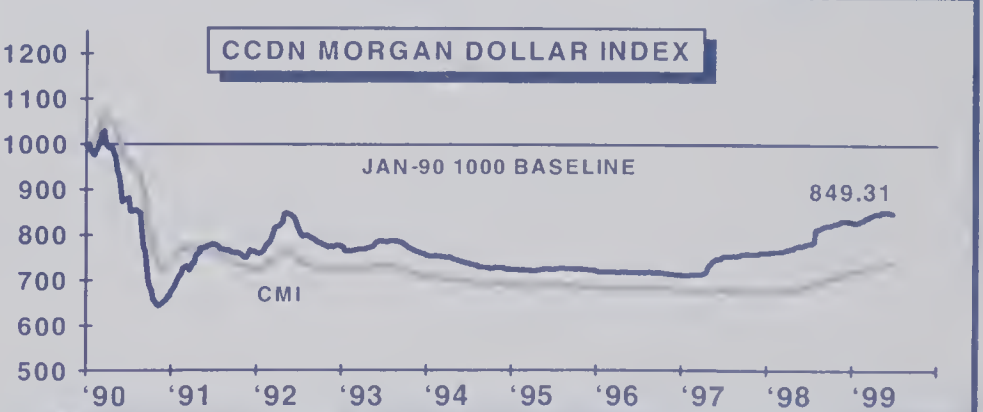

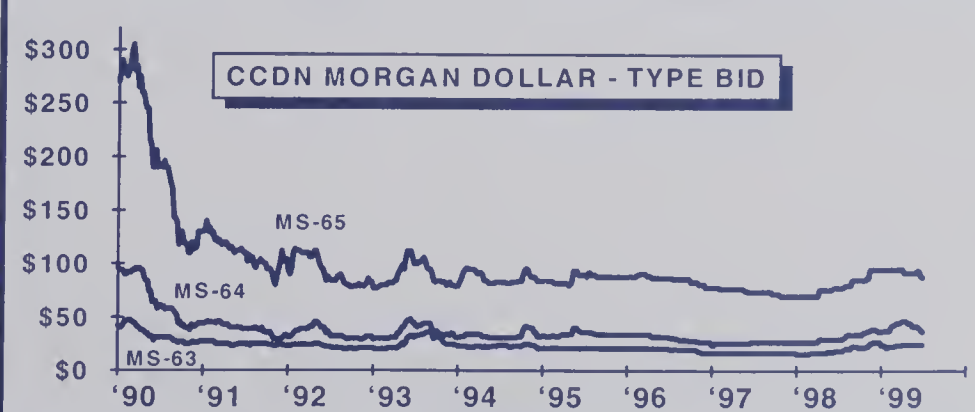

In the sight-unseen market, dealers rely heavily on the third-party grading services to encapsulate and authenticate the quality of an individual coin. To some extent, the population reports can assist dealers in the determination of the rarity factor. However, many dealers also utilize their experience and knowledge for a better understanding of true rarity. Therefore, dealers participating in the sight-unseen market, via the electronic dealer networks, have important information to help them make a decision concerning a transaction. We have seen the activity level increase and decrease depending upon which group of coins are currently in demand. In one example, the Silver Commemoratives were realizing stronger Bids earlier in the year. Prices were jumping for coins grading MS64 and better.

However, we are now seeing some discounting occurring among select Silver Commems. Today, the Gold Commems are in the spotlight. We see that strong, sight-unseen demand has pushed the levels of MS65 and MS66 Gold Commems into higher ground. Ultimately, dealers know that it takes coins to make sales. As inventory levels are **depleted**, dealers need to enter the market to replenish stock. Turnover is important. If specific dates and denominations remain in a dealer's inventory for too long, a quick sale, even at a loss, may be necessary to keep fresh inventory. Therefore, if demand is increasing and rare coins are selling, dealers need to buy coins. If the coins are not readily available at the current price, dealers need to increase their offers hoping to be successful.

This week, we see dealers eager to buy coins that have been **undervalued**. There is select buying taking place in the Mint State Type segment, yet Gold Type has suffered some minus signs the last few weeks. The prolonged weakness in the Gold Bullion market may have had some effect. We also see that some discounting is taking place in Mint State Type and select 19th and 20th century rare coins. Steady increases throughout the year have made Type and some other areas of numismatics ripe for some profit taking. However, dealers are still willing to increase their Bids for specific coins that remain on the customers' want lists. The Mint State and Proof Type markets are perfect examples of two active and popular segments of the numismatic market. Many collectors desiring some rare coins usually begin with a portfolio of Type. This allows them to have different designs from different denominations in quality condition. Dealers find that many collectors who began their numismatic interest by collecting/investing in Proof and Mint State Type graduate to other areas of the market. Some of these collector/investors look to expand their knowledge and begin the challenge of a series by date and condition.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks. sell lists coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

SEPTEMBER 1997

BULL MARKET CONTINUES IRISH AUCTION PRODUCES STRONG PRICES

ACTIVITY

across the market

by Kevin Foley

The Market for collectible paper money continued its pattern of broad strength. Lyn Knight's recent offering of the 1914 Irish Collection at auction in conjunction with an associated paper money bourse was regarded as a success. The Texas event was open to less than five paper money shows which have or will be held this year.

The quality of the market-place is supported by a growing number of dedicated specialty events demonstrating the growing breadth of the collector-dealer base. A prediction made a decade ago that 1967 would see five successful paper money shows might have been greeted with laughter. Yet that is precisely what we will have this year.

LARGE SIZE TYPE NOTES

Collectors continue to be very much focused on this area. The growing demand continues to exert upward pressure on prices. Buyers also continue their emphasis on eye appeal, focusing on how generally attractive a note looks regardless of its technical grade. This results in an overlapping of prices from grade to grade. An especially nice looking example of a lower grade commanding a higher price than a piece of a technically superior grade.

The upper end of the quality spectrum, Choice and Gem Notes are experiencing more demand than existing supplies are able to support. The result is a continuing pattern of price increases. Collectors seeking Gem Notes soon learn that once they get beyond the half dozen or so most common notes their quest can be quite a challenge.

This recent result in some unexpectedly high prices at auction. When multiple bidders focus on the same notes and realize it may be months or even much longer before another example is offered, the price guides tend to be abandoned as a bidding aid.

SMALL SIZE TYPE NOTES

Small type continues to grow in popularity. Early Federal Reserve Notes are especially prominent on collector want lists. These once shunned notes amply demonstrate the growing breadth of the market.

A decade ago they could typically be acquired for the most modest premiums over face. Whatever difficulty collectors faced

in finding them was generally related to the fact that they were too inexpensive to warrant a dealer's effort to locate them. Today the growing demand has called forth greater supply and early finders can often be found negotiating auction offerings.

The focus market continues to be the focus of interior collector interest. Prices in this specialty area are especially strong. The more unusual or specialized the note the higher the price. It seems that no matter how many errors are uttered at an auction bidders want even more.

FRACTIONAL CURRENCY

Fractional continues to be the spotlight of the specialty areas. While very scarce and the highest quality Choice and Gem material enjoy strong demand, common pieces in more ordinary grades are less in demand.

There is simply more Fractional available than collectors want to have. The result is that when offered from dealer inventories it can move quite slowly. When offered at auction, prices can sometimes be rather spotty.

For buyers this can represent repeated opportunities to acquire notes at relatively attractive levels. Until more people want to buy Fractional the overall pattern can be expected to continue.

NATIONAL BANK NOTES

Nationals continue to enjoy considerable collector interest. "Type" Nationals, notes existing in larger quantities and sought as representative of their general design type rather than for their issuing bank, are much in demand at the higher quality levels. Buyers of such material can be quite frustrated at their inability to find what they are looking for. Too many buyers and not enough available material can only translate to higher prices in the future.

Demand for Nationals whose value is predicated on the scarcity of the issuing bank remains at historically high levels. Since collectors continue to specialize geographically, prices are also very much dependent on where a note is from in addition to its rarity. Some states are very much in demand while others enjoy far less vigorous buyer interest.

Dealers who fail to keep informed of the many individual state markets can easily find themselves "burned" in a scarce note from a state with limited collector interest.

MISCELLANEOUS

The market for obsolete Notes remains quite strong but continues to move toward the type of geographical specialization which characterizes the National market. Thus, place of origin can be just as, if not more important, than general scarcity.

Confederate Notes continue to be very popular as do Stocks and Bonds.

The Green Sheet reports the national currency market on a monthly basis.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Mint State Type, Gold Commems Lead Market Kermit The Frog Jump-Starts New Interest

The sight-unseen market appears to be strengthening. This follows several weeks of consolidation where dealers were willing to pay near current levels without increasing their offers. Of course there have been exceptions along the way. In any event, dealers are still searching for attractive, interesting rare coins for their expanding customer base. The internet and other media have combined in recent months to generate new business for dealers.

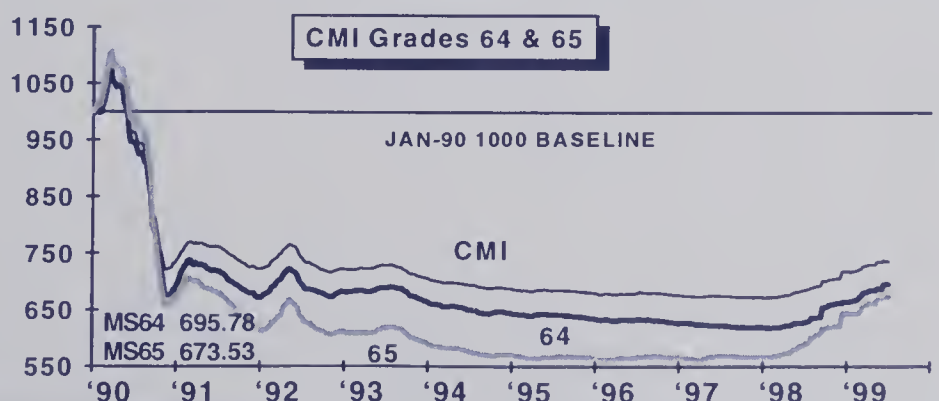

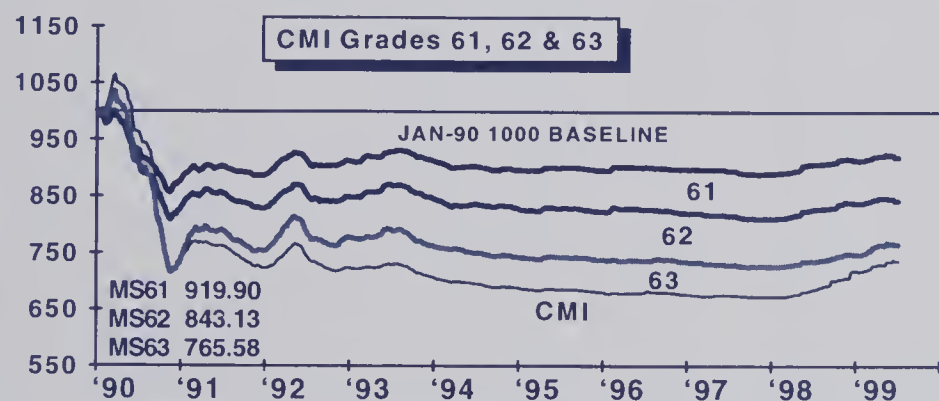

The media have contributed through television and newspaper spots, introducing the public to the Mints Circulating Commemorative Quarter release. We see the **media blitz** via commercials, spearheaded by that famous, "amphibious numismatist," Kermit the Frog. These new Quarters have many people collecting coins again. Those who are not collecting are talking about the "funny" Quarters they are finding in change. Initially, this is the good news. However, what does this suggest for the long term? Will dealers be facing an even more difficult challenge, trying to locate nice material for their customers? Will there be increased volatility and prices? Maybe. If this Circulating Commem experience turns out to be an enjoyable one, we may see these new collectors graduate from the 1999 Quarters to more serious challenges; collecting new Washington Quarters may only be the tip of the iceberg. Other, more serious challenges may be taken. We may discover new collectors finding interest in Standing Liberty Quarters, Barber Quarters, then Liberty Seated Quarters. Could Half Cents, Lincoln Cents, and Morgan Dollars be far behind? The possibilities are there.

The internet has already changed the rare coin market. Dealers are establishing their company websites, eager to tap this new source. As the general public becomes increasingly computer sophisticated, more individuals will utilize "the web" as a numismatic resource. Currently, we see on-line auctions and retail fixed-price lists. For many people who

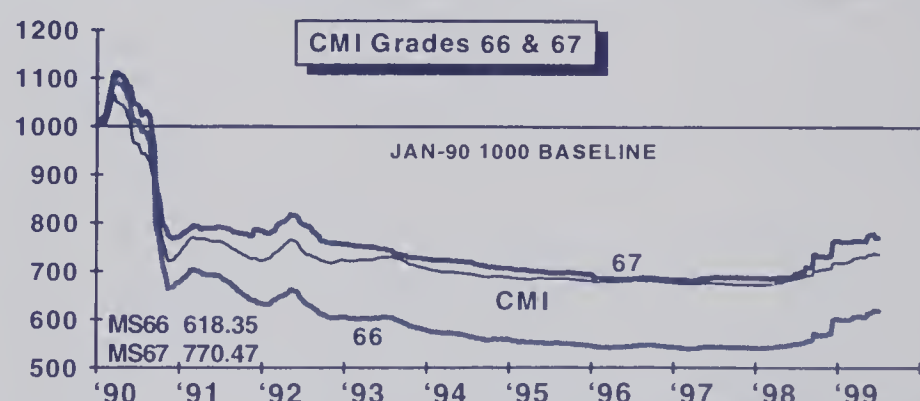

are new to the hobby, the internet becomes a vehicle for them to have some of their questions answered. E-mail is faster and easier than actually writing and mailing a letter. Remember, this internet growth is still in its infancy.

The General Services Administration Carson City Morgan Dollars continue to enjoy **widespread** demand. Dealers are looking to buy these coins, by date, in quantity. They tell us that they have many customers looking to obtain these GSA Dollars. Carson City Morgans have, for years, captured the interest of collectors. The large Silver Dollars of the late 19th and early 20th centuries have been among the favorites of collectors. The common dates, 1882-CC thru 1884-CC, realize steady, consistent demand in the mid \$70 range. Strong demand is seen for some of the tougher dates found in GSA holders. Plus signs are occurring for 1878-CC, 1879-CC, 1881-CC, 1890-CC, and 1891-CC. Many collectors who originally ordered GSA Dollars from the government are trying to add some of the dates they did not receive. Many dealers are interested in buying these coins. Strong Bids continue to influence this market. We see that three dates are Bid at over \$200 while two, 1890-CC and 1891-CC, command \$650 plus. The 1879-CC is now Bid at \$2,200.

Gold and Silver Commems, Mint State Type, and select, key date Morgan Dollars are sporting more plus signs. **Gold Commems** are leading the way in the Commemorative market. Dealers are in strong need of Gold Commems, and they are willing to pay strong money for them. Bids have been steadily increasing. The demand is heaviest for grades MS64 and better. Interest in **Mint State Type** is evident. Dealers are looking to buy all Copper Type, Early Half Dimes, Early Dimes, and, Liberty Seated coinage. Type collecting is one of the most popular ways to collect today. Dealers steer their customers in this direction since it is much more affordable than collecting every date and Mint.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Early Gold Shows Strong Gains Matte Proof Lincolns In Demand

Collector/investor demand has forced dealers to seek out rare coins in the sight-unseen market. Dealers are actively searching for specific dates and denominations for their customers. These customers are financially secure, with a general understanding of the rare coin market. They are willing to pay strong money for the coins they like, but at the same time flexible enough to consider alternatives. Dealers utilize all avenues at their disposal—especially the teletype networks—to acquire high-demand coins not part of their present inventory. Many areas of the market are the target of this demand. Dealers are being careful to place only quality rare coins with their customers.

One area that has been strong the past several months is pre-1840 Gold Type. These coins have been a popular and challenging segment of the market. It is considered to be one of those areas that requires a great deal of money because of the four and five-figure price tags on this material so often found. Most buyers are looking to add a few examples of early Gold. Others may be buying a single specimen to add to, or complete their Gold Type collections. Recognizing this need, dealers are carefully buying early Gold to offer customers. The reward can be great due to the relatively high price and scarcity of these coins. This week, we see that dealers are increasing their Bids for several Types and denominations of Early Gold.

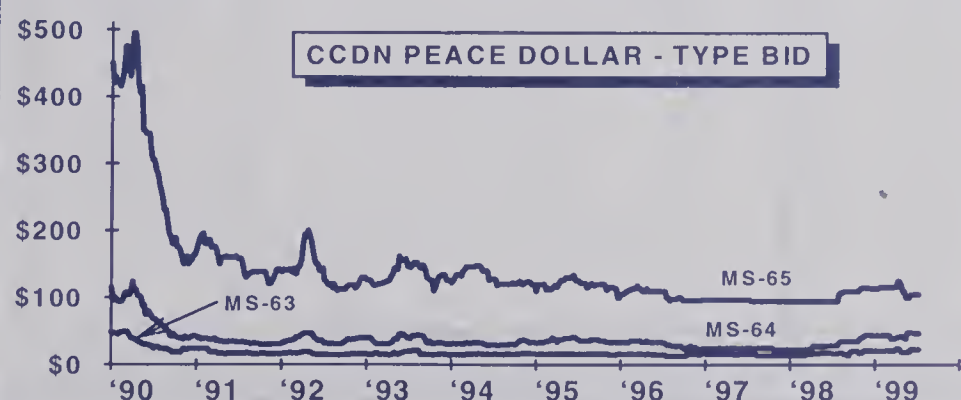

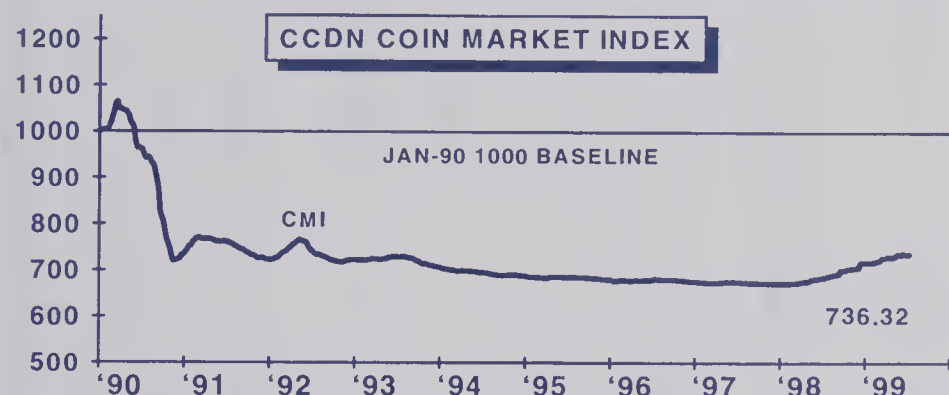

All three denominations of Early Gold are in demand including the \$2.50, \$5 and \$10 pieces. The AU58 category is very popular. There are many reasons. Importantly, dealers know that an AU58 coin is attractive and more affordable than Mint State examples; the AU58 coin offers original Mint luster while being virtually free of major scratches or problems. Among Quarter Eagles, dealers are primarily looking for AU58, MS61, MS62 and MS63 grades, with some plus signs appearing for Capped Head Large and Small Planchet. The Small

Planchet Quarter Eagles are the strongest, advancing in MS61 thru MS63. We also notice interest in the Classic Head Type. Beyond the plus signs, interest is seen from supporting, sight-unseen Bids for other grades.

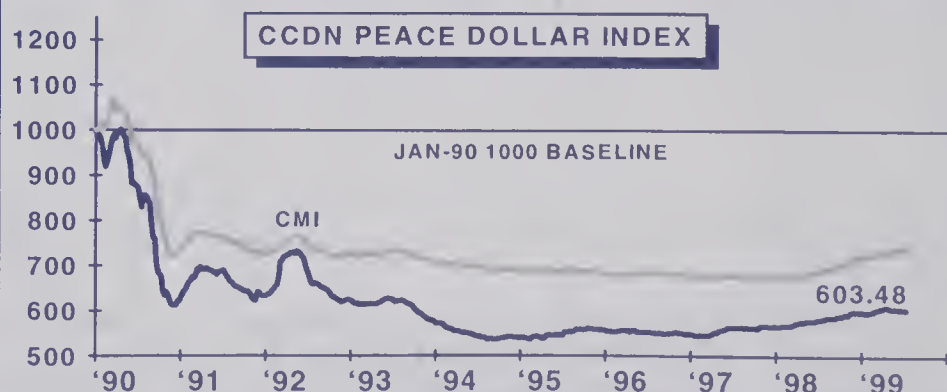

The \$5 Half Eagles are realizing strong demand. Dealers are trying to buy Draped Bust, Large Eagle; Capped Bust; Capped Head, Small Planchet; and Classic Head examples. Like the Quarter Eagles, the need is for grades AU-58 thru MS63. Half Eagles struck from 1797 thru 1812 are especially in demand. The Draped Bust, Large Eagle \$10 Gold is realizing demand as well. Strong Bids have forced prices higher for AU58 and MS60 examples while supporting Bids have given strength to the MS61 thru MS63 grades.

EARLY GOLD TYPE COINS				
TYPE	GRADE	1/8/99 BID	7/9/99 BID	% CHANGE
\$2.50 Capped Head, Lg	AU58	\$ 3,900	\$ 4,760	+ 22.05%
\$2.50 Classic Head	AU58	\$ 920	\$ 1,070	+ 16.30%
\$5 Draped Bust, Lg	MS61	\$ 4,760	\$ 5,850	+ 22.90%
\$5 Capped Bust	AU58	\$ 3,000	\$ 3,660	+ 22.00%
\$10 Draped Bust, Lg	MS60	\$ 7,100	\$ 7,700	+ 8.45%

Matte Proof Lincoln Cents are also highly sought by dealers. Dealers are familiar with the true rarity of Matte Proof Lincolns in PR64 and better condition, and know that few examples in full Red exist. They have customers looking for these coins and are trying to accommodate them by increasing their Bids in the sight-unseen market. While not as strong as the demand for Matte Proof Lincoln Cents, demand for Matte Proof Buffalo Nickels from 1913 thru 1916 is solid at current levels. These coins make an attractive addition to inventory and display cases at shows.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Scott Travers' Top 88 Coins Over \$100 44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ **R.W. Julian**, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by **Ed Reiter**, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In The Top 88, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- Independent third-party grading
- The age of type coins
- Opinions relating to what coins are "losers"
- A list of coins that are "winners"
- Why every coin listed has something to like and something to dislike
- One-year type coins
- Generic Morgan dollars
- Commemorative coins
- Mint-error coins
- Uncirculated late-date coins
- Late-date proof sets from 1968 to date
- Marketplace data and expert opinions on every listed coin
- Meticulously researched historical information

The right choice for the amazing 1873-CC No Arrows dime was NGC.

The 1873-CC No Arrows
dime... one of the rarest,
most desirable coins in
the world.

For consistent, accurate and impartial grading of the 1873-CC No Arrows dime, the right choice was NGC. For years, NGC has been the choice of more collectors and dealers than any other grading service.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

Saint-Gaudens Extremely Active Gold Commemoratives Still Shine

The sight-unseen market is very active for Gold coins. Many dealers are trying to buy and sell Gold. The \$20 Saint-Gaudens series is one of the most heavily traded of all the Gold denominations and Types. This week, the Saint chart displays many plus and minus signs. It appears that a dichotomy exists in the Saint series. On the one hand, the spot price of Gold bullion has come under heavy selling pressure. The previous announcement of the future sale of Gold reserves by the Bank of England initiated the downward spiral. Ever since the news of that pending sale, investors have been somewhat reluctant to step out and buy the precious yellow metal. The market declined even further as a result of the first actual sale. The effect of a declining Gold bullion price on common date Saints has become apparent. Consequently, we see minus signs appearing for all common date \$20 Saint-Gaudens on this week's sight-unseen chart. The grades most affected include MS61 thru MS66. However, it is important to understand that these coins, containing 0.96749 ounces of pure Gold, nearly a full ounce, still trade at a **huge premium** above the spot price of Gold. As this is being written, the spot price of Gold has fallen below \$260 per ounce and is trading near \$255 per ounce. Therefore, it is easy to see that the common date Saints have held their value very well. Not all is weak among the \$20 Saint-Gaudens series.

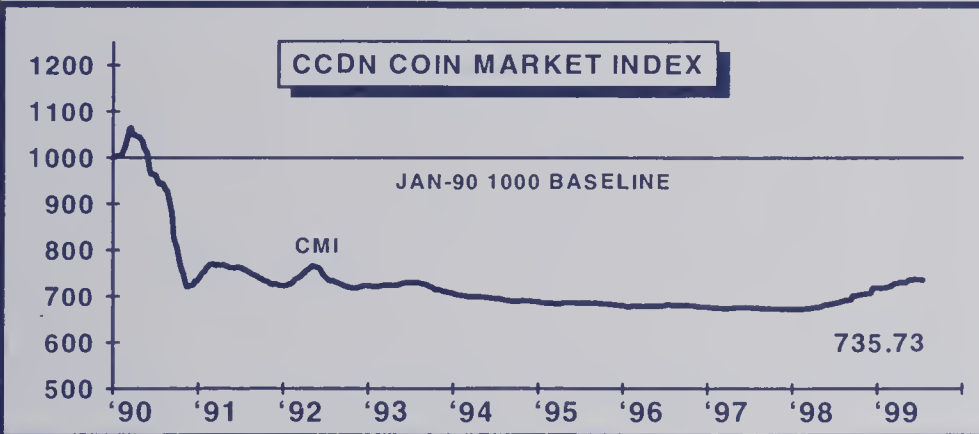

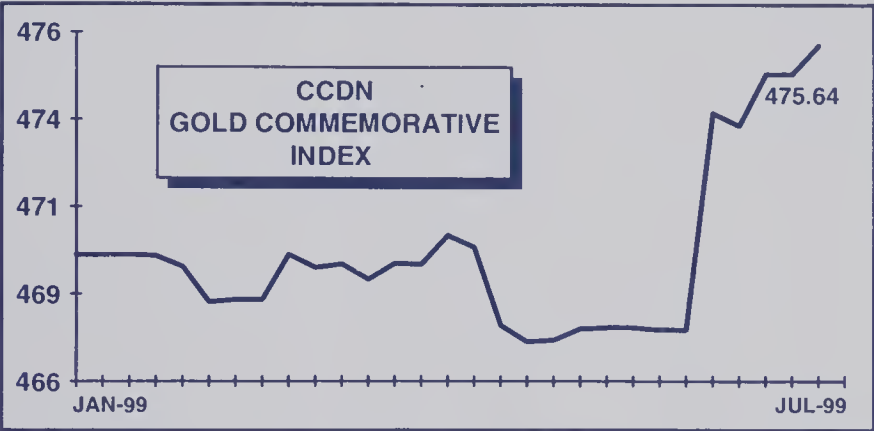

On the positive side, we see dealers buying and looking to buy specific dates. Dealers have many customers interested in accumulating \$20 Saints, especially at current levels. There are serious collectors who are building complete date and mintmark sets, or nearly complete sets of Saints. These collector/investors are financially secure enough to be aggressive and pay strong money for these coins. Dealers tell us that these well-heeled customers are interested

in a wide range of dates, from a single rarity, to many keys and semi-keys. Dealers are assisting them by helping in two ways—first by locating and buying the coins, and second, giving knowledge and guidance as to which dates represent the best value.

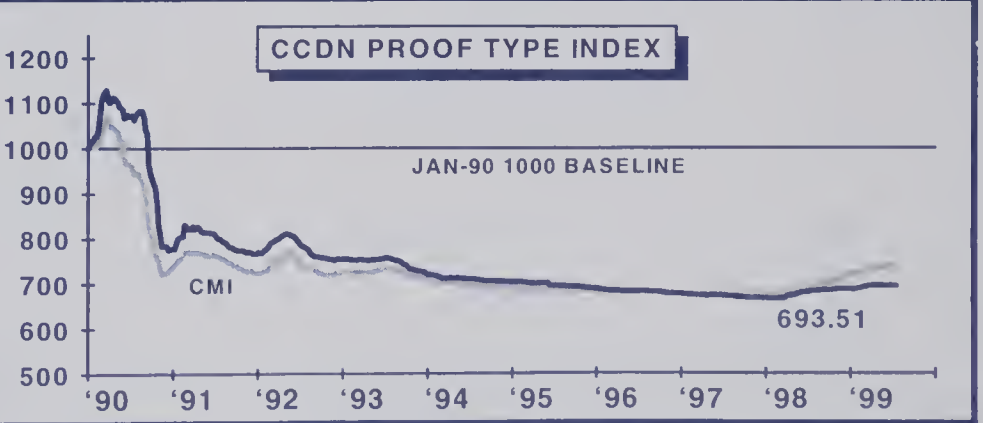

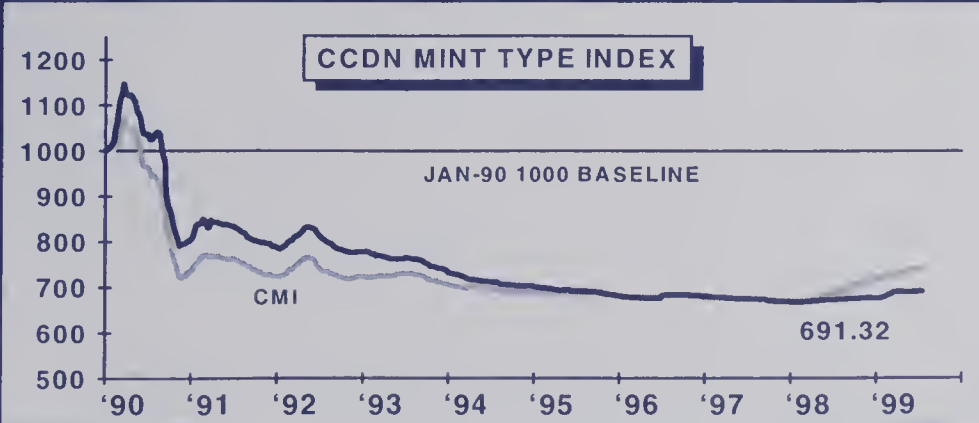

High Reliefs have been on a tear the past month. Each week seems to find more plus signs. This week, High Reliefs are up in MS61 thru MS66. Dealers are willing to pay \$22,000, sight-unseen, for an NGC or PCGS in MS65. The strength of the Saint market can be further seen by observing how many supporting Bids are taking place for dates that do not have a plus sign. Dealers have **increased** their Bids for many certified Saints. Some of the dates needed include 1908 With Motto, 1908-D With Motto, 1908-S, 1909/8, 1909-D, 1910, 1910-D, 1910-S, 1911, 1911-S, 1912, 1913, 1914, 1915, 1916-S, 1920-S, and 1926-S. These coins are needed in grades ranging from MS62 thru MS65.

Gold Commemoratives are also displaying numerous plus signs this week. Similar to High Reliefs, the Gold Commems have been doing very well the last month or so. Some dealers are quick to react to areas of the rare coin market that appear depressed or laggard. In this light, Gold Commems were thus targeted.

Dealers are looking to buy Gold Commems in MS64 and better grades. The price becomes very steep for MS66 and MS67 specimens. Collector/investors like this series because it is relatively short. They also know that many of these Commems are rare and desirable in high grade. Some of the Gold Commems realizing **strong gains** include the 1903 Louisiana Purchase, Jefferson \$1; 1904 Lewis & Clark Exposition \$1; 1915-S Panama-Pacific Exposition \$1 and \$2.50; 1917 McKinley Memorial \$1; 1922 Grant Memorial, No Star \$1; and, 1926 American Independence 150th Anniversary \$2.50.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

COMMEMORATIVES
Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Major Shows

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, the largest transaction in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases this year have included coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Huge Sight-Unseen Bids Chase High-Priced Rarities Upcoming Auction Highlights

Healthy activity has been observed on the electronic dealer networks for sight-unseen rare coins. Dealers are positioning themselves to buy or sell at a comfortable level. We see some dealers posting stronger Bids in an attempt to buy specific examples, which is easy to do with a strong buying customer willing to pay what it takes to own a particular coin. Dealers are interested in numerous dates and denominations at current levels. Consequently, fewer plus signs is **not** necessarily an indication of a static market. Trading activity is indeed brisk at current levels.

We know that Type, Gold, Dollars and Commemoratives are fairly active areas. Other popular areas include the early 20th century Type denominations. These seem to be the bread-and-butter areas of the current market. Dealers are trying to buy specific dates for their customers. These popular areas are often **responsible** for much of the volume we see taking place each day. Sure, there are occasional rarities that trade, coins that sell for over \$2,000, but generally, coins are trading between \$50 and \$2,000 on a regular basis. Dealers are buying these coins, in the sight-unseen market, based in part on the grade assigned by the professional third party grading services. Sometimes dealers are pleasantly surprised when they receive a coin of premium quality for the grade. Most are simply pleased to receive a coin needed for a customer.

Some dealers are willing to pay from \$5,000 to over \$100,000 sight-unseen for rare date coins. Walking Liberty Half Dollars is one example. The early dates of the Walker series are replete with rarities. This is especially true with MS66 and MS67 specimens. At this outstanding quality level, it would take very strong four, five and six-figure Bids to buy one of these rarities. Still, there are well-heeled collector/investors willing to buy these coins if they become available. Strong demand by these buyers has forced the dealers into buying any of these

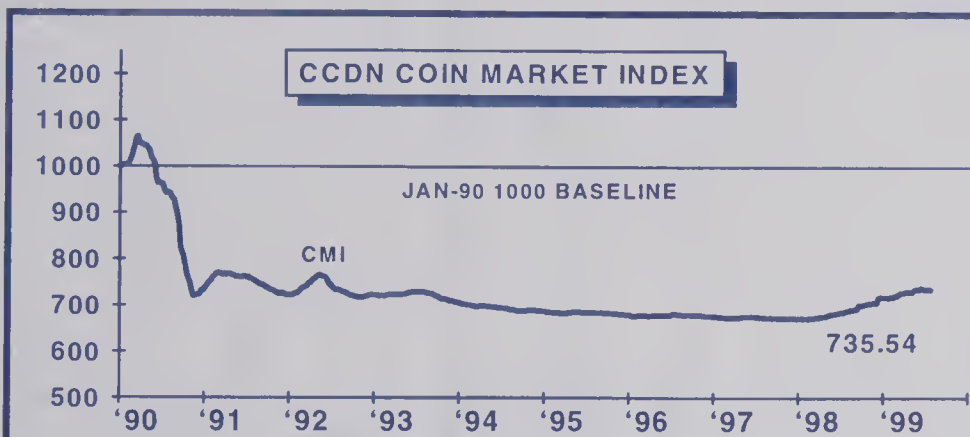

coins as quickly as possible. The sight-unseen market is an important avenue dealers need to explore in their efforts to be successful. Some of the key Walking Liberty Half Dollar dates currently needed in high grade include 1917-D Obverse, 1917-D Reverse, 1917-S Obverse, 1917-S Reverse, 1918-S, 1919, 1919-D, 1920-D, 1921, 1921-D, 1921-S, 1923-S, 1928-S, and 1942-S.

A similar scenario is taking place in the Mercury Dime series. Dealers are trying to buy key and semi-key dates in MS66FB and MS67FB. It is difficult to locate these Dimes in such a lofty condition. However, we see dealers willing to pay very strong money, sight-unseen, for these Dimes. Some of the tough dates needed at this grade level include 1916-S, 1917-D, 1918-D, 1918-S, 1919-D, 1919-S, 1920-S, 1921, 1921-D, 1924-S, 1925-S, and 1942/1.

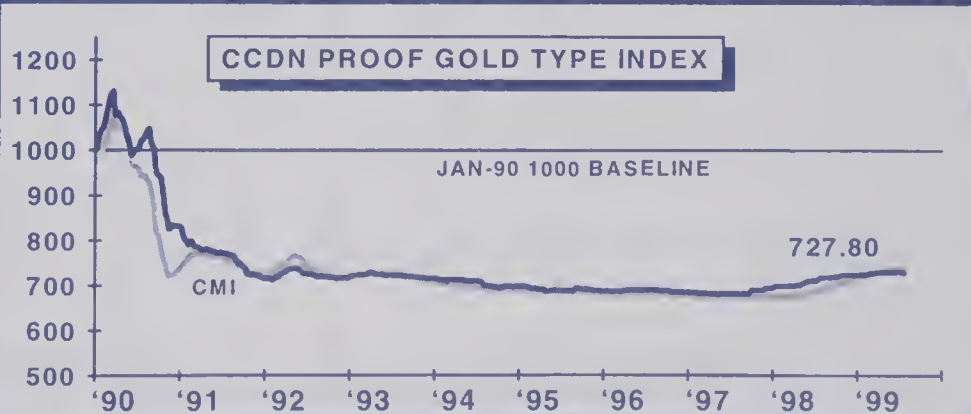

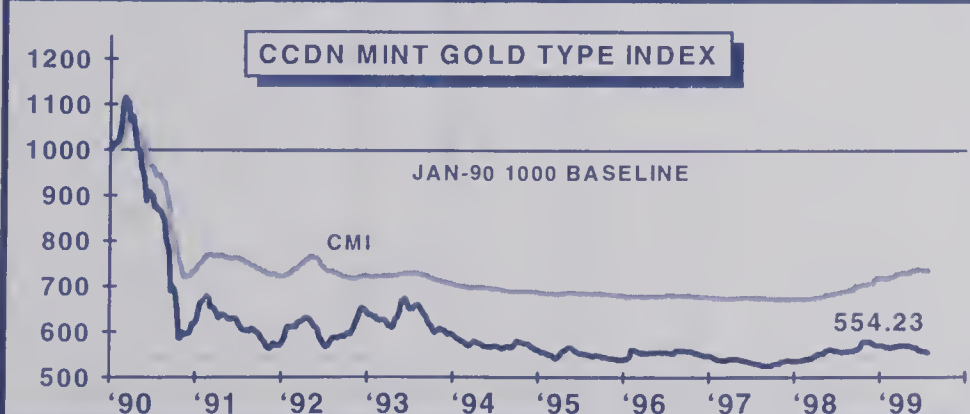

The Rarities Sale is a public auction that will be held August 9 in Rosemont, Illinois. The auction is being conducted by Bowers and Merena and will feature the Long Beach Connoisseur Collection and the Time

Capsule Collection, Part II. There are many certified rare coins in the sale, and we have listed just a few of the many highlights.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CCDn, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading network. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or claim that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "t" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

The right choice for the remarkable Eagle Collection was NGC.

The Eagle Collection...
a nearly unprecedented
accomplishment
which
includes
some of
numismatics'
most desirable
rarities.

For consistent,
accurate and impartial
grading of the Eagle
Collection, the right choice
was NGC. For years,
NGC has been the
choice of more
collectors and
dealers than any
other grading
service.

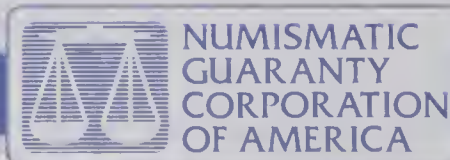

The more
choices you have
in grading services,
the more important it
becomes that you can
trust your choice.

That's NGC.

Gold In Demand

Summer ANA Heads To Chicago

Dealers are in final preparation for this year's American Numismatic Association's annual summer convention. The ANA is heading to Chicago, and the convention promises to be as hot as the weather. Chicago is an excellent rare coin city. The communities and cities nearby the Chicago Metropolitan area boast numerous collectors. It is no wonder so many dealers in numismatics make this area their point of reference in August. Heritage will host the convention auction, held August 11-15. Dealers are very **optimistic** that the strength of current market will have a positive impact on the upcoming ANA.

The market for sight-unseen coins is very active in specific areas. Dealers are buying rare as well as common dates. By way of example, the \$20 High Relief is in great demand. Dealers are willing to post strong, sight-unseen Bids for this Gold rarity. Other rare date Gold is also needed, and some Bids are appearing for various dates and denominations. Carson City Gold is realizing very strong demand. We know that dealers are optimistic about scarce date Dahlonega, Charlotte, New Orleans, San Francisco and some Philadelphia Mint Gold as well. Generally, dealers are looking for scarce dates in the Circulated grades of Extremely Fine 40 thru About Uncirculated 58 condition. Many collectors are working on date and Mint sets of Gold. Most of these collectors are happy to obtain a pleasing Circulated example. Extremely Fine condition Gold offers the collector most of the original design with some original Mint luster. Demand is very strong for \$20 Liberty Gold, but specific dates are needed in **all** Gold denominations. For example, this week we see an increase in MS64 Type II \$20 Gold pieces. Demand for common date Gold is still holding steady. We see supporting Bids at current levels. There are also offers to buy some

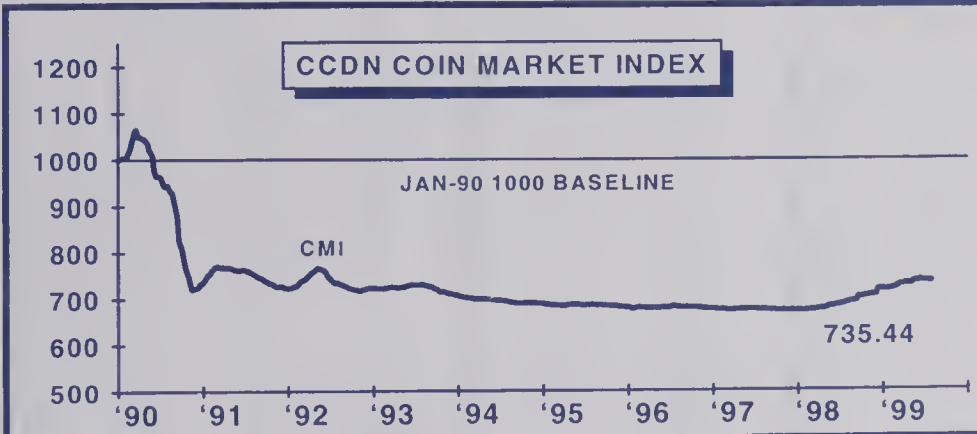

common date Gold, sight-unseen, at increased levels for select denominations and grades. Some dealers think that MS64 and MS65 Gold represent good value at current prices.

Similarly, demand for Morgan and Peace Dollar key and semi-key dates has had an effect on sight-unseen Bidding. Dealer interest is **specifically** targeting those dates difficult to find. Some aggressive Bids have been placed. However, most Bidding is conservatively taking place at, or near current levels. Morgan Dollar common dates grading MS64 thru MS66 have

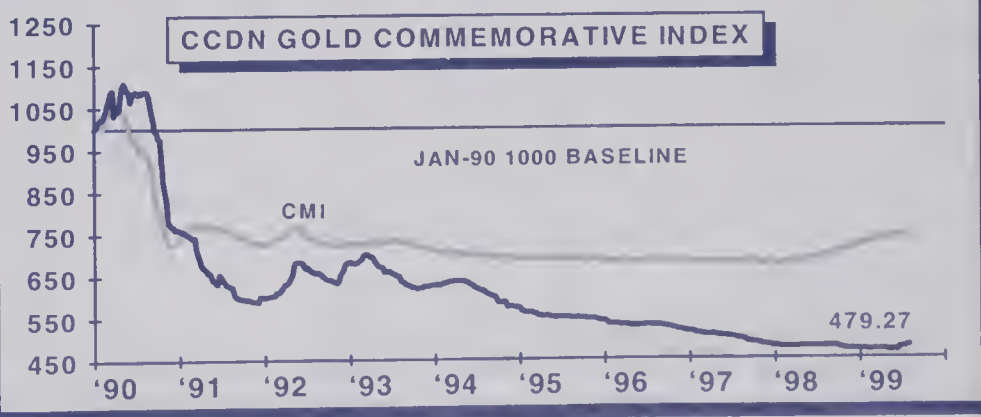

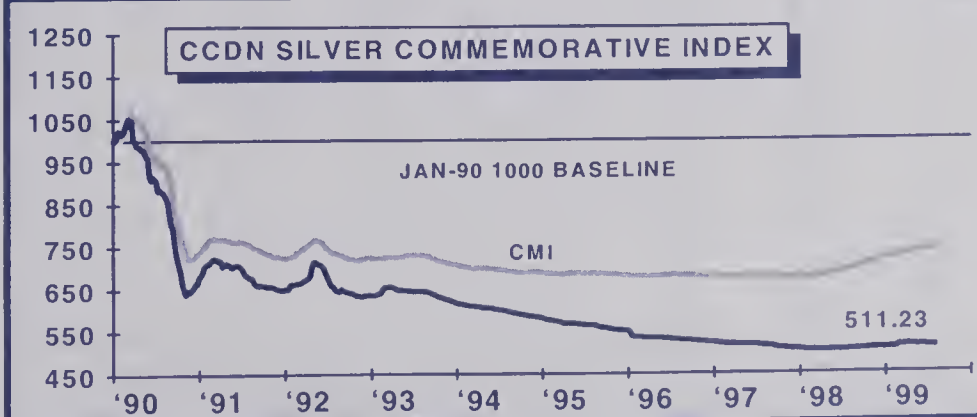

backed off of the higher levels that we had seen earlier this year.

Heritage will conduct the Chicago ANA 99 Signature Sale August 11-15. It will feature many collections totaling more than 3,300 lots, including the Chestatee Dahlonega Gold, Dr. David Litrenta, Louis S. Joseph, Ronald W. Brown Acadiana, William Casper, Watchung, Karl Reintjes, Nevada "CC" Silver, Richard Brownell, Peter Bronson, and the Eugene Peterson collections. There is also a consignment from Lloyds of London. This sale has many highlights, and we have included several certified examples.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

GSA Dollars In Demand Sight-Unseen Bids Command Five Figures And More

The summer American Numismatic Association's annual convention and public auction are almost here. They are scheduled to begin August 11. The pre-ANA festivities are already in progress, and Heritage is offering a special pre-ANA Bullet auction on August 7. Dealers from all over the country are converging upon Chicago to participate. The distraction of the ANA takes some of the activity away from the sight-unseen rare coin market. We have seen this slowdown taking place. However, dealers are still willing to post **strong**, sight-unseen Bids for the coins they need.

Many areas of the sight-unseen market are realizing steady, supporting Bids. Dealers are eager to buy coins at current levels. In some cases regarding rare dates, they want more than one example. Common, Circulated coins are also realizing demand. Dealers want to buy these coins because of their easy salability. Type coins such as Indian Head Cents, the Barber series and the Liberty Seated series are popular. New collectors are happily willing to take these examples.

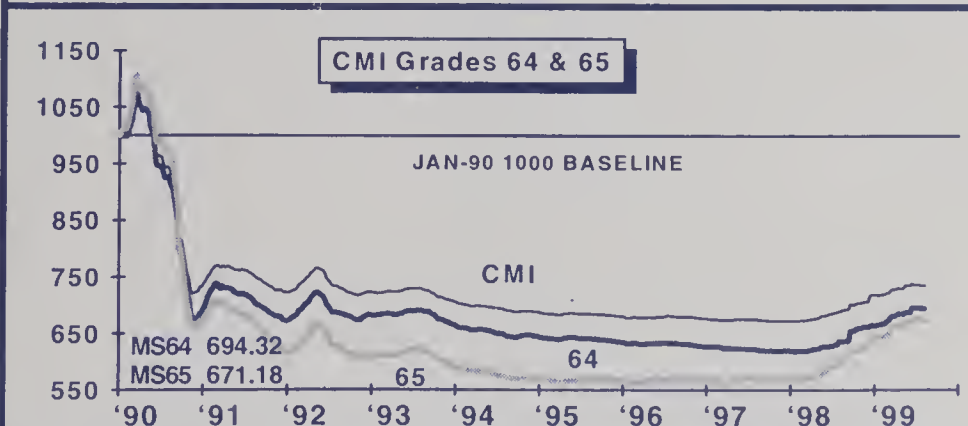

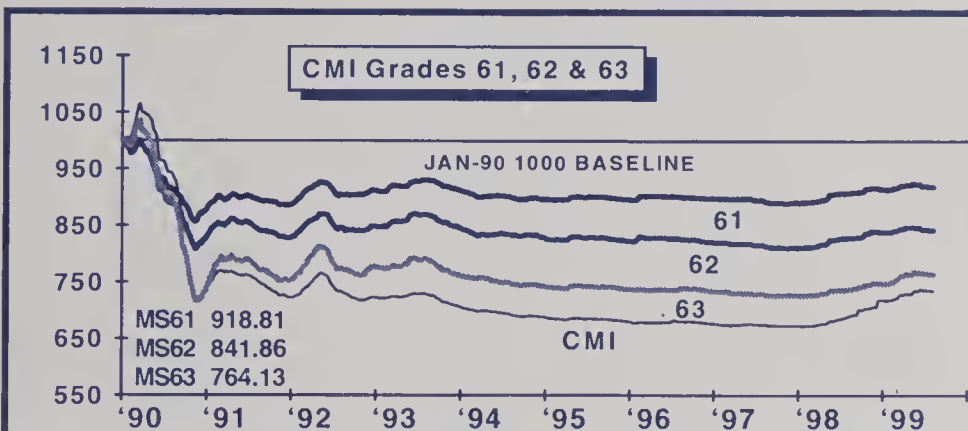

Today's coins may be sowing the seeds of future collectors. For example, the 1999 Susan B. Anthony and 2000 Sacagawea Dollars will most likely attract a good deal of new collectors. Also, the new 1999 circulating Commemorative State Quarters have certainly provided a boost to the market; interest is strong for the **Proof Sets** containing these Quarters as well. The availability of the new Quarters in general circulation can only add to the increasing collector base. Dealers are generally optimistic about the future of the rare coin market.

One area that has received a great deal of popularity is the General Services Administration Morgan Dollars. Dealers are looking to buy and sell these coins because many of their customers enjoy adding them to their collections. GSA Dollars are housed in an attractive case with a card offering information about

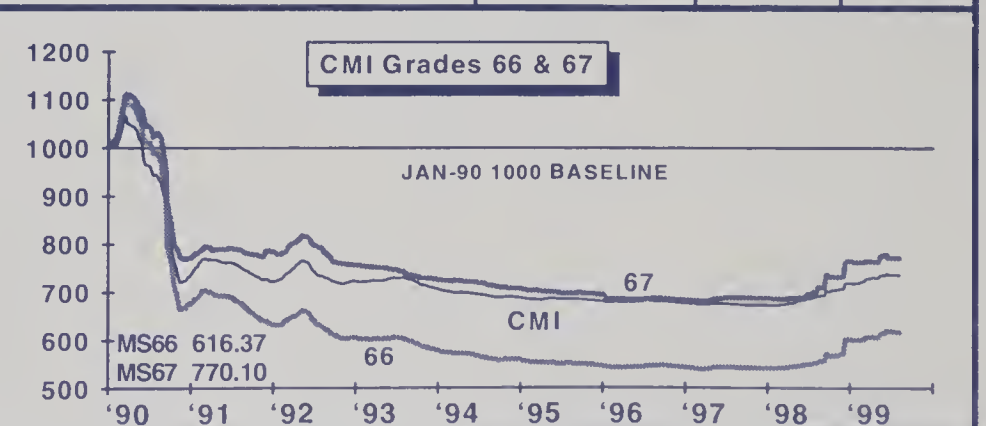

them. The demand is strongest for the Uncirculated Carson City Morgan Dollars, some of which are quite scarce. The key 1879-CC is Bid, sight-unseen, at \$2,200. Collectors who want a complete set of GSA Carson City Dollars know this is the date to acquire. Other popular GSA "CC" dates include the 1878-CC, 1880-CC, 1881-CC, 1885-CC, 1890-CC and 1891-CC. The dates 1878-CC, 1880-CC, 1881-CC and 1885-CC are all priced in the \$160-\$225 range. This group is a good step up for collectors who already own the common 1882-CC, 1883-CC or 1884-CC, and also offers the collector a chance to own a scarce GSA Dollar. The next tier, which includes the 1890-CC and the 1891-CC, always seems to be in demand. Most dealers are now Bidding between \$590-\$675 for each of these dates.

Many novices who began with GSA Dollars are now full-time Morgan Dollar collectors. They often look to buy the remaining Carson City Mint Morgan Dollars. The scarcity of 1889-CC provides a great challenge towards the fulfillment of this goal. The sight-unseen market for "CC" Morgan Dollars is very strong. More aggressive collectors are actively trying to build complete Morgan and Peace Dollar sets. Others move on toward Gold. In any event, the GSA Dollar offering has stimulated the interest and demand for rare coins.

Walking Liberty Half Dollars are realizing strong demand in the sight-unseen market. At least one dealer is Bidding five figures each for several key and semi-key dates in MS66 and MS67. Naturally, in this lofty grade, examples are few and far between. Dates such as 1917-S Obverse, 1918-D, 1918-S, 1919-D, 1919-S, 1920-D, 1920-S, 1921, 1921-D and 1921-S are always tough to locate. However, trying to find coins that grade this high is nearly impossible. It is easy to see that such strong Bidding for coins of this caliber provides powerful support for the sight-unseen market.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT THE
ANA SHOW

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Included in our recent purchases is the Wells Fargo® Nevada Gold hoard, which was the largest financial transaction in the history of numismatics. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

Early Gold Type Advances Auctions Dot Numismatic Landscape

As the ANA is in progress in Chicago, Early Gold Type is realizing very strong demand in the sight-unseen market. We have seen this trend developing over the past several months. Dealers are actively buying and selling Early Gold. They tell us there are many serious, numismatically educated and well-heeled collectors chasing this kind of material. The cost of Early Gold tends to scare away most collectors on a limited budget. Only the most sophisticated and wealthiest collectors even attempt putting together date and variety sets of Early Gold.

When we talk about Early Gold Type, we are really examining three denominations: The \$2.50, \$5 and \$10 Gold coins that were mostly struck by the Philadelphia Mint from 1795 thru 1834. (Keep in mind that some Classic Head examples were struck at the Charlotte, Dahlonega and New Orleans Mints.) To fill want lists and add nice examples to their inventories, dealers are Bidding for Capped Bust, Capped Draped Bust and Capped Head examples; both the Small Eagle and the Heraldic Eagle designs and needed. Often, these coins are referred to as pre-1835 Gold or just "Early Gold." Many Dealers include the Classic Head design (which has been very popular among collector/investors) in the Early Gold category. One reason for their inclusion is the 1834 being a transition year for the Classic Head design. A second reason is that the design was only used for a brief period. This Type was issued beginning in 1834 in the \$2.50 and \$5 denominations, with the \$2.50 last struck in 1839 and the \$5 ending in 1838. No Classic Head \$10 Gold examples were struck.

We see that strong, sight-unseen demand has put plus signs on a number of issues. It is important to emphasize that this demand is

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

You have to have this hot list of 44 coins destined for gains! And you need to know the 44 secret losers that could send you to the poorhouse!

Two winners on the cover: An 1804 Draped Bust silver dollar (left) which sold at public auction for \$1,815,000 and a 1913 Liberty Head nickel which sold at public auction for \$1,485,000

Scott Travers' Top 88 Coins Over \$100 44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ **R.W. Julian**, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by **Ed Reiter**, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In The Top 88, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

- You'll learn about:**
- The elements of value
 - Independent third-party grading
 - The age of type coins
 - Opinions relating to what coins are "losers"
 - A list of coins that are "winners"
 - Why every coin listed has something to like and something to dislike
 - One-year type coins
 - Generic Morgan dollars
 - Commemorative coins
 - Mint-error coins
 - Uncirculated late-date coins
 - Late-date proof sets from 1968 to date
 - Marketplace data and expert opinions on every listed coin
 - Meticulously researched historical information

Under The Glass

with David W. Lange, NGC Attribution Expert and Director of Research

When did you start collecting coins?

It was around 1964, when I was six years old. Coin collecting was very popular with kids at the time, and my older brother started sets of Lincolns and Buffaloes from circulation. He soon grew bored with coins, but I was hooked. He gave me the cents, but I had to buy the nickels from him at face value... about 35 cents!

How long have you been a coin professional?

It's been almost five years since I began working full-time in numismatics. I left a 15-year career in the engineering field to work for NGC, and I've never looked back.

What is it in your experience that gives your peers such confidence in your numismatic knowledge and attribution skills?

Decades of examining all kinds of U. S. and world coins has made me a true numismatist. At one time or another, I've collected everything, from A to Z. When people see that I have a real love for coins, it reveals a commitment to accurate attribution. Of course, having an extensive library is essential. I use only a dozen or so books on a daily basis, but I have many others on hand.

Do you have a special area of interest or expertise within numismatics?

Though I've written books on various U. S. coin series, I don't consider myself a specialist in any one coin type. My job requires that I have a fairly comprehensive knowledge of all American coins. In my own collecting, I've specialized in U. S. coinage for the Philippines, and I recently wrote that chapter for the Red Book.

Any exciting coins come across your desk recently?

I was privileged to prepare PHOTO PROOFS for several early cents, including one known to copper aficionados as "The Coin." Each of the pieces in this collection was the finest known for its particular variety, and their quality was absolutely breathtaking.

Describe a favorite collection you've assembled.

Years ago I put together a complete set of San Francisco Mint Seated Liberty Halves with all the mintmark varieties. Though most were lightly circulated, each coin was totally original and eye-appealing. My 1855-S was one of the finest known, but the '78-S was the rarest and my favorite. I had to sell all of my non-S halves just to buy that one coin! The set's gone now, but I can still see each coin in my mind.

Why did you decide to leave the engineering field to come work for NGC?

I spent so much of my waking day thinking about coins that making the transition was inevitable. I considered NGC's reputation for integrity and grading expertise, along with their commitment to the hobby, and it seemed a perfect fit. Coins are more fun to me than relays and capacitors, and my job at NGC provides an element of creativity that was simply lacking before coming here.

What is the best part of your job as a numismatist?

Variety attribution is the most challenging and satisfying work I do. I love the early coppers, as well as Bust Halves and Dollars. I enjoy PHOTO PROOF because I love to write. It offers me a chance to describe coins in more romantic terms than I use for variety attribution, which tends to be quite clinical. Also, PHOTO PROOF draws the cream of the crop in quality coins. It's a magnet for the most beautiful pieces, both U.S. and world.

"Dave Lange's expertise in so many diverse areas of U.S. numismatics has been a big asset to our business. His PHOTO PROOF's of Pioneer gold coins & U.S. Patterns are very popular with our customers."

Don Kagin, Kagin's

"Dave Lange is one of the most highly respected specialists in the area of numismatic varieties. His knowledge and experience combined with a professional approach to writing and research makes him a numismatist I hold in the highest esteem."

Favorite hobby I've become hooked on collecting old coin boards and albums. It started as an impulse to save a few of the ones I remembered from childhood, but I've really gotten into it now. I'm actually cataloging the various manufacturers and their lines of titles.

Generic Gold, Standing Liberty Quarters Weak 1943 Copper Lincoln Cent Brings \$32,200 in XF40

The market for sight-unseen rare coins is active. Generic coins are soft this week, with decreases evident among common date Gold and select, Uncirculated Types. Dealers have noticed decreased demand and falling prices among Generic Gold, but are not able to load-up on these coins at these lower levels. They tell us it is tough to buy these bargains in quantity. Dealers believe much of this material is in tight hands. The people holding these coins are in a good position financially to wait it out and not sell into this bear market.

Generic Silver weakness can be seen in the Standing Liberty Quarter series. Common dates are down in MS64, MS64FH, MS65, MS65FH, MS66 and MS66FH—all Type II. We see select trading at these lower levels; this has not influenced the sight-seen demand for these Quarters. Dealers are still willing to pay high prices for Quarters they like. However, those that are average for the grade, on a sight-unseen basis, are experiencing some weakness. Discounted prices are also taking place for some better dates from the Standing Liberty Quarter series. Again, this softness is for coins at the low end of the grading range for a particular grade category.

The sight-unseen market for \$20 Saint-Gaudens is facing a similar situation to the Quarters. Many Generic Saints are experiencing weakness in most Mint State grades. One look at our chart should be enough to see the selling pressure facing these Saints. The softness in this market also mirrors the weakness that Generic Gold is undergoing in the sight-seen market. We know that lack of demand combined with few sellers willing to unload their coins at these levels puts added pressure on price. Similar to the Standing Liberty Quarters, buyers are still willing to expand their Bids in the sight-seen market for Saints that measure up to their standards.

\$4 Gold Stella — Type		
	Sight-Unseen BID	NGC & PCGS POP
PR61	\$36K	20
PR62	\$39K	31
PR63	\$44K	71
PR64	\$62K	141
PR65	\$80K	66
PR66	\$100K	30
PR67	\$150K	3

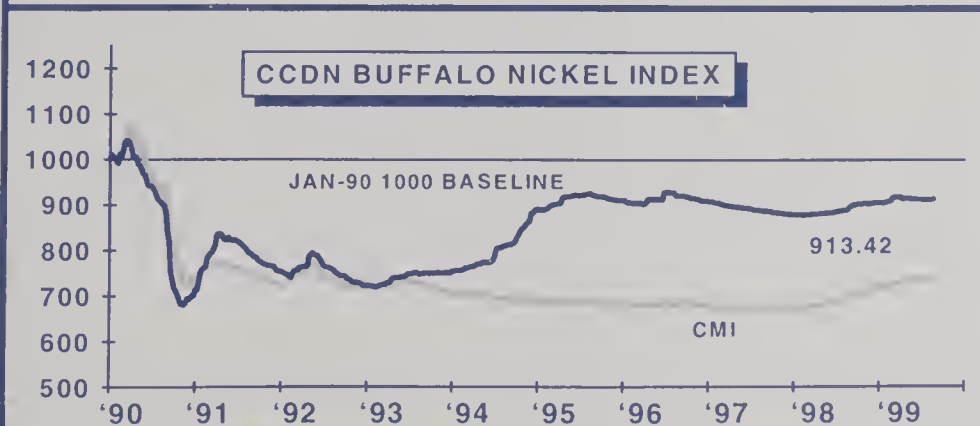

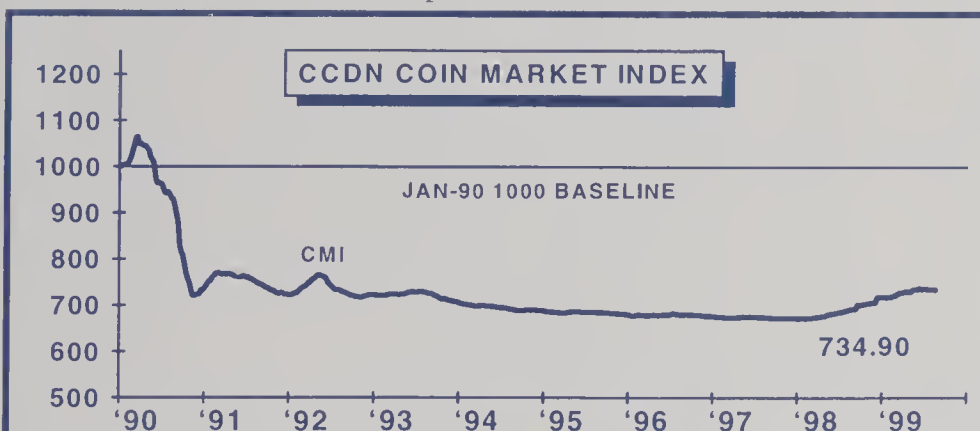

On a much more positive note regarding Gold, this week, Proof Gold Type is displaying several plus signs. The strength of this demand is being directed at the \$4 Gold Flowing Hair Stellas. These coins, technically patterns, are very popular and are collected with other Proof Gold. Dealers are actively trying to buy this unusual denomination. The common date among Stellas is the 1879 Flowing Hair. The 1880 Flowing Hair, and the 1879 and 1880 Coiled Hair varieties command a much greater value. We see that dealers are significantly increasing their Bids for PR61 thru PR66 for both PCGS and NGC certified coins.

Heritage conducted the American Numismatic Association's Bullet Auction, August 14 in Chicago. This sale featured only certified rare coins. The auction had more than 2,000 lots and realized \$417,360.

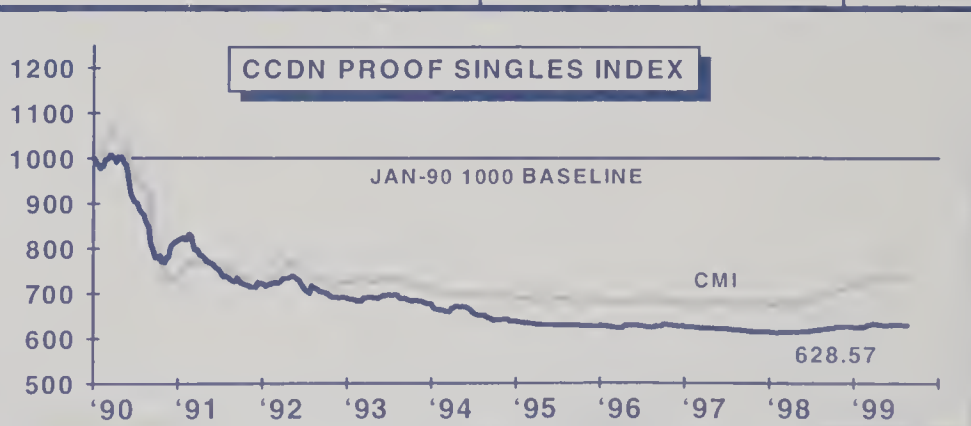

The Heritage Signature Sale, Chicago ANA '99 auction featured many collections including those from the Chestatee collection of Dahlonga Gold, Dr. David Litrenta, Louis S. Joseph, Ronald W. Brown Acadiana, William Casper, Watchung, Karl Reintjes, the Nevada collection of 'CC' Silver, Richard Brownell, Peter Bronson, Eugene Peterson, and a consignment from Lloyds of London. Over 3,000 lots realized more than \$8.854 million. Among these lots was the rare and famous 1943 Copper Lincoln Cent.

An example grading XF40 brought \$32,200. This is a rarity that almost always receives value estimates way above what it is worth. The following are a few of the many certified highlights from the Signature Sale:

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Most rare coin dealerships are small firms with a few employees and a limited amount of capital. In one regard, Spectrum Numismatics is like all other coin companies. Spectrum Numismatics has only 7 employees, but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is the **king of the cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum has become one of the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 37 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased \$354,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 50 years of experience and over \$250,000,000 in purchases of coins.

In just eight short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyer of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins on which Spectrum outbid every major United States coin dealer:

Coin	Grade	Date Purchased	Purchase Price
1894-S Barber 10¢	Prf-64	Aug. 1992	\$165,000
King of Siam Proof Set		Feb. 2, 1993	\$1,815,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	\$962,500
1848-O \$10 Liberty	MS-66	Nov. 1994	\$154,000
1796 No Stars \$2½	MS-65	Dec. 5, 1995	\$605,000
1796 No Pole ½ Cent	MS-66 RB	May 21, 1996	\$506,000
1804 \$1	Prf.-65	April 8, 1997	\$1,815,000
1838 \$10	Prf.-65	May 21, 1998	\$550,000

It's very rare in the rare coin industry for coin dealers to say something nice about other coin dealers. Here are few things that Spectrum's fellow coin dealers have said about the King of Cash.

"I've known Greg Roberts for 15 years. Greg and Thad Olson sold me Gem dollars and Walkers when they were kids in high school. I've been doing business with them ever since. Greg is my friend and I trust him. I buy a lot of coins from Spectrum and I sell a lot of coins to Spectrum. They're easy to deal with and their checks are always good."

David Hall
David Hall's North American Trading
Santa Ana, California

"I sell a lot of coins to Spectrum Numismatics. I've even had them help me with the financing on a couple of larger numismatic transactions. Spectrum is easy to do business with and they have a ton of cash."

John Dannreuther
JDRC Inc.
Memphis, Tennessee

"I have always enjoyed very much the many transactions I have had with Spectrum! I heavily recommend Greg Roberts and his crew at Spectrum. Spectrum is just excellent to do business with."

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves, and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 81% of all the coins Spectrum purchases, are coins priced under \$5,000, and 12% of all the coins that Spectrum purchases are coins priced under \$100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line collect (949) 955-1250. Ask for Greg or Thad and tell them you have coins for sale. Tell them you want to talk to the **King of Cash**.

THE KING OF CASH GOES TO LONG BEACH

Spectrum Numismatics will be at the Long Beach Coin & Collectible Expo September 23-26. Spectrum will be there for one reason only-to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should go to tables 510 & 613 in Long Beach. Tell them you want to speak to the King of Cash.

Sight-Unseen Market Summer Slowdown Type And Dollars Off

Bidding for sight-unseen rare coins is becoming a little more conservative. Some dealers are not as aggressive as in past months. During the Summer, the market normally slows down. Many dealers and their employees use this time for vacationing. Even the busiest shops take some time off to rejuvenate themselves. After the busy activity of the Fall ANA and before the fervor of the holiday season, complete with Y2K impetus, dealers are taking advantage of the short lull in the market for much needed rest.

Discounting is taking place among the popular Morgan and Peace Dollar series. Keep in mind that these are for sight-unseen coins. Common dates are taking the most hits. We see generic Morgan Dollars declining in MS64, MS66 and MS67. Dealers are offering these coins at lower, more attractive levels. The discounts are occurring with coins professionally graded and certified by PCGS and NGC. Morgan Dollars grading MS67 are selling dealer-to-dealer in the \$500 range. Quantities of slabbed MS66 Dollars are being offered at \$185. Even MS64 Morgan Dollars are feeling the strain; Bids have dropped to \$32 for both PCGS and NGC coins. MS63 Morgans are available at \$27 each, for either PCGS or NGC. Peace Dollars have followed a somewhat similar trend; Bids are down in MS64 thru MS67 for common dates, though some better dates are being discounted as well.

The Mint State and Proof Type markets are also experiencing some sight-unseen weakness. Coins selling for discounted prices at public auction have contributed to a portion of this decline. It appears that nearly all areas of the Type market have loosened. Declines have been registered for copper and copper-nickel Type. We also see some

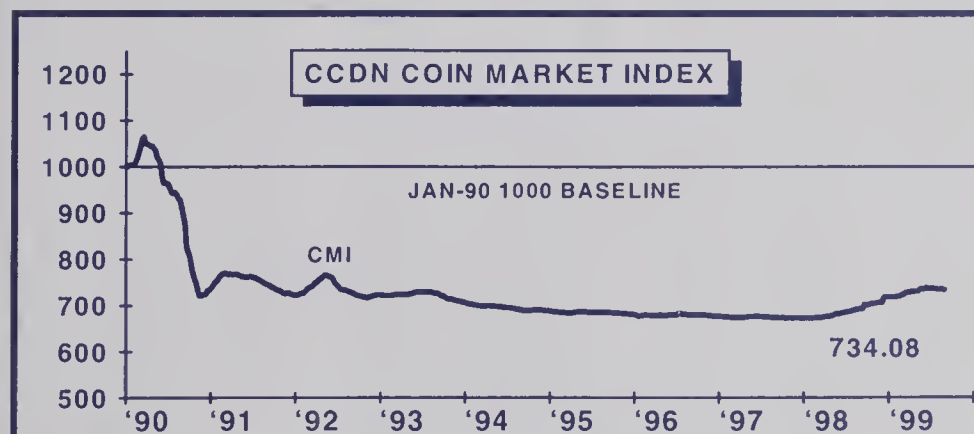

declines taking place in MS64 and better Silver Type. The big action is in the Gold Type market. Mint State Gold Type has been under pressure all year. Buyers are becoming more cautious, especially with the current spot price of Gold near record low levels. This translates into more conservative dealer Bidding, particularly in the sight-unseen market. Declines are occurring in Mint State Gold in grades MS61 thru MS66. Similarly, Proof Type and Proof Gold Type have begun to decline since last week. In both cases, Proof 63 and better grades are affected.

As depicted in the chart below, we monitored activity from January 1 thru August 27. Since January 1, three out of four categories

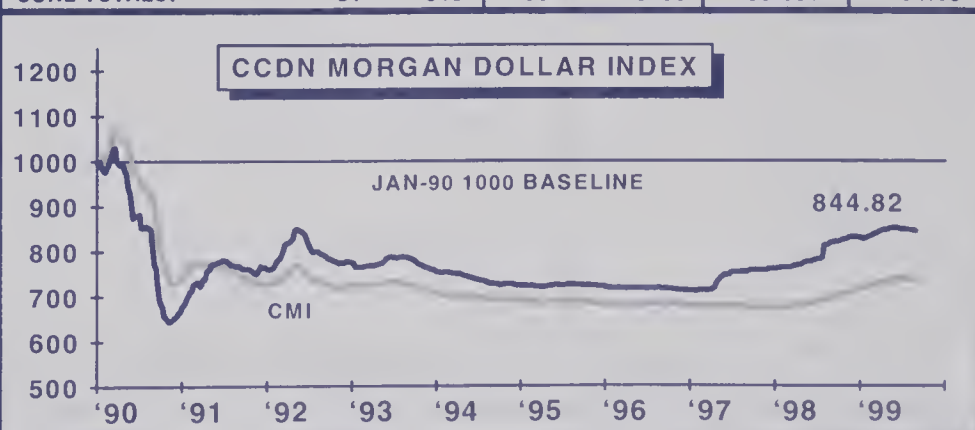

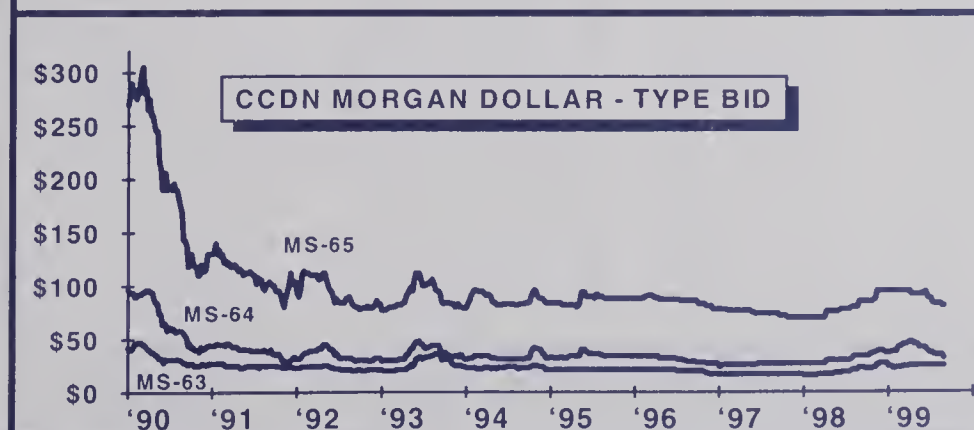

CCDN COIN MARKET INDEX			
Category	1/1/99	8/27/99	YTD
Mint State Type	676.52	689.79	+ 13.27
Mint State Gold	570.14	546.20	- 23.94
Proof Type	686.59	692.79	+ 6.20
Proof Gold Type	723.93	734.36	+ 10.43

have positive statistics. Even though the market has slowed, keep in mind that these figures reflect dealer *sight-unseen* Bidding.

Despite these recently discounted Bids, dealers still need to buy coins to fill their customers' want lists. These lists continue to grow as the collector base expands. The interest generated by the new 1999 Circulating Commemorative Quarters has imbued the market with new life. People are interested enough to ask questions about coins they have acquired. Also, the internet has provided a medium for new collectors to have their questions answered by experts. All this adds up to a larger collector base and an expanding rare coin marketplace.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading network. sell list coin for and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis

The right choice for the amazing 1873-CC No Arrows dime was NGC.

The 1873-CC No Arrows
dime... one of the rarest,
most desirable coins in
the world.

For consistent, accurate and impartial grading of the 1873-CC No Arrows dime, the right choice was NGC. For years, NGC has been the choice of more collectors and dealers than any other grading service.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

Now you can learn a lesson about the new coin market. Without losing a mint.

The Coin Collector's Survival Manual – Revised Third Edition by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN
BUYING AND SELLING FOR AS LITTLE AS \$14.95.

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business
editor, **NEWSWEEK**

"One of the most important coin books ever written." -*The New York Times*

"Should be read before a single coin is bought - and read again and again!" -*Coin World*

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably. This thoroughly revised edition examines the coin field from an insider's perspective and continues to break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped off if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

Order your copy of *The Coin Collector's Survival Manual - Third Edition*. 220 pages, dozens of sharp illustrations. For the price of \$14.95, you can make a mint.

PGCS Proof 68 Dollar Brings \$4.14 Million Auctions Take Center Stage

We begin the month of September on a positive note. The rare coin market is doing very well as dealers report that the collector base is expanding. Also, the market received a tremendous shot in the arm with a **world record** \$4.14 million dollar auction sale of the finest known 1804 Draped Bust Dollar. On August 30, the Walter H. Childs collection was sold in New York. Perhaps the most famous and desirable coin in all of numismatics, the 1804 Dollar was among the more than 800 lots offered in the sale. The coin was one of the "Original" Class I examples encapsulated by PCGS as Proof 68. It is the finest known of all 1804 Dollars, and is believed to be the specimen that was given to the Sultan of Muscat. Presumably, this coin, along with other denominations from the same period, was given to the Sultan by Edmund Roberts on behalf of President Andrew Jackson in 1835.

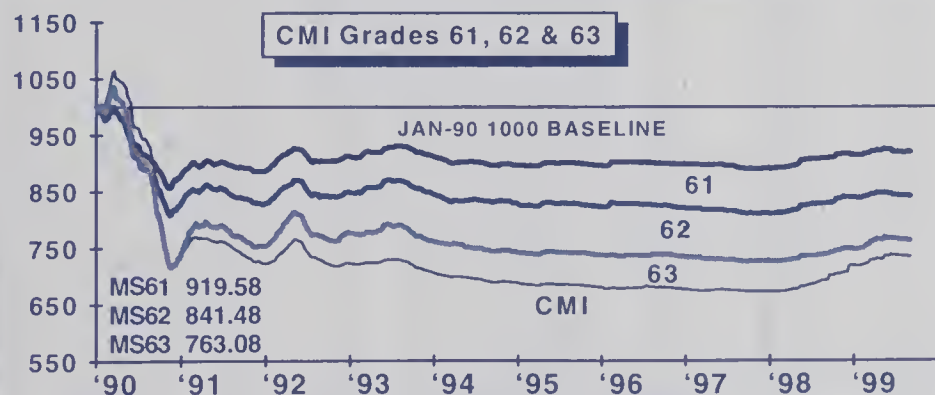

The sale of this rarity is a perfect example of the unpredictability of the coin market. Pre-sale estimates were circulating among hobbyists for several weeks. The general consensus was approximately \$2 million. The Bidding opened at \$500,000. Quickly, someone called out a jump Bid of \$1.2 million. After another jump brought the Bid to more than \$1.7 million, things began to get serious. After passing \$2 million, several Bidders still had their paddles in the air. As the \$3 million level was passed, with the Bidding advancing at \$100,000 increments, a final winning Bid of \$3.6 million was taken by the auctioneer. The 15 percent buyer's fee put the total over the \$4 million mark. David W. Akers gave the winning Bid on behalf of a Southwestern businessman. Akers said his client, wishing to remain anonymous, has been collecting for more than 20 years. The 1804 Draped Bust Dollar fits perfectly in his high quality collection, specializing in pre-1834 Silver and Gold. Akers said there are no immediate plans to sell the classic rarity; rather, coins are still being added to the collection. Jay Parrino of Kansas City, Missouri, was the underbidder on the Dollar. "I was willing to pay over \$4 million." Even at \$4.14 million, "I think that this coin was an incredible

bargain." Parrino believes that the sale of the 1804 "was the turning point for all major rarities. It confirms my belief that the finest is worth multiples of the second best." That same evening, Parrino said he sold his NGC PR66 1885 Trade Dollar for \$1.5 million in a private transaction. Also, immediately after the sale of the Dollar, Parrino was offered \$3 million on the spot for yet another major rarity.

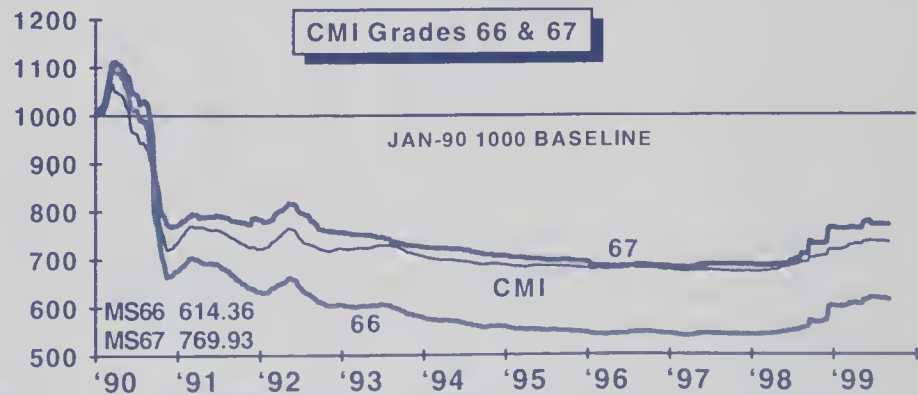

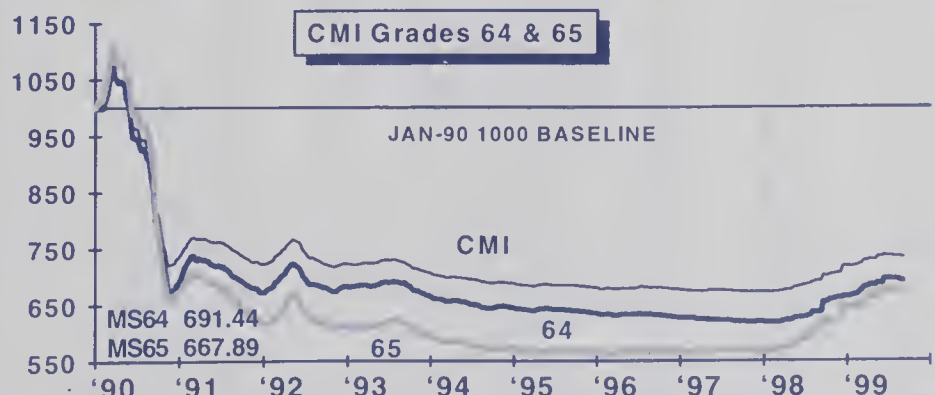

The Childs collection was sold by Bowers and Merena. It realized more than \$9.425 million. Putting it in perspective, the 1804 Silver Dollar accounted for nearly 44 percent of the total prices realized. Strong prices were paid for rare date Gold and Proof Gold. The Dr. Carl A. Minning, Jr., collection sale took place on August 31. We have listed a few of the sale's many highlights from both auctions.

The sight-unseen market will no doubt benefit from the record sale price received for the 1804 Dollar. The publicity and notoriety of the event bode well for the hobby of coin collecting. Dealers will most likely be able to find many new customers interested in beginning a collection. As dealers receive increased demand from their customers, they will need to buy material utilizing all sources at their disposal, which certainly include the sight-unseen market.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Demand Backed By Strong Financial Position Southern California Auctions Provide Needed Coins

Times are good. The overall market is doing very well, and dealers are encouraged by the activity and publicity public auctions have provided. The recent sale of a **multi-million-dollar** rare coin has certainly been positive for the rare coin market. Dealers are receiving encouraging feedback from their customers who are eager to add more coins to their portfolios. The profits gained from U.S. financial markets have been a strong provider of funds towards this end. High-priced rarities are being targeted by this money. Baby boomers are now in a better financial position to buy rare coins. They are buying the rare dates and other rarities they wanted when they were young collectors. This may indicate an initial trend as we look to the year 2000. Much of this demand resulting in record transactions is being accomplished with increased disposable income. Also, relatively low interest rates make purchases of rare coins rather appealing. Furthermore, attractive precious metal prices entice investors to buy \$20 Liberty and Saint-Gaudens Gold.

Silver rare coins are in demand as well. For example, the sight-unseen Morgan Dollar market is healthy, with dealers willing to increase their Bids as collector demand grows. The Morgan and Peace Dollars are among the most popular of all rare coin series. Considering such long-standing popularity combined with current market strength, it is no wonder collectors are looking to upgrade and add to their existing Morgan and Peace Dollar collections.

Type collecting is growing. Dealers are pressed to supply their customers with coins they need. The competition among dealers gets tougher all the time, as witnessed at auction and on the electronic dealer networks. The need of material is great, and we do not see this condition disappearing any time soon.

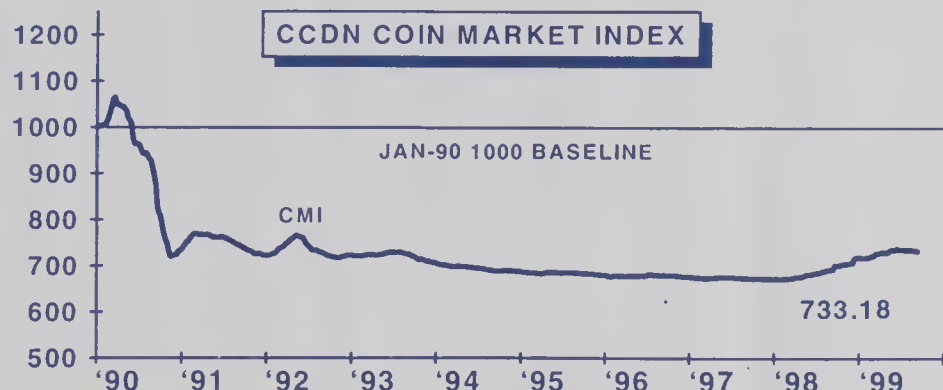

Auctions are an excellent avenue for dealers looking to fill want lists. September is usually a busy month for auctions, and several will take place in Southern California, preceding and during the Long Beach Expo.

Superior Stamp & Coin will host a Pre-Long Beach Sale on September 19-21 in Beverly Hills. The auction will feature the David Bilton, Harvey Musikoff, Denver, and Flagler collections, as well as more selections from the Hudson River Valley collection. We have listed a few of the many certified highlights from that sale.

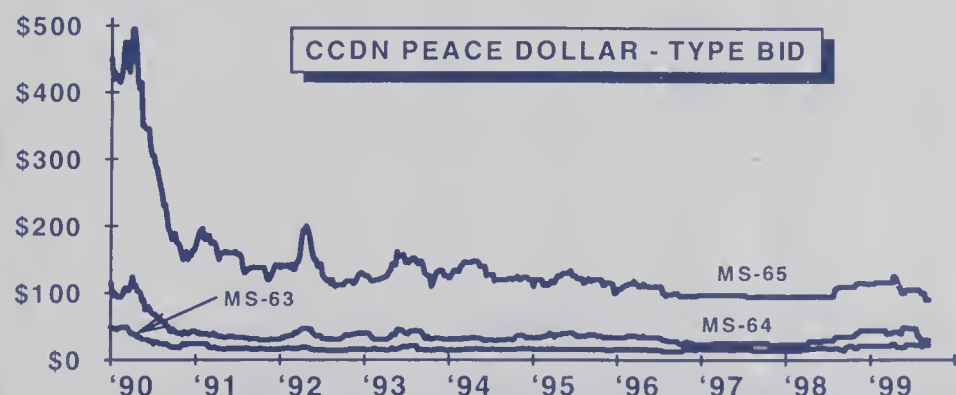

Heritage will conduct the Long Beach Signature Sale auction on September 23-24 in Long Beach. The Signature Sale will feature consignments from the Dr. David Litrenta, Scott Gilchrist, Pennsylvania Five Dollar, and the Larry Briggs Liberty Seated Quarter collections. There are many highlights, and we have listed a few of the certified examples.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Under The Glass

with F. Michael "Skip" Fazzari, NGC Senior Authenticator

When did you start collecting coins?

In the late 1950s when my grandfather gave me a box of old, mostly foreign coins. My favorite coin of all was a 1777 Spanish Pillar dollar because it was "pirate money" to me. Grandfather got part of his paycheck in silver dollars, so he had quite a hoard of coins, including two quarter eagle gold pieces he bought for my father and grandmother at the Sesquicentennial Exposition in 1926. By 1963 I was collecting proof sets and a U.S. type set. It's just progressed from there.

How long have you been a coin professional?

I've been working full-time in numismatics for over 28 years, with other grading services, and as a lecturer on numismatics at Adelphi University. I've been fortunate to work with some of the best people in numismatics, in exciting and ground-breaking work.

What accomplishments do you believe have earned you the respect of your peers in the numismatic community?

While at ANACS, I developed the "Die Scratch Method of Coin Authentication" and helped formulate the grading system used by ANACS which evolved into the ANA Grading Standards. Decades of examining hundreds of thousands of U. S. and world coins has sharpened my eye for what's real and what's not. It's that kind of long experience, proving along the way that you know what you're doing, that people in this hobby respect most.

So your main area of numismatic expertise is authentication?

Right. I am familiar with the characteristics of coins from ancients to the modern issues of most countries. The coins I enjoy looking at most are gold coins since they're often counterfeited, and sometimes very ingeniously. It's a game: the counterfeiters keep improving and I have to keep on top of all their new techniques in order to catch them.

Any exciting coins come across your desk recently?

I recently saw a BU Pan Pac \$50 slug, which was amazing. The coin is large, heavy, and the design is exquisitely artistic. It's this coin which taught me the most important lesson in authentication: you must know what genuine coins look like before you can authenticate them. I was working at ANACS in Washington DC, when a heavily worn \$50 Pan Pac slug came to us. It seemed so obviously to be a cast fake, but when I compared it to those in the National Collection at the Smithsonian Institute, I was shocked to see that they all looked the same... like fakes. Hence the valuable lesson that each coin has its own unique characteristics and that the Pan Pac slugs appear much different than regular business strike coins because of the way they were made.

Describe a favorite coin or a collection you've assembled.

My favorite coins are the ones I still lust after but haven't obtained, such as a St. Gaudens Extremely High Relief \$20 gold coin. I still dream about the ones "that got away" like a BU Alexander the Great gold Stater that I didn't purchase for some reason I can't even remember or would be embarrassed to admit with hindsight.

Why did you decide to leave teaching to work for NGC?

NGC is, in my opinion, at the zenith of the numismatic industry. I see more coins in a week at NGC than I saw in a whole month at the other grading services. The coins are more interesting, too. I've always wanted to be the best at what I do, and to continue learning as I go. At NGC I'm

around numismatists and coins that expand my knowledge of authentication and grading every day. It's a joy for me to be here, as it would be for anyone who loves coins.

What is the best part of your job?

The people are great, but I most enjoy the time spent with my stereo microscope doing research and recording diagnostics on coins that are seldom encountered outside a museum. The coins we see here are truly amazing, the best of the best.

Born Georgetown Hospital, Washington, DC.

Family Parents in Florida.

Favorite hobby I have about a dozen serious hobbies, including coins, stamps, horses, antiques, shooting sports, and cars, to name just a few. If forced to choose just one it would be a tough call between coins and horses.

I've known Skip for about 30 years and have found him to be a conscientious expert numismatist. His authentication skill is among the best in numismatics and I feel he is a substantial asset to NGC.
Julian Leidman

Skip Fazzari has developed and lent his expertise in grading and authenticating coins for the numismatic community over the last 3 decades. He is a tremendous asset to the NGC authentication and grading staff.
M. Louis Teller

Skip Fazzari's reputation precedes him and has, for the 25 years I have known him. His numismatic knowledge and research talent are among the best in our field.

BOWERS AND MERENA IS PLEASED TO PRESENT

Fantastic Selections from the Harry W. Bass, Jr. Collection

OCTOBER 2-3, 1999 • NEW YORK CITY

In the world of numismatics, Harry Wesley Bass, Jr. will long be remembered for his remarkable collection and his outstanding contributions to the coin-collecting hobby. We are pleased to announce that the Harry W. Bass, Jr. Research Foundation has commissioned us to showcase at public sale many important items from its vast and impressive holdings. No effort will be spared to make this catalogue a fine memorial to Harry's efforts and a reference of lasting numismatic importance.

Sale II will be held on October 2-3, 1999, and will include some of the most significant gold coins to be offered in our time (including those pictured here). In addition to these fabulous rarities, there are hundreds of collector coins of all dates and grades. Something for every collecting budget! The sale will be held at the Park Lane Hotel, Central Park South, New York City.

SPECIAL PUBLICATIONS

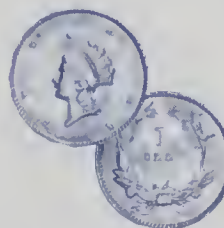

In conjunction with this historic offering we will be issuing a beautiful Grand Format™ catalogue in the following formats:

Softbound "working copy" for use before and at the sale. If you have a subscription to Bowers and Merena catalogues for 1999, you will receive a copy automatically. Otherwise, single copies (including prices realized) may be reserved for \$40 each (plus \$5 shipping to U.S. addresses; \$25 shipping by air elsewhere).

Deluxe hardbound copy (with prices realized) to be sent after the sale. Personally autographed by Q. David Bowers, Raymond N. Merena, Christine Karstedt, Mark Borckardt, John Pack, Frank Van Valen, and Douglas Plasencia. Each: \$100 (plus \$10 shipping to U.S. addresses; \$25 elsewhere).

Become a subscriber to all Bowers and Merena catalogues and periodicals for the next 12 months including our October sale of the Harry W. Bass, Jr. Collection and our May and November, 2000 sales of the Bass Collection—over \$350 in cover prices—for just \$145 to U.S. addresses, \$200 to Canadian, and \$250 elsewhere.

To order: Call toll-free, credit card in hand, 1-800-222-5993 and ask for our Publications Department. We also accept orders via mail or fax.

You have to have this hot list of 44 coins destined for gains!

And you need to know the 44 secret losers

that could send you to the poorhouse!

Two winners on the cover: An 1804 Draped Bust silver dollar (left) which sold at public auction for \$1,815,000 and a 1913 Liberty Head nickel which sold at public auction for \$1,485,000

Scott Travers' Top 88 Coins Over \$100

44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ R.W. Julian, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by Ed Reiter, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In The Top 88, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- Independent third-party grading
- The age of type coins
- Opinions relating to what coins are "losers"
- A list of coins that are "winners"
- Why every coin listed has something to like and something to dislike
- One-year type coins
- Generic Morgan dollars
- Commemorative coins
- Mint-error coins
- Uncirculated late-date coins
- Late-date proof sets from 1968 to date
- Marketplace data and expert opinions on every listed coin
- Meticulously researched historical information

BULL MARKET CONTINUES IRISH AUCTION PRODUCES STRONG PRICES

ACTIVITY

across the market

by Kevin Foley

The Market's continued strength in super money continues a pattern of strength in the market's recent selling of the U.S. dollar. This is in part due to the fact that the market's recent selling of the U.S. dollar has been a very strong indicator of the market's strength in super money.

The ability of the marketplace to support a growing number of dedicated specialty events demonstrates the growing breadth of the collector dealer base. A prediction such as a decade ago that 1997 would see five successful paper money shows might have been greeted with laughter. Yet that is precisely what we will have this year.

LARGE SIZE TYPE NOTES

Collectors continue to be very much involved in the market. This growing demand continues to exert upward pressure on prices. Buyers also continue their emphasis on eye appeal, focusing on how generally attractive a note looks, regardless of its technical grade. This results in an overlapping of prices from grade to grade. An especially nice looking example of a lower grade commanding a higher price than a piece of a technical superior grade.

The upper end of the quality spectrum (Choice and Gem Notes) are experiencing more demand than existing supplies are able to support. The result is a continuing pattern of price increases. Collectors seeking Gem Notes soon learn that once they get beyond the half dozen or so most common notes then prices can be quite a challenge.

This recognition results in some unexpectedly high prices at auction. When multiple bidders focus on the same notes and realize it may be months or even much longer before another example is offered, the price guides tend to be abandoned as a bidding aid.

SMALL SIZE TYPE NOTES

Small type notes continue to show in popularity. Early Federal Reserve Notes are especially prominent on collector's want lists. These once shunned notes amply demonstrate the growing breadth of the market. A decade ago they could typically be acquired for the modest premiums over face. Whatever difficulty collectors faced

in acquiring such notes was generally related to the fact that they were so inexpensive it warranted a dealer's effort to acquire them. Today the growing demand has led to higher prices, and early Federal Reserve Notes are now in the collector's market. The market's interest in the "spec" of these notes is evident. Prices in this specialty area are especially strong. The more common notes, particularly the series the higher the price. It seems that no matter how many errors are offered at an auction, bidders want even more.

FRACTIONAL CURRENCY

Fractional currency continues to be the specialty of the specialty area. While very scarce and the highest quality Choice and Gem material is in strong demand, common pieces of more ordinary grades are also in demand.

There is simply more fractional currency than there is demand for. The result is that when offered at an auction, prices can come quite slowly. When offered at auction, prices can come quite slowly.

For buyers, this represents a rare opportunity to acquire notes at a relatively low level. Until now, people want to buy fractional currency in small patterns (as expected) to continue.

NATIONAL BANK NOTES

National Bank Notes continue to enjoy considerable collector interest.

Type National Bank Notes continue to be sought after as representative of their general design type rather than for their issuing bank, are much in demand at the higher quality levels. Buyers of such material can be quite frustrated at their inability to find what they are looking for. Too many buyers and not enough available material can only translate to higher prices in the future.

Demand for National Bank Notes is predicated on the scarcity of the issuing bank remains at historically high levels. Since collectors continue to specialize geographically, prices are also very much dependent on where a note is from. In addition, its rarity, some states are very much in demand while others enjoy far less vigorous buyer interest.

Dealers who fail to keep informed of the many individual state markets can easily find themselves "burned" in a scarce note from a state with limited collector interest.

MISCELLANEOUS

The market for obsolete Notes remains quite strong but continues to move toward the type of geographical specialization which characterizes the National market. Thus, place of origin can be as important as the general scarcity.

Obsolete Notes continue to be very popular as do stocks and bonds.

The Green Sheet reports the national currency market on a monthly basis.

Gold Type Continues To Weaken Dealers Looking For Good Value

The sight-unseen activity for most rare coins is fairly strong. Dealers are still competing for specific better dates, but are looking to buy generic coins at bargain prices. Consequently, they are lowering some Bids on common dates. Dealers know it is important that the coin purchased represent good value. Of course, satisfied customers become repeat customers.

We see some declining Bids taking place among Gold. Some dealers believe the current and prolonged weakness with the price of Gold bullion has had an effect on these prices. However, the numismatic common date coins still trade well above the intrinsic value of the precious metal in the coin. Generic Gold Type has been drifting lower, with reduced Bids for many common date Saint-Gaudens. The one exception is for PCGS MS65 Saints, for which the Bid has increased over the last month to \$825. Otherwise, weakness is hitting these coins in MS61 thru MS65, for both NGC and PCGS. These declines are minor, and will most likely have the positive effect of increased activity in the series at these new, attractive levels.

While quantities of Saints are bought and sold nearly every day, it is apparent that rare date examples trade less frequently. As a result, it is common to see bigger jumps in Bid occur for these issues. Dealers are posting supporting Bids for some rare date Saints. Many dealers are pursuing the (1907) Roman Numeral High Reliefs. We regularly see a strong number of Bids for this popular key Saint in most Mint State grades. One dealer has increased his sight-unseen Bid in MS65 to \$22,500. When dealers are Bidding strong five-figure prices for coins, sight-unseen, it represents a healthy market.

Besides Saint-Gaudens, Gold declines are evident for other common date types and denominations. We see some minus signs occurring in select Type \$2.50 Liberty, \$2.50 Indian, \$3 Indian, \$5 Indian, \$10 Liberty and \$10 Indian. Minus signs are also occurring in Silver Dollars, Mint State and Proof Type.

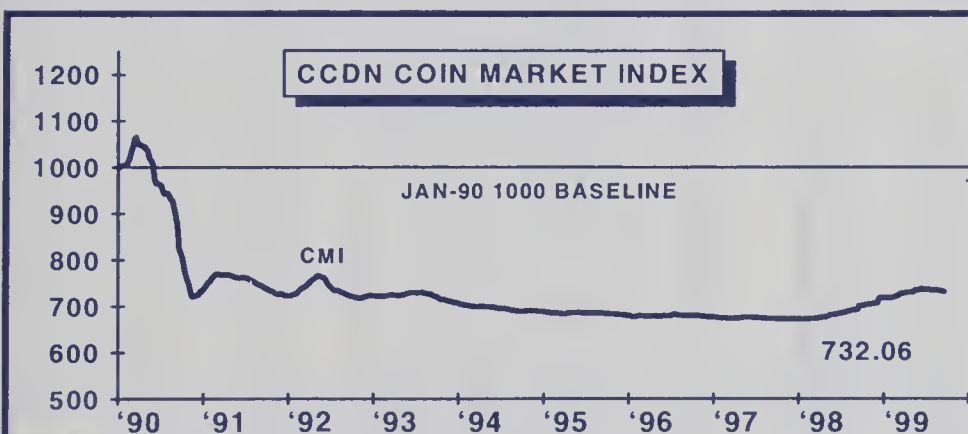

Standing Liberty Quarters and Franklin Half Dollars are experiencing some weakness as well. Declines have occurred in common date MS63, MS64 and MS66 Standing Liberty Quarters. However, the balance of the Mint State issues, including those that exhibit a Full Head, is steady at current levels. Several slabbed Franklin Half Dollars are being offered for sale at lower levels. The action is taking place among some of the late dates of this relatively short series that began in 1948. Declines are for the dates 1959, 1960, 1960-D, 1961, 1962, 1962-D and 1963-D.

Moving on to Morgan Dollars, the market is a mixed bag, with minus signs for several semi-key and common date issues. For example, 1880-O, 1891, 1891-O, 1892, 1892-O, 1894-S and 1902-S are lower this week, yet there is some strength in select issues. For example, MS65 DMPL Dollars remain hot. One dealer has posted very strong jump Bids for the 1890-O and 1892-CC issues. Regarding the 1892-CC example, the new, sight-unseen offer is double the previously highest known Bid. The same dealer would also pay \$7,000, sight-unseen, for an 1882-O/S variety Morgan Dollar.

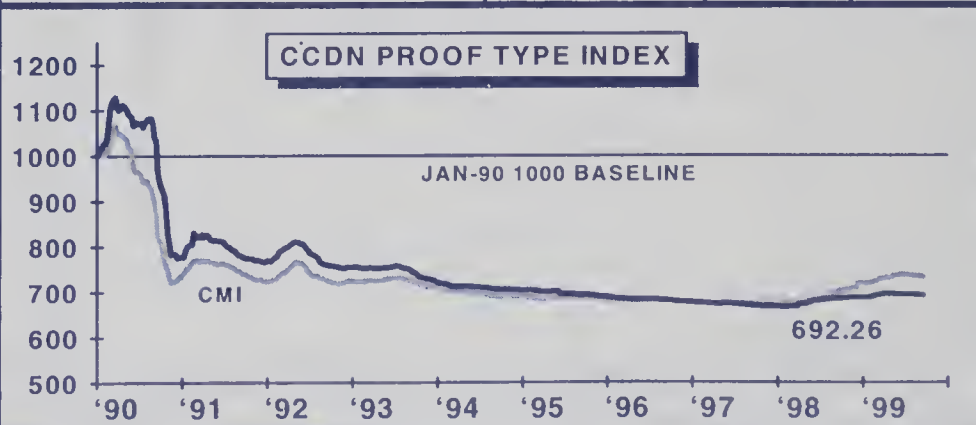

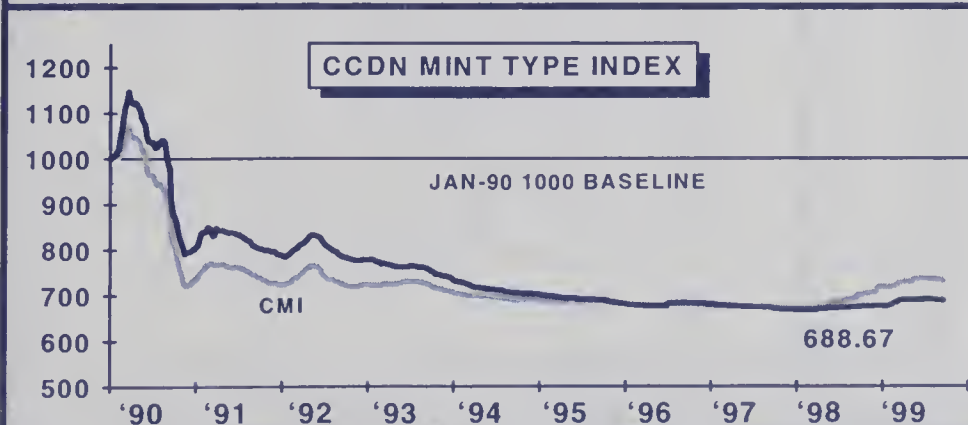

Stack's conducted the public auction of U.S. Coins and Paper Money,

featuring selections from the Lone Star collection. The sale took place in New York, September 8-9, and realized more than \$1.295 million.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute PQ (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

BOWERS AND MERENA IS PLEASED TO PRESENT

Fantastic Selections from the Harry W. Bass, Jr. Collection

OCTOBER 2-3, 1999 • NEW YORK CITY

In the world of numismatics, Harry Wesley Bass, Jr. will long be remembered for his remarkable collection and his outstanding contributions to the coin-collecting hobby. We are pleased to announce that the Harry W. Bass, Jr. Research Foundation has commissioned us to showcase at public sale many important items from its vast and impressive holdings. No effort will be spared to make this catalogue a fine memorial to Harry's efforts and a reference of lasting numismatic importance.

Sale II will be held on October 2-3, 1999, and will include some of the most significant gold coins to be offered in our time (including those pictured here). In addition to these fabulous rarities, there are hundreds of collector coins of all dates and grades. Something for every collecting budget! The sale will be held at the Park Lane Hotel, Central Park South, New York City.

SPECIAL PUBLICATIONS

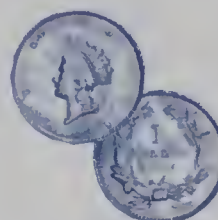

In conjunction with this historic offering we will be issuing a beautiful Grand Format™ catalogue in the following formats:

Softbound "working copy" for use before and at the sale. If you have a subscription to Bowers and Merena catalogues for 1999, you will receive a copy automatically. Otherwise, single copies (including prices realized) may be reserved for \$40 each (plus \$5 shipping to U.S. addresses; \$25 shipping by air elsewhere).

Deluxe hardbound copy (with prices realized) to be sent after the sale. Personally autographed by Q. David Bowers, Raymond N. Merena, Christine Karstedt, Mark Borckardt, John Pack, Frank Van Valen, and Douglas Plasencia. Each: \$100 (plus \$10 shipping to U.S. addresses; \$25 elsewhere).

Become a subscriber to all Bowers and Merena catalogues and periodicals for the next 12 months including our October sale of the Harry W. Bass, Jr. Collection and our May and November, 2000 sales of the Bass Collection—over \$350 in cover prices—for just \$145 to U.S. addresses, \$200 to Canadian, and \$250 elsewhere.

To order: Call toll-free, credit card in hand, 1-800-222-5993 and ask for our Publications Department. We also accept orders via mail or fax.

Long Beach Attracts Internet Heavyweights Southern California Auctions Realize \$9.5 Million

The September Long Beach Coins & Collectibles Expo is in progress. It comes at a time when most dealers are optimistic about the current rare coin market, although they recognize it has slowed down somewhat. Still, dealers know the Long Beach Expo is usually one of the strongest and best coin shows held each year. They expect this year to be no different.

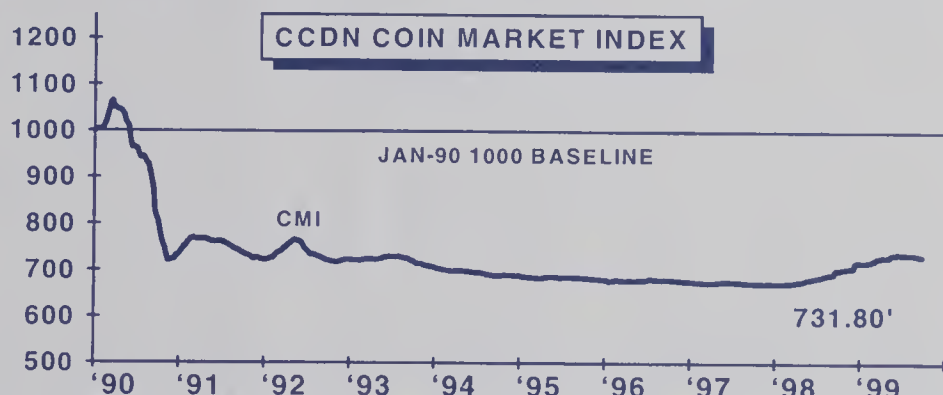

The show has been expanding with the presence of Internet giants, eBay and Amazon.com. New ideas and advanced technology are changing the way dealers do business. Dealers we spoke with at Long Beach said the first day seemed slow, though they were encouraged that business was being done. They believe there are many collectors out looking to buy key dates. The lack of fresh material is the biggest complaint of dealers. They have the customers and the want lists, but need the coins to complete the transactions. Some dealers at Long Beach say there is strong demand for coins over \$10,000. Evidence of this is easily seen at public auction.

There are usually a number of auctions that take place before and during the show, attracting many dealers and collectors from around the United States and Canada. Dealers look to the public auction as an important vehicle for buying and selling coins for themselves and their customers. Two Southern California auctions have just been completed. Superior Stamp & Coin of Beverly Hills conducted a Pre-Long Beach Sale, September 19-21, realizing more than \$4.561 million. This sale featured the David Bilton, Harvey Musikoff, Denver, Flagler, and Hudson River Valley collections. Ira and Larry Goldberg Coin & Collectibles of Beverly Hills conducted the Bradley Bloch collection, September 19 and 21, which realized more than \$5 million.

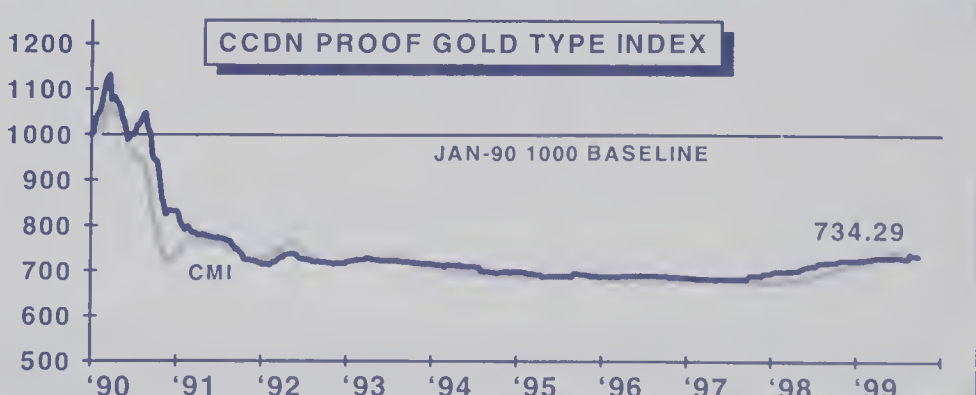

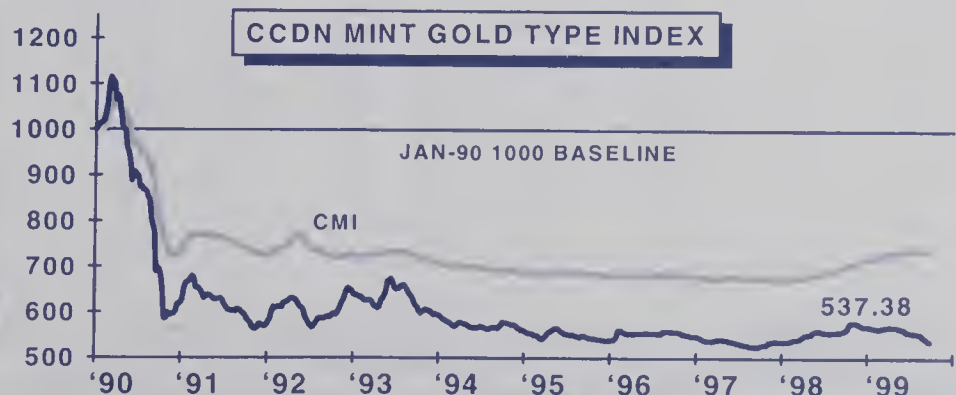

One of the most important reasons dealers come to the Long Beach show is to buy coins. Often, they are looking for specific dates and grades to satisfy their customers' needs. They also want to buy coins they believe represent excellent value. Interesting coins are always in demand by collector/investors, and dealers always try to keep a few of these on hand.

Interest is evident in the sight-unseen market, although some discounting is taking place. Dealers, while not as active as during the first half of 1999, are offering many supporting Bids for rare coins that have increased since the first half of the year. We see activity on the electronic dealer networks as new Bidders offer strong money for specific dates and denominations. Many dealers like to keep their Bids live until they are able to buy one or two pieces. Sometimes, this process takes months, but that is the nature of this business. Most dealers understand this fact and accept the challenge. The goal is to buy and sell coins.

Discounting is seen, for both PCGS and NGC, in Silver Commemoratives, Morgan and Peace Dollars, Mint State Type, and Gold Type. Silver Commems are declining in MS64 and better grades. Some of the Half Dollar issues retreating include the 1936 Battle of Gettysburg, 1936-S San Francisco-Oakland Bay Bridge, 1936 Lynchburg, VA, Sesquicentennial, several Oregon Trail Memorial dates, and the 1936 Rhode Island Tercentenary. The Morgan and Peace Dollar series are experiencing some weakness in MS64 thru MS66. Some of the dates declining include 1883-CC, 1883-S, 1887-O, 1892-O, 1897-S, 1899, 1900, 1923-D, 1925-S, 1927 and 1934. Mint State Type has been solid practically all year long, though some discounting is occurring this week, especially in MS64 thru MS66. Some examples include Copper-Nickel Indian Head Cents, Shield Nickels, Three-Cent Silvers, Type II; Liberty Seated Half Dimes, No Stars; Liberty Seated Half Dimes, Legend; Liberty Seated Dimes, No Drapery; Liberty Seated Quarters, Arrows & Rays; Liberty Seated Quarters, Motto; and Standing Liberty Quarters, Type II. Gold Type is weak, with minus signs occurring in several denominations, mostly in MS63 and better grades. Some issues affected include \$1 Liberty, Type I; \$1 Indian, Type III; \$2.50 Liberty, \$2.50 Indian, \$10 Liberty, Motto; \$10 Indian, \$20 Liberty, Type III; and \$20 Saint-Gaudens. In contrast, the popular \$20 High Reliefs continue to realize strong sight-unseen Bidding.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

In 1950 Louis Eliasberg, Sr. purchased the 1873-CC No Arrows dime, the last coin that was missing from his renowned collection.

In 1999 NGC is proud the *unique* 1873-CC No Arrows dime is joining *our* collection.

In 1999, NGC is proud to announce the addition of the 1873-CC No Arrows dime to the remarkable collection of rarities that we've been chosen to grade in recent years.

While NGC grades over 50,000 coins per month, we are also trusted to grade more of the world's finest coins, in some months more than all other services combined.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Included in our recent purchases is the Wells Fargo® Nevada Gold hoard, which was the largest financial transaction in the history of numismatics. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

Now you can learn a lesson about the new coin market. Without losing a mint.

The Coin Collector's Survival Manual – Revised Third Edition by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN
BUYING AND SELLING FOR AS LITTLE AS \$14.95.

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business
editor, **NEWSWEEK**

"One of the most important coin books ever written." - *The New York Times*

"Should be read before a single coin is bought - and read again and again!" - *Coin World*

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin
for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just
one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by
Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to

break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the
encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading
certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped off if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage
method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored
hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

Order your copy of *The Coin Collector's Survival Manual - Third Edition*. 220 pages, dozens of sharp illustrations. For the
price of \$14.95, you can make a mint.

Market Softens As Dealers Look For Fresh Material GSA, ANACS, Bullion Up

We begin October in the midst of a softer rare coin market. Recent shows have been slightly off, and dealers admit that the material available is not what they would like it be. They are trying to buy and sell many coins they have seen too many times. **Fresh material** is the battle cry. On a positive note, dealers still have strong buyers waiting in the wings for the right coin.

The sight-unseen rare coin market is feeling the pinch that the sight-seen market has undergone. Some areas have been discounted throughout the week. The Morgan and Peace Dollar series are experiencing many discounted prices, with coins trading at auction below previous high sight-unseen Bid levels. In turn, minus signs are becoming scattered throughout the series, hitting some of the Morgan Dollar semi-key dates in MS65 and better condition. Common dates are lower in MS63 and MS64. A couple of Peace Dollar semi-key dates are down in MS65 and MS66. Even with the lower prices, it is important to remember that these two series remain very popular with collectors. Dealers continue to tell us how a number of collectors are actively pursuing specific dates in specific conditions. Demand for Dollars is still apparent.

Silver Commemoratives are displaying some weakness as well. Select issues are being discounted. The 1936 Cleveland Great Lakes Exposition in MS67 has declined in the sight-unseen market. It appears that issues grading MS65 and better have been targeted. Generally, though, the sight-unseen market for Silver Commems is holding up pretty well. Gold Commems are rather steady in light trading activity.

Discounting has forced some Mint State Type issues lower. Several examples have dropped in MS64 and better grades. Braided Hair Large Cents in PCGS MS65R are down slightly. A similar drop has occurred in Legend Liberty Seated Half Dimes grading NGC MS67. Other declines of note include Capped Bust Quarters, Reduced Size in MS65; Capped Bust Half Dollars, Reeded Edge in

MS65; Liberty Seated Dimes, Arrows (1853-1855) in MS67; and Liberty Seated Half Dollars, Motto in MS65.

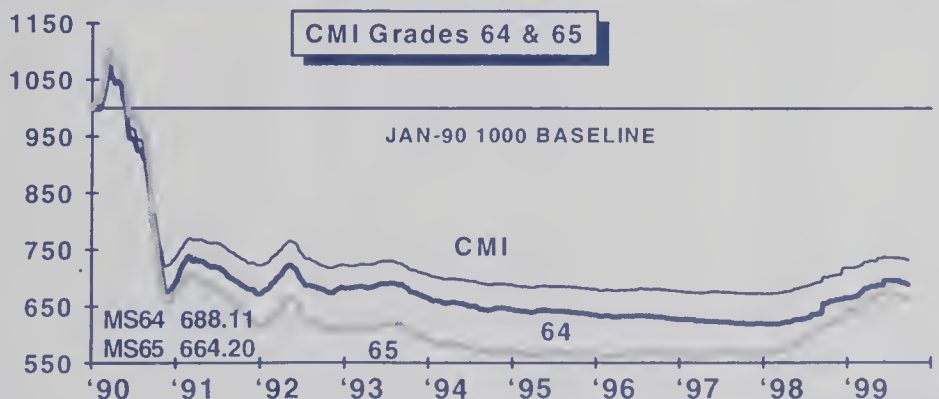

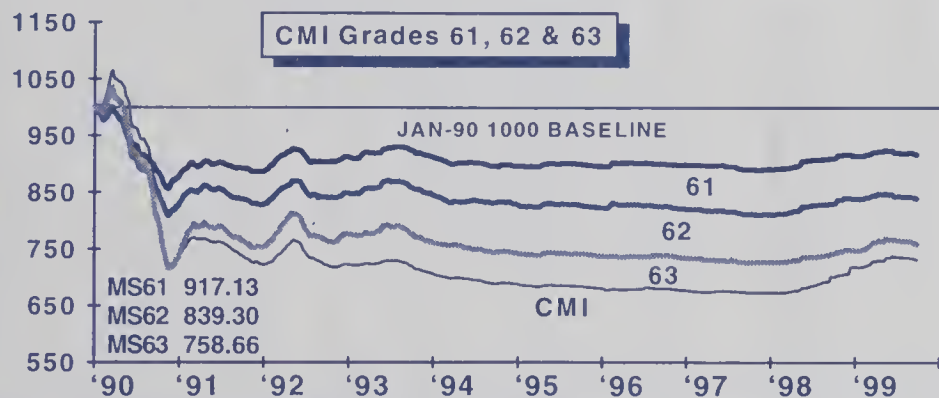

Proof Type has also experienced some declines. PR63 and better grades have lost the most ground. It appears the higher denominations have declined, while the smaller denominations have seen support at current levels. We see some weakness in Liberty Seated Quarters, Liberty Seated Dollars, and Morgan Dollars.

The price of Gold and Silver Bullion has given an extra boost to the overall rare coin market. If Gold and Silver hold their current levels, the strong demand for Bullion could filter down to the rare coin market. In any event, intrinsically, common date precious metal coins should benefit in the short run. As of this writing, Gold is hovering near the \$300 per ounce level, while Silver has settled in at the \$5.55 per ounce plateau.

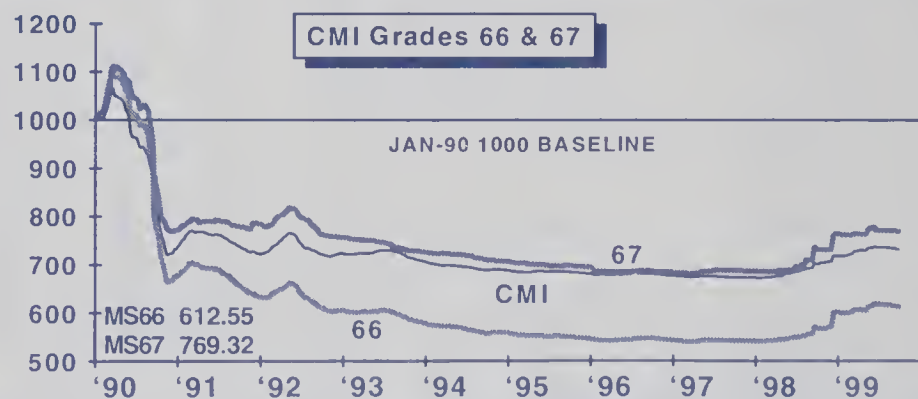

We see strength among ANACS graded coins this week. Apparently, dealers believe some dates are undervalued, and they are willing to pay more for them. Increases have been plentiful in the Morgan and Peace Dollar series. Common dates as well as some Carson City issues have shown increases. ANACS slabbed Silver Commemoratives are also realizing stronger sight-unseen Bids. Select issues are displaying plus signs.

Much activity is taking place for the GSA Carson City Morgan Dollars. Dealers are competing with one another to buy these coins. The scarcer date Carson City issues are increasing, while the more common dates are retreating a bit.

Though the rare coin market is a bit slow at the moment, big excitement is just around the corner. The eBay Electronic Coin and Collectible Fair is coming to Columbus, Ohio October 8-10. With the use of fascinating, cutting edge technology to buy and sell coins and other collectibles, the upcoming Fair, which is the *very first* of its kind, will most definitely open the doors to the future of collecting.

The PCI Capsule...

☑ \$8⁰⁰ PER COIN

☑ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Bullion Strong As eBay Fair Begins Bass Early, Proof Gold Impressive

The eBay Electronic Coin and Collectible Fair is now underway. Dealers have traveled to Columbus, Ohio to witness and participate in the dawning of a new age in collecting — one that offers high technology in the selection and purchasing of rare coins and other collectible material. The Fair began October 8th and will continue until the 10th. As you might expect, we will provide full coverage of the results of this historic event in our next issue.

Gold Bullion continues to gain momentum. Following the last few week's meteoric increases, Gold has continued to find ready buyers over the \$300 per ounce level. Usually, a sharp increase in the precious metals market becomes a catalyst for increased prices in the rare coin market. Usually, the general economic conditions in place facilitating increases in the price of Gold are also beneficial for rare coin prices. Usually, fears of inflation also stimulate the rare coin market; we know the price of oil has been on the rise. Such conditions *usually* have a positive effect on the rare coin market, but not always. We are not seeing the usual follow-through in the rare coin arena; it's just not happening yet, at least not for the meat-and-potatoes coins residing in dealer inventories. In fact, a major marketmaker in Type Gold is no longer providing a two-way market. Instead, we only see Gold being offered for sale with no buy prices offered.

The volatility of Gold Bullion over the last week or two, no doubt, has had a somewhat unexpected, but certainly understandable effect on buyers and sellers. Gold had been trading comfortably in a defined price range. Dealers knew where they stood and were buying and selling without much trepidation. Wild movements in the price of the precious metals probably shook up that comfort zone, resulting in dealers becoming more conservative out of fear of being left holding the product if the bottom drops out.

Since early September, the rare coin market has been soft. We have seen many coins selling at discounted levels. Morgan Dollars, Peace Dollars, Mint State Type and Proof Type have all been the target of discounting. Dealers have told us the coins realizing weaker Bids and transactions are for the most part solid for the grade. However, dealers want to raise money, and to do that quickly they sometimes have to reduce prices. During this process, bargains become available. This situation presents opportunities to the astute dealer or collector.

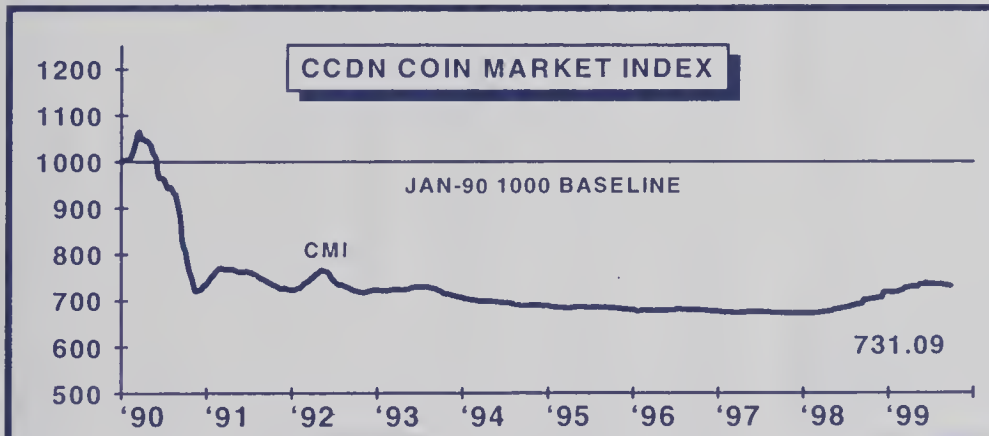

Fresh, original material is a different ball game. Those coins that have been off the market for several years, and are now available at auctions, among other places, are a great, much-needed find for dealers and collector/investors as well. Such exciting, interesting coins are realizing the lion's share of the rare coin demand.

Clearly, there is a tale of two markets. Demand is very strong and powerful for the market of fresh material, and soft for the market of unoriginal material. The sight-unseen market is softer now than it had been earlier in the year. An expanding collector base can trigger new attitudes and stimulate demand. A greater public awareness of coin collecting can translate into greater demand for "core" coins. This new public awareness will certainly grow with the continued production of the Circulating 50 State Commemorative Quarters, the 1999 Susan B. Anthony Dollars, and the Sacagawea Dollar coming in 2000.

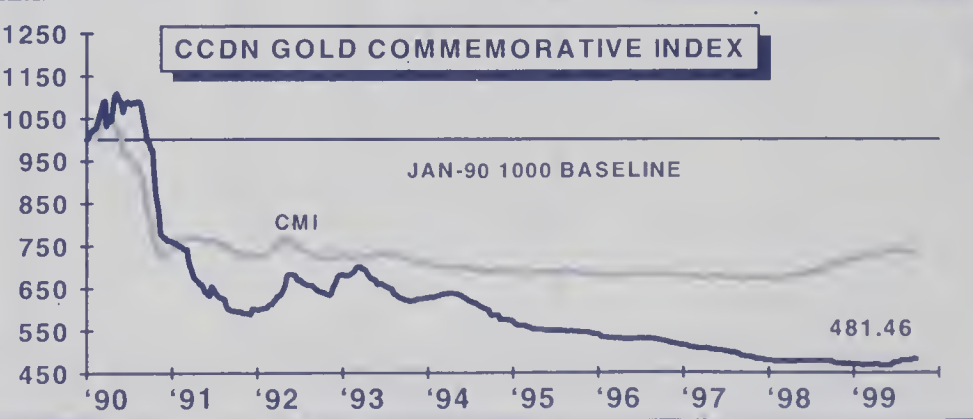

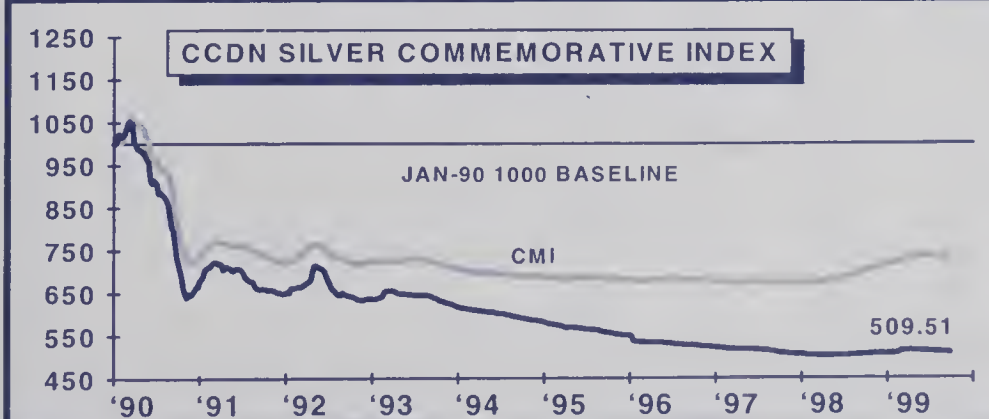

Many dealers pointed to the Harry W. Bass auction of Gold as the reason why there seemed to be a liquidity problem. On Oct 2-3 in New York, the Bass Gold hit the auction block with more than \$18 million changing hands. If a liquidity problem did not exist before this extremely successful auction, one can imagine the possibility of such a condition now that the huge sale is over. Demand for original and fresh material is what most dealers were begging for throughout 1999. With the Bass Gold, there were many dates — even rare dates — offered in duplicate and triplicate. Harry W. Bass felt secure keeping his money in rare Gold, but he also wanted to study several coins at the same time for die varieties and die states. Bass was a true student of numismatics, with an enviable collection. Dealers from all over the country converged on

New York, not to see the Mets or the Yankees play baseball in the playoffs, but for the opportunity to participate in a *major* rare coin auction. Bidding for certified coins was very strong. The strength of the Bass auction was seen among Early Gold and Proof Gold. This sale had numerous rarities, some of which are listed here.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

You have to have this hot list of 44 coins destined for gains! And you need to know the 44 secret losers that could send you to the poorhouse!

Two winners on the cover: An 1804 Draped Bust silver dollar (left) which sold at public auction for \$1,815,000 and a 1913 Liberty Head nickel which sold at public auction for \$1,485,000

Scott Travers' Top 88 Coins Over \$100 44-COIN HOT LIST ♦ 44-COIN BLACKLIST

Foreword by Q. David Bowers

"Scott Travers' Top 88 Coins Over \$100 is potentially enriching, educational and enlightening. It provides market-oriented information against a rich backdrop of the history and lore of coins. Top 88 is far more than just an investment book - it's a landmark work that opens the world of coinage to the reader!

♦ R.W. Julian, numismatic researcher and scholar

"Read this book closely and you'll get a new perspective on what really counts when you buy and sell coins. Follow the recommendations embodied in these pages and you'll be well on the way to being a winner yourself!"

♦ from the introduction by Ed Reiter, former numismatics columnist, *The New York Times*

Buying and selling rare coins can be a hit-or-miss proposition - unless you get expert directions. This book by well-known New York City coin dealer Scott A. Travers, with a foreword by Q. David Bowers, is a perfect guide.

In The Top 88, Travers draws a road map detailing both the hits and the misses - the coins that in his opinion represent good value at current market levels and those in his opinion you should steer clear of. He identifies 44 winners and 44 losers, puts them in historical perspective and vividly describes why each could be your best or worst coin buy. The list runs the gamut from classic U.S. coinage of the nation's early years to such modern-day issues as the Susan B. Anthony dollar.

You'll learn that winners and losers can exist side by side within the very same series. And you'll see how a given coin can sometimes be a winner in one grade, or level of preservation, and yet be a loser in a grade just a little bit higher or lower.

This book, like a piano, provides you with 88 keys that will help you make beautiful music - only this time, according to Travers, you'll be singing all the way to the bank if you play the right "notes" in buying coins.

You'll learn about:

- The elements of value
- Independent third-party grading
- The age of type coins
- Opinions relating to what coins are "losers"
- A list of coins that are "winners"
- Why every coin listed has something to like and something to dislike
- One-year type coins
- Generic Morgan dollars
- Commemorative coins
- Mint-error coins
- Uncirculated late-date coins
- Late-date proof sets from 1968 to date
- Marketplace data and expert opinions on every listed coin
- Meticulously researched historical information

There is a reason why NGC is the world's leading certification company.

- ♦ NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- ♦ NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- ♦ NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the 1873-CC No Arrows dime and the finest known 1799/8 Draped Bust Large Cent.
- ♦ NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance.

That's NGC.

eBay Fair Merges Electronic Age With Coins CCDN Coin Market Index Positive Since January

The eBay Electronic Coin and Collectible Fair, held in Columbus, Ohio, concluded Sunday Afternoon, October 10th. There is no arguing that the show was slow as a result of unexpectedly low public attendance. However, it is just as accurate to say the show was by no means a failure. The real question is, "How does one measure success?" If public attendance is the sole device for measurement, then only a narrow, negative conclusion can be reached. If, on the other hand, further contemplation is utilized, a broader and much more positive perspective will arise. Without question, this fair was an original, groundbreaking event that will pave the way for future shows on many levels. In particular, the fair demonstrated that the use of the Internet to buy and sell certified rare coins and collectibles is here to stay and must be recognized. The teaming of large technology companies — like eBay, Kodak, and Compaq — with coin and collectible dealers will be the norm in the future for the biggest shows. This will result in giving hobbyists and dealers alike more options and more excitement at collector fairs.

Many dealers were eager and pleased to learn whatever they could about the new technology made available to them at the show. This was evident by the very well-attended seminars offered by eBay and Kodak. A few topics covered in the seminars included, of course, the use of the Internet to buy and sell certified coins and collectibles, as well as using scanners and digital cameras to help achieve this goal more successfully. Clearly, numerous dealers are fully aware of the changing times, and quite simply refuse to be left behind.

Even though the first eBay Electronic Coin and Collectible Fair did not meet its high, pre-show expectations, optimism and excitement were clearly demonstrated on the showroom floor by the large, eye-catching displays of many companies present. There was also generous support by several participating coin dealers and Internet companies, like eBay, who gave gift bags to all visitors, and ICTA, who ran raffles with prizes such

as Compaq laptop computers and Kodak digital cameras. These gifts and prizes could not replace the thrill and satisfaction that would have come from a public-packed show, but they were certainly helpful in maintaining a positive mood.

Though the overall results were bitter-sweet, the wheel has been turned in this first electronic coin and collectible fair. eBay is already planning its second show of this kind, but dates and location have not been revealed at this time. One can safely expect that what was learned from this first show will work towards making the second one much more successful.

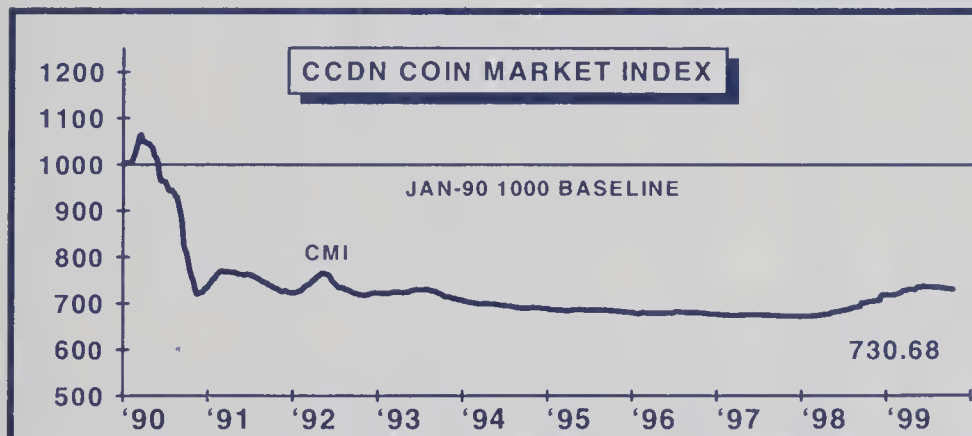

As you can see by our chart representing the CCDn Coin Market Index totals, the sight-unseen market for the first 10 months of 1999 has proved to be volatile. As this century comes to a close, 14 indices increased while 6 declined since January. Matte

Proof coins lead the gainers while Saint-Gaudens \$20 Double Eagles are noticeably soft. However the overall index is positive.

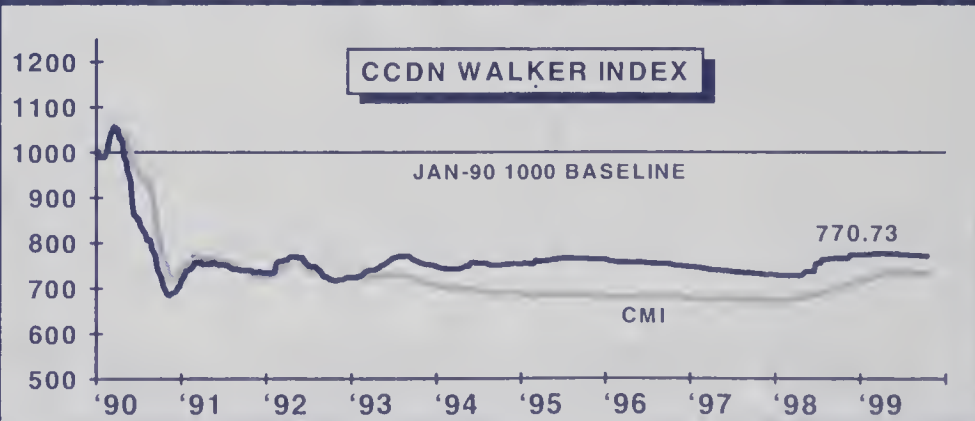

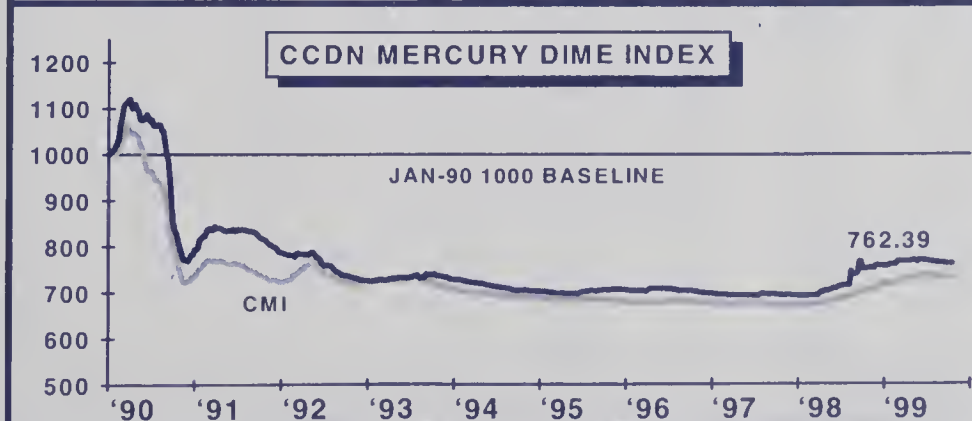

Dealers are looking to add these coins to their inventories or place them with their customers as they have all year long. The demand for these positive indices continues in October. The series and issues that have suffered declines may represent an opportunity for astute buyers.

After nearly being pronounced dead earlier in the year, Gold Commems have garnered the attention of dealers. Bids have steadily increased during the second half of 1999. As a result, Gold Commems appear to be finishing the year with a gain. It is interesting how quickly a series can come to life. Maybe the notoriety and publicity associated with the new 1999 Circulating Commem Quarters have had an effect. We know that dealers are willing to pay high prices for low-grade Mint State Isabella Quarters. Investors are looking to buy these early Commem Quarters to go along with the 1999 issues. Isabella Quarters are tougher to find in the lower Uncirculated grades than some might think.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis.

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, the largest transaction in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases this year have included coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

A heart shape is formed by the text 'www.greysheet.com' repeated many times. The text is in a light blue color and is arranged in a way that the top and sides of the heart are defined by the text, while the bottom tapers to a point. The text is slightly overlapping and has a subtle shadow effect, giving it a 3D appearance. The background is a solid dark blue.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

MAURICE ROSEN BLOWS THE LID OFF THE COIN INDUSTRY!

**Dealer Profits
Can Be Excessive!
Investors Overpay
Time After Time!
How You Can Get
Your Money's Worth!**

32 -Year Veteran Dealer Tells All!

Maurice Rosen is well-known for going out on a limb in his ROSEN NUMISMATIC ADVISORY. This time he hangs by his thumbs as he reveals the often excessive mark-up structure coin investors face.

Would you knowingly buy a stock mutual fund with a built-in 40% commission or load? Of course not, you'd be crazy! But it happens every day as trusting investors plunk down thousands of dollars for coins that carry those - and even higher -excessive mark-ups!

When you can trade hundreds of thousands of dollars worth of stock for a total round-trip commission, including the bid/ask spread, for less than a quarter of 1%, why would anyone accept paying 40% for coins? Or 30%? Or 20%?

This has always been the industry's dirty little secret. Not anymore! Maurice Rosen, hanging on by his thumbs, takes you behind the curtain to tell you:

- *What is a coin worth? Read how a certain well-known rare coin can be priced anywhere from \$8,075 to \$25,300, all seemingly legitimate and defensible!*
- *Many dealers want the best of all worlds: to charge what they want without you knowing the full score, without regulation, disclosure or obligations. Is this right?*
- *The "second" profit-margin you probably never knew existed!*
- *Are auctions a solution? You will be surprised to read our findings!*
- *How to "squeeze" the dealer spread. Hard-hitting tips for you to get your money's worth in any rare coin transaction!*

Gold Commems Show Impressive 2-Month Gain \$1.5 Million Paid For Finest Known 1885 Trade Dollar

Sight-unseen Bidding activity is evident, with some issues realizing significant gains. Strong Bids by dealers have translated into plus signs throughout the Gold Commemorative series in MS64 thru MS67. Dealers are looking to buy these coins because they believe they represent excellent value at current levels. While there are only 13 coins available in this very short series, the genuine challenge and cost involved in completing a high quality set of Gold Commems is common numismatic knowledge. Gold Commems are somewhat available in MS64 and MS65. However, above MS65 the going gets much tougher, while the price gets rather expensive, especially in MS67 and higher grades. The number of coins available is few and far between at these lofty grade levels.

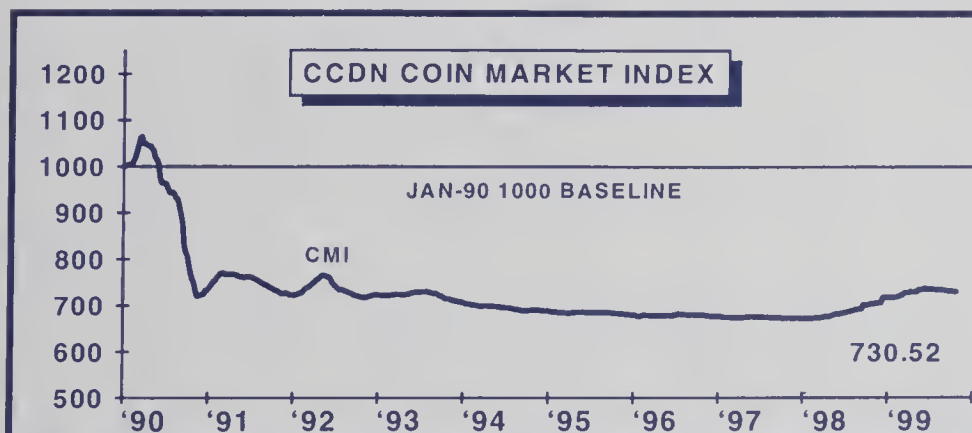

As we look back at sight-unseen activity, we see that Gold Commems have responded well, almost like clockwork. Approximately two months ago on August 20, the CCDn Coin Market Index for Gold Commemoratives was 479.27. This figure represented a nearly 10 point gain from January 1, 1999, CMI of 469.62. The week of August 20 showed no plus or minus signs for Gold Commems from the previous week. It appeared that the Gold Commem market for sight-unseen coins was very quiet. It was a time to rest as the American Numismatic Association's Summer Convention had concluded several days earlier in Chicago. The following week, on August 27, the silence was disrupted as 36 plus signs and 0 minus signs appeared for Gold Commems. It remained relatively quiet until September 17, when there was an explosion of 62 plus signs and only 2 minus signs on our chart. Most of the increases for that week occurred in both NGC and PCGS coins grading MS64 thru MS67. Now, nearly one month later on October 22, a similar scenario is taking place. Once again, dealer sight-unseen Bids have come alive for Gold Commems. This time our chart depicts 39 plus signs, all for PCGS graded MS64 thru MS67 coins. Plus signs are appearing in virtually all issues with the exception of the Round and Octagonal 1915-S Pan-Pac \$50 issues. In nearly 2 months, the CMI for Gold Commems has increased dramatically. Obviously, there is dealer demand for

Gold Commems in high grade at current levels. Dealers may be looking to accumulate some Gold Commems because they represent good value. They may be targets of customer want lists. Whatever the reason, if supply is unable to meet the current demand, price and Bids will probably continue to climb even higher.

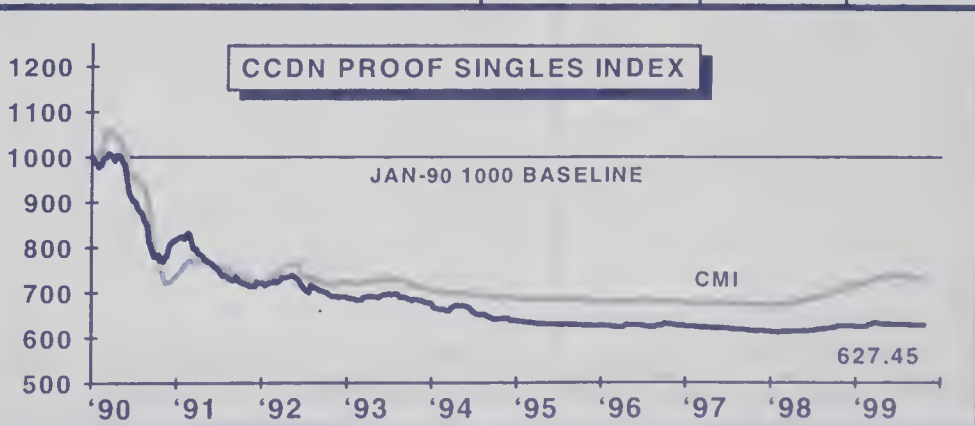

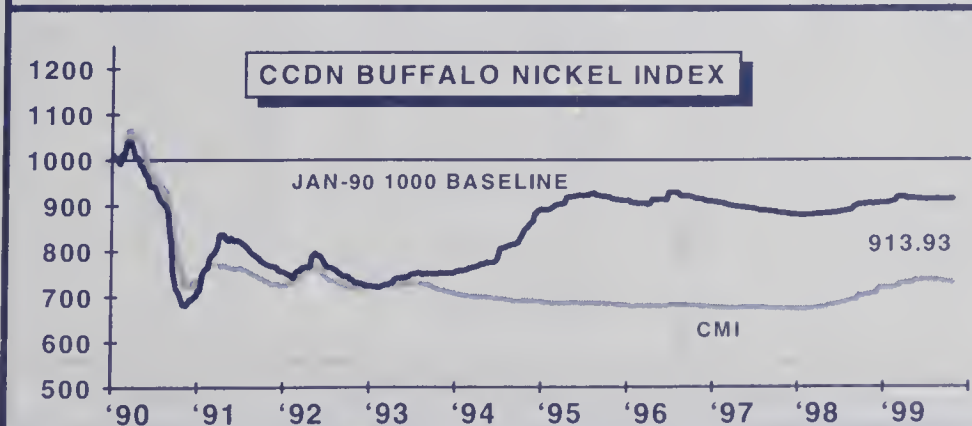

Other areas of the sight-unseen market are making strides as well. Common date PCGS MS65 Morgan Dollars have increased and are now Bid at \$80. Similarly, common date NGC MS64 Morgan Dollars have increased to \$36 Bid. This may be a good sign of an improving Morgan Dollar market as common dates in MS64 and MS65 begin increasing in the sight-unseen market. However, there is some weakness with NGC MS67 common date Peace Dollars, which are declining slightly for select dates.

It is always big news when any major rarity changes hands. Again, it is a Silver Dollar selling for more than \$1 million. This time, the finest known 1885 Trade Dollar has traded via private treaty, dealer-to-dealer, for \$1.5 million. The Eliasberg specimen, graded NGC PR66, was bought by Laura Sperber, Legend Numismatics from Jay Parrino, The Mint. The sale was formally announced October 19. The classic rarity sold at auction in 1997 and realized \$907,500. The acquisition of this Trade Dollar completed the Legend Collection of Trade Dollars. It is considered to be the finest set of Trade Dollars ever assembled. The set includes many of the finest known examples. It also contains other certified Proof and business strike rarities. Some of these include a PCGS MS66 1875-CC and a PCGS MS65 1878-CC.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis.

Selected Rarities from . . .

Jay Parrino's The Mint, LLC

Important 1943-S "Copper" Cent PCGS VF-35

One of America's most famous rarities.
Medium brown surfaces. Sharply struck with
super eye-appeal. **\$85,000**

Rare 1867 "With Rays" Shield Nickel PCGS PR-65

By far the rarest nickel of the 19th century.
Stunning cameo-effect. A premium quality
rarity seldom offered. **\$89,500**

America's First "Proof Coin" 1794 Half Dime

PCGS Specimen PR-67

Words cannot possibly describe the one of
a kind "Wonder Coin." Deep, highly reflective
surfaces, fully struck. Totally without peers.
You just won't believe this coin. A numis-
matic masterpiece. **P.O.R.**

Always Popular 1916-D Mercury Dime PCGS MS-65 F.B.

100% original with full split bands and
stunning blue gold colors. True, unmolested
examples are quickly disappearing.
Don't delay. **\$39,500**

Gem 1796 Quarter Dollar NGC MS-65

A super example of our country's only
Quarter Dollar of the 18th Century.
Original steel gray surfaces with a superior
strike and eye appeal. **\$87,500**

"Key" 1919-D Walker Liberty Half PCGS MS-65

A totally original example of this, the most
wanted, date in the entire series. Virgin,
untouched surfaces and clearly an above
average strike. **\$89,500**

Super Gem 1893-S Morgan Dollar NGC MS-65

A lightly toned gem sporting an above
average strike and a wonderful "Look." The
Key to the most popular of all U.S. coins.
They will always be highly sought after.
Consider it carefully. **\$185,000**

Total Monster 1855 Ty. 2 Gold Dollar PCGS MS-67

The "Key" to the popular 12 Piece U.S. gold
type set. Totally fresh and amazing in all
respects. Never cleaned, dipped, or en-
hanced in any way. **\$110,000**

Gem 1911-D Quarter Eagle NGC MS-65

Bright, original, and really "Fresh." A true
gem example of this popular key.
Seldom available. **\$39,500**

Impossible 1815 Half Eagle PCGS AU-58

A staggering rarity of the utmost impor-
tance. The only certified example in any
grade. Once considered the rarest Half
Eagle. A real opportunity. **P.O.R.**

Finest Known 1908-S Gold Eagle PCGS MS-68

Simply put, the finest \$10 Indian of any
date I have ever seen. Virtually perfect!
Believe me, it has no competition. For the
ultimate collection **\$175,000**

Super Gem 1907 High Relief \$20 PCGS MS-68

The ultimate date or type coin. In over 40
years of looking at coins, I have never seen
the equal to this monster. A great one to "salt"
away. **\$375,000**

In 1950 Louis Eliasberg, Sr. purchased the 1873-CC No Arrows dime, the last coin that was missing from his renowned collection.

In 1999 NGC is proud the *unique* 1873-CC No Arrows dime is joining *our* collection.

In 1999, NGC is proud to announce the addition of the 1873-CC No Arrows dime to the remarkable collection of rarities that we've been chosen to grade in recent years.

While NGC grades over 50,000 coins per month, we are also trusted to grade more of the world's finest coins, in some months more than all other services combined.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

Sight-Unseen Market Volatile Dealers Head To Maryland Show

There is greater activity taking place in the sight-unseen market recently. This activity may not be readily seen if you use plus and minus signs as the only criteria. There is a good amount of business taking place at current levels for many series and denominations. Dealers are in constant need of material to supply to their customers. They try to have their inventories turnover in a reasonable amount of time. It is important that the fixed price lists and catalogues sent to customers always have something fresh and different. Dealers like to present interesting coins to their customers. These coins are inevitably displayed at coin shows or to friends and family at home. The market is dependent upon the demands of the customer base. As more and more collectors enter the world of coin collecting or investing, the natural tendency of increasing Bids will be an outcome in the sight-unseen market.

Volatility continues to play a strong role in the Morgan Dollar sight-unseen market. This volatility has been taking place for several weeks now. Common dates have been active among buyers and sellers. This week, minus signs are evident among NGC MS63, NGC MS64, PCGS MS63, PCGS MS64, and PCGS MS66 slabbed coins. Quantities of these Dollars are bought and sold daily. Offers to buy or sell 100 coin lots or more is a common occurrence. There are many supporting sight-unseen Bids chasing the popular Carson City Morgan Dollars. The greatest demand appears to be for MS61 thru MS63 NGC or PCGS certified coins. We also see strong supporting Bids for the scarce 1879-CC and 1889-CC issues in these grades.

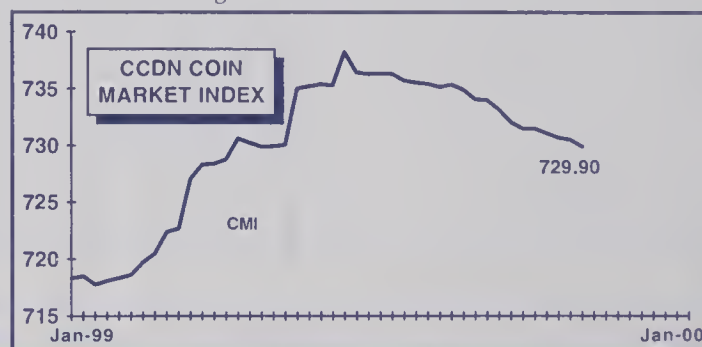

Some discounting is occurring in Silver Commemoratives. Select issues are displaying minus signs in MS64 thru MS67. Discounting is apparent among select Proof Singles, Mercury Dimes, and Walking Liberty Half Dollars as well. On the other hand, one again, plus signs are seen among the strong Gold Commem series.

Mint State and Proof Type are two areas that provide a good barometer for the current health of the sight-unseen market. Dealers have told us that many sophisticated and well-heeled customers are content to add Type rare coins to their portfolios. These buyers are interested in diversifying their holdings by buying several rare coins. Collecting or investing by Type allows an individual to hold several different denominations and designs without spending a fortune accumulating all the dates of a series. It also allows them to buy higher quality specimens. However, some discounting is taking place among Mint State and Proof Type.

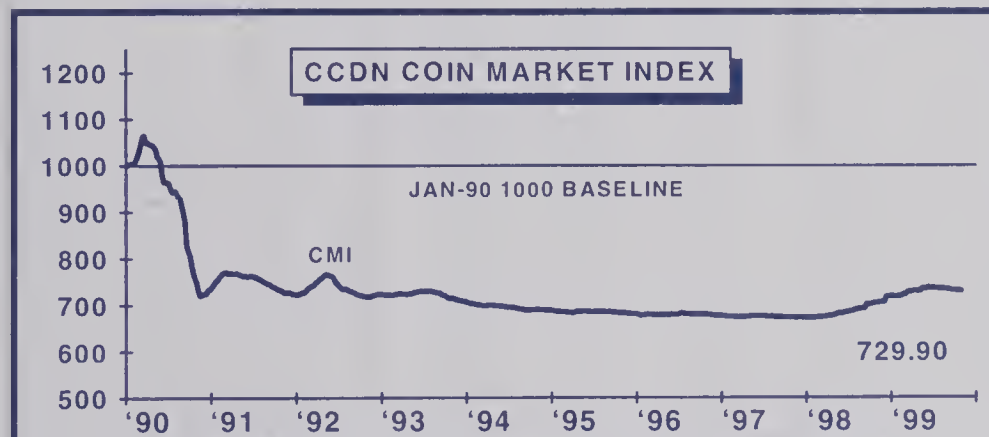

Gold Type is another good way to measure the state of the market. Of course, when the price of Gold bullion is volatile, as it has been, things can change rather quickly. As of this writing, Gold bullion has fallen below \$300 per ounce. A drop in Spot Gold usually affects common date Type 3 \$20 Liberty and \$20 Saint Gaudens. In this case, a few other denominations are decreasing while the \$20 issues are stable. The grades mostly declining include MS61, MS62, MS64 and MS66. Proof Gold Type is slightly lower as well. However, Proof Gold remains an important category for dealers. They have many financially secure customers looking to add Proof Gold to their portfolios. These savvy investors know that Proof Gold is an easy way to spend much money on only a few rare coins.

As you can see by the chart, a significant climb has taken place this year from 718.32 on January 1st, to a peak of 738.24 on June 11th. From this peak, a downward trend has continued, with our current figure at 729.90.

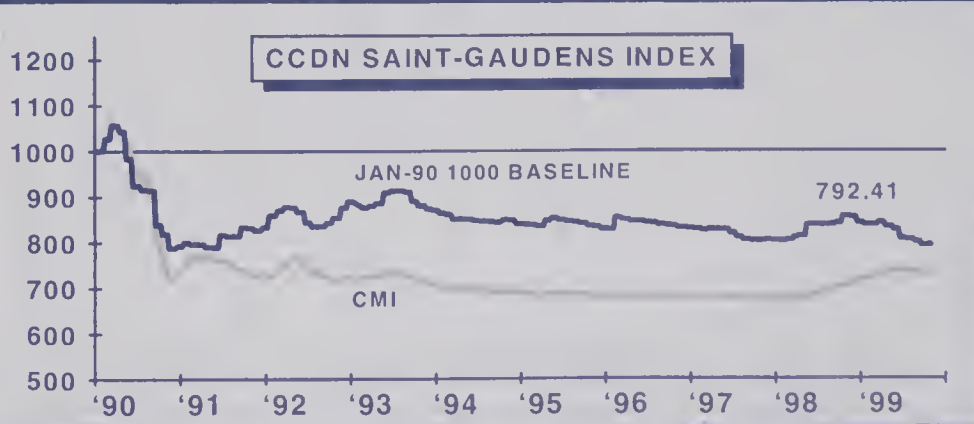

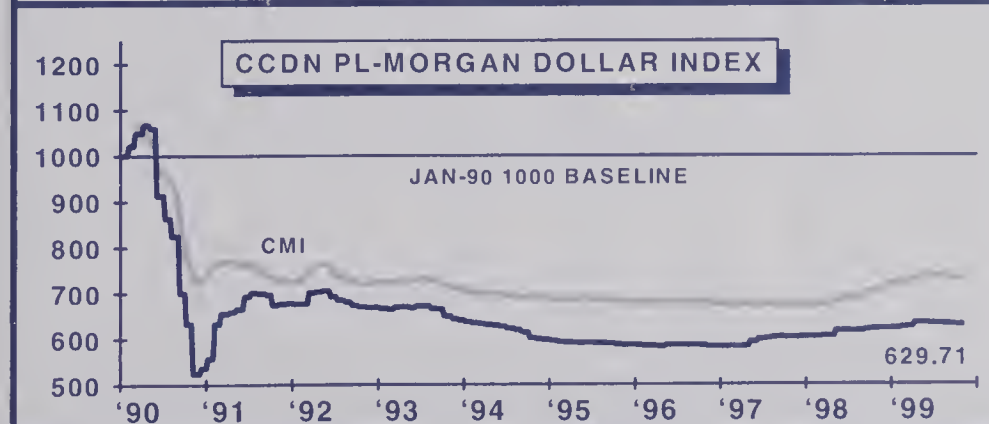

Many dealers will be heading to Baltimore for the Suburban Washington-Baltimore Coin & Currency Convention. The November 12-14 show usually attracts strong public and dealer attendance. An auction by Bowers and Merena, featuring the Lindesmith & LaRiviere collections, will be conducted in conjunction with the show. Some of the many highlights are listed.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers — are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.

Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MS66 Generic Morgans Jump GSA Dollars Command Strong Interest

The strong market for sight-unseen coins is evident by increased Bids this week. Dealers, however, have not been as aggressive with their Bids as we have seen earlier in the year. The recent drop in Gold Spot, to an extent, has taken some of the steam out of the Bidding for common date Gold. Still, the coin market is standing on solid ground with a slowly increasing collector base. The public has a greater awareness of rare coins as a result of today's highly efficient communications systems and computerized networks, which cultivate greater demand. Product is needed to satisfy this demand. Many dealers recognize the importance of positioning themselves to take advantage of this technological revolution.

Taking a look at some specifics in the sight-unseen market, we see that Silver Commemoratives are trading at current levels with many supporting Bids. Gold Commems continue to be solid. There is an increase in MS66 common date Morgan Dollars. Demand for Morgan Dollars is keeping most dates at current levels. However, there is a small amount of discounting taking place. Even though common date Peace Dollars are lower in MS66, we see a greater amount of interest in the Peace Dollar series this week. Dealers have many customers buying Proof Type, as reflected by the current higher Bids. Increases are noted among 3-Cent Nickels, Shield Nickels and Buffalo Nickels in PR65 and better grades. Mint State Buffalo Nickels are displaying several plus signs. Select dates are needed in MS64 and better.

Dealers are Bidding against one another for GSA Morgan Dollars as activity heats up in this specialized market. The General Services Administration Dollars have been extremely popular with collectors, and consequently, are a good item for dealers to have in their inventories. Mainly, the Carson City GSA Dollars are realizing very strong demand. There is also some demand taking place for New Orleans, Philadelphia and San Francisco Mint GSA Dollars that were issued in limited numbers. Common date Carson City GSA Dollars are trading in a rather narrow range, with the Bid separated from the Ask by just a few Dollars. We also see this narrow range occurring among some semi-key GSA Dollars. The market may be approaching an equilibrium.

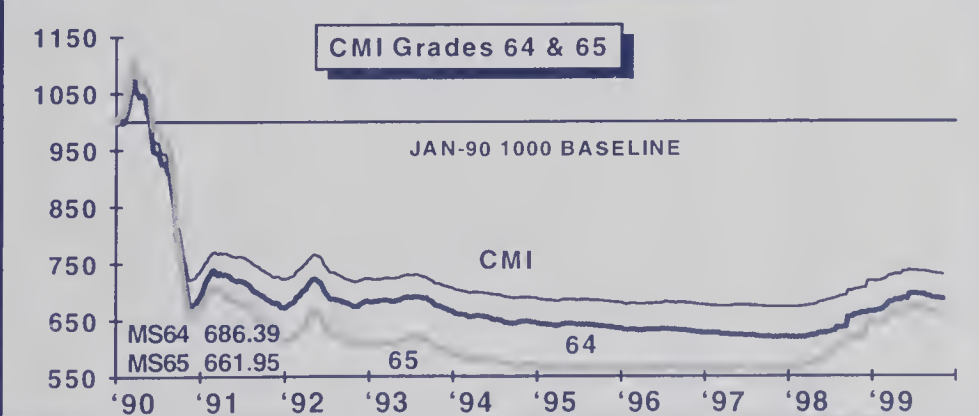

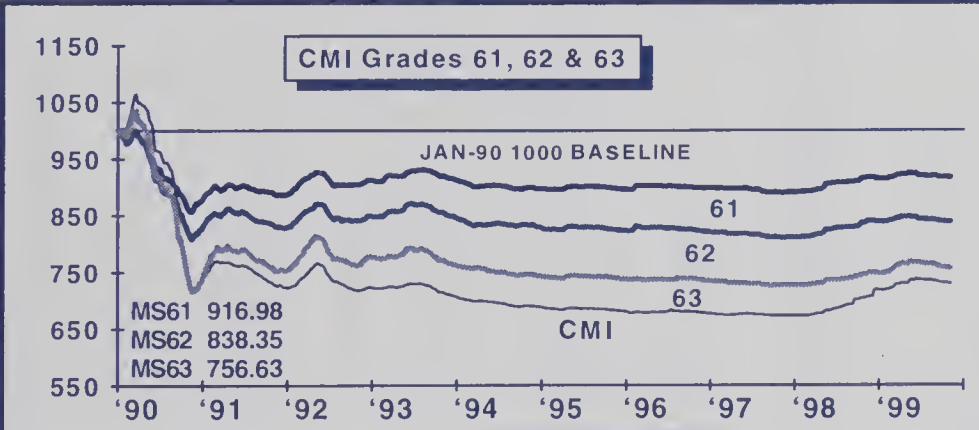

The 1882-CC attracts the strongest Bid among the common date trio 1882-CC, 1883-CC and 1884-CC. The 1884-CC seems to receive the lowest Bid of all Carson City GSA Dollars. These three dates are readily available and trade in quantity dealer-to-dealer. The semi-key dates among GSA Dollars are in stronger demand, including the 1878-CC, 1880-CC, 1881-CC and 1885-CC.

Many collectors are trying to acquire as many different CC GSA Dollars as they can comfortably afford. The Carson City Mint Morgan Dollar has been among the favorites of this very popular series. Collectors are fascinated with the history and the colorful time and place where Carson City Dollars were used to purchase goods and services. Also, many CC Morgan Dollars were struck in mintages considerably lower than other Morgan Dollar Mints. Of course there are exceptions, but we know Carson City Dollars were struck in limited quantities because the population of the area for which they were issued was comparatively sparse. We are monitoring exceptional demand for the key 1879-CC GSA Dollar. The 1879-CC Morgan is one of the most sought-after key Carson City dates as a regular issue. When found in a GSA holder, it is equally scarce and very desirable. Bid has increased to \$2,500. Even at this high Bid level, there are not many

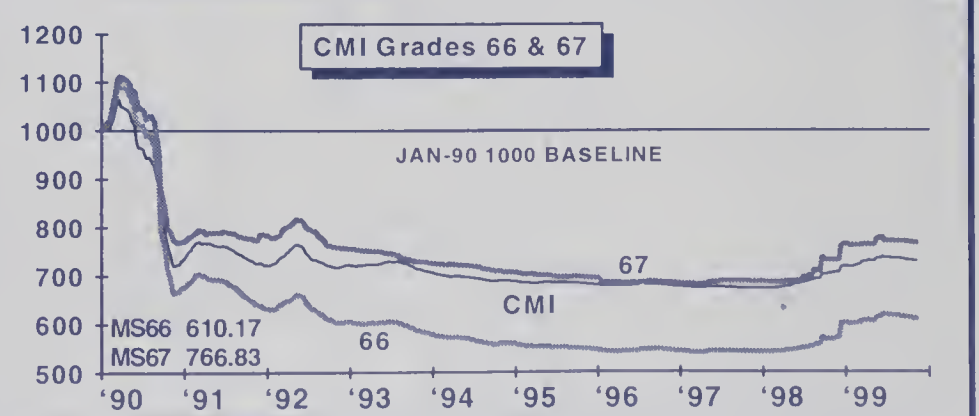

1879-CC's changing hands among dealers. The 1890-CC and the 1891-CC GSA Dollars are also realizing very strong demand. Our chart includes the CC GSA keys on dealers' customer want lists.

An approximately 1,200 lot auction in New York City realized more than \$2.5 million. The sale was conducted by Stack's and featured selections from the Robert Dombrowski and William R. Orwen collections. The two-day sale was held October 20-21. Bidding was active for rare date Copper, Silver and Gold.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

Early Washington Quarters Shine In '99 Moores Auction Produces Over \$3½ Million For Charity

The Suburban Washington-Baltimore Coins and Currency Convention is underway in Baltimore. This is usually a well-attended show, and the expectation for this year is a continuation of the same. The show has been well publicized in the Baltimore metropolitan and surrounding areas.

The market is doing very well, generally. However, those dealers who have participated in the Mint's bulk program are still reeling from the Mint's announcement to remove the public sales limits for the 1999-S 5- and 9-Coin Proof Sets and the 1999 Mint Set. As a result, the Bid has dropped sharply, back down to the current selling levels of the U.S. Mint. Only the 1999-S Silver Proof Set remains attractive due to its 2 set limit per household.

The sight-unseen market is relatively stable at current levels, though the past month or so has experienced discounting in several segments. There is now a greater number of supporting Bids on the electronic dealer networks. Such support is good for this market, which appears to be strengthening.

Among the popular Morgan and Peace Dollar series, common dates are enjoying this support in Uncirculated grades. Morgans appear solid at current levels for MS61 thru MS64. The MS66 and MS67 grade categories are also steady, but there is some continued weakness in the Gem MS65 category, where Morgans have declined to \$77 Bid for both PCGS and NGC examples. Earlier this year during the spring, these Dollars were trading at over \$90, sight-unseen.

We have seen a great deal of interest in better date coins throughout the year; Lincoln Cent better dates have had solid demand. Many collectors are actively working on Lincoln Cent collections. The need for the key dates has been evident month after month.

This week we examine the Washington Quarters portion of the *Bluesheet*. Demand has increased in this series ever since the Mint began its Circulating State Quarter series. The sight-seen markets for Washington Quarters and Brilliant Uncirculated Rolls have increased. *Sight-unseen* Bids for Washing-

ton Quarters are also very strong. Dealers are actively looking to buy Quarters. Demand is strong for both NGC and PCGS examples. Increases are appearing in many dates and grades. In our chart, we have a sampling of dates which have done well this year. A quick review of this chart should make it clear that Washington Quarters, in the sight-unseen market, have enjoyed a strong 1999.

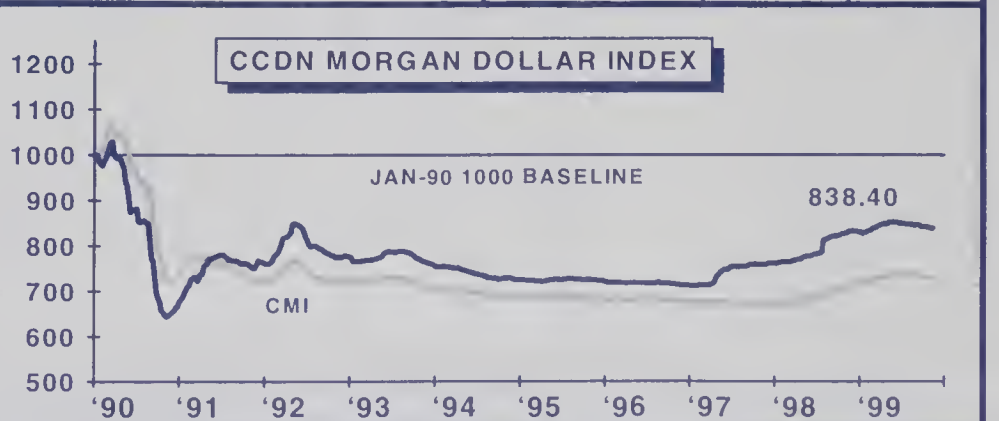

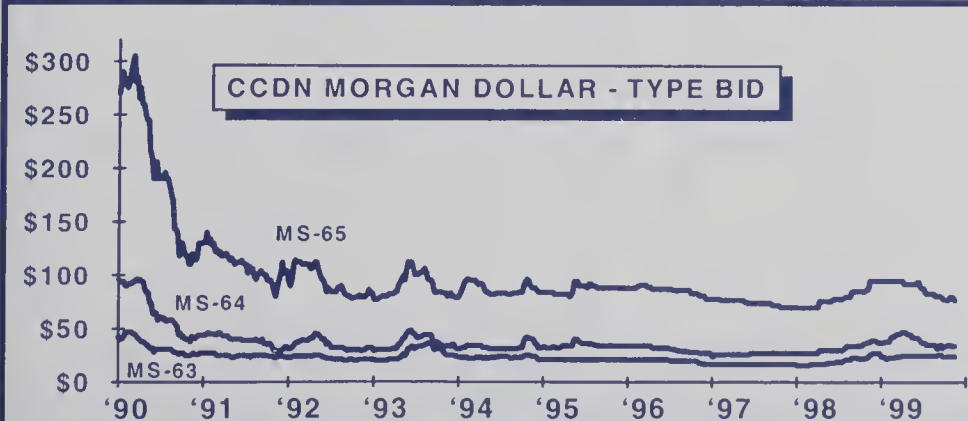

The John and Rebecca Moores collection of U.S. coins was sold by Sotheby's in New York, November 8-9. This sale took place to benefit the Institute for Childhood and Neglected Diseases at the Scripps Research Institute. Bidding was very strong with many dealers and serious collectors in attendance.

The sale realized \$3.894 million. Many high-grade, choice rare coins were offered, including several high-powered coins. The following are a few of the many certified highlights from that sale:

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The right choice for the remarkable Eagle Collection was NGC.

The Eagle Collection...
a nearly unprecedented
accomplishment
which
includes
some of
numismatics'
most desirable
rarities.

For consistent,
accurate and impartial
grading of the Eagle
Collection, the right choice
was NGC. For years,
NGC has been the
choice of more
collectors and
dealers than any
other grading
service.

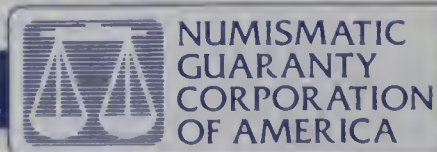

The more
choices you have
in grading services,
the more important it
becomes that you can
trust your choice.

That's NGC.

CCDN — a weekly report on the Sight-Unseen certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XIV No. 47

November 19, 1999

Single copy price \$4.00

Sight-Unseen Market Mixed Auction Realizes \$2.2 Million

The sight-unseen market had a brief slowdown in activity because many dealers were on the road to attend the Suburban Washington/Baltimore Coin & Currency Convention. The November 11-14 show was generally upbeat with public attendance most noticeable on Friday and Saturday. Since then, sight-unseen Bidding has been occurring near current levels. Dealers may still be on the road heading to Santa Clara, CA to attend the November 18-21 Santa Clara Expo. Dealers are still in need of material for their customers. The sight-unseen electronic networks provide an important avenue towards reaching this goal. Most dealers are very pleased to receive coins they consider average for the grade. Sometimes, they are pleasantly surprised to receive above average quality examples. Even lower-end coins are acceptable to those who are Bidding conservatively.

The sight-unseen market came to life this week, after the show, for NGC certified Morgan Dollars. We see increasing interest for Morgan Dollars in many Mint State grades. Plus signs are found all over the series. There is solid demand for MS63 and MS64 Dollars. Bids are inching higher for many dates that are slightly better than common dates in MS65 and MS66. Dealers say there are many collectors working on complete Dollar collections. Since the want lists are long, dealers are exploring all avenues in an attempt to satisfy this strong demand. The 1903-O is needed in all the Mint State grades. Plus signs are occurring this week for MS61, MS63, MS64 and MS66 examples. Carson City Mint Dollars continue to impress dealers. Demand for this colorful Mint is strong in all markets. The *sight-unseen* market for these Dollars is up for select dates. Plus signs are appearing for 1881-CC, 1885-CC, 1890-CC and 1891-CC NGC examples. However, we do note some persistent weakness in the common date MS65 Morgan Dollars. Many of these dates are readily available and are not as easily found on want lists.

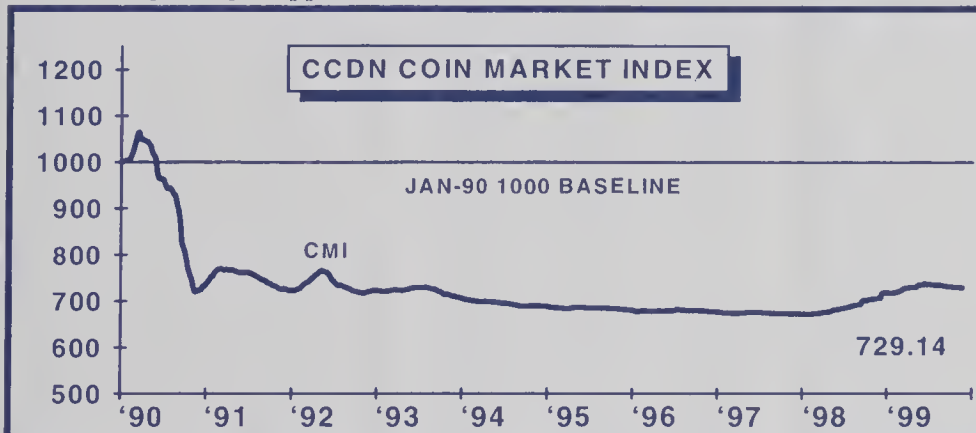

Weakness is seen among several late-date, MS65 Franklin Half Dollars. Decreases are occurring for dates 1960-D, 1961, 1961-D, 1962, 1962-D and 1963. It is widely known that these dates are more difficult to locate in Gem quality (though the population reports indicate that it may be easier than once thought). Also, strict grading is applied to Franklin Halves.

Select dates in the \$20 Saint-Gaudens series are declining, while some others are increasing. Generally, select MS66 and MS67 grades are affected with some minus signs. However, common date MS61, MS62, MS63 and MS65 Saints are displaying plus signs, though the increases are very slight. Standing Liberty Quarters are also displaying some weakness in the sight-unseen market. Bids are lower for MS64, MS65FH, MS66 and MS67 common date Quarters. Still, the series remains a popular one with collectors. Dealers are trying to find the scarcer dates for their customers. Mint State Gold Type is soft. Bids are declining for Gold Type in MS61 thru MS64. Most Gold denominations are affected in this decline. Also, there are declines among PCGS and NGC certified coins.

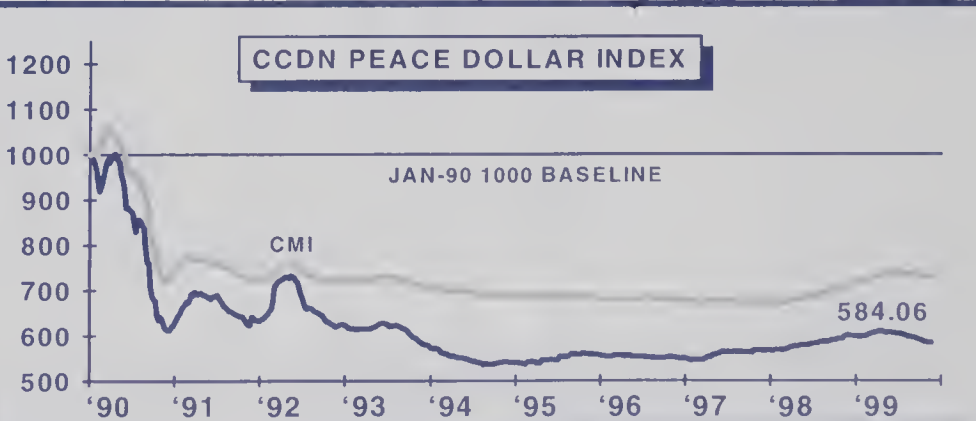

The market for Proof Sets and Uncirculated Mint Sets is active and steady. Sets are readily trading back and forth. We have seen a sharp decline in interest for the 1999 sets. Dealer demand all but disappeared after the U.S. Mint's announcement to remove limits to the public. We are only monitoring a few sell offers on the networks. Demand is still strong for the Early Proof Sets from 1936-1942. Dealers have customers for these Early Sets, and they are willing to support the current levels in their efforts to secure several. Silver Proof Sets continue to attract the attention of Bidders. The Bids are solid at current levels. Similarly, Prestige Proof Sets can command strong, supporting Bids. Early Mint Sets, beginning in 1947, are needed as well. Many Proof and Mint Set sight-unseen transactions are taking place.

Bowers and Merena held an auction in conjunction with the Baltimore Show on November 11-13. The sale realized more than \$2.2 million. It featured the Lindesmith & LaRiviere collections. Certified coins traded hands during this auction, and we have listed a few of the many highlights.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!

The customers of The King of Cash are having another record year! They are receiving funds from Spectrum Numismatics at a record rate, because they know The King of Cash needs more coins than ever for our ever-growing client base. Why are dealers, collectors, investors, and financial institutions coming to us at a record rate?

Same day funds—There's no waiting around with The King of Cash. You will receive immediate payment for your coins.

Numismatic expertise—The Spectrum staff has over 150 years of combined numismatic experience. No matter how specialized or diverse your holdings may be, Spectrum knows what your coins are worth.

Financial stability—Spectrum has unlimited funds available for purchasing rare coins. In fact, the largest transaction in the history of numismatics was purchased by Spectrum for cash.

The King of Cash buys it all—Our purchases this year have included coins for under \$4 and over \$1,000,000! No matter what your holdings include, Spectrum is interested. It makes no difference if your coins are certified or not. Your coins can be a collection, hoard, dealer inventory, investor lot, family estate, or any other type of property.

Here's what some of Spectrum's satisfied clients have to say:
This is just a note to say "thank you" for the prompt attention,

courteous service, and fair prices I received for the sale of my collection. Mr. Thad Olson is extremely knowledgeable, and I felt at ease and quite confident in dealing with him. His offer was more than 20% higher than I received elsewhere, which was both a pleasant surprise and a wonderful bonus for dealing with your company. I would certainly recommend Spectrum to my friends and associates without reservation.

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

I have done business with Spectrum for the past eight years and every transaction has been totally satisfactory. Whether it was my most recent sale (\$700) or the one in 1995 for over \$100,000 (remember that one?) everyone has been friendly, professional, and fair.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you to realize the most money for your coins. Give us an opportunity to serve you.

\$4 Stella Trades At \$100,000 — Sight-Unseen! Market Active As Dealers Need Material

The sight-unseen market is doing very well as we approach the final month of 1999. We have seen improvement in this market many times throughout the year, sometimes in the form of numerous plus signs, other times in the form of supporting Bids. The amount of activity taking place is improving.

The sight-unseen market has taken its share of heat. Many have been known to look down on this segment of the rare coin market. Others have been more bold, suggesting that it does not exist and should be eliminated from further discussion. Yet, many dealers are actively participating in the sight-unseen market via the Certified Coin Exchange as well as other electronic dealer networks. There is a large number of dealers who understand that it *does* provide a valuable service to the hobby. Dealers have been successfully participating and benefiting from sight-unseen trades.

One of the largest transactions ever to take place in the sight-unseen market occurred on November 22, on the CCE. The popular and famous \$4 1879 Flowing Hair "Stella," struck in Gold, changed hands sight-unseen for \$100,000. Amazingly, this certified \$4 Gold piece was bought for \$100,000 without the opportunity of seeing it first. When the Bid was hit, it became a done deal. There are no return privileges. The coin is certified Proof 66 by the Professional Coin Grading Service. The November 1999 PCGS Population Report lists only 19 examples to be given that lofty grade. Only one example received a higher grade of PR67.

New Jersey Dealer John Albanese was the buyer of the "Stella." He was very happy and excited about his acquisition. He said, "I was thrilled to buy it, and I need two more." Consequently, there is a new, higher sight-unseen Bid at \$102,000 for the elusive \$4 "Stella." Anybody who thinks the sight-unseen market is not necessary or does not provide an important vehicle for trading rare coins should think again. While most sight-unseen transactions fail to realize six figures, there are many taking place at three and four figures.

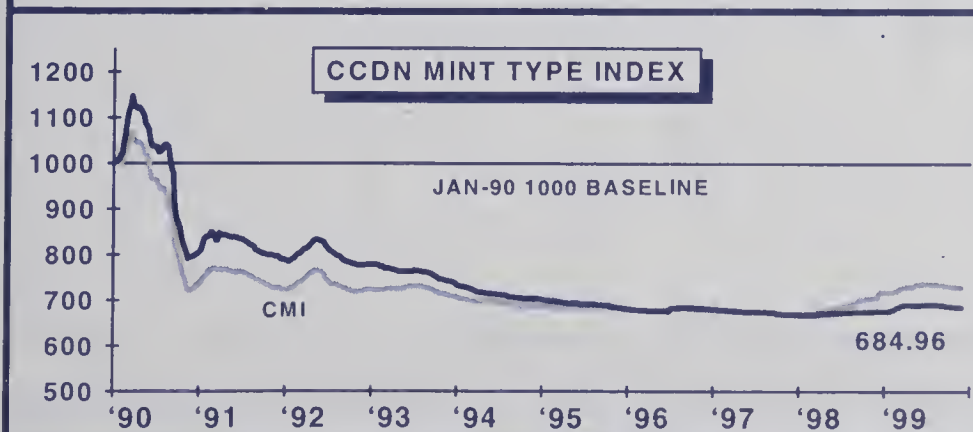

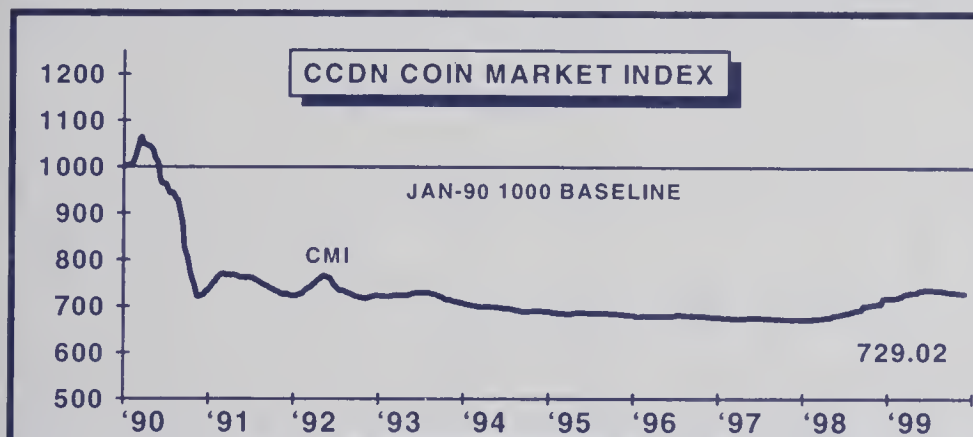

Gold "Stellas" are technically considered patterns. They were originally intended for international use. However, today, many collector/investors treat

the "Stellas" as regular issue coins. The unusual \$4 denomination and five-pointed star on the reverse has always attracted the attention of coin collectors — serious buyers only, as all \$4 Gold varieties are high-priced. All "Stellas" were struck as Proofs, but many 1879 Flowing Hair "Stellas" have been marred or impaired in one way or another. These are considered to be Circulated Proofs. Outstanding Proof 66 and better examples of the relatively common 1879 Flowing Hair are considerably scarce.

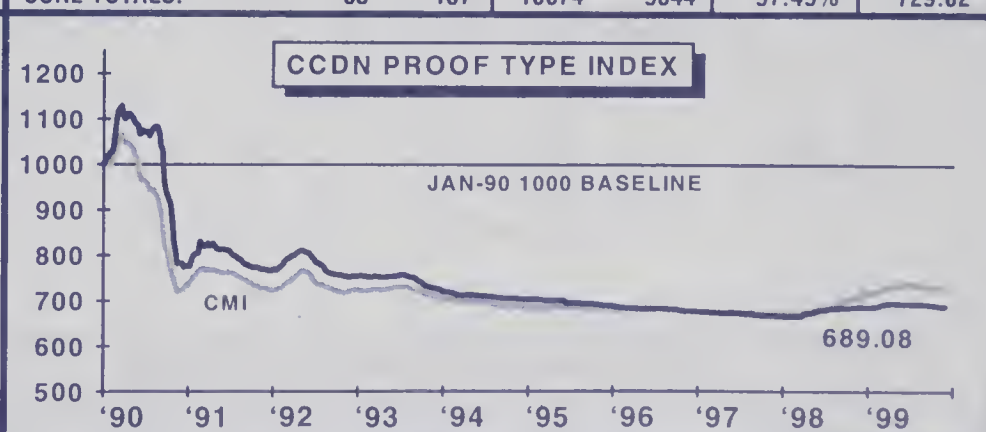

Morgan Dollars are active in sight-unseen trading. Common date MS66 Morgans are down to \$170 Bid. Slight weakness is also occurring among select MS65 and MS65 Deep Mirror Prooflike issues. However, there seems to be much support for many dates at current levels. In particular, the MS64 grade appears to be very popular with collectors. They believe these coins are affordable and attractively priced compared to higher grade examples. Therefore, plus signs are scattered throughout the series for NGC graded coins in MS64. There are also a number of plus signs among MS63 graded coins.

Silver and Gold Commemoratives are also actively trading in the sight-unseen market. A PCGS California Jubilee Half Dollar in MS66 changed hands at \$1,050. An NGC MS64 1915-S Panama-Pacific Exposition Half Dollar traded at \$585, and a PCGS MS66 \$2.50 Panama-Pacific Quarter Eagle became final at \$4,460. The Commem market has been attracting many Bidders at current levels, although there seems to be some discounting taking place in MS65 and MS66 grades. Proof Singles are also being hit by some discounting. PR67 Proof Single Dimes, Nickels and Halves are being targeted.

Type is doing fairly well. Dealers have many customers working on Type collections. Type has become a very popular way to collect for those on a budget or for those who want diversification in their portfolios. Bids are steady at current levels. Proof Type increases are seen among 3-Cent Nickels in PR65 and better condition.

The Certified Coin Dealer newsletter (the Bluesheet) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above Bluesheet Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin show and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy:** During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" - Trade appearing last month; "ot" - Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5+, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

HOW TO MAKE MONEY IN COINS RIGHT NOW

by SCOTT A. TRAVERS

"Don't go to a coin dealer without reading this book first."

— Hank Gilman, Business Editor, **NEWSWEEK**

"If making money by buying and selling coins is your game, Scott Travers' *How to Make Money in Coins Right Now* is a must-read. As an insider, he puts you on the playing field with the pros. Chapter by chapter, he reveals strategies for being a winner."

— Beth Deisher, Editor, **Coin World**

"The most valuable book ever written on how to profit from coins."

— Ed Reiter, Senior Editor, **COINage** magazine

"A revolutionary book."

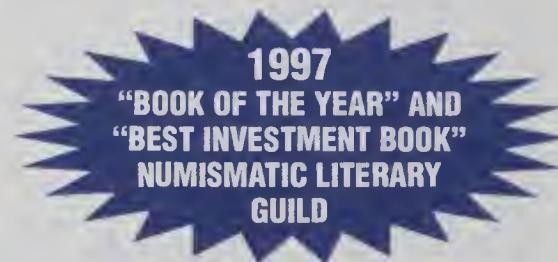

— Armen R. Vartian, Legal Counsel, **Professional Numismatists Guild**

"A no-holds barred examination of insider secrets that can be used for startling, quick profits. Stands alone as the most penetrating guide of its kind ever published."

— Maurice Rosen, **Rosen Numismatic Advisory**

Ultimate insider Scott Travers shows you the tricks of the trade with clear examples of how you, too, can outsmart the grading services. In 1950 Louis Eliasberg, Sr. purchased the 1873-CC No Arrows dime, the last coin that was missing from his renowned collection.

In 1999 NGC is proud the *unique* 1873-CC No Arrows dime is joining *our* collection.

In 1999, NGC is proud to announce the addition of the 1873-CC No Arrows dime to the remarkable collection of rarities that we've been chosen to grade in recent years.

While NGC grades over 50,000 coins per month, we are also trusted to grade more of the world's finest coins, in some months more than all other services combined.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

ANACS Certified Coins In Demand

GSA Dollars Super Strong

This week, the sight-unseen market perked up for several ANACS certified coins. Strong Bids have been offered for ANACS coins, sight-unseen for Mint State Type, Buffalo Nickels and Mercury Dimes. Mint State Type has been extremely popular throughout 1999 for NGC and PCGS coins. In all probability, the current values of ANACS coins represent an excellent value and opportunity for dealers. The same is true for select Buffalo Nickels and Mercury Dimes. Overall, we see many strong supporting Bids and quite a few Bids that represent increases from the previous level. Some of these increases are rather substantial. Mainly, dealers tell us that demand and sales have been very strong. Consequently, inventories have been depleted, and increasing the Bid may help replenish their inventories. Also, some dealers point to a quality increase in the ANACS product. They say that several of their customers and other Dealers are more willing to take an ANACS coin today. There is some weakness, however, with Mint State Type Gold ANACS coins.

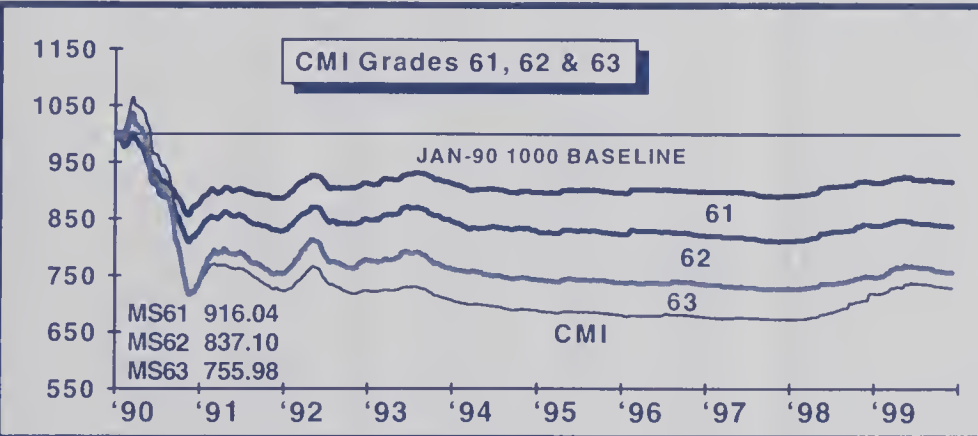

Among ANACS Mint State Type, demand is strong for Coronet and Braided Hair Large Cents in MS63 condition. Mostly, dealers are looking for Red examples. Flying Eagle Cents have always been a favorite among collectors. When it comes to collecting by Type, Flying Eagle Cents are near the top of the list of "must" coins. Increases are seen for MS63, MS64 and MS65 examples. In the MS65 category, the \$200 increase represents a better than 15 percent gain. Another must for the Type collector is the one year, first year Type 1859 Indian Head Cent. Bid increased for MS63 examples. Collectors consider the MS63 an attractive grade for this initial year of the Indian Cent series. Copper-Nickel Indian Head Cents increased in MS64. Here is a Type coin that is affordable and available in this near Gem condition. There is a short run of dates from 1860-64 that is prized by collectors for its Copper-Nickel composition. Increases are also noticeable among common date Bronze Indian Head Cents. Demand for Red examples forced the Bid higher in MS63 and MS65. Other Types increasing

include 2-Cent Pieces; MS63 and better 3-Cent Copper-Nickel Pieces; Type I Silver 3-Cent Pieces; Liberty Seated Half Dimes; Liberty Seated Dimes; Barber Dimes; and Standing Liberty Quarters.

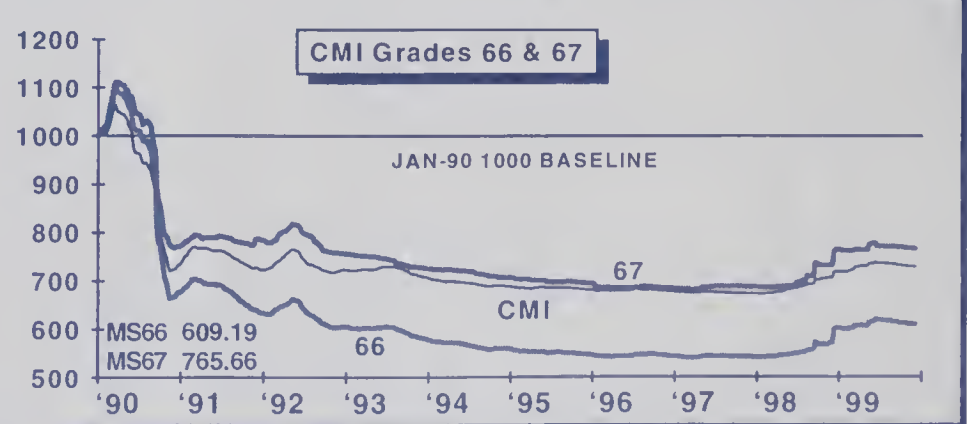

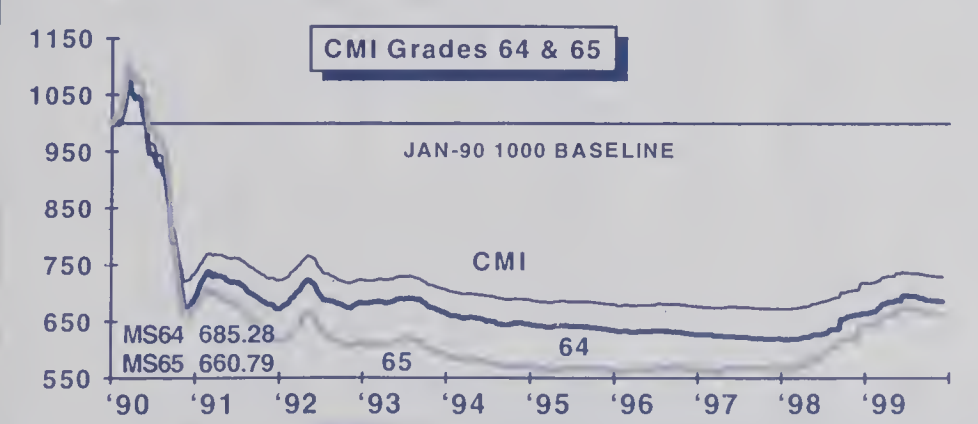

Increases are taking place within the Buffalo Nickel and Mercury Dime series for ANACS coins. Many plus signs are taking place throughout the Buffalo Nickel series in MS63 thru MS66. Demand is spread across the common as well as the key and semi-key dates. The Buffalo Nickel series is extremely popular with collectors. Many of these dates are affordable and available to the collector. Dealers have had their inventories depleted, but find a ready source of product via auction and by attending major shows around the country. Many of the early Denver and San Francisco Mint Buffalo Nickels are realizing very strong demand. These dates are needed by collectors, and dealers do not mind adding them to their inventories.

Increases are occurring within the Mercury Dime series. Demand is forcing increases for ANACS MS64FB and MS65FB Dimes. Several tough-to-locate semi-key dates are needed by dealers. In MS64FB, the 1917-D; 1919-D; 1919-S; 1920-D; 1920-S; and 1923-S are at the top of their list. Dealers have customers working on Mercury Dime sets, and these coins are elusive at this grade level. We also see dealers increasing the Bid for coins that grade MS64 and MS65 without the Full Bands.

Surprise! General Services Administration Morgan Dollars are still realizing very strong dealer demand. Increases are taking place throughout this short collectable area of numismatics. Dealers continue to battle one another to be the high Bidder for GSA Dollars. The common Carson City dates are in demand, as are the rarities. The 1879-CC is now above the \$2,600 level, and even at this level, dealers are having a tough time acquiring the examples they need. Common dates are Bid as high as \$80. The 1890-CC and 1891-CC continue their climb. The only GSA CC Dollar not increasing is the 1885-CC, which remained unchanged.

THE MOST MONEY THE LEAST HASSLE

If you have coins to sell, it's time to call SPECTRUM!
Dealing with SPECTRUM means more money and
less hassle for you, and here's why:

SEE US AT ALL
Major Shows

The clients of *The King of Cash* are having another record year! Our needs are so diverse and our buying interests are so extensive that we've purchased single coins for under \$4 and for over \$1,000,000. Why are customers bringing us coins in record numbers? Because they know they're dealing with world-class rare coin experts with unlimited financial resources. Because they know they'll be treated fairly and courteously. Because they know we have other customers waiting for their coins in all ranges of the price spectrum. Because they know they'll always receive same-day payment. Collectors, investors, dealers, and financial institutions alike know the *Spectrum* secret, and now so do you. If you're interested in selling some or all of your rare coin holdings, why would you want to go anywhere else?

The principal buyers at Spectrum have over 150 years of combined numismatic experience. Included in our recent purchases is the Wells Fargo® Nevada Gold hoard, which was the largest financial transaction in the history of numismatics. Our buyers are seasoned veterans in all areas of numismatics, and they know what your coins are worth. Is your collection a specialized selection of 18th century rarities? A large holding of modern proof coins? An estate that was left to you by a loved one? An accumulation that has been in the family for years? A dealer inventory? Rare coin properties come in hundreds of different forms, and *Spectrum* is interested in purchasing them all!

Dealing with *Spectrum* is always as fast, confidential and convenient as you need it to be. We can travel to see you, meet you at our offices, or make an appointment with you for the next coin show in your area. We can also do the entire transaction by mail, as we do hundreds of times each year.

Here's what one of our many satisfied customers had to say recently about selling coins to *Spectrum*:

I was very pleased with your offer. I also appreciated being spared the "critical analysis" most dealers feel they must go through before making an offer. I'm just sorry I didn't try your firm long ago. I'm convinced after my first sale to you that Spectrum is the place to go if you want honesty and fair dealing.

Spectrum has a commitment to customer satisfaction that is unsurpassed in the rare coin industry. Let us help you realize the most money for your coins. Give us an opportunity to serve you.

The PCI Capsule...

✓ \$8⁰⁰ PER COIN

✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.

☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.

☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).

☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.

☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!

Gold Commems Hot, Silver Commems Not Common Date Dollars Slip

Morgan Dollars have been quite active during recent weeks. This is especially true for the common dates in the Mint State category. We have seen decreases occurring in MS64 and MS65 in the sight-unseen market. This week, the pattern is continuing. These declines are small on a percentage basis, but they seem to be occurring with greater frequency. Bid for an MS65 Morgan has sunk to \$71, while MS64 has dropped to \$32. At these levels, some dealers are beginning to see them as attractive opportunities. Many dealers consider common date Morgan Dollars in these grades to be an excellent beginning for a new collector. The Dollar design is popular, and the common date acquisition may lead to the greater challenge of building a complete set. The weakness taking place in the MS64 and MS65 grades is affecting the higher grades as well. Common date Dollars above MS65 are also under pressure. Supporting Bids for MS66 and MS67 examples are not as prevalent as we have seen earlier in the year. The soft demand for these coins is also affecting the Bid for sight-unseen Prooflike Morgans.

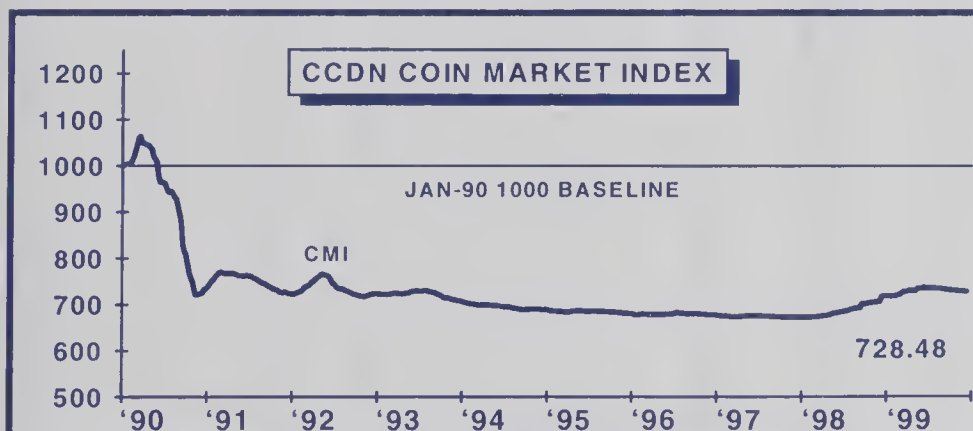

Prooflike Morgans are those coins that possess Prooflike surfaces, but not quite deep enough to be considered a Deep Mirror Prooflike Dollar. The DMPL's attract a much greater demand than the Prooflike specimens. The price of the DMPL is also considerably more than its Prooflike counterpart. The past few weeks have seen demand decrease along with Bid for common date Prooflike Morgan Dollars. Consequently, minus signs are occurring for MS64PL and MS65PL examples in our chart this week. However, there is some interest and plus signs for select MS63PL common dates. Bid has increased to \$28 for PCGS and NGC examples. Among PL Morgans, strong supporting Bids are evident for many Carson City dates. The Carson City Morgans have been strong all year, and we see this continuing in December. In one example, an NGC MS65PL 1885-CC jumped to \$600 Bid, sight-unseen.

Early Gold has been relatively quiet in the sight-unseen market. However, interest has been evident among Early \$10 Pieces. Increases are seen in

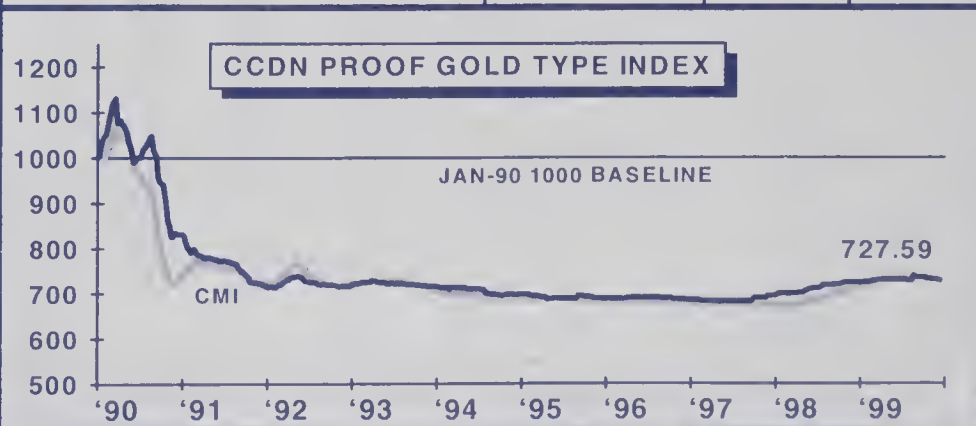

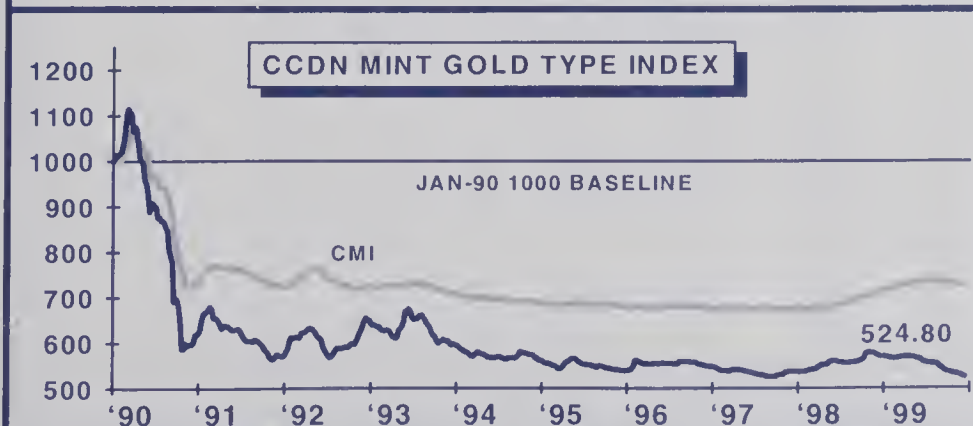

grades AU58, MS60 and MS61 for \$10 Draped Bust Eagles. Early Gold has been under some pressure during a portion of 1999 as many large, big name collections of Early Gold have hit the market via public auction. Dealers were somewhat concerned for the short run, but many remain optimistic for the long run. There are indications that much of this supply has been absorbed, and strength in this market sector is returning. The AU58 grade seems to be very popular. Collectors may enjoy the beauty of a **high-grade** Circulated coin over an Uncirculated, low-grade specimen. Dealers are often looking to buy Early Gold graded AU58, knowing they have many customers interested at this level.

Some Gold Type is down, reflecting the weakness of Gold bullion. It is especially noticeable among Double Eagles. Proof Gold is mixed. Weakness is seen in select dates and denominations. However, demand for 1879 \$4 Flowing Hair Stellas is still strong this week; plus signs continue as dealers Bid for this popular, expensive and elusive Gold denomination. The Bid for Stellas is higher in PR61 thru PR65. This is a continuation of the strength that was evident in November, when two Stellas traded, sight-unseen, at and above the \$100,000 level. Both were PCGS PR66 examples. Is this unusual? Yes. Transactions at the six-figure level are certainly few and far between for the sight-unseen market. Yet, such transactions do point out the need and importance of sight-unseen trading in the overall rare coin market.

The Silver and Gold Commemorative market has been active. Supporting Bids are plentiful among Silver Commems, but there are also several being discounted in MS64 and better condition. The apparent excess supply will have to be absorbed before we see this area move up again. Gold Commems are realizing strong support and demand. Plus signs are occurring, predominately for PCGS graded coins. Increases are noticeable for the 1922 Grant Memorial Dollar and Grant Memorial with Star in MS64 and better grades. Demand is also strong in similar grades for the 1904 Lewis and Clark Exposition Dollar.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Selected Rarities from...

Jay Parrino's The Mint, LLC

Elusive 1911-S Half Eagle

NGC MS-65

An original brilliant gem. Incredible rich luster and a strike that is nothing short of superb. An important date in this, the toughest 20th century gold series. \$35,000

The Steven Ducor 1913-S Half Eagle

PCGS MS-65

An important key to the Indian Half Eagle series. Spectacular gem called "The finest I have ever seen", by renowned specialist David Akers. A totally awesome gold coin. \$135,000

Super Gem 1914-D Half Eagle

PCGS MS-66

A "special" coin. Blazing, fiery golden, vibrant luster that will turn the head of even the fussiest of collectors. A "10" on the eye appeal scale. \$37,500

Finest Known 1803 Eagle

PCGS MS-65

A visual delight. A frosty gem example of this rare date. A marvelous example of this design type. \$225,000

Finest Known 1804 Eagle

NGC MS-63

From the John J. Pittman collection where it realized a staggering \$82,500. One look will tell you why. Bright, fresh, and totally original. \$87,500

Stellar 1870-CC Eagle

PCGS EF-45

From the Harry Bass Collection. Here is the "Key" to the \$10 Carson City Set. Perfect for the grade. \$39,500

Outstanding 1878-CC Eagle

PCGS AU-50

An exceptional example sporting nice fields, bold strike and super eye appeal. Ex: Harry Bass Sale. \$39,500

Beautiful 1884-CC Eagle

PCGS AU-55

Here is one of the finest examples of this important Carson City Eagle. Free of any significant marks. Nice. \$6,750

Finest Known 1908-D NM Eagle

PCGS MS-66

A major rarity in this lofty condition. The finer of only two graded. Blinding, original super gem. WOW! P.O.R.

Staggering 1909-D Eagle

PCGS MS-66

100% original. Even though there is a higher graded example, it doesn't hold a candle to this blinding, virtually perfect gem. Unbelievable. P.O.R.

Finest Known 1915-S Eagle

PCGS MS-66

This coin has it all. Original mint color, brilliant surfaces, and a razor sharp strike. Virtually never offered. \$95,000

Wonderful Gem 1929 St. Gaudens

PCGS MS-65

A totally original gem example of this rare late date. One of the finest surviving specimens. Satin surfaces, a full strike, and an A+ on the eye appeal scale. An unmolested gem that will certainly find its way in a world class Saint-Gaudens collection. A masterpiece of condition and rarity. \$29,500

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes.
Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Now you can learn a lesson about the new coin market.

Without losing a mint.

The Coin Collector's Survival Manual – Revised Third Edition by Scott A. Travers

BEFORE YOU MAKE YOUR NEXT COIN PURCHASE, TAKE A COMPLETE COURSE IN COIN BUYING AND SELLING FOR AS LITTLE AS \$14.95.

"This is the book about the coin business you can't afford to be without." -Hank Gilman, business editor, **NEWSWEEK**

"One of the most important coin books ever written." - *The New York Times*

"Should be read before a single coin is bought - and read again and again!" - *Coin World*

UNPRECEDENTED FIVE-TIME NUMISMATIC LITERARY GUILD AWARD WINNER

Traditionally, learning a lesson in the rare coin market has been very expensive. You would buy a coin for \$500, find out later that it was worth only \$50, and, thus, you would have to pay \$450 to learn just one lesson. But now, thanks to the revised third edition of *The Coin Collector's Survival Manual*, by Scott A. Travers, you no longer have to pay a fortune to learn about how to buy and sell coins profitably.

This thoroughly revised edition examines the coin field from an insider's perspective and continues to

break new ground in revealing the ins and outs of coin collecting and investing. Excellent photographs and detailed charts amplify the encyclopedic, clearly written, meticulously organized text. You'll learn about the following:

- How to look at coins the way the professionals do
- How to determine what a coin is worth and what grade the leading certification services would assign to it
- How to spot slight friction on otherwise "Gem" coins
- How to tell the difference between proof and prooflike
- How lighting affects appearance
- Altered and counterfeit detection techniques
- How to judge price guide accuracy
- Selecting and testing a coin dealer
- How not to get ripped off if you buy coins through the mail
- Profitable - and not-so-profitable - liquidation techniques
- How to buy and sell at conventions like the pros do
- How to spot a cleaned and artificially toned coin
- How to choose a non-destructive coin holder and the storage method right for you.

SPECIAL SECTIONS ON:

- Doctored coins, how to detect them, and the case of the doctored hoard of gold rarities that got slabbed
- The real truth about slab services and "fixed grading standard" claims
- Premium quality coins (then and now)
- Startling revelations from a leading coin trader
- A grading service founder's bombshell admission of modified standards
- The newest tax laws

NEW information in the revised edition covers:

- Cool coin internet web sites
- Requirements of the new FTC telemarketing act
- The real facts behind the toning corrosion controversy

and much, much more!

Order your copy of *The Coin Collector's Survival Manual - Third Edition*. 220 pages, dozens of sharp illustrations. For the price of \$14.95, you can make a mint.

SCOTT A. TRAVERS ranks as one of the most powerful and influential coin dealers in the world. His name is familiar to readers everywhere as the author of five award-winning books on coins: *How to Make Money in Coins Right Now*, *The Coin Collector's Survival Manual*, *One-Minute Coin Expert*, *Travers Rare Coin Investment Strategy*, and *The Investor's Guide to Coin Trading*. His investment guide, *Scott Travers' Top 88 Coins Over \$100*, has been called "the most important list of coin recommendations ever written" by *COINage* magazine. His widely distributed Random House price guide, *The Insider's Guide to U.S. Coin Values*, is updated annually. He is a contributing editor to *COINage* magazine and a contributor to other numismatic periodicals. Mr. Travers is editor of PCGS's landmark work *The Official Guide to Coin Grading and Counterfeit Detection*. His expert opinions have been sought by *Barron's*, *Business Week*, *The Wall Street Journal*, and the Federal Trade Commission. A frequent guest on television and radio talk shows and the host of how-to coin videos, Mr. Travers has gained an impressive reputation not only as a coin expert but also as a forceful consumer advocate for the coin buying public. He is president of Scott Travers Rare Coin Galleries, Inc. in New York City and gives seminars on coins around the country.

There is a reason why NGC is the world's leading certification company.

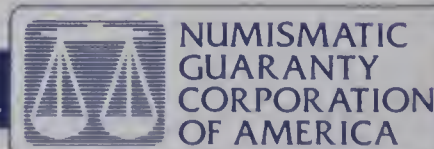

- ♦ NGC has more expert graders (7) and the world's top finalizing team (Mark Salzberg, John Maben). All of which helps us get the grade right the first time.
- ♦ NGC is known for its long-standing commitment to integrity, consistency and accuracy, which in some months rewards us with more coin submissions than all other grading services combined.
- ♦ NGC is trusted to grade virtually all of the the world's greatest rarities, most recently the Amazonian set, the 1873-CC No Arrows dime and the finest known 1799/8 Draped Bust Large Cent.
- ♦ NGC is the Official Grading Service of the American Numismatic Association.

NGC is committed to proving we deserve your trust and business every day and with every one of the 50,000-plus coins we receive each month. The more choices you have in grading services, the more important it becomes that you can trust your choice for top expertise and proven performance.

That's NGC.

Happy Holidays — Final Issue Of The Century Dealers Prepare For FUN Show

This is the last issue for 1999. Your next issue will be dated January 7, 2000. We would like to take this opportunity to wish all of our subscribers a safe and most joyous holiday season.

This year's sight-unseen market has been a roller coaster ride. In more economic terms, many of our indexes have reflected the famous bell curve pattern. Even the overall CCDN Coin Market Index closely resembles this classic curve. Beginning the year at 718.32, the market seemed to gain strength right out of the gate. During the summer months and mid-year June 11 date, several areas of the market reached a high point, with our CMI peaking at 738.24 (a high last reached in July 1992, at 741.93). Since this year's peak, many areas have fallen back near their earlier levels to close out the year and the century, with an overall CMI of 727.66.

Silver Commemoratives, Mint State Type, Proof Type, Mercury Dimes and Proof Singles finished the year with the bell curve shape index. Despite the small overall change from the beginning of the year to the end, activity was taking place both up and down. There were some segments of the sight-unseen market that deviated from this overall pattern. Gold Commems seemed to gain strength as the year progressed. They finished just short of their high for the year. Morgan Dollars were very active throughout the year. They finished with a gain, although they are down from their previous high levels seen in mid-year. This high for 1999, at 852.26, seen May 28th, has not been achieved since August 10th, 1990, when it hit 854.11. Peace Dollars are in the minus as this year closes. Mint State Gold suffered the most throughout 1999, and its lower index reflects this weakness, lower by more than 45 points from January. Proof Gold Type was stronger for the year, although it is trading off earlier highs. Buffalo Nickels increased in 1999, while Walking Liberty Half Dollars had a slight decline. Matte Proof coins and their index have gone through the roof, setting a new record all-time high of 1161.17, August 13, 1999.

Generally, the sight-unseen market has seen a slowdown in mid-December. Common date Saints are down for this period. This is especially true for those in most of the Uncirculated grades from MS61 thru MS67. Still, these declines were relatively slight. The Philadelphia dates from 1922 thru 1928 are now finding stability at current levels with

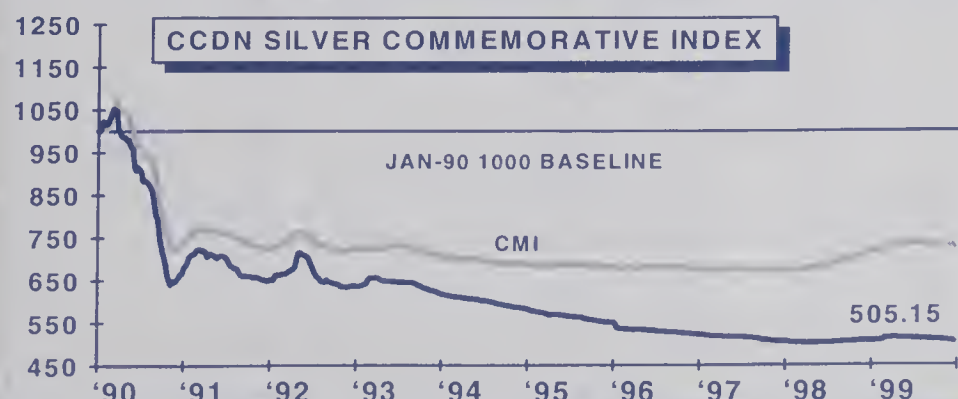

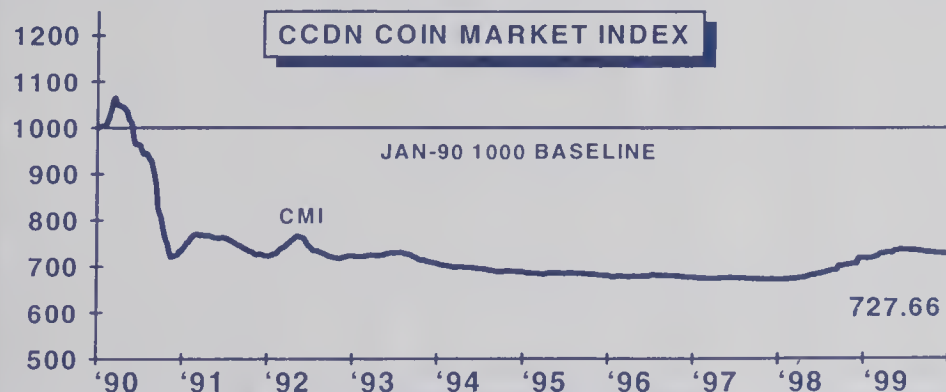

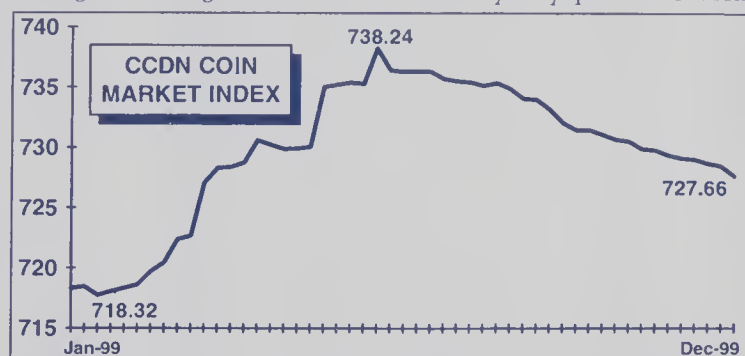

supporting Bids occurring frequently. We know there are still financially secure individuals willing and able to add some of these coins to their portfolios. They see the current prices representing an excellent value and opportunity. The high-priced key dates were mixed. We did see some discounting occurring for several dates including the 1908 No Motto, 1920-S, 1925-S and 1929. Strong demand was evident for the 1908-S and 1907 High Reliefs. One dealer continues to offer a sight-unseen Bid of \$77,000 for a PCGS MS67 1907 High Relief.

There appears to be more action taking place among Franklin Half Dollars. This series is usually very quiet. This week there are a few plus signs appearing. We also notice many more supporting Bids taking place. We have seen several dates in this series being discounted earlier this year. Some dealers believe these declines have made select dates a very attractive value. The Franklin Half Dollar series is a popular one with collectors because of its affordability and ease of completion. However, those who want a complete set of business strike Franklins in MS66 and better condition are in for a surprise; the cost takes a giant leap from the MS65 price. It is an extreme challenge to collectors trying to find select dates of the series in MS66 or better.

While dealers take a respite during the holidays, the market will be in full swing following the New Year's celebration. Many dealers will be heading to Orlando, Florida for the Florida United Numismatists convention and public auction. The FUN Show will be held January 5-9 amid high expectations. This show is viewed as one of the major shows held each year. The activity at this show may point to the road the market takes in 2000.

First, the Rarities Sale will kick off the new year as Bowers and Mercna conduct the January 4 auction in Orlando. We have listed a few of the many certified highlights from that sale.

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDN may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDN uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDN does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

In 1950 Louis Eliasberg, Sr. purchased the 1873-CC No Arrows dime, the last coin that was missing from his renowned collection.

In 1999 NGC is proud the *unique* 1873-CC No Arrows dime is joining *our* collection.

In 1999, NGC is proud to announce the addition of the 1873-CC No Arrows dime to the remarkable collection of rarities that we've been chosen to grade in recent years.

While NGC grades over 50,000 coins per month, we are also trusted to grade more of the world's finest coins, in some months more than all other services combined.

The more choices you have in grading services, the more important it becomes that you can trust your choice.

That's NGC.

The PCI Capsule...

- ✓ \$8⁰⁰ PER COIN
- ✓ 6-DAY SERVICE

*Tells why more people
are turning to* **PCI**

- ☐ PCI accepts direct submittals from the general public, collectors and dealers. There are no minimum or maximum submittal requirements.
- ☐ PCI recognizes that all coins are not "generic". We grade, authenticate, verify and list attributes for errors and varieties such as 5, 5 +, & 6 steps for Jefferson nickels, **DM** (deep mirror), **DMPL** (deep mirror proof like) for Morgan dollars, and we apply our exclusive attribute **PQ** (premium quality) to those coins that qualify.
- ☐ PCI provides our original "Red Label" capsule for "problem" coins, and assigns the grade right on the label (exceptions are: altered, counterfeits, etc.).
- ☐ PCI offers the most affordable rates of any "third party grading service" - and we provide the fastest turnaround time of any grading service... for the applicable fee of \$8⁰⁰ per coin, plus postage and insurance.
- ☐ PCI excels at providing the highest quality customer service. We will go the extra mile to meet the needs of our customer, and our service is backed by our guarantees!
- ☐ As a special bonus - PCI provides a **FREE** storage box when twenty (20) coins are submitted. (\$5 charge for storage box orders containing less than 20.)

After our 10th year of new and innovative ideas and technology in setting the pace for 3rd party grading, we at PCI have come to rely upon business practices that you can consistently count on. Your coins will be accepted, authenticated, and graded at the lowest rate and the fastest turnaround time of any service...guaranteed!!
